FRENCH ANGLOPHOBES

The New Ministry Composed of Diplomats Unfriendly to Britain.

THE ANGLO-BELGIAN TREATY

Lord Rosebery's Ministry Firm in the Policy to be Pursued With Regard to Uganda—The Evicted Tenants Bill and the Budget.

LONDON, June 4.—The new French cabinet just constructed is pre-eminently an Anglophobe cabinet. M. Dupuy, when Prime Minister before, made no secret of his hostility to England. M. Casimir Perier was perhaps even less friendly, and as Foreign Minister missed few opportunities of being disagreeable. He is succeeded by M. Hanotaux, of the Foreign Office, who is believed in England to have been more actively concerned than any other of the French Foreign Office people in the ceaseless intrigues against Albion, of which the Quai d'Orsay is the centre. He will now have a still fuller scope for his malevolence. Next to importance to the Foreign Minister for purposes of disturbance abroad is the Colonial Minister, and the new Colonial Minister is M. Delcasse, the leader of the anti-English party in France, and the most violent of them all. It is in colonial matters that France and England come most frequently into collision, and it may safely be assumed that under M. Delcasse's lead the collisions will be more frequent than ever. The Minister of Finance is M. Poincarre, who seems to have been selected because he published a few days ago a bitter diatribe against England, apropos of the question just now at issue between England and France. There is in France no road to popularity and power so sure and direct as known hostility to Great Britain. General Mercier remains Minister of War—another notorious Anglophobe. It might be difficult to find a distinguished French soldier who is not.

Here therefore are the five leading members of the new Ministry, the Prime Minister included, all of them remarkable and remarked for their enmity to England. They take office at a moment when a fresh subject of suspicion and jealousy has been provided in the Anglo-Belgian convention. There has been an explosion of French wrath against that agreement. The French are furious because they have been forestalled.

The last act of the Casimir-Perier was to send round a circular to European capitals protesting against the convention between England and Belgium. The French press started out on a campaign of their own, the best journals of Paris at the head of it. There are in foreign affairs hardly any Paris papers better or worse than the rest. They are all Chauvinist. They are furious because there is a concession to Italy and they hate Italy rather more bitterly than England. They are furious because Belgium leases to England a district on the lakes. The concession to Italy is in the extreme east. That to England is hundreds of miles from the nearest French frontier.

England does undoubtedly gain a right of way through Central Africa. The continent is cut in two, cry the French, and the English have gained a diplomatic triumph. Both statements, though hysterical in form, are true in substance. It is probably a considerable diplomatic success. It was a very difficult one, and it is regarded with pride at the English Foreign Office.

Germany thinks it so important that she joins in the French protest. It is, however, so far as the merits of the question go, a bureaucratic protest based on technical grounds. It is also a German habit to encourage dissension between England and France.

The whole subject was debated in Parliament though not very fully on Monday, and again on Friday night, in connection with Uganda. There is no lack of firmness or clearness on the part of the Ministry. They have put their foot down in Uganda, and no radical remonstrances will induce them to take it up again. The protectorate is a fact. The sphere of British influence is another fact on which Lord Rosebery laid stress. Again did the Prime Minister express his accord with Lord Salisbury on this matter. They may be said to have worked on the same lines. The effect of this firmness and courage was seen in the vote in the House of Commons, when the Radicals could muster but 52 votes against 318. This also may supply the French with a new grievance.

What Is the Programme?

The Government having now obtained, by a majority of seventeen only, the whole time of the House of Commons, the question is what will they do with it. Sir William Harcourt, though pressed, declined to say. "Pass my budget and then you shall know," was his answer to all comers. Mr. McCarthy told his supporters on Thursday that no matter what sacrifices might be necessary, the Government was resolved to pass the Irish evicted tenants bill through the House of Commons before this present session ended. This is a very important statement. It presents the immediate political future in a new light. It is a most instructive commentary on Lord Rosebery's speech at Birmingham last week. It now seems probable that an agreement has already been concluded. The McCarthyites felt themselves under the necessity of meeting the Parnellite campaign in Ireland with some definite assurance.

The Budget.

The budget has been hotly debated during the past week, the Conservatives insisting on discussion though not always on divisions. If this finance bill becomes law in its present shape, it may have one very unexpected effect. It may restore to America, Mr. William Waldorf Astor. It contains a provision by which the death duty may be levied not merely on the property possessed by a foreigner in this country, but upon his whole property wherever situated. The doctrine of domicile is to be applied as it was never applied before.

Disorderly Demonstration in Rome.

ROME, June 4.—Many anarchists were arrested here to prevent their raising disturbances during the day's demonstrations in honor of Garibaldi. The military review was a great success and the sovereigns were greeted with acclamations. During the celebration at the capitol some cheers were raised for De Felice, the imprisoned Socialist deputy. A crowd of students who sought to disturb the proceedings in the Chamber was dispersed by carbineers and police after an exciting scuffle. Several students were arrested. In the evening the streets were filled with orderly crowds witnessing the display of fireworks. Much excitement prevails in political circles.

GHASTLY FAMILY TRAGEDY.

A German Father Makes Away With His Children, Wife and Self.

BERLIN, June 4.—Carl Seiger, formerly a man of wealth and position, engaged in the printing business, met with reverses which caused the loss of his entire fortune. Seiger and his wife became despondent and believed that they and their children were on the verge of starvation. They resolved that all should die. The couple administered poison to their sons Rudolph, aged 19, and Bruno, aged 13, both students in the Berlin Gymnasium, from the effects of which both died almost immediately. They then hanged their youngest son Martin, aged 10, and their daughter Elizabeth, aged 7.

Satisfying themselves that all their children were dead, Seiger and his wife each drank a cup of poison. Two cups of poisoned milk were found in Seiger's apartments.

After Seiger and his wife drank the poison Seiger strangled his wife to death with a rope and then hanged himself from a door frame.

The police on entering the room found all the family dead except Seiger, in whom there were still signs of life, but he, too, died a few minutes afterwards. Seiger left a letter explaining his plans for putting himself and his family out of the way and justifying himself and wife in committing the deed.

On the Roof of a Burning Building.

NEW YORK, June 4.—A fire caused by the upsetting of an oil stove occurred last evening in the rear tenement at 38 Goerck street. The building is an overcrowded tenement and was filled with tenants who immediately became panic stricken. Many escaped before the fire had gained much headway, while a number sought safety on the roof. The fire, which had started in the upper part of the building, soon developed into a fierce blaze and made the position of those on the roof an extremely dangerous one. Sadie Filauer, eighteen years old, and James Buckney jumped from the roof. The former was almost instantly killed, while Buckney sustained very serious injuries. The firemen rescued those who remained on the roof and then extinguished the fire. The loss will not exceed $1,000.

Heavy Loss by Fire.

LACONIA, N.H., June 4.—A fire that broke out at the Laconia car works destroyed over $100,000 worth of property. The car company's loss includes three large building in the passenger car department; their entire malleable iron foundry plant, etc.; also two small dwelling houses. Insurance, $49,500. A large refrigerator building and office, owned by the Swift Beef Co., is a total loss, with contents valued at $1,000 and insured for $5,500. A three-storey tenement is also a total loss, value is estimated at $4,500, insured for $3,500. The fire started in the paint shop in the car works, and is supposed to have been incendiary.

The Cape Wants Reciprocity.

LONDON, June 4.—Sir Henry de Villiers, one of the Cape Colony delegates to the intercolonial conference which is to be held at Ottawa the latter part of this mouth, is now in London. In conversation with the representative he said that it was his intention to suggest to the Canadian Government the advisability of reciprocity between Canada and the Cape in timber and wines, the Cape to admit Canadian timber at a reduced duty and Canada to allow Cape wines to come in on the same conditions.

Rained for Twenty-two Days.

ROCHESTER, N. Y., June 4.—The rain fall of the past month is the heaviest recorded since the establishment of the weather bureau in 1871. Twenty-two days out of thirty-one it rained, six and eighty-seven hundredths of an inch falling, and most of it during the last fifteen days. Market gardeners and farmers are discouraged. Not only are the crops seriously injured, but the roads are in such a bad condition that it is almost impossible to get into the city to dispose of their products.

Fired Into Crabbing Vessels.

CRISFIELD, Md., June 4.—One of the state police vessels poured a fusillade of shot into a fleet of twenty-five crabbing vessels in Holland Strait, and that the crews of the poachers escaped injury is regarded as almost a miracle. Several hundred shots were fired. The sails and deck houses of the crabbers were riddled with bullets, and three of them, the Frank Law, the R. Dimond James and the Jackson Bradshaw, were so badly crippled that they were unable to escape.

Agitation Against the Lords.

GLASGOW, June 4.—A demonstration against the House of Lords was held in this city on Saturday. A great procession of trades unions, Liberal associations, Irish bodies and the like marched through the principal streets and was watched by cheering thousands. A mass meeting was held in Glasgow Green, at which speeches were delivered from six different platforms. A resolution calling upon the Government to abolish the House of Lords was carried with great enthusiasm.

AMERICAN TARIFF BILL

Senators Wading Through the Debate on the Sugar Schedule.

FOUR MONTHS OF DISCUSSION

Has Been Taken Up in Congress by the Wilson Bill—The End Not Yet in Sight—Awaiting the Result of the Investigation.

WASHINGTON, June 4.—Two months of tariff debate have passed in the Senate and the end is not yet within telescopic vision. Republican Senators stated ten days ago that the close of this present week would find the sugar schedule still undisposed of. The course of events in connection with the facts elicited by the sugar trust investigation of the special committee as far as that investigation has proceeded, and the facts which it is expected will be developed in the future sessions of that committee, seem to make it possible that this threat may be verified. Some of the leaders on the Republican side insist that the vote cannot with decency be taken on the sugar schedule until the investigation into the allegations of improper influence being used to secure the adoption of that schedule have been disposed of.

Several of the Populist Senators and also Mr. Hill are on record as favoring this view. Their forces added to the united Republican strength will form a phalanx dangerously near a majority provided their should be one or two Democratic absentees on the critical roll call, as it is hinted there may be. These same forces—the solid Republican vote and the Populists, or most of them—it is expected, will rally to the support of Mr. Manderson's proposed amendment to retain the bounty on domestic sugar, instead of laying an increased tax on the imported product. The suggestion is made that the vote on this amendment may be so close that the onus of defeating it will be thrown on the two Louisiana Senators, whose State is the chief beneficiary of the bounty.

Mr. Harris has given fair notice of an intention to force the fighting. He declares that as long as his side of the Chamber will uphold him night sessions shall be held regularly from to-day until the final vote is taken.

THE MINERS' STRIKE.

An Amicable Settlement at Leavenworth—The End in Sight.

LEAVENWORTH, Kas., June 4.—The coal miners situation that appeared so serious on Friday night seems to be peacefully settled. Through the efforts of citizens the mine owners and a strikers' committee held a protracted conference, during which they came to an agreement. The mine owners agreed to allow a check weighman to be paid by the men to be placed at each shaft and to pay the present high wages if the price of mining was not lowered at other places. The men agreed to return to work at the Riverside and Home mines on Monday.

NEW YORK, June 4.—Capitalists in New York, who control the chief coal railroad in Ohio, stated that the soft coal strike, so far as Ohio, Pennsylvania and Indiana are concerned, will be settled to-morrow or Wednesday at the latest. An understanding they say, has been reached with President McBride of the United Mine Workers whereby it is expected that that the operators of these three states will meet the men half way. The Ohio mine owners, it is said, finally saw that it was to their interests to offer the men an advance of ten cents a ton, although the latter demanded twenty, and according to Mr. McBride the Ohio districts are willing to compromise on that basis. Since that time the Indiana and Western Pennsylvania bituminous mine owners have joined hands with the Ohio interest on the same terms with their men.

Detective Leagued With Criminals.

CHICAGO, June 4.—Detective George Newcombe, of the Western Indiana railroad, who was shot by a confidence man on Thursday night on a Grand Trunk train, made an ante-mortem statement that his companion, a detective named James Maxwell, of the Grand Trunk railway, was in collusion with the sharpers, and had practically ordered them to kill him. Newcombe says Maxwell offered him a share of the proceeds of the confidence games, but he refused and he made oath that he believed this refusal led to the shooting. A bad state of affairs has existed for a long time on all the roads running from the east into Chicago and the men hired as detectives have done little or nothing towards arresting the scoundrels or protecting passengers. It is charged that some of the detectives have not only protected the confidence men, but actually furnished them information.

Died in a Hog Pen.

NORWICH, June 4.—Jonathan Rogers, 80 years old, living in the town of Preston, was found dead in a hog pen. He was subject to fainting fits, and it is supposed that while leaning over the side of the pen he was struck down and fell into the pen. His clothes were torn and his flesh had been horribly lacerated by the hogs. The medical examiner thinks that life was extinct before the hogs began their work of destruction.

Fight in a Sun Dance.

GUTHRIE, O.T., June 5.—During the semi-annual sun dance of the Sac and Fox Indians, near the Sac and Fox Agency, on Thursday, two young bucks became involved in a quarrel over a Winchester. The fight broke up the dance and a melee ensued, in which Chief Astor, Little Boy, Two Tails, No Head and Wolf Eyes were shot, the first two fatally. The authorities will take steps to suppress the dances hereafter.

A Respite for Prendergast.

CHICAGO, June 4.—The Times prints a story to the effect that a secret agreement has been reached between the attorneys in the case which will give Prendergast, the assassin of Mayor Harrison, an extension of time until the September term for the trial as to his sanity. The trial was set for June 11, and the extension, if granted, will bring the case before Judge Chetlain, who has hitherto objected to by the prosecution.

HARVEY.

Council Meeting.

The Harvey council met at the town hall May 28th, 1894, for Court of Revision and general road session. After routine the members made the several oaths prescribed in the statutes and formed a Court of Revision. Appellant No. 1, Mrs. Jennie Taylor's assessment was reduced from $2,800 to $2,400 and Wm. J. Hurl, entered as tenant; appellant No. 2, E. B. Edwards, assessment confirmed; appellant No. 3, Best & Webber, assessment confirmed. A few alterations were made, where property had changed hands since the assessor made his assessment. The roll as revised was passed, and the members resumed in council on general business. W. D. Ventress made application to the council for a grant of money for the Verulam Agricultural Society, which was laid on the table for further consideration. Mr. Flynn and Mr. McIlmoyle were appointed to examine the road between Wilson and Renwick, also the Hicks road across Stevenson's land. Messrs. Flynn and Oliver were appointed to look up a road for Mr. Warran. On motion Wm. Curtain was allowed to work out his taxes and statute labour on James O. Weir's road beat, 5½ days. On motion orders were drawn in favour of the parties named and for the sums set opposite their names, respectively:—Cain Bros., supplies for Priest, $2.08; W. Dunn, for fresh meat for diphtheria patients, $2.00; James Richmond, Assessor, 1894, $45.60; John Kreger, boarding John Lancefield for four months, $20; Richard Elliott as auditor, 1893-4, $4.00; John Gerrard, for repairs on Eel creek bridge, $2.00; Charles McIlmyle, on sessional allowance, $5; C. E. Bonnell, M. H. Officer, account re Russell and Adams, $48. On motion C. McIlmoyl and J. Oliver were appointed to look out a road across John Graham's land for E. Boucher. On motion a grant of $200 was made to be expended on roads and bridges in 1894—$100 in north Harvey, McIlmoyl and Oliver, commissioners; $100 in south Harvey, A. G. Shearer, commissioner; $60 in east Harvey, Thomas Flynn, commissioner, for expending the same. On motion the council adjourned, to meet at the clerk's office on Monday, the 28th day of June, 1894.

SURGEON'S KNIVES.

Failed to Remove the Disease from Hezekiah Vaughan's System—Dodd's Kidney Pills, which have Never yet Failed, Cured Him in Short Order.

SANDWHICH, May 28.—Hezekiah Vaughan, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Detroit, for what different doctors diagnosed as liver complaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 4½ hours, but when they got through, none of them could tell what was wrong, and the patient was left as bad as ever. The benefits derived by a neighbor from the use of Dodd's Kidney Pills, induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that afflicted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

(From Our Own Correspondent

Council met as court of revision on May 28th, 1894. All members present. Reeve and councillors made and subscribed the oath required by statute and proceeded to hold a court of revision. Moved by Jas. Allen, seconded by Ben. Millar, that the assessment roll be confirmed, with the following changes, viz., Silas H. Crow be assessed for lot 15, concession 1, $100; lots 26 and 27, concession 8, and lot 5, concession 10, be assessed to Daniel Flaherty; that no action be taken in the appeals of M. Berry, G. Martin and W. Ross, as the opinion is that the assessment is not high; that Jno. Coulter be assessed for lot 4, concession 4, lot 8, concession A, $100; that Wm. Jno. Cain be put on the assessment roll as farmer's son.—Carried. Moved by Jas. Allen, seconded by Geo. McKee, that the assessment roll of Galway and Cavendish be confirmed as revised for the year 1894, and the council proceed to other business.—Carried. Moved by James Allen, seconded by Geo. McKee, that the minutes of the last meeting be read and confirmed; that Samuel Loyle be paid $1.25 for one day's work with county treasurer's warrant to Silver Lake.—Carried. Moved by M. Collins, seconded by Geo. McKee, that the clerk notify Thomas Peacock and Wm. Allen to remove their fences to the proper place, or should damages be incurred they will be held personally responsible for the same.—Carried. Moved by Ben. Miller, seconded by Geo. McKee, that a vote of thanks of this council be tendered to Samuel Loyle for the efficient way in which he collected the taxes for 1893; that it is the intention of this council at its next meeting to pass a bylaw establishing a road across lots 24, 25, 26, 27, 28, 29, 30, con. 10; that by-laws 159-160 get their several readings and be passed. Moved by James Allen, seconded by B. Miller, that auditor's report be adopted and the clerk get 100 copies printed for distribution.—Carried. Moved by Geo. McKee, seconded by B. Miller, that Mr. Thos. R. White, the assessor, be allowed $29 for assessing and taking the census of the school children; that he received $1.25 for attending the Court of Revision.—Carried. Moved by Geo. McKee, seconded by Ben. Miller, that a vote of thanks of this council be and is hereby tendered to Mr. J. R. Stratton, M.P.P., for his very valuable services rendered this municipality while member of this riding, not only for securing government aid on the different roads in this township but also for the many kind acts performed for the settlers in the way of getting their land patents, or any other assistance he could render them, and the even distribution of monies irrespective of person or party feelings, and it is the sincere wish of this council that he be re-elected as our member with an increased majority. Moved by M. Collins, seconded by Geo. McKee, that the reeve and clerk sign orders on treasurer for the following accounts: Reeve, attending land sales in Peterborough, $10; Thos. Flaherty, Geo. Coulter and Frank Forest and M. Collins, each $1.25 for locating Nogies' Creek road $5; auditors Thos. White and Michael Barry, each $3, $6; Samuel Loyle, serving warrant county treasurer, $1.25; Thos. R. White, attending Court of Revision, $1.25; Daniel Sheehan, fencing Curtin line, $6.50; Michael Cain, road work for Gilmour & Co., 1892-93, $5; council fees, Michael Mansfield, $3.75; Michael Collins, $3.75; Geo. McKee, $3.75; Ben. Millar, $3.75; Jas. Allen, $3.75; clerk, half years' salary and postage, $30.

Council adjourned to meet on August. 27th.

A Large Waist

Is not generally considered a necessary adjunct to the grace, beauty or symmetry of the womanly form. Within the body, however is a great waste made necessary according to the condition of things—continually in process and requiring the perfect action of all bodily functions to absorb or dispel the refuse. When there is irregularity or inaction, ladies who value a clean, healthy body will take Dr. Pierce's Favorite Prescription—the only remedy for woman sold with a positive guarantee to RIGHT all her peculiar WRONGS.

To those about to become mothers, it is a priceless boon, for it lessens the pains and perils of childbirth, shortens labor, promotes an abundant secretion of nourishment for the child and shortens the period of confinement.

ROYAL BARGAINS!

Here are a few actual specimens of some of the RICHEST NUGGETS in the Bay Goods line thrown on the market for many a day.

To avoid sensationalism,—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods

WORTH ABOUT DOUBLE THE PRICE—

5c. 3 Papers of Good Pins. Good Glass Towelling. 1 Pair Good Towels. Good Flannelette. Good Straw Hats.

10c. Good All-Wool Debeige. Good All Wool Delaine. The Best 10c. Prints. 2 Ladies Knitted Vests. Ladies' Fast Dye Black Hose.

15c. 4 Good Lawn Handkerchiefs. 4 Nice Fancy Frills. Fancy Velling. Nice Ceylon Flannel. White Japanese Silk Hemstitched Handkerchiefs.

20c. 300 yards Lovely French Figured Crepons, to be sold at 20 cents a yard—sold everywhere else at 25 cents.

25c. 2 pairs Ladies' Lisle Gloves. 3 yards of Fancy Colored Skirting with Border. 3 yards Fine Checked Muslin. 3 pairs Gents' Wool Socks. 3 yards of Satin Striped Muslin.

30c. 700 yards of Beautiful Dress Goods to be cleared out at 30c. These Goods would be good value at 50c.

35c. Good Kid Gloves. Good Lace Curtains. Good Corsets. Ladies' White Chemisettes.

40c. 2000 yards of Good All-Wool Silk-Finished Henriettes at 40c. These Goods are actually worth 60c.

SMITH.

From Our Own Correspondent.

The municipal Council of the township of Smith, met as a Court of Revision on the assessment roll, on Tuesday, the 29th of May, all the members present.

There being no appeals against the assessment, the following changes were made on application: Broken lots 20 and 21, in the 15th Con., were ordered to be assessed to James Middleton, and lot 20, in the 15th concession, was ordered to be assessed to W. MacImoyl, and the names of the Canadian Permanent Loan & Savings Company was erased from the Roll. The Roll as amended was then finally passed by the Court.

The Council then went into session. A By-law passed its several readings, providing for the appropriation and expenditure of $1,250 in the general repair of the roads and bridges in the township. The reeve was instructed to settle with Dr. Clarke for medical attendance on Mrs. Fredenburgh. The cost not to exceed what the cost would be of maintenance, in the Hospital for the same time. The Reeve was also instructed to execute a lease between John Burnham and this and other municipalities of the gravel pit therein mentioned. The reeve and Mr. Armstrong were appointed to interview the directors of the Peterborough Water Company to ascertain when and at what place they intend putting the watering trough on the River Road as agreed upon. Messrs. McIlmoyle, Garbutt, and Fitzgerald were appointed to arrange for the building of the bridge on the 7th con. on the road between lots 25 and 26 and also the bridge in the 9th con. on the road between lots 18 and 19. The collector was allowed $7.12 as abatements on the roll of 1893, $3.36 of which is to be returned to county treasurer to be charged against lands. The following claims were ordered to be paid, namely: W. Davis, for aid to H. Sutherland, $4.80; A. Allison, for goods for Mr. Fredenburgh, $6.00; John Burnham, lease of gravel pit, $18.75; A. Miller, repairing bridge, $5.85; Review Printing Co., $13.00. The following resolution was then passed: "That this council tender to the Ontario Government and also to J. R. Stratton, M. P. P., through whose efforts the substantial assistance was obtained, the thanks of this council for the money grants received on different occasions for the improvement of the roads leading through this municipality into the northern townships, and that a copy of this resolution be forwarded to Mr. Stratton." The council then adjourned.

RAINFALL OF MAY.

Regarding the rainfall during May the Observatory officials state:—The month began with a continuation of the fine weather of April, which continued up to about the 17th, when a rapid change occurred, and May may be fairly divided into two parts, as far as temperature is concerned, from the 1st to the 17th being 5 deg. above the normal, and the latter part 5 deg. below its proper normal. The greatest difference in excess (22 deg.) occurred at 4 p. m. on the 1st, and the largest in defect (18 deg.) at 4 p. m. of the 28th. The heavy rain storm which began on the morning of the 17th, moving from the west, was checked in its eastern movement by a high pressure area, which had remained on the coast, sweeping round and advancing to meet the storm, forcing it to assume a retrograde course, and causing a continuance of the downpour. By the time it ceased 6.54 inches were recorded. This is the largest continuous rainfall ever recorded, the heaviest previously recorded being 4.26 inches from the 13th to 17th of May, 1868. The total rainfall of the month, 9.37 inches, is the heaviest recorded in any May, the largest previously being 6.37 in 1858 and 7.67 inches in 1868. With the single exception of September 1843, when 9.76 inches fell in ten days, the past month's deluge stands unequalled, being more than half the whole amount that fell in either 1872, 1874 or 1887.

FRATERNAL ASSESSMENT LIABILITY.

"Can't I get out when I please, and have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate.* The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any simliar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

ALFRED KINGSCOTTE, tent, sail and awning maker, Water street, opposite the market.

A New Idea.

You will remember that Goliath was very much struck when David hit him with a stone. He said that such a thing had never entered his head before. New ideas are numerous in our stock. We always have what is latest and best. We have the latest novels by the most modern writers, too numerous to enumerate—come and see. We also have a splendid line of popular paper bound books 2 for 25c. or 5 for 50 cents— a. h. stratton & co.

ONLY TWO MORE SALES.

We will close our sale of beautiful Goods with two more sales only. Wednesday evening, June 6th, and Saturday evening, June 9th, will positively be the last and only sales. If you wish to avail yourselves of the greatest chance ever offered to secure these goods at your own prices, come on the above dates. No reserve.—MACFARLANE WILSON.

An Interesting Tale.

The novel in the June number of "Tales from Town Topics," is a sprightly affair called "An Unspeakable Siren," is a title that eloquently describes the heroine of the new story, Nera Mazarin, who is a strangely fascinating young society girl of very startling characteristics. She is a hysterical and morbid creature, that rather repels people at first, but who grows on one, and ends by exerting a terrible spell, a good deal after the fashion of a snake. In telling his story the author provides many brilliant pictures of life in New York society, and in his character drawing of modern types is especially clever. "An Unspeakable Siren" is accompanied by a collection of short stories, sketches, poems and witticisms taken from the back numbers of TOWN TOPICS. The whole makes a bright summer volume. Town Topics Publishing Co., 208 Fifth Avenue, New York City.

A Young Canadian Scholar.

The faculty of arts and sciences have just announced the appointment of Mr. W. Henry Schofield, M. A., as Morgan Fellow in English of Harvard University. This position has not duties attached to it, but bears with it an income of $500, being intended as an encouragement of the highest scholarship. Mr. Schofield, who is a graduate of Victoria University, and was formerly modern language master in Hamilton Collegiate Institute, has also been appointed the instructor in Anglo Saxon in the Harvard Summer School, and has besides been chosen President of the Graduate Club and President of the Cambridge branch of the American Folk Lore Society. Mr. Schofield's article in the last number of the Harvard Studies and Notes in Philology and Literature on "The Source and History of the Seventh Novel of the Seventh Day in the Decameron" has received the highest praise from leading American and European scholars. —Toronto Globe. Mr. Schofield is a Peterborough boy and a brother of Mr. George Schofield, druggist.

Mr. R. M. Solymon, advance agent for "Faust," which is billed to show here on the 11th, was registered at the Oriental yesterday. Mr. Solyman claims that the dramatized version of Faust, which Francis Labadie places on the boards, is a much cleaner production than that of Lewis Morrison.

Mr. Percy Owens, a promising pianoforte pupil of the late Mr. Seward, has just returned home after visiting his grandmother in Oshawa. While there he played at a concert of the Epworth League and a concert for St. George's Guild, and again at a students' reception at Demill Ladies' College. The local press have very favourable notices of Mr. Owens' fine playing.

Miss Melville has just received a new lot of Infants' Bonnets in silk and muslin. Prices to suit all. 424 George street. Stamping done.

The Steam Riding Gallery, now running at the corner of George and Murray streets, will be open every evening and Saturday afternoon. Everybody come.

Water Filters.

I have just received a large stock of Jewett's celebrated Water Filters. They are the best Water Purifier in the market. Every family should have one to ensure pure drinking water. Call and see them. ADAM HALL, 407 George street dtf

Lawry's Fine Meats.

If you want something tasty, get Lawry's (Hamilton) smoked English bacon, Roll Ham, Spiced Roll, smoked L. & S. bound Hams, smoked Rolls, sweet-pickled Rolls, and Nelson Morris, (Chicago,) best cut dried Beef—we chip the dried beef fresh for you.—ALEX. ELLIOT, Palace Grocery.

A Swell Affair

Dried apples in hot water are always "swell affairs." They with other fruits come in very handy at this time of the year —just before fresh fruits are plenty. A new stock of canned fruits, also jams by the pound, has been opened at MASON & Co's Grocery, and are fit for a gentleman's table.

Makes People Well Quick.

Life is short and if you can strike the right spring medicine at the first shot, time and nerve energy is saved. Three doses a day of that celebrated Sarsaparilla for sale at Lynch's drug store puts you "in fighting trim" in quick order, gives you a strengthened system, a pure skin, a toned liver and pure blood. Lynch's, 168 Hunter street.

Mechanic's Institute.

The following new books have been added to the library of the Mechanic's Institute:—Ascent of Man, Drummond; Town Life in the 15th Century, (2 Vols.), Greene; A Trip to Other Worlds, Aster; Kerrigan's Quality, Barlow; A Story of a Modern Woman, Dixon; A Daughter of To-day, Jeanette Duncan; Doreen, Edna Lyall; Perlycross, Blackmore; Social Evolution, Kidd; Birds of Ontario, McIlwraith.

Goughs at it Again.

Their recent snap purchase of pants leaves their opponents without a leg to stand on, but gives 1,100 boys, 758 youths, and 856 men a chance to be clothed in suits at the lowest figures ever known since Father Adam gave his tailor his first order. A British Columbia firm which had ordered these goods, by failure, left these goods sidetracked on the road and Gough Bros. bought the train load, and here they are at the lowest possible prices. Call and see them. Decided snaps in all these lines.

A Partial List.

The following is a partial list of the goods which will be offered for sale at China Hall's annual art sale every night this week:

23 Dinner Sets worth from	$10.00	to	$125.00

Address and Presentation.

Miss Minnie Barker, who has been for three years a resident of the town leaves on Wednesday for her home in Campbellford. On Thursday evening last the members of the Young People's Society of the Baptist church, of which Miss Barker has been a faithful and active member, called upon her at her residence and presented her with an address as a recognition of her services in connection with the society and of regret at missing the companionship which her pleasant and amiable personality afforded. The address was accompanied by the present of a handsome china luncheon set. The visitors, who brought refreshments, served them and after these had been disposed of a most delightful social evening was spent. Miss Barker made many friends in Peterborough and her presence will be greatly missed, especially in the circle of church entertainments to whose enjoyment her excellent vocal accomplishments very materially contributed.

—The Board of Education meets tomorrow evening in monthly session.

—For biliousness or liver trouble, Madill's Stomach and Liver Pills are a sure cure.

—Otonabee lodge No. 13, I. O. O. F., will confer the third degree on several candidates to-night.

—A meeting of the Board of Management of the Y. W. A. was held this afternoon at 3 o'clock.

—The Board of Health will hold a meeting in the near future to decide on the question of public vaccination.

—The stock of bullion in the Bank of England is £36,000,000, and the reserve amounts to nearly £28,000,000.

Mr. M. W. Pyne, an Otonabee farm hand, was considerably injured in a runaway near the Locks Saturday evening.

—Hon. A. S. Hardy will speak at Havelock on Tuesday, June 5, Colborne on Wednesday and Sunderland on Thursday.

—The management of the Campbellford demonstration on the 24th came out on top to the tune of $20. Not bad considering the day.

—An Ashburnham youth was fined two dollars and costs this morning by the magistrate for being disorderly on George street last night.

—Court of Revision to-morrow evening. The Mayor says if the members do not get along a little faster that the appeals will not be finished in a month.

—Dame Rumour has it that a leading soprano in one of our local choirs is shortly to be wedded to an estimable young man from one of the lower provices.

—The General Electric Company, of Peterborough, will supply the Sarnia Gas & Electric Company with a powerful plant for Sarnia's electric lighting system.—Sarnia Observer.

—The break in the Omemee mill dam has been repaired and the roller mill resumed operations on Thursday, after having been shut down for the past ten days on account of high water.

—Four tramps were fired from town by Magistrate Dumble this morning. One of them was Devine, the man who served a three months term in the county gaol here on a charge of horsestealing.

—The recent rain has done much damage to recently planted corn and potatoes. In many cases the seed is rotting in the ground and the land will have to be replanted. Peas are also damaged in low ground, and if it turns warm a great many low lying fields of grain will be destroyed.

—The wet weather Saturday afternoon caused the further postponement of the school children's sports. The little ones were considerably disappointed, but as the sun has apparently resumed business at the old stand, the races and other contests will probably be held next Saturday afternoon.

—Those amateur gardeners who assisted at the obsequies of various kinds of garden seeds in the sunny erstwhile are beginning to think they will have a "look in" for their money. Vegetation of all kinds has flourished greatly this past week, and the lawns around town need a hair-cut every other day.

—Lord Aberdeen presented the children of the Public, High and Separate schools of Belleville, with two medals for which to compete, the other day. The children, it appears, gave him a cordial welcome which he appreciated. Peterborough, therefore, will know what to do when "His Nibs" comes here.

—The band will play in the park two evenings this week to make up for lost time. The public will be favoured on Monday and Friday evenings if the weather continues fine. The members are much pleased by Dr. Burnham's kindness in arranging seats for them to occupy while playing.

—Four tramps were captured at Agincourt Saturday and as two of them answer the description of the fellows who attacked Dickson Jewett and Wm. Crossley last week and shot the latter, the quartette are held for identification. Dickson Jewett took the train to Agincourt for that purpose this morning.

—A valuable stained glass window has been placed in the U.E. Loyalist Memorial Church, Adolphustown, in memory of the late rector, the Rev. Robert Harding, by his eldest daughter, Mrs. Geo. Downey, of Orillia. Mr. Harding was Incumbent of the parish of Omemee and Emily, prior to his appointment to Adolphustown.

—Mr. Tom. Speeden, a retired British veteran, who is well-known about town, announces his intention of leaving next month for Australia, where he will rejoin Mrs. Speeden, his wife. The trip entails a journey of 18,000 miles, so Tom. says, but he does not mind that as he has already circumnavigated the globe several times in his life.

—The 7-year old son of Mr. R. Bradburn, who wandered away from home on Saturday and for whom the firebell was rung last night, was recovered this morning on the old Braeley farm in Monaghan. The little fellow wandered out there to visit an old acquaintance who works the place. He was traced to that point this morning by means of inquiring along the road.

—John Murphy, of the Peterborough fire hall, says the Omemee Mirror, who was visiting in Bethany on Sunday, drove to Omemee that evening and spent the following day in our midst, calling on friends who were pleased to meet him. He returned to Peterborough on Monday evening in company with W. I. McGill, who, by the way, is the owner of that fast team that so often visits that place. Call again, Jack, but the next time don't keep W. I. waiting so long.

—A young gentleman was walking out with his enamorata, Saturday evening. With a chivalrous desire to please his lady-love and at the expense of committngi petty larceny, he reached over the fence and gathered a bouquet of lilies of the valley. In this act a memorandum book, containing his name, fell out of his pocket. Mr. ——— may get his property by applying—he knows where. Love, larceny and lilies make an alliterative cocatination of romantic sequences, which it would be too bad to spoil by so vulgar a thing as law.

—The Cobourg papers are exchanging compliments. This is the general tenor of them: "For some reason best known to himself, our friend 'Sharkey,' whom the late editor of the World playfully dubbed the 'unwashed jackal,' without any provocation whatever endeavoured to be funny at our expense in his last 'issue.' The point of his wit is as obscure as the skin under the soot on his face. We would advise him before trying to be funny again to go to a butcher, have his skull opened and scooped out and some brains put in—about five cents worth would do. If he insists on having a controversy, we will give him all he wants."

—Mr. Joe Begley, of Ashburnham, who has just returned from Chicago, is introducing an American idea by undertaking to clean wallpaper and brighten it up as good as when first laid on. He started operations this morning on the walls and ceilings of Mr. W. A. Sanderson's jewelry store, and the wonderful change which followed an application of his secret composition was positively startling. The ceiling, which was originally papered with a delicately tinted light paper, had become dingy through smoke from the gas jets and the pattern had become indistinguishable It is different now, though, since Joe has gotten in his work on it, and the ceiling now shines forth in its pristine glory.

SPRIGHTLY SUMMER SPORTS.

On the Lacrosse Field, the Crease and the Diamond—Triple A. Topics—The Bicycle and Football.

LACROSSE.

The Ashburnham grounds of the Shamrocks are being graded and rolled preparatory to having them put in first-class condition for the league games, a number of which will be played on them this summer.

Mr. Ernie Wasson, who was injured in the lacrosse game between the Peterboroughs and Shamrocks on the 24th at Campbellford, just received a cheque today from the Manufacturers Life Insurance Co. in full of his claim for ten days' disability.

On Friday, June 8th, the first championship match of the district will be played on the P. P. A. A. grounds, Ashburnham. Ball faced at 8.30. The opposing teams will be Peterborough and Port Hope. The public are invited to see the game, which is sure to be the best of the season. Admission 25c., ladies 15c.

Millbrook will be unable to give the juniors a return match here to-morrow. Consequently it will have to be postponed for a short while.

A full practice is requested for this evening.

A Port Hope exchange has the following to say of their latest acquisition to the defence field of the Ontarios: "Packenham did well and is a tower of strength to the Ontarios, although yesterday he was inclined to wander a little to far away from his check."

CRICKET.

The second eleven of the Peterborough cricket club did not go to Port Hope on Saturday after all. The second eleven from Port Hope, however, will be up next Saturday, when the match will be played in the P.A.A.A. grounds. The members are urged to be out for practice every day in the interval.

A cricket match between elevens representative of the town and of the bankers will be played Wednesday afternoon. All members of the club it is hoped will turn out.

BASEBALL.

The wine clerks are looking for another game of baseball with the printers. They play the barbers' nine this week and are trying to make arrangements with either Port Hope or Cobourg for a game. They would go down to the baseball tournament on July 1st, only it will be a very busy day here in town.

THE WHEEL.

Posters have been put up along the line of the great relay ride naming the hour at which the riders are expected and asking the public in general to keep the road as free from traffic as possible and to give the right of way to the wheelmen. The residents are also requested to keep their dogs tied up during the day. In Toronto the entire length of King street will be closed while Carman carries the message from one end of it to the other.

GENERAL.

The new Chemong boating club is growing stronger daily. The election of officers will take place sometime next week.

Quoits are quite quiet these days. At least so says Mr. Giroux, and he ought to know.

Beautiful Lawns.

No other town in Ontario has so many handsome lawns as are to be found in Peterborough. Never before were lawn mowers so cheap and so well made. Look in the north window of the Peterborough Hardware Co'y's store and see the display of lawn and garden tools. They have some magnificent cast iron urns at very low prices. dtf

A Beautiful Display

All should avail themselves of the opportunity of viewing the exhibit of paintings at A. Clegg's. These pictures are treated in a very able manner, the marine subjects are very good. Mr. Wilkinson's evening effects are charming, full of tender warmth. No. 9, "Murmuring Waters," is very realistic. This is a rare chance to procure some choice original paintings at very moderate prices and we think few of the pieces should leave town. On view at A. CLEGG'S, George street.

Be Sure and Attend.

The sale of fine and useful goods in the store opposite the Grand Central Hotel every night this week will be worth attending, as there has never been as fine an assortment of good goods offered by auction in Peterborough. Dinner Sets, Tea Sets, Chamber sets, Lamps, Silver ware, art goods, etc., of every description, beautiful designs and newest patterns in the market. All at your own price. Open for inspection now.

COMMITTEE ROOMS.

Mr. Stratton's committee rooms will be open every night hereafter from 7 o'clock p. m. The daily papers are on the tables, so that those who desire to use the hall as a reading room can do. This announcement is made so that Mr. Stratton's supporters and the supporters of the Mowat Administration can at all times have a place in which to confer and report or exchange information and suggest action in the interest of the Liberal candidate in the West Riding.

THE VOTE ON MUNICIPAL UNION.

On Thursday, June 7th, the vote of the duly qualified electors will be taken upon the proposition agreed upon by the joint representatives of the town and the village of Ashburnham to consummate a corporate union of the two municipalities. This is a very important matter and one that affects the future importance and prosperity of the town to a very large degree. It is to be hoped that the electors will be alive to the necessity of expressing their opinion at the polls. It will not do to say that the union is desirable; the vote must be polled in order to give an opinion on the subject any value. Ashburnham has pronounced decisively in favour of union and it now becomes the duty of the electors of the town to reciprocate. It may be pointed out that if the overtures of the village are rejected this time, the village's hearty assent to municipal union, so desirable from many points of view, will not be so easily secured another time. The interests of the two municipalities are in so many ways identical that the question of alienating Ashburnham by a churlish rejection of her offer to become a ward of Peterborough, becomes one that deserves the most earnest attention of the ratepayers. It is to be hoped that the electors of Peterborough on Thursday will feel it their duty to go to the polls and record their votes so that as decisive an expression of opinion as possible may be obtained. The pros and cons of the project have been so fully discussed that it is unnecessary to enter into them in detail. The electors are in possession of all the facts necessary to decide upon a question of so much moment to the town as well as the village.

THE local self-constituted champion of temperance interests, the Review, with a vindictiveness which shows that personal animus against Mr. Roger is its actuating motive, seeks to convey the impression that Mr. Roger is responsible for the defeat of the license reduction proposal of 1892 (by the votes of Messrs. Winch, Bradburn and Dennistoun) and also for the increase of licenses in 1893. Mr. Roger is in no way responsible. The licenses referred to were issued under a petition of the ratepayers, and if the Review knew as much about the license law as it pretends to do, it would know that licenses are always granted in response to sufficiently signed petitions of the ratepayers of the district in which the house to be licensed is situated. If there is any person to blame for the increase, the electors who signed the petition are the parties; for the commissioners could not issue a license without such a petition. For wilful ignorance of the subjects with which it deals and for perversion of facts, The Review is a fitting running mate for The Empire. As the campaign nears a close The Review will become more and more bitter. But THE EXAMINER can afford to look on with an equaminity begotten of confidence in the good sense of the electors and in the certainty of the result of the election being an endorsation of good and honest government. Opposition organs and advocates may become hysterical, but the electors will keep their heads level.

OBITUARY.

The Late Mrs. Mark Greystock.

Mrs. Mark Greystock died at the family residence, Greystock, Ontario on Sunday, May 3rd, after an illness of only a few days, the attack having taken place on Wednesday last. The deceased lady was a native of Yorkshire, England, where she was born 67 years ago. She came to Otonabee when about seven years of age and has passed the whole of her life in that township. She has been a prominent and highly esteemed member of the congregation of St. Mark's English church, Greystock, ever since the erection of the church. She was very highly respected for her many excellent qualities in the community in which she lived so long. She leaves behind her a husband and ten children, nearly all of whom are of adult age, the youngest being 18. The funeral took place on Monday to St. Mark's church, where the religious services were held, and thence to the place of interment.

AFFLICTED FROM INFANCY.

A Lad Who Had Been Dropsical From His Childhood Cured by Dodd's Kidney Pills—The Remedy That Never Failed.

McINTYRE, Ont., June 4—The young son of Hugh Lamont of this place has been afflicted with dropsy from infancy. He was bloated and swollen all over. His parents were at their wits end to find some cure for him when they read of Dodd's Kidney Pills. Mr. Lamont got six bottles of the pills and the boy began taking them. Before the sixth box was finished he was cured. It doesn't matter whether the patient is young or old, the pills will effect a cure of any kidney disease or of any disease arising from disordered kidneys.

RIVER AND LAKE RIPLETS.

From Our Own Correspondent.

President Commodore Calcutt, Vice-President T. E. Bradburn, Secretary R. S. Davidson, and other directors of the P. S. & N. Co. were on a tour of inspection Friday, and express themselves as being highly pleased regarding the work being done on the City of Peterborough. They commended the work being done under the superintendency of Mr. Hiskey, who has diligently kept his eye open and seen that his efficient staff of carpenters, painters, etc., are constantly engaged and pushing things to their uttermost.

The Farmers' Institute annual picnic will take place to Jubilee Point per the new steamer on the 7th June, (Thursday next,) when the "City" will make her maiden trip.

The new piping for the City of Peterborough arrived from Toronto on Saturday evening and is being put in position today. On Wednesday the two inspectors will take a run up and make an examination, after which if all is right the new steamer will be free to leave her dock.

On Saturday the water in the river dropped about a foot, but on Sunday, although it did not rain, the increased drop was only half an inch.

The Rob Roy is unable to run down into the Lake on account of the high water, she is unable to get beneath the C. P. R. bridge. In trying to find her way through without steam being on, the little craft drifted dangerously near the rocks, Friday, and in opening up to back clear of them, the screw struck a stone with the result that a piece was knocked off. Mr. Roy left for Montreal last night on G. T. R. business, but on his return will bring with him some new-fangled screw to take the place of the impaired one.

The Lakefield dam continues to be in danger of being swept away by the great quantity of water at present it is forced to hold in check. If the dam goes Peterborough will suffer.

Superintending Engineer Rogers, with the assistance of a diver and a large gang of men, is busily engaged in repairing the Peterborough locks.

On Saturday evening Mr. Binch was looking around for a race with Mr. Johnston's launch, but he came a little too late as Mr. Johnston was down earlier in the day.

On account of the continued coldness of the weather this has been a poor year for the boat liveries.

Mr. Breeze took a run down the river Saturday but found everything quiet. The frog spearers, he reports, are plying their trade down around Squirrel Creek with great assiduity.

RAILWAY RUMBLES.

Newsy Notes from the Whirling Wheels At Home and Abroad.

The Italians who have been working on Doube's bridge, on account of being laid off for some time, are returning to Buffalo, from whence they came.

The Brooks Locomotive works of Dunkirk has just received from Flint & Co., of New York, an order for 30 passenger locomotives and 30 freight locomotives for the Central Railway of Brazil. This order will amount to nearly $750,000.

It is said that the 24-hour trains put on between New York and Chicago by the New York Central and the Pennsylvania are meeting with indications that the departure will yield a handsome revenue to both lines. The rivalry between the two lines is very marked and each one is trying to maintain the reputation for the greatest American railroad and the standard railroad of America.

The convention of railway accountants in Washington adopted the following resolution yesterday:—"That it is the sense of this association that the accounting department is the proper department to investigate and decide the settlement of overcharge freight claims, and it is furtehr the sense of this association that it will be more expedient and economical to investigate and settle loss and damage freight claims through the accounting department, reference being made to the proper departments when necessary."

Ninety-five miles of Northern Pacific railway track, between Horse Plains, Mont., and Hope, Idaho, are under water.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

HOGS AT CHEESE FACTORIES.

The William Davis Co., (Ltd.) writes the following instructive letter on hogs to the Globe:

Sir,—I desire to use The Globe to addres the proprietors of cheese factories. Gentlemen, in view of the very large number of hogs that have een feed in the past by you, and doubtless are still being fed, we think it wise to caution you as to the kind of store hogs that you buy for this purpose. You are of course aware that fat hogs, no matter what weight, are at a serious liscount. They entail nothing but loss on the pork packer who buys them, and dissatisfaction and grumbling on the part of the dealers and consumers, except those who use it in the lumber camps, where, of course, in the depth of winter, nature craves the grossest and most heat-producing food. A large number of store pigs are short, chunky animals that are unprofitable as feeders and unsatisfactory when fat. Therefore it will be wisdom on your part to make a selection when buying, inflexibly refusing the runts described above, and choosing long, rangy, growing shotes.

We would also like to caution you against making your hogs too fat, and in doing so we are advising you for your own good, as experiments at the various agricultural stations demonstrate that after the animal has attained a certain point of fatness the food given does not produce the same amount of flesh as before. We feel sure that you should aim to turn out three hogs for sale where heretfore you have turned out only two. Give us nice, smooth, long, what we used to call half-fat hogs, and you will receive better prices and obtain a better return for the food given.

The following extract from an article in The National Provisioner, published in New York, confirms what we have written: "The difference between Irish and American bacon and the superiority of the former is not a matter of 'cure' and 'cut,' but of 'breed' and feed.' The ruling breed in Ireland is the Yorkshire White—very uncouth looking animals, with long, flat, deep sides, shoulders and hams, and coarse, long necks, heads and legs. When dressed, with their heads and legs off, they look much better, and one decided advantage which they have over the American is that they cut 'lean,' and throughout the fat and lean are much more evenly divided.

Canadian bacon is at this time under a cloud in Ireland, because of its overfatness, also because there have been so many converted into bacon that are too light. We ought to have nothing under 100 or over 200 lbs. to bring the highest price. There is a mistaken idea abroad that the English people are in a state bordering on starvation and requiring meat and grain from all the food producing countries in the world. In a sense this is true, but like most half-truths is more dangerous than an utter falsehood. It is true that Great Britain does not raise enough for her own consumption, but her ports are open to the world, and the whole world unloads its surplus on to them, hence everything in the shape of food is at very low prices. Before the writer lies a letter from a London dealer who states: "We are suffering from an over-supply in all kinds of meats, not only hog product, but imported beef and mutton, which is selling very, very cheap. Danish bacon is so cheap now that many buyers will not touch Canadian. They say Danish is cheap enough, and good Canadian bacon has not smashed prejudice enough yet for buyers to take it on a near platform to Irish and Danish."

In view of the above facts we again urge you to study your own interests by feeding only such animals as we have described above. We will not pretend it is your interests we are so anxious about, but we do say that in in this regard your interests and those of the packers will be furthered by the course recommended.

THE SABBATH OBSERVANCE BILL.

Mr. Charlton's Measure Does Not Find Favor With Quebec Printers.

MONTREAL, June 4.—There is strong opposition here to Mr. Charlton's Sabbath observance bill, which seeks to prohibit Sunday newspapers. Typographical Union No. 126, representing the united printers of this city, at a meeting on Saturday night passed a strong resolution denouncing the measure as an injury to the printers' union. It was decided to request Mr. Lepin, M.P., to represent them in the House of Commons. The Sunday Morning News in a strong article denounces the measure as a covert attack upon Quebec and calls upon the French members to oppose it as a body.

The News adds: "We have in fact too much faith in the good sense of the majority of the members of Parliament, both French and English, to believe that such an absurd measure will even be sanctioned, but even if it were there is not the slightest doubt that it would be held by the courts to be unconstitutional as an interference with the powers of the Provincial Legislature. As far as the Sunday Morning News, the most representative Sunday newspaper in the Dominion, is concerned, we have no fear of the result. The proprietors of this paper have been regularly incorporated as a company by the Legislature of Quebec and are doing business under the laws of the province. Mr. Charlton's measure, if the Dominion Parliament is foolish enough to give it the sanction of the law, would be an attack upon this charter, which would be resisted to the end, and there is not the slightest doubt that such a gross invasion of provincial rights would be promptly set aside by the courts."

Fast Atlantic Service.

Richard James, chief superintendent of the general postoffice, Liverpool, Eng., is in Montreal. Mr. James, in an interview, said he did not see why Canada should not have a fast service, also remarking that though the Labrador had made a remarkably fast trip, her passenger list had been sent on the Lucania, being received two or three days before the former steamer touched a port on this side. Mr. James was accompanied on the Lucania from Liverpool to Queenstown by Mr. Spencer Walpole, the Postmaster-General of Great Britain. Mr. Walpole was making a personal inspection of the methods of handling the mails at Queenstown, and Mr. James remarked that an outcome of this inspection would very likely be an even more expeditious method of handling the trans-Atlantic mails than the one in vogue at present. Mr. Walpole, according to Mr. James, is an ardent disciple of Sir Rowland Hill, and is determined to do all he can to expedite the transmission of the English mails to all parts of the world.

STOLE FROM THE I. C. R.

A Former Well-to-do Farmer Arrested on a Serious Charge.

RIVER DU LOUP, Que., June 4.—To the great surprise of the people of this town, an old resident of this place named Germain Dufour, who was once a well-to-do farmer, was arrested on a charge of stealing goods from the I. C. R. sheds and cars. He was suspected and watched, and having gathered proofs strong enough against him he was put under arrest Saturday afternoon. He acknowledged being one of the thieves but says he is not alone. There seems to be an organized gang. Temiscouta Railway cars were also visited by them.

About $200 worth of goods were found at Dufour's house, and brought to court for evidence. He said he would name his accomplices before the judge.

Hamilton's Youthful Forger.

HAMILTON, June 4.—Word has been received from the Department of Justice at Ottawa that the boy, Work, 15 years of age, who was sentenced in March to two years in the reformatory for forgery, and who has been in jail here awaiting the result of a petition for pardon, must go to the reformatory. Young Work's offence was attempting to draw money from the bank by signing his brother's name to a note. The forgery was readily detected and the boy was arraigned and sentenced as above. It was so apparent, however, that he committed the crime more through youthful ignorance than through criminal intent, that a strong petition was sent from here to Ottawa, asking that the sentence be commuted, which petition has not been granted.

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

CIVIL WAR IN BULGARIA

Unpopularity of Ex-Premier Stambuloff Provokes Strife.

FIGHTING IN THE STREETS

Telegrams Revealing the True Gravity of the Situation Are Suppressed—Fighting Hourly in the Provinces—Foreign Powers Watch the Crisis.

SOFIA, June 2.—Anti-Stambuloff riots have occurred in Varna, Philliopoli, Bazardjid, Talatrar and other Bulgarian towns, in every case resulting in bloodshed.

VIENNA, June 2.—News from private sources in Sofia shows that the situation there is much more serious than the despatches have indicated. A rigorous press censorship is exercised, and telegrams revealing the gravity of the crisis are either suppressed or mutilated. There has been severe fighting in Sofia, and the rioting in smaller cities grows more serious hourly. It is reported that Stambuloff and all his colleagues excepting Petroff are prisoners in their homes.

BERLIN, June 2.—The Tageblatt has a Belgrade despatch which says that two battalions of infantry and the entire police of Sofia have declared themselves for Stambuloff. There was a fierce conflict in the streets to-day between them and the loyal troops. Many on both sides were killed. The riots in the provinces continue. The prefect of Tatar-Bazarsjik, East Roumelia, was murdered last night.

ST. PETERSBURG, June 2.—The Novoe Vremya, in an inspired article, says that civil war in Bulgaria is apparently inevitable, adding that whatever may be the result of the conflict between Prince Ferdinand and ex-Premier Stambuloff, the present state of affairs cannot be permitted to go on. If ex-Premier Stambuloff obtains the upper hand foreign intervention in Bulgaria is certain.

TO ROUT ROSEBERY.

Rumors of Alleged Revelations to be Made Known in London.

NEW YORK, June 2.—The Herald's special says: There has been floating around the clubs and other centres of information in London for many months vague rumors of some revelations that were soon to appear in connection with the Irish home rule movement, rout the Gladstone-Rosebery party and triumphantly carry Lord Salisbury and the Tories back into power.

Similar rumors were in circulation in the spring of 1887, just before the appearance in the London Times of the series of articles entitled "Parnellism and Crime," the publication of which afterward proved such a serious matter for that newspaper, and again on the eve of the general elec- in 1892, the latter time without result.

The rumors have recently taken a more definite form, and it is insisted upon by the best informed Irish Nationalists that a far-reaching attempt is about to be made by some of the leaders of the Tory party to besmirch the memory of Parnell and the good name of some of the Irish members of the House of Commons, with a view to affect the coming general elections in Great Britain and Ireland. Dr. Thomas Addis Emmett, president of the Irish National Federation of America, said yesterday: "The federation has information that the agents of the Tory party have been scouring the United States for nearly a year to obtain any kind of information that would enable them to get up a campaign cry for next election.

"We know that there are to-day English Tory agents in this country endeavoring to discover or manufacture any possible shreds of evidence in substantion of the objects of what I regard as one of the blackest attempts ever made to besmirch a political party.

"It has been openly boasted that the revelations will blow Rosebery and the Liberals as high as a kite; but for my part I have too much faith in the good sense of the English people to believe for one moment that their judgment can be affected by any such transparent fraud as is about to be attempted on them.

"That the Tory party is capable of resorting to desperate and despicable methods, the past fully proves. In Ireland it makes common cause with the extremist whom it denounces in the House of Commons in order to divide the Irish people and defeat home rule."

Dr. Emmett says he has never felt more confident of the success of the home rule cause than he does now.

The Y. M. C. A. Conference.

LONDON, June 2.—Preparatory to the opening of the thirteenth conference of the Young Men's Christian Associations of all lands the Central International Committee met in the morning. The report of committee which will be presented to the conference to day, was submitted for amendment and adoption. In the evening the opening service was held in Westminster Abbey. The music was led by the celebrated male surpliced choir of the abbey. The opening sermon was preached by Dr. Temple, Lord Bishop of London. His text was I. John, ii: 14.

Lynched a Colored Brute.

HOMER, Tenn., June 2.—A negro named Frank Ballard, 18 years old, assaulted Miss Birdie Thomas while she was returning home from a visit to a neighbor's. The brute failed to accomplish his purpose and being frightened by the girl's screams cut her throat and fled. Armed men took up the trail and ran the miscreant to earth. Without wasting any time they hanged him to the limb of a tree and riddled his body with bullets.

FLOOD AT THE COAST

No Sign of Abatement of the Floods in British Columbia.

THE RIVER STEADILY RISING

Dead Bodies of a Family Lashed to a Raft—Several Districts Completely Under Water — Canadian Pacific Tracks Washed Away for Fifty Miles.

VANCOUVER, B.C., June 4.—The river still continues to rise. There is no indication that an abatement of the floods can be immediately looked for. Lamley, Chilliwack, Harrison, Centreville and Farling Centres are completely flooded, the water being everywhere in sight. The only safe means of getting about is in boats. The Canadian Pacific tracks are either washed away or unsafe for fifty miles between Mission and Mission Creek. Passengers and mails are being transferred back and forth in steamers. Yesterday morning as the steamer bringing passengers from the east was passing Maria Slough the dead bodies of a father, mother and three children were found lashed to a raft floating in the water. This makes seven lives so far as known that have been lost since the flood began.

OTTAWA ITEMS.

A Rise in Hard Coal — Mrs. Falding's Divorce Case.

OTTAWA, June 4.—Local members of the Canadian Lawn Tennis Association are busy these days making preparations for the annual tournament of the association, which takes place in this city, commencing on Tuesday, July 3, and lasting for four or five days.

There is a rise in hard coal here from $6 per ton to $6 50.

Mrs. Falding, who is applying to Parliament for a divorce from her husband, is a daughter of Mr. T. C. Keefer, C.E., of Ottawa. About fourteen years ago she married Falding in Ottawa. He was then in the Department of Justice, but afterwards prosecuted business at Sherbrooke, Que., as a mining engineer. They had two children, both of whom were drowned in the Ottawa, together with Miss Keefer, four or five years ago. Falding went to New York and it is alleged married a young woman in that city. He is now living at Cleveland, O. Mr. Falding is at present in Toronto.

East Peterborough Patrons.

NORWOOD, Ont., June 4.—About two months ago the Patrons of Industry of East Peterborough placed a candidate in the field for the Legislature in the person of William Quinn of Druro. They also nominated John Lang, ex-M.P.P. of Otonabee, as their candidate for the Commons. A convention of the Patrons was held in the town hall, Norwood, Saturday, where some discussion took place in regard to Mr. Quinn's expenses in the coming contest. Many of the members favored a withdrawal as the chances of electing the nominee were considered very slim. A motion was carried leaving it to the candidates themselves as to whether they should stand or not, whereupon Messrs. Quinn and Lang both withdrew. This leaves two candidates in the field for the Legislature, Thomas Hezard, M.P.P., the Liberal candidate, and John Lancaster, deputy reeve of Otonabee, standard bearer of the Conservatives. Both the gentlemen are Patrons of Industry, but adhere more strongly to the old parties.

Suspicious Disappearance in Toronto.

TORONTO, June 4.—On Saturday while three young lads were playing on the Dufferin street wharf they found a coat and hat. They searched in the coat pockets and discovered a letter, which gave the name of Thomas H. Stonier. The lads carried the articles to No. 6 police station where the officer in charge looked up the directory and found that a man bearing the name of Stonier resided at 58 Stafford street. A constable was despatched to that address and found that Mr. Stonier had not been home last night. Stonier is an engraver, and up to a year ago was employed in the Toronto Silver Plate Company, King street west, when he and several others were discharged owing to the dull times. Since that period he has been unable to get any employment, and if is supposed that in a fit of despondency he may have walked into the lake at Dufferin street wharf.

Two Disastrous Fires.

ST. JOHN, N.B., June 4.—Two disastrous fires occurred in this city yesterday. The first broke out a little after midnight. The fire worked its way to the stone building around the corner of Chimpan Hill, formerly owned by Daniel & Boyd, but now in possession of Manchester, Robertson & Boyd as a wholesale warehouse. A second alarm of fire brought out all the apparatus and brigade in the central part of the city. The buildings occupied by A. Miller & Co. and Mollison Bros. were slightly damaged. The total insurance is $123,000. The total loss to stock and buildings will be over $250,000. While the firemen were still at work an alarm from box 132 was rung in from Hamilton's mill in the north-end, the apparatus and men in the district were soon on the scene, but the big mill was a mass of flame when they arrived. The mill is a total wreck. It was built by James Hamilton, an American, in 1870 at a cost of $30,000.

A Glenallan Elopement.

DRAYTON, Ont., June 4.—The quiet village of Glenallan had a little excitement on Saturday when it was found out that Miss Fannie, only daughter of John Hought, had eloped with John Hilborn of Bloomingdale. It appears Hilborn was working in Glenallan and had been paying attention to Miss Hought for some time. The father had forbidden Hilborn the house but they continued to meet in secret and the father being here on business an elopment was planned. The young couple evidently had sympathizers as two rigs were waiting at the outskirts of the village. Miss Hought walked out and met them and all drove rapidly to Berlin.

Suicide at Hespeler.

HESPELER, June 4.—The body of Mr. John Wehner, jr., was found in the woods near the old quarry, on the property of Mr. Robert Brodie, lying on its face, his throat cut with a razor, which was lying close to the body. He had, before committing the act, closed the case of the razor and put it in his pocket. Mr. Wehner was to have been married on Wednesday to an estimable young lady of this village. No cause can be assigned for the act.

Pleased With the Earl of Jersey.

LONDON, June 4.—The Times this morning says the selection of the Earl of Jersey to represent Great Britain at the intercolonial conference at Ottawa is a matter for general congratulation. His moderation, sound sense and judgment and his trained capacity for dealing with financial problems are likely to be more valuable than enthusiastic predisposition to accept imperalistic conclusions.

Lady Aberdeen Welcomed to Ireland.

QUEENSTOWN, June 4.—An enormous crowd, comprising members of various public bodies, awaited the arrival of the steamer Etruria to welcome the Countess of Aberdeen, among the purposes of whose visit is the advance of the Irish Industrial Association. The Countess was presented with several addresses.

Another Negro Lynched.

DUBLIN, Ga., June 4.—About ten days ago a negro was caught in the room of Mrs. Cooney, fifteen miles from here. He was arrested and put in jail here. On Saturday night a mob entered the jail, took the negro three miles into the country, took him to a tree and shot him.

The Fighting in Salvador.

PANAMA, June 4.—The Star and Herald has received the following special advices from San Salvador. In the battle of Santa Anna on May 24 the government troops under Gen. Ezeta were defeated. Gen. Ezeta was killed. Gen. Bolanos was wounded. President Ezeta has resigned in favor of Carlos Bonilla. A counter revolution is sure to break out, as Bonilla is not generally acceptable. Possibly Gen. Manuel Rivas may become president.

Brazilian Rebels Imprisoned.

NEW YORK, June 4.—The Herald's Montevideo despatch says: Information comes from Rio Janeiro that four Brazilian naval officers who returned from Toulon have been imprisoned for ten years for favoring the recent revolution. Senor Maraino, a member of Congress from Pernambuco, and Count Renal, chief of the Liberals in San Paulo, have been imprisoned.

The Pleuro-Pneumonia Question.

LONDON, June 4.—The officials of the Board of Agriculture have reported that the lungs of the suspected animal are affected with contagious pleuro-pneumonia, as are also the lungs of an animal loaded on May 23. This is taken to mean that Right Hon. Mr. Gardiner, the President of the Board of Agriculture, will not be able to see his way clear to discontinue the embargo on Canadian cattle.

Prohibition on Staten Island.

NEW BABYLON, S.I., June 4.—General Neal Dow appeared at the several meetings at Prohibition park, 10,000 people were present. Father Murphy, of Canada, was one of the chief speakers of the evening.

CHURCH CHIMES.

Rev. Father Collins, of the Cathedral staff, was in Brighton yesterday.

Misses Clara and Annie Bellegham sang a duet most acceptably while the collection was being taken up in George street church last night.

The regular meeting of the W. C. T. U. was held this afternoon at 3:30 o'clock at the residence of Mrs. Geo. Patton, Brock street.

Rev. W. J. Pady delivered an address in the Y. M. C. A. rooms last night on "Opportunities." The subject was ably handled.

The gentlemen of the E. L. of C. E. of Charlotte Street Church will furnish the entire programme of an entertainment to be given on the last Monday in the month.

At the different masses in St. Peter's Cathedral yesterday, prayers were offered asking the Almighty to govern the elements in order to save the crops from destruction.

During the evening service in the Mark street Methodist church Sunday Misses Etta Kindred and Nellie Hooper rendered a very pleasing duet with excellent taste and expression.

Rev. Mr. Kenrick delivered an able address on the objects, methods and work of the Brotherhood at the eleven o'clock service. Corporate communion was partaken of by the Brotherhood at 8.30 a.m.

A communion service for those attending the confirmation classes of St. John's will be held at 8 o'clock next Sunday morning. Others wishing to renew their vows are also invited to be present.

George Street Christian Endeavor Society, together with other societies of a similiar nature in town, will attend the service held in memory of Miss Jennie Mercer in St. Andrew's church this evening.

At Charlotte street church last night, the duet in the anthem "O! Lord, how Manifest," was taken by Mrs. Kernigan and Miss Holly. During the offering, Mrs. Kernigan sang a solo entitled "Cast Thy Bread Upon the Waters."

Memorial services will be held in St. Andrew's church this evening in commemoration of the late Miss Jennie Mercer. The members of the various branches of Young Peoples Societies of Christian Endeavour will be in attendance.

The Charlotte street Epworth League meeting which was to be held this evening has been cancelled in order to give its members an opportunity of attending the memorial services of the late Miss Jennie Mercer, in St. Andrew's church.

Rev. Mr. Hedley, curate of St. Luke's church, delivered a sermon to the members of the junior branch of the Brotherhood of St. Andrew's and their friends yesterday morning at 9.30. The theme was "Self-control" and the text chosen for the occasion was Gal. 5th, 22-23 vers. "But the fruit of the spirit is love, joy, peace, long-suffering, gentleness, goodness, faith," and "Meekness, temperance; against such there is no law."

Rev. E. Crago occupied the pulpit of the Charlotte street Methodist church yesterday, and preached in the morning from the epistle of St. Peter: "Which things the angels desired to look into," and in the evening he selected as the subject of his discourse part of the Lord's Prayer: "And forgive us our trespasses." The reverend gentleman delivered both discourses to good congregations. His remarks were both earnest and practical.

The stationing committee of the Bay of Quintee Conference will meet this evening in the lecture room of the George street church. It is composed of the chairman of districts and one minister from each district. The members this year are the following: Rev. W. Johnston, R. Drake, S. J. Shorey, W. Limbert, O. R. Lambly, W. B. Sesombe, John S. Clarke, H. M. Manning, E. Roberts, W. J. Crothers, W. J. Jolliffe, C. Parker, Joseph Young, James Anderson, J. W. Trotter, B. Greatrix, T. M. Campbell, C. L. Thompson, James Thom, R. N. Adams, W. Buchannan, T. W. Jolliffe, J. J. Rice, J. A. McAmus, E. N. Baker and G. Horton. Rev. W. Johnston, president of the conference, is chairman. The first draft will be ready on Wednesday.

ST. MARK'S, OTONABEE.

A special service for the local lodge of the C.O.F. was held at St. Mark's yesterday afternoon, the Rev. C. W. Hedley, officiating and preaching from the text, "The fellowship of the Holy Ghost." The church has just undergone a thorough repairing—especially of the interior. A new and handsome wood ceiling is the work of William and Thomas Thorn, two very able amateur carpenters, who volunteered their services, and have accomplished what would be a credit to any of their professional brethren. The walls and woodwork have also been repainted and the result is a very pleasing interior. The ranks of the Foresters were augmented by some of their brethren from Peterborough and the large attendance of outsiders taxed the seating accommodation of the church to its utmost capacity. The service was earnest and hearty, though there was a very evident sadness affecting the spirits of the congregation owing to the announcement of the death of Mrs. Greystock, who, from the establishment of the church, has been most constant and devoted in her service, whether of work or worship.

AT ST. JOHN'S.

Rev. Mr. Davidson was announced to preach a Brotherhood sermon last night in St. John's Church, but instead his rewarks were of a more general nature and addressed to those in particular who were apparently indifferent to religion, leaving it to other members of the family to attend to. The sermon did not take the form of a reproach, but the speaker reasoned with his congregation, taking the ground that two things were imperative and that no matter where one stood the Almighty demanded that attention should be paid to both God and man—to the Redeemer and redeemed, to the sinner and his Savior. Two commands stood out distinctly above all scriptural teachings, viz:—"Thou shalt love the Lord thy God," and "Thou shalt love thy Neighbor as Thyself." There were some, he knew, who thought that, as men, they were not called upon to do active work in the church and left this to the women. Of these men, he enquired whether they placed their religion on a level with small talk, that they allowed the women of the family to assume sole charge of it. There was no such line, he declared, to be drawn in this matter between the women and the men. If the Bible was read it would be seen that it cost as much lamentation and prayer to save the soul of a man as that of a woman. No man, argued he, may deliver his brother and make agreement unto God for him. No woman may save her husband by prayer or her son or brother. "No brother," concluded he, "you cannot do my work and I cannot do yours."

A MEDICAL HEALTH OFFICERS' CONVENTION.

The Meeting Convenes in Chatham in August and Already Preparations are on Foot for the Reception of the Doctors.

The medical health officers of the villages, towns and cities of the province will hold a convention in Chatham in the fall. The committee in charge of the reception of the health officers have arranged that the convention be held on Tuesday and Wednesday, the 14th and 15th of August, three sessions each day—at 10 a.m., 2 p.m., and at 8 p.m, and that the opera house be secured on one evening at least for a public meeting. On the day following Thursday—the visitors are to be asked to go on an excursion to Detroit on board the "City." This, however, was left over for further consideration. Previous meetings were also discussed with a view to obtaining points on entertaining the visitors during their stay in Chatham.

The subjects discussed will be: Deep water supply, drainage and cultivation of the district, The disposal of sewerage, Influence that drainage and cultivation of districts have on malaria, Sewerage of towns and disposal of sewerage, Underground waters, their source and supply, Laws relating to disposal of drainage and waters, School sanitation, and Municipal sanitation.

Dr. Clarke, the local medical health officer, will represent Peterborough at the convention.

THE FUTURE OF SCIENCE.

Some of the Great Feats Expected to Be Seen Performed.

The Scientific Problems of the Future is discussed by Lieut.-Col. Esdale in the Contemporary. He declares that new discoveries will crowd thicker upon the world in the twentieth than in the nineteenth century. Out of the possible legion he selects four.

"The conquest of the air is the first." Already navigable balloons are being prepared by the French War Office which are expected to go at the rate of 25 miles an hour. Failing the sudden invention of a true flying machine, the writer anticipates a progressive development of this class of balloon. First, the gas will have simply to sustain the weight; the lifting power will be supplied by the addition of air screws. The air screw or propellor will gradually predominate, until it does the work of wings, and the balloon is rendered superfluous. The flying machine was fourteen years ago, in the then condition of mechanical science, demonstrably impossible; but if the present rate of progress be maintained for another fourteen years it will have become actual. The flight of birds and the general laws of aerial locomotion have been carefully studied.

If competent and practical engineers would apply themselves to the problem it would soon be solved. The "vital issue" is to achieve "stable suspension in the air." "Once let the flying machine be stable, strong, safe and powerful enough for its work, and it will represent the safest kind of locomotion ever invented. * * * The revolution made in locomotion by the flying machine, whereby we shall be able to run from London to New York in perhaps from thirty-six to forty eight hours, and from London to Paris and back between breakfast and luncheon, will be at least as great as that caused recently by the introduction of railways and steam navigation. * * * The machines will run at a tremendous pace, probably up to or even exceeding 100 miles an hour."

Marine navigation is to be transformed. At present engineers seek to gain increased speed by developing the locomotive power. The writer suggests they are all on the wrong tack. They ought to study "the way of the fish in the sea," and to discover why the torpedo requires such enormously greater power to propel it than does the porpoise. He finds the reason of the difference in "surface or skin friction." This causes the larger half of total resistance to a ship's movement. We need to learn the secret of the coating of the fish. Smooth steel forms about the worst surface possible. He thinks that compressed paper faced like the skin of a shark might serve. He suggests that the Admiralty should grant two or three thousand a year to experiments under a competent authority. The resistance due to wave-action might be obviated by a vessel of the American whaleback type. Ocean steamers might with present motive power run fifty knots an hour.

How to get the power out of coal without burning it, or rather, how to bring coal into such a condition that on conjunction with the oxygen of the air it will supply us with electrical force, is a problem the writer expects to be soon solved. He is also hopeful of chemical and medical science making the vegetable foods—notably grass—digestible by man without first passing through animal intermediaries. An enormous increase of our food supply would be the result.

Sir Francis Johnson's Will.

MONTREAL, June 4.—The will of the late Sir Francis Johnson, Chief Justice of the Superior Court of the Province of Quebec, was filed on Saturday. It is dated October 17, 1892, and takes the form of a letter to his son. In it he requests to be buried as plainly and cheaply as possible in a plain deal coffin, nothing more, no hearse or vulgar show. He leaves to his widow and children all property of which he dies possessed. The will concludes: "May God bless you all and may we meet in a happier world. Here's a sigh for those who love, and a smile for those who hate."

W. C. T. U. Convention.

LONDON, Ont., June 4.—The Dominion Woman's Christian Temperance Union convention is in session at London. Miss Tilley, of Toronto, the secretary, read the annual report. Four new unions have been organized in the Northwest. The organization will soon be legally incorporated. The treasurer's statement showed the receipts to be $1,232.35, with $377.54 on hand.

Cardwell Liberals.

TOTTENHAM, June 4.—A large gathering attended the Reform convention on Saturday and after several nominations unanimously selected Mr. Wm. Wright, of Bradford, to contest Cardwell.

Rejoice With Us!

Only a few times in many years has been our pleasant privilege to give the ladies of Peterborough that which every lady appreciates most—a new dress of seasonable fabrics, just when it is most needed—AT HALF OR LESS THAN HALF PRICE. But, while we do not make much on these two lots of Dress Goods, you save from 25 to 50c. on every yard.

"It's Fair's way."

Don't let your dress speak of a prosperous past, but be up to date in the fashion, as our low prices enables you to be.

DRESS IN GLOVES.

The colour, make, and fit are what you need when you are out. If you dress without the proper effect in gloves, you are out of style. Our glove display comprises everything in this line in vogue this season.

There are fads in bonnets and dresses and wraps,
And fads so funny we love;
And though it may seem unlikely perhaps,
'Tis a fact there is a fad in a glove.

On the crinoline dress there are plenty of jokes,
And the fad is a subject of jest;
But the glove that suits both young and old folks,
Is at Fair's—it leads all the rest.

PLENTY OF WORK TO BE PROVIDED.

The Big $20,000 Sewer Will Likely be Gotten Under Way in a Few Weeks.

THE TOWN SOLICITOR'S OPINION.

The Work Will Probably be Recommended by The Board of Health and be Carried Out on the Initiatory System—There Will be Lots of Work for the Unemployed.

The Mayor and Messrs. Cahill, White, Best, Kelly, Hall, Hughes, Dawson, Sutton, McIlwain and Mason were present at the meeting of the town council last night.

The following

COMMUNICATIONS

were read and disposed of as stated:—

From N. T. Laplante and others petitioning for pipes with which to drain a portion of Hunter street, the petitioners being willing to foot the expense of constructing the drain if the material be supplied.—Referred to the Street and Bridge Committee.

The chief of police preferred a request for new waterproof coats for the members of the police force.—Referred to the Committee on Supervision of Police.

From John Gamble, complaining of damage done his property by the raising of the railway grade and asking redress from the town,—Referred to the Finance Committee.

From Henry Owens and others, asking that a further 500 feet of Sherbrooke street be drained in addition to the 1,100 feet already petitioned for.—Referred to the Street and Bridge Committee, after it has been ascertained by the town clerk whether it has been properly signed or not.

From R. G. Rogers stating that he had paid $20 for a pedlars license and asking for a rebate on the ground that he had been a resident of the town for many years.

Moved by Mr. Dawson and Mr. White, that the request be granted.—Carried.

From the president of the Bell Telephone Company acknowledging an order for three additional fire alarm boxes and stating that a new contract for the apparatus would be drawn up the old one having expired.—Referred to the Fire, Water and Light Committee.

From the county treasurer showing the expenditure on Pigeon Creek bridge to be $304.92 for the year ending December 1893. Also a request from the same official for a cheque for $19.50, being the town's share of the expense incurred by the employment of a shorthand reporter for the County Court.—Referred to the Finance Committee.

From the Drummond, McCall Pipe Foundry Co. Limited, asking that information regarding the laying of the the new sewer be sent them and an opportunity given them of supplying figures for cast iron piping.—Referred to the Sewerage Committee.

From Philip Lococo asking for a refund of $15 on his $20 license fee, he being a resident of the town.

Referred to the License committee. Lococo, it seems, is not a house-holder and although he was here last summer he spent the winter in Toronto. This is the reason immediate action was not taken.

From Dr. P. H. Bryce, Provincial Medical Health Officer, directing the attention to the Municipal Board of Health to the recent enactments concerning public vaccination and asking steps had been taken in this respect.

Received and referred to the Health committee.

From Edward Minicolo stating that he is a resident of the town and asking that a pedlar's license be granted him for $5.

Referred to the License committee.

A communication was received from Street Inspector Pope asking that a telephone be placed in his house at the town's expense.

On motion of Messrs. Kelly and Dawson the request was granted.

—Statement received.

The

STREET AND BRIDGE COMMITTEE

recommended that no action be taken in regard to the application of the Street Railway Company for the passage of a by-law, but that the matter be left as it is under that the statute.

That the labourers be furnished with hammers when breaking stone for the corporation.

That on the recommendation of the committee a cheque be issued in payment of the accounts for the new roller and road scraper if they prove satisfactory.

That in building the drain on Sherbrooke street a 12 inch vitrified sewer pipe be used.

The following work was recommended to be taken up in the different wards:—

NO. ONE WARD.

On Wolfe street.—A sidewalk from George street to the wharf, 140 feet.

On Dalhousie street.—Sidewalk west of Stewart street, 120 feet.

On George street.—Sidewalk between Rink and Perry streets, 75 feet.

NO. TWO WARD.

Water street.—Sidewalk north from Charlotte street, 113 feet.

Aylmer street.—Sidewalk between Hunter and Brock streets, 203 feet.

NO. THREE WARD.

Stewart street.—Sidewalk north from Brock street, 240 feet.

Cross street.—Material supplied for sidewalk, 100 feet.

Dublin street.—Sidewalk east from Stewart street, 100 feet; a sidewalk on Aylmer street south of Dublin street, to be removed and used at this place.

NO. FOUR WARD.

Manning avenue.—Sidewalk from end of present sidewalk to Aylmer street, 3.0 feet, and crossing on Aylmer street.

Benson street.—Sidewalk on west side north from Aberdeen avenue, 240 feet.

CROSSINGS.

About 20 block crossings will be required in different parts of the town, at a cost of about $16 each.

REPAIRS.

There will also be some general repairs required in different places.

In reference to the petition for opening George street at the south end, the committee could not see its way to recommend any action at present.

On motion of Messrs. Best and Hughes, the report was adopted without discussion.

The special

COMMITTEE ON SEWERAGE

reported regarding the building of a sewer from King street to the outfall at the river. The subject was discussed in committee of the whole Council and the chairman of this commitee was instructed to obtain the opinion of the town solicitor, as to the power of the council to charge a frontage tax for the cost or a portion of the cost from Townsend street north. The solicitor's opinion had been obtained and was attached as follows:

I have carefully considered the provisions of the Municipal Act bearing upon the questions as to sewerage submitted by you.

In my view it is advisable to separate that part of the proposed work which is being constructed by general assessment on the whole town, from that part which is to be constructed under the provisions relating to the local assessment. For this purpose it will be necessary to submit a By-law to the electors, authorizing an issue of debentures to the amount refunded. Thus as I understand it would be for the outfall sewer from Townsend street to the river according to the last report of Mr. Macdougall.

(2) From Townsend street northward I understand it is deemed advisable to construct the work as a local improvement. It cannot be constructed partly as a local improvement and partly by general taxation, except always that the cost of culverts and other works necessary for street surface drainage and also the cost of that part of the street at street intersections and opposite exempted property is to be paid for by general rate.—[Sec. 613 (5), and Sec. 627.]

(3) I understand that between Townsend street and King street it is proposed to lay a pipe larger than will be necessary for the sewage of that part of George street, in order to provide for the carrying off of the sewage from the upper part of George street, or at least from the present sewer extending as far north as Hunter street. In such case the council may impose a special assessment upon the real property thus benefitted; that is, upon the property north of King street which will be served by providing the outlet. This may be confined to the property served by the present sewer, if the George street sewer is to be extended beyond Hunter street or to take in parts of other streets in the central part of the town, the special assessment may be extended to all the property benefitted by having the larger outlet. This would relieve the property between Townsend and King streets of a part of the cost.—Sec. 620 (3).

4. Three modes are provided by sections 616, 617 and 619 for initiating proceedings for the work as a local improvement.

(a) Upon petition signed by two-thirds of the owners of property benefitted, representing one-half in value.

(b) The council may initiate the proceedings and pass the by-law, unless within a month after the publication of notice a petition be presented against the work signed by the majority in number and representing one-half in value.

(b) Upon the recommendation of the local Board of Health the council may, by a vote of two-thirds of all the members of the council, affirm that it is desirable and necessary in the public interests to construct a sewer for the purpose of draining a particular locality for sanitary or drainage purposes, as a local improvement. Section 619 (4) provides for the report of the Engineer or other sanitary officers and of a committee of the council being adopted by the council, recommending the work or improvement for sanitary or drainage purposes and thus would appear to be in addition to the recommendation of the Board of Health. This provision for proceeding on sanitary grounds or for drainage purposes was first applied in 1877 to the city of Toronto only, and under it the case of re. Brock and the Corporation of Toronto was decided in 1880, (45 U.C.R. 53) upholding the right of the city to proceed without a petitition on sanitary grounds. This course may be adopted by the town council and it has the advantage, when the grounds for it exist, of avoiding the complications that frequently arise in case of petitions.

(5) The mode of initiating proceedings having been determined, whether on petition or otherwise, the council may proceed in either one of two ways:—

1st. A by-law may be passed under 612 for providing the means, ascertaining and determining what property will be benefitted and fixing the assessment for the estimated expenditure. And under section 613, if this assessment should prove insufficient, a second or other additional assessment may be made. Besides such a by-law, provision is made for an appeal from the assessment by section 618.

2nd. Under section 618, for the purpose of avoiding the complications likely to arise from pursuing the last mentioned course, a simple method is provided. Under this section the council may proceed with the work, borrowing money as required from the bank; and after it is completed and the amount required definitely ascertained, the council may then fix the assessment and borrow the money by debentures to pay the temporary advance. This latter course I recommend as the simpler mode of procedure and the more exact way of fixing the amount and the assessment.

(6) The procedure as to publication of notice, appeal, etc., is provided by section 618. In the case of proceeding under section 619, this would be done after the completion of the work. If the by-law passed under 619, after the completion of the work, should be set aside or quashed for illegality in the making of the assessment or passing such by-law, the council is authorized to pass a new by-law so often as may be necessary.

(7) The by-law authorizing the issue of debentures, payable by special assessment, need not be submitted for the assent of the electors.—[Secs. 627 (2) and 626 (1).]

Yours truly,
E. B. EDWARDS.

The report was received and referred back to the committee with instructions that the matter in conjunction with the town solicitor's letter be considered in a committee of the whole and that the Mayor should be notified as soon as a plan of action had been decided upon, so that a special meeting of the Council might be called and preparation made for taking up the work at once.

A DELEGATION.

Mr. Kennedy and others addressed the Council. The former complained that the water was so governed at White's dam that at times of freshets it backed up on the lands of the residents on Park street in that vicinity and flooded the cellars. He asked the Council to interfere in the matter and direct that the water be controlled in such a manner as to remedy the evil of which he complained.

Councillor Dawson also spoke in favour of some movement being taken. He stated that stop-logs were put in the dam, and, as the mill did not run on Sundays, the consequence was that when the water was not watched it backed up and ruined every well in the neighbourhood. It was also a source of disease. The Board of Health last year, he stated, was the poorest Board of Health that ever was appointed in the town, and if the present Board took no action in the matter an appeal would be made to the Provincial Board of Health. He claimed that no one in the council was in favour of doing anything for this end of the town.

Mr. Hall stated that he, for one, was in favour of remedying the evil, if possible, but it was hard to find a legal way of getting at the difficulty.

Mr. Hughes defended the Board of Health. The members, as well as Dr. Clark, had often been up to the scene, que they would prefer getting the opinion of the Provincial Board of Health in the matter.

On motion of Councillor Hall the matter was referred to the Town Solicitor for an opinion as to whether the town was legally in a position to take action.

VOTE OF THANKS.

On motion of Mr. Hall and Mr. Dawson, a vote of thanks was passed to Mr. Stevenson for the courtesy which he extended to the council's delegation to Ottawa re. the Trent Valley Canal.

In regard to this trip to Ottawa Mr. Hall informed the council that he was considerably out of pocket on the head of it and that when he had applied to the clerk for reimbursement he had been informed that there was no money to pay over to him. The appropriation had been all spent. He knew that the Mayor also had spent quite a good deal of money on the affair and he wanted the council to take some action. He had taken a Pullman car for the trip as he always did, so when he travelled in his own interests and did'nt see why he shouldn't do so when on a business trip for the town.

Someone muttered out something about an appropriation of $120 being made to cover the expenses, but Mr. Hall thought as this some was not sufficient an additional grant should now be made. No action, however, was taken and on motion of Mr. Dawson the council adjourned.

ANGLO-SAXON FEDERATION.

Union of Great Britain and the United States—A Belt of Peace.

LONDON, June 5.—The Graphic publishes this morning a notable interview with Sir George Grey, some time Premier of New Zealand and Governor of Cape Colony, concerning a further federation of the English-speaking people. Sir George prophesied a close confederative alliance of the United States and Great Britain. The difficulties of such an alliance, he said, would soon disappear and then a beginning of the movement towards federation would be made. The monarchy would strengthen the republic, he said, and the republic would help strengthen the monarchy. Each had some features which might be most advantageously retained. The settlement by arbitration of recent differences between the two countries had brought them nearer each other and had justified hopes of such a union that neither would make war without the other's consent. There would then be a great belt of peace around the earth.

Countess of Aberdeen Eulogized.

DUBLIN, June 5.—The Countess of Aberdeen Saturday night addressed a large meeting in Cork, held under the auspices of the Irish Industrial Society. Her subject was the promotion of the association's interests, both in Ireland and at the Chicago Columbian Exhibition. The mayor declared that the benefits conferred on Ireland by the Countess of Aberdeen were unexampled in its history. He expressed the hope that in the future happy times, under home rule, the Earl of Aberdeen and his Countess would be the first rulers of Ireland as representatives of the Queen.

Steamships Suffer for Coal.

CHICAGO, June 5.—The ability to get fuel for steamships has become a question of much concern here. A vessel owner who desires to send a steamer to Buffalo with grain telegraphed to several fueling places on Lake Erie and found that at most of them would have to take hard coal or none. The local supply is nearly exhausted. Experiments with hard coal on lake steamers have been satisfactory, and the boats will undoubtedly take anthracite when necessary. Telegraphic reports say the fuel supply on St. Clair river is completely exhausted and that only hard coal is for sale at Detroit and Erie.

Should Share the Navy's Expenses.

LONDON, June 5.—The Leeds Imperial Federation has memorialized the Imperial Government to instruct Lord Jersey, who will represent Great Britain at the Ottawa conference, to intimate that the time has come for the expense of the navy to be equitably shared by all self-governing countries of the empire, control of the navy being also shared. It suggests that, if necessary, the conference be adjourned to allow of a full discussion of the point. The Batley Chamber of Commerce has adopted the same memorial, and other chambers are being urged to follow suit.

Will Come Via the C. P. R.

LONDON, June 5.—In the House of Commons Mr. Arnold Morley, Postmaster-General, in reply to an inquiry by Mr. J. Henniker Heaton, said the Postoffice Department had heard nothing of an alleged reprisal on the part of the officials in the British postoffices in China to send parcels for the Dominion of Canada by the Canadian Pacific line, instead of via England. The postoffice authorities in London, he said, would place no obstacle in the way of direct delivery of the mails by the way of Vancouver.

Lord Dufferin's Daughter Marries.

PARIS, June 5.—Mr. F. Atlee, the British consul, performed the civil marriage ceremonies uniting Lady Victoria Alexandrina Blackwood, daughter of the Marquis of Dufferin and Ava, British Ambassador to France, to Mr. William Lee Plunkett, son of the Anglican Archbishop of Dublin. The ceremony was performed in the ballroom of the British Embassy. Only fifteen intimate friends of the contracting parties were present. The religious ceremony was performed subsequently by the father of the bridegroom.

SURGEON'S KNIVES.

Failed to Remove the Disease from Hezekiah Vaughan's System—Dodd's Kidney Pills, which have Never yet Failed, Cured Him in Short Order.

SANDWICH, May 28.—Hezekiah Vaughan, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Detroit, for what different doctors diagnosed as liver complaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 4½ hours, but when they got through, none of them could tell what was wrong, and the patient was left as bad as ever. The benefits derived by a neighbor from the use of Dodd's Kidney Pills, induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that afflicted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

THE PREMIER AT KINGSTON.

Sir Oliver and the Hon. William Harty Address Enthusiastic Electors.

KINGSTON, June 5.—A crowded and enthusiastic gathering greeted Sir Oliver Mowat and Hon. William Harty, the new Commissioner of Public Works, in the city hall last night. The building was decorated and the walls hung with mottoes. The ladies were out in force. E. J. B. Pense, president of the Reform Association, presided. Sir Oliver Mowat and Mr. Harty were tendered addresses expressive of admiration and confidence. Sir Oliver Mowat spoke for an hour. He claimed that the legislation passed by the Ontario Legislature was unsurpassed anywhere; that the administration of the departments were efficient and honest; that as critics the Opposition had most experience, and should be kept at it. They could criticise better than they could construct. He declared that the Government House would go when the people so expressed a wish, but biennial sessions were objectional and unstatesman like. The country had $50,000,000 worth of timber in reserve, which, if honestly administered, would prevent direct taxation for years to come. He asked for a renewal of public confidence on his record.

Hon. W. Harty was well received and made a stirring address.

G. W. Dawson, M.P., of Addington; Thomas Lymington, Napanee; James Aylesworth, Tamworth, and Dr. E. Mundell followed. The audience pledged support to Mowat and Harty in the campaign.

DOMINION W. C. T. U.

Quebec Chosen as Next Place of Meeting —Officers Elected.

LONDON, June 5.—Quebec was chosen as the meeting place for 1895 at yesterday's session of the Dominion W. C. T. U. convention. The Executive Committee recommended among other things that the Union affiliate with the National Woman's Council of Canada. This point was discussed to-day.

The officers of the year were all re-elected, including Mrs. Ella F. M. Williams, of Montreal, president; Mrs. (Dr.) Todd, of St. Stephen's, N. B., vice-president at large; Miss. Tilley, Toronto, corresponding secretary; Mrs. A. O. Rutherford, Toronto, recording secretary; Mrs. Tilton, Ottawa, treasurer. Each officer was introduced, and all were saluted in Chautauquan style by the convention.

The ladies all replied, thanking the delegates in appropriate language. The session closed with a very practical reading on the word "Watch," by Mrs. J. K. Barney, superintendent of penal, charitable and reformatory work in World's W.C.T.U.

A Large Waist

Is not generally considered a necessary adjunct to the grace, beauty or symmetry of the womanly form. Within the body, however is a great waste made necessary according to the condition of things—continually in process and requiring the perfect action of all bodily functions to absorb or dispel the refuse. When there is irregularity or inaction, ladies who value a clean, healthy body will take Dr. Pierce's Favorite Prescription—the only remedy for woman sold with a positive guarantee to RIGHT all her peculiar WRONGS.

To those about to become mothers, it is a priceless boon, for it lessens the pains and perils of childbirth, shortens labor, promotes an abundant secretion of nourishment for the child and shortens the period of confinement.

Dr. Pierce's Pellets cure biliousness, constipation, sick headache, indigestion or dyspepsia, and kindred diseases.

IS COMING!

The Attention of Every Lady and Gentleman that has THIN HAIR or that is BALD is called to the visit of

PROF. DORENWEND

To PETERBOROUGH, who will be at

GRAND CENTRAL HOTEL

—ON—

Saturday, June 9.

There are indeed very few Ladies or Gentlemen in America but what have heard of the skill of PROF. DORENWEND as a manufacturer of Hair Goods of all styles, and there are very few places on the globe but what one or more of his styles are worn. Those that live closer to his manufacturing place, like all the Ontario cities and towns, are more fortunate than people of United States, Australia or England, and it is because he visits this place at least once a year, they are able to see his Goods before ordering and having then tried they see the effect his Hair Goods Coverings give to their general appearance, but his business has so rapidly grown in the last few years that he is unable to visit these places so often, for this reason. All who require these Goods should not miss the opportunity given by this visit.

See his beautiful LADIES and GENTS WIGS, TOUPEES, SWITCHES of every LENGRTH and SHADE, BANGS in every shape, heavy or plain fronts, etc.

Remember he is at the GRAND CENTRAL HOTEL, June 9th.

STORY OF THE FLOOD

Accounts of the Disaster by Settlers From the Scene.

GREATER INUNDATION FEARED

The Fraser River Rising at the Rate of Three Feet in Twenty-Four Hours — All the Dykes Are Down— A Passenger Train's Close Call.

VANCOUVER, June 5, via San Francisco, June 5.—The old settlers say by observation of snow upon the mountains that if the weather continues hot the Fraser will rise twelve inches higher. This will mean another series of great calamities. The surmise as to the possible damage occasioned by the floods have been realised.

The flood-bound passengers, who were detained east of the break for ten days, have been brought to Vancouver by the ferry and by train. They are a sun-burnt weary lot, but they are full of marvellous tales of the terrible floods. Their stories suggest that not one-half of the wholesale devastation has been chronicled. There were some newspaper men among the benighted travellers, and they issued a newspaper called the Glenwilliam Hustler, printed on note paper and scraps of wrapping paper. This periodical gave accurate accounts of the flood and the disasters of Ruby creek. Some of those were of the most startling nature. One of the newspapers contained a complimentary address to the railroad officials, and signed by every passenger on board the train.

The following information was gained from some of the hundred and fifty detained passengers:

Death on a Raft.

At Kootenay, all the lowlands are inundated by the rising of Kootenay and Columbia rivers. The distress among the farmers is very great. Donner's ferry is inundated and the water is rising very fast. The Robinson and Nelson branches of the Canadian Pacific are almost washed away. "The workmen at Ruby creek found floating in the river," says one report, "a small raft, its cargo being the dead bodies of an entire family. It is surmised that after several days drifting about the tide-tossed waters without food or sleep, the castaways resigned themselves to their awful fate, and husband and wife embraced each other for the last time, tied themselves with ropes to their their three little ones, and after a season of awful suffering, passed one by one beyond earthly trials. Thus they were found securely bound together." Many other such scenes of horror are expected to be developed before the mighty rivers settle to their former confines.

Many of these settlers were so paralyzed by the tremendous rush of waters that they made no attempt to save their cattle, and hundreds thus perished when they could easily have been saved. The worst has not been reached. This is because the Cariboo waters have not come down in full force.

Three Feet in Twenty-Four Hours.

All the Indian ranches are swept away. The water is twelve inches above the floods of 1882. The river has risen three feet in the past twenty-four hours and is still rising. The track is washed away at Warren Rock and the rail passengers are brought by boat direct from Ruby Creek to Westminster. There is a good deal of suffering in the city and provisions are scarce. The meat supply will not last another two days The dam at Hope Slough has broken away as well as the dyke and the farmers in that section have lost everything.

The flood is now running eight miles an hour and constantly increasing in velocity. The water has risen six inches at Mission and eight inches at Langley. Roth towns are completely under water, and the greatest suffering prevails. Chilliwacktown is inundated, and steamers are sailing over the tops of houses in that locality. The Hatzlee people are sailing into the open doors of their homes in boats.

A Close Call.

There have been narrow escapes along the line, notably at the bridge over the Nicola river, near Spence's bridge. As the first eastbound train since the trouble commenced went over, the last sleeper had scarcely passed the two west bents to the large span, when the former were carried down by the current. The coaches made a perceptible drop which could be felt by all the passengers. It was the closest call to real bad disaster during all the trouble.

Terrible Picture of Suffering.

"Never in my experience," said Chief Surveyor Campie, "did I behold such a pitiable sight and such helpless people. The suffering is terrible and deserving of the sincerest commiseration. The people are hopeless and without sustenance. The struggles of a lifetime are gone for naught. The handiwork and pride of many years of hard work now lie below the raging billows of the Fraser."

A Cry for Help.

Another batch of passengers has arrived and report several more washouts. At Nichemen island there is one twelve miles long and two miles wide. All the funds realized by holiday celebrations will be devoted to the sufferers. Cattle have been found nearly dead from the exhaustion of climbing the mountain. From all sections comes the report of "Water still rising; send us provisions."

Business is suspended outside the city. Pitt Meadows dyke collapsed last night, flooding forty thousand acres of farms. All the dykes in the valley are now down. Passenger trains are now running regularly eastbound and connecting by boat with the section east of the big break caused by the Fraser.

Bad Drinking Water.

Travellers suffer greatly from the different kinds of water they are compelled to drink, as nothing is so likely to bring on an attack of Diarrhœa as change of drinking water. Perry Davis' PAIN-KILLER is the only safe, sure cure for Diarrhœa, Cramps and Cholera Morbus and the value of every traveller should contain a bottle of the mixture, which he can procure at any reputable drug-store. 25c. for a large bottle.

Derby Plug Smoking Tobacco is noted for Quality, 5, 10 and 20 cent Plug.

It Will be a Difficult Task.

LONDON, June 5.—The Times, in an article dealing with the matters to come before the intercolonial conference at Ottawa this month, says that for the colonies to produce a Pacific cable scheme on a sound financial basis, acceptable to the various Governments, will be a subject difficult enough to tax all the practical ability of the conference.

Political Tie-up in St. Paul.

ST. PAUL, Minn., June 5.—St. Paul is on the eve of a political contest which is likely to tie up every department of the city government. The trouble arises from the claim by the two leading political parties that they have a majority of the assembly, the upper branch of the city council. All efforts to secure a compromise have failed.

The Uprising in Corea.

SAN FRANCISCO, June 5.—Meagre details of an uprising in Corea were brought by the steamship Sydney. At the latest accounts the insurgents had put to death the governor and thirty-four other persons, including a number of officers, and were marching upon Seoul. A force of soldiers has been sent to meet them.

A Warrant for the Governor.

COLORADO SPRINGS, Col., June 5.—It is stated on good authority that Gov. Waite will be in the hands of the United States officers within the next twenty-four hours, but upon what charge cannot be learned. It is known, however, that the governor will not call out the State troops to assist the sheriff.

Ask for a Purer Press.

LONDON, June 5.—A circular signed by 105 members of the House of Commons has been sent to the editors of the prominent daily newspapers throughout the United Kingdom, asking them to cease reporting sensational cases of immorality or brutality.

Killed by a Bursting Shell.

LONDON, June 5.—A party of excursionists near Tralee, Ireland, on Sunday picked up an old shell near an artillery camp and began rolling it along the ground. The shell exploded and killed three of the party and wounded a dozen others.

Cholera in Prussia and Silicia.

BERLIN, June 5.—The Reichsanzeiger announces that in consequence of the increase of cholera in Prussia and Silicia the health authorities have been ordered to make a weekly publication of the number of cases in each district.

Fatal Street Car Collision.

ATLANTA, Ga., June 5.—A collision occurred on the Atlanta traction street car line in which one motorman was killed and another fatally injured. Eight passengers were injured.

ROYAL BARGAINS!

Here are a few actual specimens of some of the RICHEST NUGGETS in the Dry Goods line thrown on the market for many a day.

To avoid sensationalism—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods

WORTH ABOUT DOUBLE THE PRICE—

5c. 3 Papers of Good Pins. Good Glass Towelling. 1 Pair Good Towels. Good Flannelette. Good Straw Hats.

10c. Good All-Wool Debeige. Good All Wool Delaine. The Best 15c. Prints. 2 Ladies Knitted Vests. Ladies' Fast Dye Black Hose.

15c. 4 Good Lawn Handkerchiefs. 4 Nice Fancy Frills. Fancy Veiling. Nice Ceylon Flannel. White Japanese Silk Hemstitched Handkerchiefs.

20c. 500 yards Lovely French Figured Crepons, to be sold at 20 cents a yard—sold everywhere else at 25 cents.

25c. 2 pairs Ladies' Lisle Gloves. 2 yards of Fancy Coloured Skirting with Border. 3 yards Fine Checked Muslin. 3 pairs Gents' Wool Socks. 3 yards of Satin Striped Muslin.

30c. 750 yards of Beautiful Dress Goods to be cleared out at 30c. These Goods would be good value at 50c.

35c. Good Kid Gloves. Good Lace Curtains. Good Corsets. Ladies' White Chemisettes.

40c. 2000 yards of Good All-Wool Silk-Finished Henriettas at 40c. These Goods are actually worth 60c.

Lodge 209, L.T.B. holds a special meeting to-night. A large attendance is requested.

—There will be a special meeting of Canton No. 10, P. M., to-morrow evening. A full attendance is requested.

—A drunken and disorderly youth made things lively at about 12 o'clock last night for the residents of North Ashburnham.

—Mr. and Mrs. Cartwright entertained a party of friends on board the delightful little steam yacht, the "Curlew," last evening.

—A fine programme of sports has been arranged to take place on the occasion of the picnic held in the grounds of St. Joseph's hospital on Dominion Day.

—Destroys bed bugs, cockroaches and other similiar pests, sure as death. What? Post's Corrosive Sublimate, for sale at Lynch's Drug Store, 168 Hunter street.

—There will be a church parade of the 57th Battalion, Sunday next. The Rangers will march to St. John's church where Rev. Mr. Davidson will deliver a special sermon.

—The band turned out last night and gave another delightful open air concert in the park. Although the evening was chilly hundreds turned out to hear the music and enjoy a stroll through the park.

—A cow case was up before the magistrate this morning. The owner of the animal proved to be a woman and she was let off with a warning to keep the bovine from roaming at large in the future.

—Otonabee Lodge I. O. O. F. did not confer the third degree on any candidates last night, but postponed the function until next Monday evening, when both the second and third degrees will be conferred.

—The new town roller was out this afternoon on Charlotte street getting in its work on the gravel and broken stone, which has lately been placed on that thoroughfare. Street Inspector Pope is well satisfied with the work it does.

—Through the kindness of Mr. J. S. Knapman, a telephone has been placed in the motor room of the George street church this morning. It will be used for the benefit of those attending the conference and is numbered 102.

—The Peterborough Lacrosse Club will give a moonlight excursion on the evening of the 18th, on the new steamer City of Peterborough. The affair is held on the invitation system and a palace scow will be taken along for dancing purposes. The objective point of the trip will be Jubilee Point.

—Mr. Dickson Jewett returned from Agincourt last night, where he went to endeavour to identify a couple of tramps, under arrest there, with the ones who attacked himself and Wm. Crossley last week. Although the Agincourt arrests were tough enough looking for anything, they were not the men wanted.

—Remember the auction sale of that most desirable, modern, solid brick dwelling house, No. 372 Hunter street (corner of Part street), on Wednesday evening, June 6th, at six o'clock on the premises. This is a chance that seldom occurs to purchase, at your own price, a fine residence in the best part of the town. Be sure and attend the sale. 2d131

—Mr. Howard Pew, representing "Sousa's Peerless Band," one of the finest organizations of its kind in existence, was in town to-day arranging for the appearance of the band here at a matinee performance on Friday afternoon, June 22nd. This band will be assisted by two first-rate vocal artists, Francisca Guthrie-Moyer, soprano, and Anton Schott, teror. Bradburn's opera house.

—The big Dominion Day Celebration which will be given under the auspices of the Board of Trade, Fire Brigade and citizens, promises to be a huge success. Those who are pushing the affair are the right men in the right place and the celebration will be one which will place the name of Peterborough at the top in this section for providing amusements on occasions such as this. The band contest alone should draw a big crowd to the town. Then there are a thousand and one other amusements promised.

—A request was read in the council chamber last night from the Chief of Police requesting that new rubber coats be furnished the members of the force. The fact of the matter is that the ones at present in use do not turn the water at all but are of so poor a fabric as to absorb the moisture and become wet through in a very short space of time. The best goods are always the cheapest in the end and it will be economy on the part of the committee to recommend the purchase of coats of a good quality.

—There is a mistaken idea afloat regarding the seats which have been furnished for the members of the band in the park. They were not placed in position by either the Horticultural Society or the town, but by Dr. Burnham, who learning that it was very fatiguing for the men to stand and play all evening after a hard day's work, in the kindness of his heart ordered the bench provided at his own expense. The members of the band are anxious that the public should know the true circumstances of the case.

—The Chief now expresses his opinion that the tramps whom he and a posse so diligently hunted last week down in Burnham's swamp did not stop in the bush at all, but went straight through and out at the opposite side. This view of the case would imply that one or two tough characters from the town were in collusion with the tramps and guided them back to the railroad track again. Others, again, who took part in the exciting man hunt, think that when the midnight train ran by it gave the refugees the clue as to where the track lay and they accordingly pulled out.

THE SITUATION IN EAST PETERBOROUGH.

MR. T. BLEZARD, the Liberal candidate, has not been idle in the present campaign. He has held most successful meetings in Burleigh, Anstruther, Chandos, Methuen and Belmont, and has received most enthusiastic and general assurance of confidence and support. He has proven himself a real friend to the people in all parts of the riding, and to the northern especially, and when he asks a renewal of the confidence he has enjoyed for the past fifteen years it is no matter of surprise that the response is of a most assuring character. So far in his canvass and campaign meetings he met with the greatest encouragement. Mr. Blezzard is a successful, practical farmer and is well qualified to make, as he has done, a most successful representative of a rural constituency. The considerate action of Mr. Wm. Quinn, the Patron candidate, in resigning is to be commended. In view of the fact that Mr. Blezard was a Patron also, a candidate of a Government whose policy accords in almost every particular with the Patrons' platform, and that the Patron vote if given solidly for their candidate, would not be numerous enough to elect him, it was a graceful act on Mr. Quinn to retire. He would have taken support in probably equal degree from both the Conservative and Liberal candidate. Under the circumstances the interests of the Patrons cannot suffer if Mr. Blezard is returned, for as before said, he is a Patron himself and in sympathy with both the Patrons and the great mass of the farmers, and no Patron and no farmer can go astray in regard to his interests by supporting Mr. Blezard. In fact one cannot see how any farmer can do otherwise than give his support to a government which has done so much in the past 22 years for the promotion of the interests of the farmers. What the Mowat Government has done for the benefit of the farming comunity may be briefly stated as follows: It has created a Department of Agriculture with a successful farmer as Minister; it has spent $2,731,310 in connection with agriculture in 22 years; it has collected and published farm statistics for the past twelve years; it has established the Agricultural College and Experimental Farm; it has organized and assisted 85 Farmers' Institutes; it gives grants to 90 electoral districts and 357 township and Horticultural Societies; from 1872 to 1893 it gave $1,336,793 for Agricultural Socities; it gave $20,550 in 1892 to 12 other associations organized for the benefit of farmers; it has established a fund for loaning money to farmers on easy terms for tile-draining their lands; it has sent out travelling dairies which have visited 669 places in 3 years; it has started a special dairy school at Guelph, at which 103 attended in the spring of 1894, and a special summer course for rural public school teachers at Agricultural College; it provided for the display of agricultural products at the World's Fair; it distributed 165,000 reports in 1893 and 1,200,000 bulletins in the past three years; it will shortly establish experimental fruit farms; it manufactures at the Central Prison a high quality of binder twine, which is sold direct to the farmers at low prices; 1,434 awards in agriculture were taken at the World's Fair, out of a total of 1,685 for Canada, or 85 per cent.

Mr. Blezard's record and the encouraging reception he is receiving from the electors in this campaign indicate that the electors desire a continuance, on Mr. Blezard's part, of the valuable and faithful services he has given East Peterborough for the past fifteen years.

IT was reported that Mr. Hampden Burnham had retired from active platform work in the present campaign. This rumour seemed all the more probable from the fact that at the first meeting of the campaign held at the Grange Hall, he described the speeches of the Opposition made at the last session of the Legislature, in elaborating their policy, as "utter rot"; he he is also credited with being out of sympathy with the policy enunciated by Mr. Meredith at London, and, therefore, his inactivity was easily accounted for. But last night Mr. Burnham again appeared on the platform at Selwyn. It can only be inferred that Mr. Burnham, seeing that his attitude was working injury to Mr. Winch's interests, preferred to consult the interests of his party to abiding by the suggestions of his personal convictions. Being a lawyer, he evidently considers himself justified in holding a brief in, and advocating, a cause with which he is not personally in sympathy.

We would advise all whose hair has become thin or who are bald to take advantage of this visit as the Professor's business has assumed such large proportions that he is unable to visit each town as frequently as formerly, so be advised. See his lady's and gents wigs, toupees, bangs, waves, switches, and every form of human hair coverings and secure the style most becoming to you. He will be at the Grand Central Hotel Saturday, June 9th. One day only.

COMMITTEE ROOMS.

Mr. Stratton's committee rooms will be open every night hereafter from 7 o'clock p. m. The daily papers are on the tables, so that those who desire to use the hall as a reading room can do. This announcement is made so that Mr. Stratton's supporters and the supporters of the Mowat Administration can at all times have a place in which to confer and report or exchange information and suggest action in the interest of the Liberal candidate in the West Riding.

PERSONAL.

Mr. Perry Goldsmith is visiting relatives in Bellevile.

Some idea of what costs to supply the Grand Trunk system with fuel may be inferred from the fact that $1,000 per day is paid out in duties, notwithstanding the fact that all coal east of Montreal is non-dutiable. It is estimated that on the whole system between Portland and Sarnia 2,500 tons of coal per day are burned. At present Nova Scotia coal is being rushed in.

Beautiful Lawns.

No other town in Ontario has so many handsome lawns as are to be found in Peterborough. Never before were lawn mowers so cheap and so well made. Look in the north window of the Peterborough Hardware Coy's store and see the display of lawn and garden tools. They have some magnificent cast iron urns at very low prices. dtf

A Beautiful Display

All should avail themselves of the opportunity of viewing the exhibit of paintings at A. Clegg's. These pictures are treated in a very able manner, the marine subjects are very good. Mr. Wilkinson's evening effects are charming, full of tender warmth. No. 9, "Murmuring Waters," is very realistic. This is a rare chance to procure some choice original paintings at very moderate prices and we think few of the pieces should leave town. On view at A. CLEGG'S, George street.

MR. STRATTON'S TENTH MEETING.

A RALLY OF THE ELECTORS AT BENSFORT.

Provincial Questions Ably Discussed—Mistatements of Mr. Winch's Stumpers Corrected—The Ross's Bridge Matter Explained—Reference to Mr. Meredith and his Second Prohibition Plebiscite.

Mr. Stratton addressed the tenth meeting of the electors of the West Riding at Bensfort on Monday evening. There was a good attendance. The chair was occupied by Mr. John Riddell.

Mr. G. M. Roger addressed the meeting at some length on several of the subjects at issue in the campaign, adducing convincing arguments in favour of the retention of the Mowat Government in power.

Mr. Dennistoun appeared on behalf of Mr. Winch and presented the arguments advanced by the Opposition in his usual forcible style. He thought the Mowat Government should be put out because declining to take a leaf out of the Yankee book, they were opposed to biennial sessions; because they would not change the ballot system so that ballot stuffing could be made easy, because they insisted on having a surplus when he, Mr. Dennistoun, tried to show that there was not a surplus. He also related the story of the Irishman taking a pig to the market and the substitue enroute of a pup for the pig, and other anecdotal contributions to the literature of the campaign.

Mr. Stratton, after dealing with the prominent questions relating to the campaign, turned his attention to the remarks of Mr. Arthur Stevenson and Mr. Earl made at Bensfort on Thursday night. He said that in spite of what Mr. Arthur Stevenson and Mr. Dennistoun and the other stumpers might say in regard to there being no surplus, there remained the plain indisputable fact that Ontario had a surplus of over six millions of dollars and that the

TOTAL ASSETS OF THE PROVINCE

would foot up to nearly one hundred millions of dollars. The Opposition would insist on twisting the finances in such a shape as to try to make the public believe that Ontario has a large debt, whereas the facts showed that she had no debt. The Dominion statistical record, prepared by a government hostile to Sir Oliver Mowat and one that would be only too glad of the chance to place a good round debt to the debit of Ontario, published a list of the debts of the provinces and the name of Ontario is not on the list. This shows that there is no debt or it would appear in this list. Mr. Stratton thought that Mr. Stevenson, although a young man in the political arena, would be more discreet than to raise a point to try tell against the Mowat Government, while his father, Mr. Stevenson, M.P., and Mr. Burnham, M. P. held opposite opinions to those expressed by the junior politician. It was a well known fact that both Mr. Burnham and Mr. Stevenson had through their influence secured surveys for surveyors in both East and West Peterborough, and no one ever heard Mr. Stevenson, junior, condemn Mr. Stevenson, senior, for taking such a course, the nearest approach being his condemnation of the Mowat Government for surveying new townships in Ontario, while his father's surveying operations were in the North West, where the advance of settlement was not of the most rapid character. The policy of the Ontario Government had been to survey from year to year the newer portions of the province to ascertain the resources of such districts and the same policy was pursued by the Dominion Government. He thought it somewhat strange that Mr. Stevenson would be so anxious in his search for a chance to condemn the Mowat Government that he would involve his own respected father in the condemnation. Mr. Stratton then related the circumstances in connection with the proposed

BRIDGE OVER THE OTONABEE

at Ross's, stating that in this matter he had been greatly misrepresented. He read the correspondence which passed between the government, himself and the Reeve of the municipality of South Monaghan. The correspondence showed that in February of the present year a deputation waited upon Mr. Stratton, composed of the council of South Monaghan and other representatives of the township, asking assistance in securing from the government of Ontario a grant of $4,000. This, the deputation stated, with the $8,000 which the Dominion government would be asked to give, and the amount the municipality of the township of South Monaghan was prepared to give—$3,000—would make up the $15,000 estimated to build an iron bridge at this point, which would shorten the distance to Peterborough market about 15 miles on the round trip. It would be remembered that the Government asked for further particulars, which were supplied, together with a plan showing the proposed site of the bridge in relation to the district to be benefitted. These proposals and the papers in connection therewith were now under consideration of the Government. Mr. Stratton said that Mr. Stevenson should know better than to expect an appropriation to be made by the Ontario Government before the Dominion Government approved of a bridge at that point, for he should know what the people of South Monaghan know that the river is

UNDER DOMINION JURISDICTION

and that the consent of the Department of Railways and Canals must be obtained before any bridge at the point in question could be constructed. If Mr. Stevenson and his friends would devote as much interest and attention to getting the Dominion Government to take action in the matter as to vilifying him (Mr. Stratton) and distorting the facts, he would be trying at least to do some service to South Monaghan. Action at present in the matter depended entirely upon the Dominion Government. So far as the Ontario Government was concerned they were well aware of the benefit the bridge would be to South Monaghan as well as to the town of Peterborough and if Mr. Stevenson's father has urged the matter upon the Dominion Government as strongly as he, Mr. Stratton, had urged it upon the Ontario Government, nobody has any cause to complain. If his opponents were anxious to do South Monaghan a service in this matter they might do so by urging the Dominion Government to action, without decrying or belittling the action already instituted by the representative of West Peterborough in the Local Legislature. As soon as Mr. R. B. Rogers, superintending engineer of the Trent Valley waters, reported upon the situation, which he believed he had been asked to do, he presumed the Dominion Government would take action one way or the other; after which, if the Ontario Government did not meet the action of the Dominion Government, the people would be in a position to locate the responsibility.

Some attention was given to Mr. Barton Earle's remarks at the late meeting at Bensfort. After an eloquent speech which, however, had very little bearing upon the issues at present before the electorate, Mr. Earle, as reported in the Review, said:—

"In proceeding he spoke of prohibition and rejoiced that prohibition was now a practical question, and referred to Mr. Mowat's course upon the Marter and Plebiscite Bills, his qualified promise to the temperance delegation and contrasted Mr. Mowat's promise with the straightforward one given by Mr. Meredith, which was supplimented by Mr. Marter's statement that Mr. Meredith would make prohibition a government question and stake the existence of his government upon the result."

PROHIBITION PROMISES CONTRASTED.

Mr. Earle, Mr. Stratton suggested, was, like the temperance Conservatives very easily satisfied with assurances given by a leader who had not the ghost of a chance of ever being able to apply them. To show how much "qualified" was Sir Oliver Mowat's promise, Mr. Stratton read the report of his interview with the deputation representing 1500 temperance people who waited upon him as follows:—

"Sir Oliver was applauded heartily when he rose to speak. He said he had listened with extreme interest to the resolution and to the eloquent words which they had just heard addressed to them. He recognized the great importance of the plebiscite. After so decided a vote as that he considered that no government would be justified in disregarding it unless it were in favour of something that was not in the public interest, and he did not think that was the character of prohibition. (Applause.) He observed that it was being said that, after all, but a very small number of those entitled to vote had voted, but that was always the case in regard to every public vote taken. (Hear, hear.) The vote was a remarkable one—remarkable not only that the majority was 82,000, but when it was considered that the majority was almost as great as the total vote against. The vote, therefore, he declared, must be regarded as expressing strongly and emphatically the public sentiment of the province. (Applause.) They all knew to what a large extent his sympathies had been with them in this movement all along. Long ago, he said, he had perceived what a large amount of the evil in the world arises from intemperance, and as the years had passed he had seen more clearly that a large proportion of the misery, suffering, disease and poverty of the world had arisen from intemperance, and men who perceive this, but do not concur with them as to the wisdom of the method they adopt, must still regard their movement with the profoundest sympathy and respect. "I think," the Premier said, "that prohibition, if it is an experiment, and if not successful in all the states where it has been passed, is still worth trying." (Great applause.) The vote removed all difficulty about it being demanded by the people. Legislation, he reminded them, was limited by the demand of the people. There were many good things that public opinion was not educated up to and that were not, therefore, proposed. But on this question the public have been educated. "I do not gather from the resolution that you have read," he continued, "nor the eloquent words that I have heard that you expect or even, perhaps, desire that I should bring in any measure pending the ascertainment by the courts of our jurisdiction and

HOW FAR THE LEGISLATURE CAN GO.

I stated my opinion strongly last year and I hold the same opinion now that that would not be in the interest of temperance, but quite the reverse. A prohibitory law under favourable conditions is not easy to enforce and the difficulty is increased immensely if you add the difficulty arising from its being doubtful if there is the power to enforce it." This was not a case, he continued, where a few people were against the law. There were large interests and wealthy companies against it. It would be difficult to get convictions at all, and any that could bd obtained would be appealed against and it was impossible to enforce a sentence while it was under appeal. There would be no limit to the drinking which would result under this state of affairs. There would be drinking in licensed and unlicensed places. There would be no restriction of it. "I have always been opposed," he declared, to do anything until I know what our jurisdiction is. When I know that, I am prepared to act." It had been said that it would be better to pass an act, and try its constitutionality by means of an action in the courts. That, however, was a cumbrous and costly method, while it was comparatively easy to get a decision by the means that had been adopted. He had promised to submit questions to the courts to obtain a definition of the powers of the Legislature. He had kept that promise. He explained the steps that had been taken, and showed that he had done all that he could to expedite the matter. The case was now set down for argument in the Supreme Court this month, after which it would go to the Privy Council. In preparing the questions to be submitted to the courts he had tried, he said, to provide in them for every aspect and in order to be sure that he was embracing everything in them that it was desirable for the temperance cause to have settled, he sent a copy of them to Mr. J. J. Maclaren, who had returned them with the comment that he believed they covered everything. Concluding, he said: "As soon as a decision is reached by the Privy Council, at the first session thereafter, if the Privy Council decides that we have jurisdiction to pass a prohibitory law for the sale of intoxicating liquor and I am still premier.

I WILL INTRODUCE A BILL

for that purpose. (Great cheering.) In case we have authority for a partial prohibitory law, it is difficult to say anything, because we cannot anticipate what the power may be." Sir Oliver then read the following type-written statement of the Government's position:—

"If the decision of the Privy Council should be that the Province has the jurisdiction to pass a prohibitory liquor law as to sale, I will introduce such a bill in the following session, if I am then at the head of the Government. If the decision of the Privy Council is that the Province has jurisdiction to pass only a partial prohibitory law, I will introduce such a prohibitory bill as the decision will warrant, unless the partial prohibitory power is so limited as to be ineffective from a temperance standpoint."

THE DEPUTATION SATISFIED.

There was enthusiastic cheering when the Premier finnished reading. The cheers and applause were continued for several moments. When it had subsided the Chairman said to the Premier: "I am sure that I need not say that your answer is everything to be desired." (Applause.)

Dr. Potts—Eminently satisfactory. (Applause.)

Rev. Dr. McKay—May I ask Sir Oliver a question?

Dr. Potts—The shorter catechisim. (Laughter.)

Sir Oliver (smiling)—Don't be hard on me.

Dr. McKay—I am perfectly satisfied, but I would like to ask if Sir Oliver will give as much prohibition as the courts decide he has the power to give. I would like it to be so plain and definite as to satisfy the rankest Tory in the Province.

Sir Oliver—I have no hope of satisfying them.

The last part of his reply was re-read, however, and it was admitted that nothing more definite could be desired.

Mr. Joseph Gibson, stepping forward, declared that, though Sir Oliver had said he had no hope of satisfying the Tories "his enunciation would carry joy into many a Tory home." (Applause.)

Mr. Hardy responded to the calls for him. "You do not want more oratory," he said.

Dr. Potts—Experience, then. (Laughter.)

"The Premier has spoken my sentiments," Mr. Hardy proceeded, "he has spoken the sentiments of all the members of the Government who are in the city—they are all here. I need not say more." (Applause.)

Mr. Ross was also called upon, but excused himself by saying he hoped to be with them in the evening at their meeting.

Dr. Potts wound up the speech-making. "I am sure I voice the feeling of the whole deputation," he said, "when I say that we cordially thank you and your Cabinet for the spirit in which you have met us and for the answer that you have given us." (Applause.)

The proceedings were closed with three cheers for Sir Oliver, called for by the chairman.

MR. MEREDITH'S "PROMISE."

Mr. Stratton then quoted from the report of Mr. Meredith's speech at London on May 21, his promise in reference to prohibition.

"Mr. Meredith announced his willingness to bow to the wishes of the people, but recognizing the difficulty in the way of enforcing a law not acceptable to the community he thought an other plebiscite would be advisable."

Mr. Stratton invited his hearers to contrast the promises of the respective leaders and judge which was the "qualified" promise. Sir Oliver Mowat had promised that if it was decided that the Ontario Legislature had the power to pass a prohibitory act, that he would introduce such a measure and procure its passage. Mr. Meredith's "positive" promise was the proposal to take another plebiscite, notwithstanding his willingness to "bow to the will of the people," who had declared by a large majority in favour of prohibition. Mr. Meredith claimed that prohibition was "not acceptable to the people"; and declared "another plebiscite advisable." The people were asked which was the straight promise and which was the evasion. Mr. Earle pronounced Mr. Mowat's explicit promise a "qualified" one and Mr. Meredith's shuffle a "positive" one. Mr. Earle was hard to suit, because he wished to be in opposition to Mr. Mowat and in favour of Mr. Meredith, no matter what interests of prohibition were involved. Mr. Mowat's promise was satisfactory to the deputation, the chairman saying that "it was everything that could be desired" and Dr. Potts asserting amidst applause, "eminently satisfactory." was Mr. Earle, who seemed so hard to please, a better prohibitionist than Dr. Potts, one of the most brilliant divines of the Methodist church? Was he a better prohibitionist than Rev. Dr. McKay? Was he a better prohibitionist than Mr. Joseph Gibson, who, a Tory that he was, cordially assented to the satisfactory nature of Sir Oliver Mowat's promise which Mr. Earle in his wisdom considers a "qualified" promise? Mr. Stratton continued, pointing out that

IT WAS DIFFICULT TO PLEASE

those who were determined not to be pleased, who in the absence of any legitimate grounds of objection to the acts of the Mowat Government, must needs resort to surmise and petty play upon words. While all could sympathize with the efforts of Mr. Earle and his co-workers in their efforts to promote prohibition and Mr. Winch's candidature on the same plane, much greater sympathy was needed by them in their efforts to give Mr. Winch "a leg up" into the temperance saddle for a dash for the prohibition cup. Mr. Stratton, after referring to the splendid record of the Mowat Government and its great administrative and legislative achievements in the interests of every class of the community, closed his effective address amidst hearty cheers showing how much his remarks had won the sympathy of his auditors. The meeting which was a very successful one closed with the usual cheers.

The meeting was one of the most successful of the campaign series. The hall was well filled and the electors present showed their hearty sympathy with the candidate for the Mowat Government and everything indicates that South Monaghan will give Mr. Stratton a more solid and united support than at any previous election.

DOMINION PARLIAMENT

Relief Asked for the Sufferers of the Fraser Valley Floods.

OBSERVANCE OF THE SABBATH

Mr. Charlton's Bill Reported From Committee—Bill to Disfranchise Bribed Voters Read a Third Time—Georgetown Postmastership—Chinese Labor.

OTTAWA, June 5.—Mr. Corbould, who represents New Westminster, B.C., asked the Government in the House if they intended to do anything for the relief of the sufferers from the floods in the Fraser valley.

Sir John Thompson said he hoped the Government would in a few days be supplied with information upon which action could be taken.

Hon. Mr. Laurier said he would like at the same time to have the Government consider the claims of the sufferers from a similar disaster in Port Neuf county.

Mr. Prior asked if the Government had taken any action yet in regard to stopping the employment of Chinese by the Imperial authorities on the fortifications at Esquimalt.

Sir John Thompson replied that the Government had received a resolution from the Board of Trade of Victoria on the subject of the employment of Chinese laborers at Esquimalt. They felt that nothing more could be done than to transmit the views expressed in the resolution to the home authorities, which had been done.

Hon. Mr. Daly, in reply to Mr. Martin, said it was the intention of the Government to arrange for the education of a limited number of the deaf and dumb of the territories at Manitoba asylum for the deaf and dumb.

Sir Adolphe Caron, in reply to Dr. Landerkin, said that Miss Ella Goodenough was in charge of the Georgetown postoffice last year during the illness of the postmaster; that Herbert Henderson did not perform the duties; no petitions had been received by the Postoffice Department asking for the removal of the postmaster owing to his illness.

Mr. Coatsworth moved that it is expedient to insert in every contract for any public work made and entered into hereafter a clause requiring the contractor to pay the workmen engaged upon such work a rate of wages at least equal to the current rate of wages paid in the locality where such work is being done and during the time such contract is being carried on, unless the Minister with whose department the contract has been made shall for special reason relieve the contractor from the observance of this clause.

Hon. Mr. Ouimet said that at first sight the proposition seemed reasonable enough, but when thoroughly investigated insurmountable difficulties presented themselves. Who would decide what the "current rate of wages" should be? Would it be the trades unions, the contractor, or the workmen themselves? If such a definite arrangement could become general as in Toronto, where the corporation fixed the minimum at 15 cents an hour, no difficulty would be experienced; but he knew of no other place in the Dominion where such an agreement existed. Such an arrangement would greatly increase the cost of public works.

Mr. Fraser (Guysboro) opposed and Mr. Edgar favored the resolution.

Mr. Ingram thought that if the resolution was amended so as to simply provide that the local rate of wages current should be paid in the place where the work was in progress that the House would accept it.

Hon. Mr. Laurier said he would vote against the resolution.

Sir John Thompson advised the adjournment of the debate for the purpose of securing information.

Hon. Mr. Mills opposed the motion, on the ground that the law of supply and demand regulates wages.

Col. Amyot said there was a bill before the House dealing with a similar subject, and he would vote against the present resolution as unnecessary under the circumstances.

Mr. Martin said that there were hundreds of towns and villages in Ontario that had gone bankrupt since the N. P. (Laughter).

Mr. Coatsworth—Will you name them?

Mr. Martin—I could, but it would take up too much time.

Mr. Coatsworth—Name one.

Mr. Martin—Look in the census.

Dr. Weldon's bill to disfranchise voters who have taken bribes, was read a third time.

The House then went into committee again on Mr. Charlton's bill to secure better observance of the Lord's day, commonly called Sunday. The first clause, relating to the publication of Sunday newspapers, was adopted on a vote of 98 to 21.

Clause 2 would close the canals between 6 a.m. and 10 p.m.

Hon. Mr. Haggart proposed an amendment prohibiting traffic between 6 a.m. and 9 p.m., and giving power to the Governor-in-Council to suspend the operation of the clause for a period not exceeding four weeks.

Mr. Charlton accepted the amendment, which was carried on a division.

Mr. Charlton withdrew clauses 3 and 4, which prohibit railway traffic and Sunday excursions. The other clauses, fixing the penalties at not more than $50 for the first offence, and not more than $100 for the second, and rewarding a successful prosecutor with half the fine, were carried, and the bill reported.

On Mr. Coatsworth's bill to make further provision for the prevention of cruelty to animals, the committee fell into a discussion on pigeon shooting. An amendment to strike out the words "except as a bona fide test of skill and markmanship" was carried, and the section prohibits "keeping or using any live animal for the purpose of being used as a target to be shot at for amusement."

The next section deals with the shipment of cattle. It requires the separation of smaller animals from larger in railway cars, and makes the shipper or the railway company liable for penalties in case the animals suffer death, pain or injury through the section not being complied with.

After carrying this section the committee reported progress, and the House adjourned.

HOOPER'S TRIAL ADJOURNED.

Postponement Caused by the Prisoner's Demand for a Mixed Jury.

THREE RIVERS, Que., June 5.—John Reginald Hooper appeared in the Court of Queen's Bench at Three Rivers to stand his trial on the charge of having attempted to murder his wife. Judge Bourgeois presided. This is the second time the accused has had to stand his trial, the first having been held in Joliette in January last, when he was acquitted. Owing to the prisoner's demand for a mixed jury, the trial has been adjourned until Friday.

Customs Appraiser Dead.

HAMILTON, June 5.—Mr. Andrew A. Wylie, customs appraiser, died on Saturday afternoon at his residence here, aged 48 years. Mr. Wylie was at one time engaged in the dry goods business and had resided in Hamilton since 1836. He was a member of the Masonic order and was well and favorably known in the city. Heart trouble was the cause of death.

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

SPOTS AND BLEMISHES, CAUSED BY BAD BLOOD, CURED BY

B.B.B.

DEAR SIRS,—I am thankful to B.B.B. because I am to-day strong and well through its wonderful blood cleansing powers. I was troubled with scrofulous spots and blemishes all over my body and was advised to try Burdock Blood Bitters. I took one bottle, with great benefit, and can positively say that before I had taken half of the second bottle I was

PERFECTLY CURED.

I am so pleased to be strong and healthy again by the use of B.B.B. and I can strongly recommend it to everybody. LORENZO FULLERTON,

RECIPROCAL RELATIONS

Demanded in the Report of the New York Chamber of Commerce.

CANADA AND THE WILSON BILL

This Country is Made the Beneficiary in the Products of Field, Forest and Mine—Canada Should Reciprocate With Regard to Manufactures.

NEW YORK, June 5.—The thirty-sixth annual report of the Chamber of Commerce of the State of New York has been submitted to its members by George Wilson, the secretary of the Chamber. It contains the usual trade reviews, with statistics of trade and finance and much other valuable information. Concerning commercial relations with Canada, the report says:

"Among other important questions which have come before the Chamber during the past year, was that of our commercial relations with Canada under the pending tariff bill. The Committee on Foreign Commerce and the Revenue Laws submitted a report on the subject which was unanimously adopted at the meeting of March 1, and a copy ordered to be sent to the President of the United States and to the members of both Houses of Congress.

"The report declared that the Wilson tariff bill, as it stood at that time, admits the products of the fields, forests, mines and fisheries of Canada to a great extent free of duty. Canada consumes largely many articles of American manufacture, in some cases made from the raw materials purchased by the manufacturers of the United States from Canadian producers. On these manufactures the present tariff of Canada imposes a heavy duty, which operates as a barrier to trade between the two countries.

"The Chamber believes that if Canada's products are admitted to our markets free of duty it is but fair that Canada should reciprocate as regards our manufactures. Our fishermen are entitled to better treatment than they have heretofore received at the hands of the Canadian Government. American shipping on the great lakes should have the benefit of uniform navigation laws, applying alike to Canadian and American shipping, and American railroads entitled to fair and non-discrimination for the tariffs. These great advantages, it was urged, could be obtained by suspending the operation of our new tariff law as it applies to Canada until these questions can be adjusted by a commission representing both the interests of Canada and the United States.

"This subject is of great importance to the agriculturists of the United States as well as to the interests indicated in the report. The value of farming land on the Canadian side of the frontier is much less than that on the American side, and the same is true of farm products. If the Wilson bill should become a law in its present form, it would practically unify values on both sides of the line. In other words, it would lower land values on the United States side and increase them on the Canadian, with precisely the same effect upon the products of that land.

"While this might insure to some extent, to the benefit of consumers in the United States, it would unquestionably be detrimental to those of producers, but it would be of inestimable benefit to Canada. Many farmers in our northern tier of States are largely in debt, and the enactment of the Wilson bill would mean bankruptcy to them. If it be deemed best, however, to make this sacrifice in the interest of the consumer, it would seem but ordinary business common sense to exact from Canada for the other interests mentioned in the report fair treatment from the Canadian Government."

Terrific Tornado at Tacoma.

TACOMA, Wash., June 5.—A terrific wind storm has occurred here, wrecking a score of houses and business blocks, burying half a dozen persons under the debris. The yachting sloop Constance, with four persons aboard, is supposed to have been capsized on Puget Sound by the violence of the wind. At Olequea, Cheballis, Centralia, Ellinsburg and other places on the Northern Pacific Railroad, over a dozen houses and stores were blown down. The storm was accompanied by heavy rain, thunder and lightning. The velocity of the wind was fifty-four miles an hour.

Train Robbers Break From Jail.

WELLINGTON, Kan., June 5.—Nate and Felix Young, the train robbers who were shot and captured by Messenger Jake Harmon, of the Rock Island road, while holding up a train in Oklahoma about a month ago, sawed their way out of the Pond county jail, with outside assistance, and escaped. They went west, but are hotly pursued by a posse of deputies.

POLITICS IN NEWFOUNDLAND.

More Whiteswayites Unseated—Revenue to be Collected by Proclamation.

ST. JOHNS, Nfld., June 5.—Two more Whiteswayites were unseated and disqualified—Dr. Tait and Wm. Payne, members for Burin—Justice Little giving the judgment. The magistracy said postmasterships were offered to influence voters in return for political services and voters supplied with food.

The Salvation Army was given a sum of money to make roads to its cemetery in the hope of securing the members' votes. Nine men now have been unseated out of seventeen. The Governor has prorogued the Legislature for four weeks. In the meantime other trials are being pushed on in the hope that all the seventeen will be unseated before the Legislature meets again.

The revenue bill expires on Saturday, but revenue will be collected under proclamation.

The Robberies From the I. C. R.

RIVER DU LOUP, Que., June 5.—Leon Duba, a son-in-law of Dufor who was arrested on Saturday, has been arrested by the Intercolonial Railway in connection with the freight thefts. Both these men were ex-employes of the railway and knew all the ins and outs of the system in vogue at the station, and, as a consequence, it was extremely difficult to discover the thieves. It would appear from recent developments that the gang operated at night while the employes were occupied with an incoming train. Most of the goods were then carted to a merchant at St. Alexandre, Que., who disposed of them. It is expected that other arrests will follow.

Goodrich Sent to the Reformatory.

CHICAGO, June 5.—Charles Ferguson Goodrich, charged with the murder of Mrs. Cron, of Whitby, Ont., at Wilmette, who was convicted of manslaughter in Judge Sears' court six weeks ago, and sentenced by a jury to five years in the penitentiary, has been sentenced to the Illinois State reformatory by Judge Sears. A strong effort was made to secure a new trial for Goodrich, but the court overruled the motion. The court took into consideration Goodrich's age, he being yet less than 18 years old, and sentenced him to the reformatory school on the verdict of the jury.

Another Terrible Landslide.

MONTREAL, June 5.—A special from Quebec states that news comes from Charlevoix county, ninety miles below here, that a terrible landslide had occurred and that ten houses were precipitated into the Red river, and that there has been a great loss of life. Details are lacking, but the accident which occurred is similar to that at St. Alban about a month ago. The houses were carried away at Bros Noir, where the stream of that name joins the Red River. There is no telegraph communication with that point and particulars are meagre.

Engineers Gathering at Montreal.

MONTREAL, June 5.—About one hundred and fifty members of the American Society of Mechanical Engineers arrived by special train late last night to attend the annual convention, which opens here today. Mayor Villeneuve and Sir Donald Smith, chancellor of McGill University, welcomed the visitors.

THE RULING MARKETS.

TORONTO, June 5, 1894.

The amount of wheat on passage to Great Britain and the Continent is 43,872,000 bushels, a decrease of 1,320,000 for the week. A year ago the amount afloat was 44,552,000 bushels.

THE FARMERS' MARKET.—Street receipts of grain are small, there being only one load of oats, which sold at 39c. Wheat is quiet at 61c for white, at 60c for red and 58c for goose. Barley 41c to 42c and peas 66c.

The Chicago wheat market was firm and the close showed a net gain of ¼c. Corn was in good demand and closed 3-8c to 1-2c higher. Oats were strong, closing at 5 8c to 3-4c higher.

In the Buffalo cattle market 100 cars were on sale. Choice heavy stock, 25c higher; fair flesh stock, 15c and 20c better; choice to prime exporters, $4.25 to $4.60; good butchers, $3.75 to $4.15. Sheep and lambs—Fifty cars on sale; active, 10c to 15c higher; most all offerings were sheep. Hogs—One hundred cars; bulk of good stock sold at $4.75 to $4.85; most of the good weights at $4.80.

The dealings at the New York stock exchange showed some increasing in volume and business was better distributed, the railroads group coming in for a larger share of attention. London purchases of St. Paul and Louisville & Nashville had much to do with the change. A report that the soft coal strike would soon be called off had a great effect at one time, but was subsequently denied. The engagement of $1,400,000 gold for shipment by the Trave had no influence. The industrials were active, and at one time sold at the best figures reached since the present bull movement set in. The rise brought out long stock, especially in Sugar and Chicago Gas. Whiskey developed its greatest strength late in the day.

MEMORIAL SERVICES.

The Last Tribute paid to the Late Miss Jennie Mercer.

All the Christian Endeavor Societies of town assembled in the school room of St. Andrew's church last night to take part in the memorial service of the late Miss Jennie Mercer. The school room was filled to its utmost capacity, the ushers finding it a very hard matter to seat all. Shortly after 8 o'clock Mr. Albert Hamilton took the chair. After the meeting was opened with song and prayer, Miss Irwin was called upon to make the first address, representing the Junior Societies. She spoke in the very highest terms of the energetic work done in this branch by Miss Mercer, and said, without fear of contradiction, that Miss Mercer's whole life was in the work and by her sudden demise there was a gap left that would be hard to fill. Mr. Ward, secretary of the county Union, told of the wonderful faithfulness which the departed sister displayed in the performance of her duties as secretary for the county Union during her two terms of office, and hoped that her example should stimulate others to push on and do the portion of the work the Master has alloted to them. He said that the county executive would miss her very much.

Mr. Johnston, president of the local Union, said that any words that we might say could not convey the respect the Endeavourors felt for Miss Mercer. Witn the exception of her own family none will miss her more than the Endeavourers. Her faithfulness made the society the success that it is in the town and county, and how happy it was for us to reflect that "though she is dead yet she lives." On behalf of the local unions he wished to extend to St. Andrew's society their heartfelt sympathy at the loss of such a valuable worker.

Mr. MacWilliams spoke in a very feeling manner. He said it was hard to find so many characteristics in any one person as was found in Miss Mercer. Her executive ability made her so successful in the Endeavour work. Her sympathetic nature commanded the respect of the children to to such an extent that they loved her, and her great fidelity to the work made it still harder to fill her place. He tendered his sincere thanks to the societies represented at the meeting, they having given up their meetings to attend this service.

Miss Anderson, superintendent of Junior Work in St. Andrew's Society, spoke in feeling terms of Miss Mercer's services in the Junior Work.

The chairman in the closing remarks said that he had not fully realized the loss the society and the church had received by the death of Miss Mercer until he he heard of the wonderful work she had performed in the many branches of the work. The musical portion of the programme was very suitable for the occasion those taking part being Misses Fawcett, Garrow, Kennedy, Dawson, and Mrs. Jones.

On motion of Mr. Cook, it was resolved that cheese weighed in at the different points of shipment should upbeam at least one-half pound over weight as an allowance for the weight of the boxes. This is done in all other cheese centres.

The bidding was opened by Mr. Fitzgerald who offered 8¾ for selections. The price slowly advanced by sixteenths until Mr. Wrighton secured the privilege of the first selection at nine cents. He chose Keene, Shearer, Warsaw and Pine Grove, who all accepted.

For 8¾ cents Mr. Cluxton picked Lakefield, Warminster, North Smith, Peterborough and Otonabee Union, but all refused.

Mr. Cook made a bid of 8 7-8 and Mr. Wrighton raised it to 8 15-16 and picked Central Smith, North Smith, Otonabee Union, Maple Leaf, Lang, Warminster, Lakefield, Fraserville, Missing Link, Bensfort, Mount Pleasant, Trewern and Peterborough.

Mr. Cluxton again bid 8¾ for further selections. Mr. Cook increased the offer by a sixteenth and secured Oakdale, Norwood, Melrose Abbey, Ormond, Westwood, Brooklin and Fleetwood.

Mr. Cluxton again started the bidding, this time naming 8¾ as the amount he was willing to give for a further selection. The offer again crept up to 8 15-16c. which price Mr. Cook gave for Ida, Blackstock, Bobcaygeon and Manchester.

At 8¾c. Mr. Cook got the product of Fenelon Falls, Star, Perrytown, Orono, Newtonville, Hope and North Verulam factories. Daisy D. refused this offer.

Mr. Cook bid 8¾c. for the balance and Mr. Wrighton raised it to 8¾c., which Millbrook accepted.

There were 4,123 boxes boarded, the approximate value being $24,738, Liverpool 50s.

MUNICIPAL UNION.

To The Editor of the Examiner:

SIR,—There are important factors in the question of municipal union which do not seem yet to be fully understood. In the first place does or does not the issue amount to this—that we receive some 1,500 extra population and in return that we join with the Ashburnham section in supplying them with the benefits of our waterworks system and Collegiate Institute, having provided these things for ourselves?

If this is at all a true statement of the case, I ask are we to receive at all an adequate compensation for the expenditure of our money asked for? The extra population will be brought no nearer to us than before and union would seem to give us only extra show and prestige in the eyes of the world. If this is what is really aimed at, I, as one citizen, protest. Some of us think that this advertising business has been overdone in the past. Peterborough should aim at solidity rather than show.

Again, is there, or is there not any probability that municipal union may require us to enlarge the Collegiate Institute in the future?

These are some of the questions which occur to me. In conclusion, may I say that I ask these questions simply with a view to having this matter decided in Peterborough's best financial interests. No one will willingly offend the sensibilities of our neighbours, but if the vote on Thursday should be "nay," it would not mean any insult to Ashburnham, but simply that in making a proposal on these particular terms our late council acted without the support or endorsation of their constituents. And this, of course, we should only do with deep regret.

Yours, etc.,
CITIZEN.

THIRD WEEK OF KELLS' SALE!

Everything Lovely! Everything Propitious!

EARNESTNESS continues to characterize each day's sales. There is no let up to the splendid success which has marked our Enlarging Sale from the very outset. On Saturday last our salesmen were simply lost in the crowds of buyers, and many, we are sorry to say, could not be waited on.

THANKS! THANKS!

We feel impelled, even at this early stage of our sale, to express our hearty thanks for the generous patronage extended to us, on this, the occasion of our First General Stock-Clearing Sale. We have to apologize, however, to those of our customers who we have been unable to wait upon during excessively crowded days, and also for the topsy-turvey shape of the store during the busiest hours of ceaseless selling.

Don't Forget Our Promise.

There will be a lot of goods sold during the next week, and we want to let our prices make such a name for our goods as will continue to draw the crowds.

Everything goes until our big stock is melted away like icicles before a hot sun.

We have determined to realize on our stock whether we do so at a loss or not. Here are a few of the Special Drives for the week:—

MANTLES.

This department must be closed out at once. It's a pity to give new goods such a slicing, but it's an all over bargain time, and there's no help for it. The Clearing Prices must be made sweeping enough to make the selling quick and prompt, as we have no time for waiting bids.

MILLINERY.

Including this season's Felt and Straw Shapes, Feathers, Ribbons and other Trimmings will be reduced to one-half. The doings of this department for the next few days will eclipse even the past good record. Everything will go to the people at almost their own price. You'll find all that's new here, and the service of skilled milliners at your command.

DRESS GOODS.

Another severe cut in prices all through our Dress Goods will put increased interest in our sale. Visit the department, see the goods, and you will buy.

PARASOLS.

The Parasol counter is one of the busiest spots in this busy store. We offer special inducements this week. All that are good, all that are new, at figures to startle and please.

Every Department is certain to awaken strong interest. We have made ample provision for the emergency, and you will be rewarded by such Exceptional Values as cannot be duplicated by any other Retail Store.

Rejoice With Us!

Only a few times in many years has been our pleasant privilege to give the ladies of Peterborough that which every lady appreciates most—a new dress of seasonable fabrics, just when it is most needed—AT HALF OR LESS THAN HALF PRICE. But, while we do not make much on these two lots of Dress Goods, you save from 25 to 50c. on every yard.
"It's Fair's way."
Don't let your dress speak of a prosperous past, but be up to date in the fashion, as our low prices enables you to be.

DRESS IN GLOVES.

The colour, make, and fit are what you need when you are out. If you dress without the proper effect in gloves, you are out of style. Our glove display comprises everything in this line in vogue this season.

There are fads in bonnets and dresses and wraps,
And fads so funny we love;
And though it may seem unlikely perhaps,
'Tis a fact there is a fad in a glove.

On the crinoline dress there are plenty of jokes,
And the fad is a subject of jest;
But the glove that suits both young and old folks,
Is at Fair's—it leads all the rest.

CUT THIS OUT

And see you get what we advertise.
LADIES' BLOUSES—All our $1.50, $1.75, $2.00 Blouses we let you have your choice for a one dollar bill.
LADIES' CLOAKS AND RUBBER COSSAMERS—to keep the rain out and protect your dresses—in some instances at HALF the original prices. For instance, Cloaks that were $6 to $8 now going at $2.75 to $3.50.
LADIES' COLOURED CLOTH CAPES—specially reduced to suit all cases—you-may-take-them prices.
JACKETS—Latest styles, large sleeves—cost of material. MANTLES—Profits pushed aside—it's a clear sweep—It's Fair's way.
LADIES' SILK PARASOLS 75c., $1, $1.50. If you want an aristocratic Umbrella, with fashionable handles and sensible covering, you know where to look for it. UMBRELLAS RE-COVERED WHILE YOU WAIT. The prices tell, and everyone tells the prices.

WHAT TYNAN KNOWS

His Connection With the Origin of the Irish Invincibles.

MRS. MOORE'S REMINISCENCES

The Much-Sought-For Witness in the Phœnix Park Case Discusses "Number One's" Book — Parnell Had No Connection With the Crime.

NEW YORK, June 6.—Quietly living with her son and daughter in a little flat at the top of the four-story brown stone house at 194 Waverly place, is a woman who in the days of the land league and "Invincible" organization played a leading part in the drama which culminated in the assassination of Lord Frederick Cavendish and Mr. Burke. Her name is Marguerite Moore, and it will have a familiar sound to all those in this country and England who are interested in those stirring days in Ireland. Mrs. Moore was at one time said to have carried from London to Dublin the knives which were driven into the bodies of Cavendish and Burke by Joseph Brady and Timothy Kelly.

Mrs. Moore knows something about P. J. P. Tynan, "Number One," and she also knows a little about the origin of the "Invincibles." "Tynan arrogates rather too much authority on himself," said Mrs. Moore while discussing Tynan's book. "His share in the Invincible organization was a minor one. The real heads of the movement, the organizers of the attack on Forester's life which failed, and the attack on the lives of Cavendish and Burke which succeeded, were Frank Byrne, an intimate associate of Mr. Parnell, John W. Walsh, known as 'Stockport,' and Edmund O'Donovan. All three are now dead, so I need have no hesitation in giving their names. But when he tries to suggest, as he does in the published story, that Parnell or Dillon, or Redmond, or Harrington, or Davitt was cognizant of this conspiracy, or knew anything about it, he says that which is not the truth.

"I know"—and Mrs. Moore laid a peculiar emphasis on the "know"—"I know that Parnell at least was innocent. Why I know this must remain for the present untold, because I should only involve some who are still living. It has never been known that when the news of the Phœnix Park murders was telegraphed to England Parnell nearly fell in a faint. The message was not half an hour old, when overwhelmed with horror and shame he called a meeting of his associates and tendered his resignation as leader of the Irish party, declaring his intention to retire from politics. Only when it was reported to him that the cause of Ireland would be irremediably damaged by this action did he at last withdraw it."

"Why then did he sit silent under Mr. Forester's terrible indictment in the House of Commons?"

"Because he knew," as he himself said, "that his denial in the House of Commons would have no effect whatever on the condition of the English public minds. Forester's arraignment of Parnell proves one thing above all others—that he knew of the conspiracy against his life by the "Invincible Brotherhood"; knew that the attempt to kill him was to be made on a certain day. He knew the hour and the minute of the attack, and had made all preparations to meet it. Yet knowing all this he went out of office; withdrew the guard from Phœnix Park, and allowed his successor, Lord Cavendish, to come into office without warning, ignorant and unprepared. James Carey, the informer who met such a tragic death at the hands of O'Donnell, gave Tynan the credit of organizing the Phœnix Park murders, and so far as I can tell he may be right. I was in Tullamore jail at that time and so can prove a complete alibi.

"Mrs. Frank Byrne carried the knives which were used from Paris to London, and a man and a woman took them from London to Dublin. Mrs. Byrne was in a delicate condition at the time, and it would seem scarcely possible for her to have taken them alone across the water. Carey said that his wife could identify the woman, but when Mrs. Carey was confronted with Mrs. Byrne, after the latter's arrest, she failed to recognize her. Once more I want to say that Parnell was always ignorant of the existence of the Invincible Society until it became known to him by Carey's confession."

Drank Water From the Seine.

LONDON, June 6.—A Paris correspondent says: A fissure in the Vannes aqueduct four years ago deprived Paris of a large part of her regular water supply and many families were forced to use water from the Seine. Four sporadic cases of cholera have been the result. Preventative measures have been ordered, and work on the aqueduct will be pushed.

FRASER VALLEY FLOOD

C. P. R. Subscribes One Thousand Dollars to Relieve the Distress.

THE OUTLOOK A GLOOMY ONE

Premier Davie and His Cabinet Ministers in the Work of Relief — Heroic Assistance Given by the Women—Prayers From Flooded Pews.

VANCOUVER, B. C., June 4, via San Francisco, June 6.—The Fraser river is still rising. The railroad officials say that the worst will come about Wednesday.

One can only surmise what is meant by "worst" as the list of disasters is most appalling already. Every one in this vicinity has turned pessimists. No one is hopeful. Every morning for two weeks it has been the same story. The water is still rising, and desolation and death is following in the wake of the tireless tide of destruction. To-day the rescue steamers took on board twenty-three men, secured from the trees and the roofs of houses. The people had not slept or tasted food for four days.

A Chinaman's Fate.

As the train was passing twenty miles east of Yale, a Chinaman, tied to a sluice-box, was seen frantically waving his hand for help. Later his dead body, still tied to the sluice box, was found lower down the river. It is reported that the bodies of two children, one a little girl with the body of a pet lamb clasped in her arms, were seen in the branches of a huge floating tree. But the stories of death and destruction are coming in so fast it is difficult to pick out the authentic news from canards.

Great herds of cows, bands of horses and flocks of sheep and swine are huddled together on the few islands that remain in the Fraser river. By Wednesday these islands will have disappeared, it is said, and with them the poor dumb brutes whose cries of terror can even now be heard for a mile.

Prayed From Flooded Pews.

Vancouver, Victoria and Nanimo are the only towns in British Columbia not affected by floods. Westminster city lies heavily. Tramways are flooded out and half the city is inundated. The city is also suffering from a meat famine. Chilliwack town is now all under water, and there are a thousand families destitute. On Sunday it was a touching sight to see a hundred canoes, propelled by Indians, filing from the door of a church at that place. The fathers of the city anchored their canoes to their pews and prayed to the Almighty for deliverance from the great devastation caused by the flood and to provide for them each day their daily bread.

The Heroism of Women.

The women of British Columbia proved themselves heroines. At Chilliwack and Mission City many of them donned rubber trousers and worked in eight hour shifts with the men in removing the household furniture to the rafts and are building temporary dams around Chilliwack. There are a hundred rafts piled with furniture waiting for town. The big prairies near Centreville, the richest gardens in the province, have disappeared beneath the destroying element. Five thousand volunteers and laborers are all working in the flooded district, but as yet they are making very little headway against the flood. The Canadian Pacific railway at an enormous expense are running trains regularly and are transferring by steamer over the flooded districts.

C. P. R. to the Relief.

Near the Kicking Horse Pass the passengers had to walk for an hour and a quarter over one mud slide before they could reach the connecting train. Pitt meadows, 60,000 acres of choice dyked land, owned by Vancouver capitalists and held two weeks ago at $106 an acre, are now but another receptacle for the vast tireless tide. Spuzzumo suspension bridge the pride of the people of Yale, is hanging on the side of an abyss a mass of twisted and torn timbers and metal. The railway officials are almost disheartened as the results of the flood came in by wire. To-day Sir William C. Van Horne sent the following message to the divisional superintendent: "Mr. Abbot: Contribute $1,000 towards the relief of the sufferers on the Fraser, and let me know what outside help is likely to be required."

Help Urgently Needed.

The number of persons rendered homeless by the floods is growing every hour, and a large sum of money will be required to provide provisions and quarters for them until they are able to shift for themselves. Premier Davie is doing duty at Kootenay, and the cabinet ministers are stationed at different points doing what they can to aid the sufferers. The municipal councils, the ministers and philanthropic people are organizing themselves into relief committees as help is needed at once. The last reports received are discouraging in the extreme. The water is still rising and driving the settlers further and further back. Meagre reports are coming in of great devastation along the banks of the Thomson, Kootenay and Columbia rivers.

Body Found at the Humber.

TORONTO, June 6.—The residents of the Humber are greatly excited over the finding of the body of a man embedded in the sand underneath the bridge. The body was badly bruised, but there are no gashes which would lead to the belief that there had been foul play. The man had lost a leg and his crutches were lying a short distance from where the body was found. His clothing was examined and papers found on him identify him as Peter Anderson. From the appearance of the body it is supposed he fell from the bridge, a distance of 80 feet. Deceased was a man who weighed about 200 pounds and was about five feet eight inches in height. Dr. Cotton was notified and has issued a warrant for an inquest.

Glengarry Liberals.

ALEXANDRIA, Ont., June 6.—A meeting of the Liberals of Glengarry was held yesterday. Owing to Dr. Bayside's illness he was compelled to decline the nomination tendered him at the last meeting of the convention. A resolution endorsing Mr. MacPherson, the Patron candidate, was carried unanimously. Both candidates profess to be in sympathy with the Government.

TO ABOLISH THE LORDS

Conference of the National Reform Union in London.

MUST BE ENDED OR MENDED

Resolution Submitted to the Conference by Mr. Labouchere to Completely Strip the Peers of the Power of Veto—Other Important Resolutions.

LONDON, June 5.—The conference of the National Reform Union, a movement in favor of the abolition of the House of Lords, or at least a considerable abridgement of the power of that body, was opened here with Philip James Stanhope, M.P., in the chair. After the preliminary work of organizing the conference, Mr. Labouchere submitted a resolution that whenever the House of Lords should reject a bill which had been passed by the House of Commons, it would only be necessary for the latter body to signify its approval of the measure by a formal vote, when the bill would forthwith become law. In proposing the resolution Mr. Labouchere said he himself was in favor of the abolition of the House of Lords, root and branch, but to be practical, they must first see what they are likely to accomplish. The House of Lords, he said, was an irresponsible and pernicious assembly, which was opposed to the elementary principles of safe government, and therefore it ought to be swept out of existence. R. J. Burnie, M. P., made a speech seconding the motion of Mr. Labouchere, and it was adopted by a unanimous vote.

Other resolutions were introduced demanding home rule for Ireland, manhood suffrage, cessation of royal grants, the disestablishment of the church throughout the United Kingdom and an increase of the proportion of the taxation borne by land. These resolutions were adopted.

Sir Charles Dilke's resolution, which also embodies the one-man one-vote principle, was adopted after an amendment that the franchise should not depend upon sex was lost by a vote of 24 to 21. Resolutions were also passed demanding the limitation of working hours, the increase of the liability of employers, the passage of local option laws and the establishment of old age pensions.

ROW IN THE ITALIAN CHAMBER.

Excited Deputies Engage in a Hand to Hand Fight.

ROME, June 6.—The debate in the Chamber of Deputies was remarkable for its bitterness. Luigi Diligenti, Radical, delivered a long tirade against Felice Gavalotti, extreme Radical. At the close of his speech he turned toward Gavalotti and, shaking his fist at him, shouted: "You dishonored yourself by a dishonest alliance with Giolitti." Gavalotti sprang to his feet, and, white with rage, called back: "You coward and liar you should suffer for those words."

Gavalotti's friends tried to restrain him, but he broke away from them, caught Diligenti by the waistcoat and struck him three heavy open hand blows in the face. A dozen deputies threw themselves between the two men. A hundred more gathered around shouting for order or reviling each other. The uproar drowned the voice of the deputy who had ascended the tribune. The president's efforts to calm the members were unheeded; so after ten minutes of uninterrupted din the sitting was adjourned.

That Embargo Question.

LONDON, June 6.—Being dissatisfied with the examination of Canadian cattle by the Government experts, who reported that the symptoms present in the lungs of cattle examined were such as were always present in cases of contagious pleuro-pneumonia, Sir Charles Tupper, Canadian High Commissioner, engaged the eminent expert, Prof. Hunting, to conduct an independent examination. Prof. Hunting has reported that the cases of alleged pleuro-pneumonia are precisely similar to those examined by him a year ago, and are simply pneumonia contracted on the voyage from exposure and is not infectious.

The Landslide at Baie St. Paul.

MONTREAL, June 6.—A special despatch from Baie St. Paul, Que., says: The landslide and flood that has done so much damage to the surrounding country commenced on Friday about eleven o'clock. The farmers who were entirely taken by surprise, were only able to save very little of their effects, and that at the risk of their lives. The greatest consternation prevailed, and one woman was so frightened that she gave premature birth to a child. No fatalities, however, occurred at this point.

Total Wreck of the Texas.

MONTREAL, June 6.—A telegram received from Newfoundland states that the Dominion liner Texas, loaded with a general cargo and a deck load of cattle, is a total wreck at St. Mary's Bay, in the south-eastern part of the island. St. Mary's Bay is directly across the peninsula from St. Johns. There is a heavy current sets in at this quarter and it is supposed she went ashore in the fog, as the Government signal service reported the weather hazy in that quarter. The advices received do not state that any lives were lost.

Why the Strike Failed.

SHANGHAI, June 6.—Thousands of artizans repairing the Imperial buildings in Pekin struck for higher wages last week. By the Emperor's edict soldiers and police arrested every one asserting the rights of the laborers to retard the work. The most active leaders will be strangled and their most zealous followers will be banished to the fever and mosquito regions for three years. The strike has collapsed.

Howston Accused of Manslaughter.

LONDON, June 6.—The coroner's inquest upon the body of the street musician Barton, whose death was caused by General John Howston, of California, who thrust the ferule of an umbrella into his eye on May 30, was closed yesterday, the jury finding a verdict of manslaughter against Howston.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal disease, rheumatism, sciatica, loss of memory, St. Vitus' dance, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE VOTE ON THE BY-LAWS TO-MORROW.

To-morrow the polls will be opened for the vote on the by-law for the municipal union of Ashburnham, and for raising money for school purposes, and for permanent improvements, a euphemism for money to meet the deficit. The people who desire the union must be on the alert. It is stated that those opposed to the union will poll a strong vote. It is therefore desirable that those in favour of the union should also turn out strongly so that the expression of the ballot will express the will of the people. If all those opposed to union poll their votes and only half of those in favour, the result if adverse will not be a fair expression of public opinion, and in this case it is desirable that the fullest possible expression of opinion on both sides should be expressed. Remember that a vote, to count, must be polled. If we are to live with Ashburnham as a united family, all the members of the family should express an opinion on the subject. Ashburnham, like Barkis, "is willin," and if the electors of Peterborough are in the same mood they have a chance of saying so, and if they do not say so by their ballots, no matter what they feel, the result will go contrary to their wishes. The voting will take place at the usual polling places.

UNDER the heading "The proper Ground of Criticism" The Evening News says: "In his address Saturday night Mr. Marter declared that had the Sandfield Macdonald policy been continued there would now be a cash surplus of $20,000,000 in the Ontario Treasury. The statement is probably correct. But if the money had not been spent we would be minus half the railway mileage of the Province; there would be no deaf and dumb institutes; our asylum accommodation would not be nearly so great, and there would be no Central Prison or Model Farm. These things are surely of more benefit to us than cash hoarded in the treasury. A Government is not to be condemned merely because it has spent the public funds. The question to be considered is: Has the expenditure been within the financial capabilities of the State, and have the best results been obtained from the spending?" This is good, hard sense.

THE subject of the grants to Public and High Schools is being discussed by the Opposition journals with the usual start towards demagoguery, the effort being to show that the Government is discriminating against "the poor man's child" because the per capita grant to High Schools is greater than to Public Schools. What is ignored is that schools of both classes are supported by the people out of the people's money, and it makes little difference whether the money comes in the form of a Provincial or municipal grant. If the Government spent less of the Provincial funds on the High Schools it would mean that a greater burden would be thrown upon the municipality.

SURGEON'S KNIVES.

Failed to Remove the Disease from Hezekiah Vaughan's System—Dodd's Kidney Pills, which have Never yet Failed, Cured Him in Short Order.

SANDWHICH, May 28.—Hezekiah Vaughan, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Detroit, for what different doctors diagnosed as liver complaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 4½ hours, but when they got through, none of them could tell what was wrong, and the patient was left as bad as ever. The benefits derived by a neighbor from the use of Dodd's Kidney Pills, induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that afflicted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

DOURO.

(From Our Own Correspondent.)

The Court of Revision on the assessment Roll of the township of Douro for the current year, met in the Town Hall, on May 29th. The members of the Court took the statutory oath of office and disposed of the following appeals, viz:—Anson Cartwright, overcharge on real estate and being assessed for too much land, also to have the S. E. ¼ of lot 2, Con. 11, struck off his assessment and assessed to Edward Kemp at a valuation of $1,530. Mr. Carthwright to be assessed for 1 acre of the N. E. corner of lot 1, Con. 11, at a valuation of $40, and 1 acre of the S. E. corner of lot 2, Con. 11, at a valuation of $150, appeal granted. Dr. Douglas, overcharge on real estate, assessment confirmed. Levi Payne overcharge on real estate, assessment reduced $100; David Anderson over charge on real estate, reduced $400; Rev. Father Kelly against St. Joseph's church property being assessed. Moved by Mr. McCliggott, seconded by Mr. Bullock, that it is the opinion of the Court of Revision now in session that the assessor has interpreted the Assessment Act properly in assessing St. Joseph's church property and that the assessment is correct except that the whole acre on which the church stands should not be included in the description given on roll. Moved in amendment by Mr. Walsh, seconded by Mr. King that in the opinion of the Court, the acre of land with St. Joseph's church erected thereon and parsonage, comes under the head of exemptions according to sub section 3, section 7 consolidated Assessment Act of 1892. On the motion and amendment being put, Mr. Walsh called for the yeas and nays, for the motion Mr. McCliggate and Mr. Bullock; for amendment, Mr. Walsh and Mr. King. The original motion carried on the vote of the Reeve. A few minor charges were made on roll such as the insertion of names, etc. It was also moved and seconded that parties having destroyed their dogs before the 28th day of May, and are not the owners or harborers of dogs at the present date, that the clerk strike such dog tax off roll upon the parties filing a statutory declaration with him to that effect. The roll as thus revised was received and confirmed. On motion of the reeve the court resolved into council and proceeded to transact general business. The reading of the minutes of the previous meeting was dispensed with. By-law No. 432 was amended so as to make it unlawful for sheep to run at large on the highways of the municipality. William Tighe was allowed to commute his and his sons statute labour in building a culvert in front of his lot between con. 5 and 6, council to furnish timber and $2 special grant. The clerk was instructed to obtain a certified statement of the number of yards of gravel, if any, taken off the east half of lot 10, con. 2, by the following named pathmasters during their term of office, viz: Jas. Carr, M. D. Sullivan, T. Miller, J. R. Condon, Jas. Mahoney and H. T. Smyth. Orders on treasurer—Assessor's salary $45; clerk, part salary, $30. The clerk was authorized to charge Michael Fitzpatrick with 2 days statute labour on Jas. Leahy's road division, same being omitted in 1893; Jas. Curtis was authorized to allow Geo. A. Helson to perform arrears of statute labour (amount $6) accrued against part of lot 1, con. 12., sub-division 45, in the year 1892 and 1893. Road appropriation $902, subdivided in grants as follows, viz: Grant on Dummer road, $200; grant to each ward, ($150,) $600; grant on boundary between Lakefield and Douro, $10; grant on boundary between Douro and Dummer, $20; grant on Telephone road, $35; grant on Crowley's hill, $12; grant on side road between lots 5 and 6 in Ward No. 3, $25. On motion it was decided to pay the following wages: To team and teamster, $2 per day, and to men $1 per day; also that each commissioner or sub-commissioner be required to give a detailed statement of the number of yards (not loads) of gravel used in connection with the expenditure of the above grants, clerk to prepare blank forms of pay sheets for the convenience of each commissioner and sub-commissioner, which when properly filled and certified to by the sub-commissioner and signed by the commissioners shall be the treasurer's authority for payment of same. Mr. Bullock was appointed a commissioner to expend the sum of $40 arrears of statute labour tax accrued against certain lots in the north east part of ward No. 1. On motion the clerk was instructed to notify the assessor to assess the east half of lot 19 con. 1 to Geo. Harding, and the west half of said lot to Geo. and Jas. Bicke, assessment in each case to be $1.00.

Council adjourned to June 4th, then to meet at 10 o'clock a.m.

A Large Waist

Is not generally considered a necessary adjunct to the grace, beauty or symmetry of the womanly form. Within the body, however is a great waste made necessary according to the condition of things—continually in process and requiring the perfect action of all bodily functions to absorb or dispel the refuse. When there is irregularity or inaction, ladies who value a clean, healthy body will take Dr. Pierce's Favorite Prescription—the only remedy for woman sold with a positive guarantee to RIGHT all her peculiar WRONGS.

To those about to become mothers, it is a priceless boon, for it lessens the pains and perils of childbirth, shortens labor, promotes an abundant secretion of nourishment for the child and shortens the period of confinement.

ROYAL BARGAINS!

Here are a few actual specimens of some of the RICHEST NUGGETS in the Dry Goods line thrown on the market for many a day.

To avoid sensationalism—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods.

WORTH ABOUT DOUBLE THE PRICE—

5c. 3 Papers of Good Pins. Good Glass Towelling. 1 Pair Good Towels. Good Flannelette. Good Straw Hats.

10c. Good All-Wool Delaine. Good All Wool Delaine. The Best 15c. Prints. 2 Ladies Knitted Vests. Ladies' Fast Dye Black Hose.

15c. 4 Good Lawn Handkerchiefs. 4 Nice Fancy Frills. Fancy Veiling. Nice Ceylon Flannel. White Japanese Silk Hemstitched Handkerchiefs.

20c. 500 yards Lovely French Figured Crepons, to be sold at 20 cents a yard—sold everywhere else at 25 cents.

25c. 2 pairs Ladies' Lisle Gloves. 2 yards of Fancy Oxford Shirting with Border. 3 yards Fine Checked Muslin. 3 pairs Gents' Wool Socks. 3 yards of Satin Striped Muslin.

30c. 720 yards of Beautiful Dress Goods to be cleared out at 30c. These Goods would be good value at 40c.

35c. Good Kid Gloves. Good Lace Curtains. Good Corsets. Ladies' White Chemisettes.

40c. 3000 yards of Good All-Wool Silk-Finished Henriettas at 40c. These Goods are actually worth 60c.

From Our Own Correspondent.

The court of revision on the assessment roll of the municipality of Burleigh, Anstruther and Chandos was held in the town hall, as advertised, on the 29th ult., all members of the council being present, who, having made the necessary declaration, took their seats, when it was moved and seconded, that this council do now sit as a court of revision on the assessment roll for 1894. Appeal of R. C. Strickland, not owner of lot, struck off the roll. Appeal of E. A. Strickland, assessment on island too high, assessment confirmed. Appeal of J. Crickmore, assessment too high, assessment confirmed. Court adjourned for two hours. On resuming, it was moved by W. Hales, seconded by W. Tucker, that it is the opinion of this court that the assessments in the aggregate of islands in Stony Lake are too high and that the values of them should be adjusted to a view of equalising the valuations for another year on a fair basis.—Carried. Appeal of J. Hosken not entertained. R. Lean was placed on roll for lot 26, concession 2, township of Anstruther, and R. Peters for lot 35, concession 6, township of Anstruther. It was moved and seconded, that the roll be now adopted as revised.

A meeting of council was held after the conclusion of the Court of Revision. A motion with seal attached was put and carried, authorizing the treasurer to pay over to the respective schools the monies due them from the municipality, for 1893, on account of time taught; it amounted to $714.00 for twelve schools. Moved by W. Hales seconded by B. Windsor, that this municipality shall assume all back taxes for Burleigh & Anstruther, and that Mr. D. Anderson notify the parties that all taxes must be paid by August 1st next, providing the township of Chandos do the same, the back taxes not to be included in the final settlement of the two municipalities.—Carried. Application of Wm. Steele for grant on road, laid over. The clerk was instructed to notify county treasurer to remove all charges from his books from Island 19, A, and Islands 21 and 23, Stony Lake. By-law No. 5 went through its several readings. Application from Nicholl's Hospital for payment of attendance of A. Shairp, laid over. Application of R. Edgar to rent Town Hall ground granted for $1.50 rent for same. Council adjourned to call of Reeve.

OTONABEE.

Meeting of Otonabee council Keene, 28th. All the members present. Eugene Torpie made application to have the 7th con. line opened from the Block road to the Norwood road. Messrs. Anderson, Johnston and Deyell were appointed a committee to visit the road and report to the next meeting. Thos. Coward made application to have a culvert put in across the quarter line between lots 6 and 7, con. 12. Messrs. Johnston, Deyell and Weir was appointed to take whatever steps they considered necessary. The following sums were ordered to be paid:—$70, collector's salary for 1893; $50, assessor's salary for 1894; Review Printing Co., advertising court of revision, $2; John Breckenridge, plank, scantling and culverts, $66.16; J. T. Craig, repairing scraper, 50c.; John Stewart, railing for Stewart's gravel pit, 90c.; Joseph Crocker, erecting railing and nails, $1.10; R. A. Deyell, removing stones out of Stewart's pit, $2.00. On motion of Mr. Johnston, seconded by Mr. Lancaster, Messrs. Anderson and Deyell are allowed each to put in a watering trough where they think proper on the public highway for the use of the travelling public.

On the same day and place the Court of Revision held its first sitting when the following business was done: Arthur Elmhirst to be assessed as tenant for lot 21, con. 4, instead of Adam Johnston, who with George Johnston was put on the roll as manhood franchise on east half lot 19, con. 7. The Allandale mills, on account of being burned, were reduced from $2,600 to $200. The dogs assessed to Robert Speirs, Jas. Sedgwick and D. C. McIntyre were ordered to be erased, as they had died since assessor was around. R. J. and John McCamus were assessed for $500 instead of $550, George Hogg as tenant for east half lot 21, con. 1, Mrs. D. Cameron and Thos. Humphries owners, and Thos. E. Deyell for south-east quarter lot 17, con. 15 instead of Robert Ruth, as Deyell has purchased said lot; complaint of R. Carew; ordered to be assessed for $3,000 instead of $3,200, and George Brown for $3,000 instead of $3,200; B. R. Matthews' assessment was confirmed. Court of Revision and Council adjourned till 18th June next.

Economy and Strength.

Valuable vegetable remedies are used in the preparation of Hood's Sarsaparilla in such a peculiar manner as to retain the full medicinal value of every ingredient. Thus Hood's Sarsaparilla combines economy and strength and is the only remedy of which "100 Doses One Dollar" is true. Be sure to get Hood's.

Hood's Pills do not purge, pain or gripe, but act promptly, easily and efficiently.

GALWAY.

Death of a Highly Respected Resident.

From Our Own Correspondent.

Mr. Edward Allen, Sr., of this township, never fully recovered from the accident he met with some time since, and hence the cold he took afterwards, resulting in about three weeks illness, brought about his death on the evening of May 24. For a few days before his decease he was thought to be improving, but appearances were deceiving for he took a relapse and died on the day mentioned. Mr. Allen was born in the county of Cork, Ireland, in the year 1820, and came with his parents to Canada in the year 1826 and settled in the township of Douro, where he lived until 1863, when he removed to the township of Galway, where he has since lived. He had four brothers and four sisters, all of whom are deceased excepting Mrs. Michael Kain of Galway. He leaves a widow and four sons and five daughters to mourn his loss. All are married excepting one daughter and two sons, living at home. Mr. Allen was one of the oldest and one of the most highly respected residents of the township of Galway, and was a life-long Liberal. One of the last things he said was to express the wish that Mr. Stratton would be re-elected. His funeral took place on the 26th of May. The body was met at the Roman Catholic church by the Rev. Father O'Connel, parish priest, who said mass before the burial, which took place at the Galway cemetery. The funeral procession was the largest ever seen in the township.

Unqualified Commendation.

Rev. T. Watson, Colborne, Ontario, writes:—"K. D. C. has produced in me a wonderful change, almost from the first time of using. My indigestion is all gone, and my general health is much better than it has been for years. K. D. C. has my heartiest and unqualified commendation. I believe it to be all its makers claim it to be." LIVE STOCK SHIPMENTS.

The shipments of cattle from Montreal continue to show a considerable increase, the difference from last week being 1,598 head. The export of sheep is also larger to the extent of nearly 1,000 head. One of the notable features this year is the extraordinary increase in the sheep exports. Last year only 101 head were sent out during May, while the shipments the same month this year aggregate nearly 5,000 head, and there is every indication that the shipments will keep on at the present rate throughout the season. There are eight steamers sailing from Montreal next week, and although all the space is not yet engaged, a conservative estimate would place the probable shipment at 3,000 head of cattle. There was a slight let up in the outflow of American stock to the other side up to Thursday, but four or five steamers are sailing from New York Sunday and altogether it is thought that the shipment will be up to the average.

The Delineator in its midsummer number begins a new volume with a most attractive table of contents. The styles displayed are seasonable and, therefore, picturesque and graceful, and the fancy work will please the most fastidious summer maid or matron. The college article for the month is "A Girl's Life and Work at Wellesley," and an expert writes on Telegraphy as an employment for women. The Daughter's Friend is the subject of the article in the Mother and Daughter's series. The illustrated papers on knitting, netting, tatting and crocheting are as attractive as usual, and the review of the newest books, and many other articles, complete a very entertaining number. The subscription price of the Delineator is $1 a year. Single copies, 15 cents. Address orders to The Delineator Publishing Co. (Ltd.), 33 Richmond street. West, Toronto, Ont.

FRATERNAL ASSESSMENT LIABILITY.

"Can't I get out when I please, and have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability"; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate.* The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any similiar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

Sousa's Band Coming.

The Great Sousa's Peerless band of New York will give one afternoon concert at Bradburn's Opera House, Friday, June 22, when the finest playing in the world will be heard. Two of the greatest vocal artists will also be heard. Herr Anton Schott, the famous Wagnerian tenor and Mme. Gutherie Moyer, the celebrated dramatic soprano. Sousa will be requested to play his great descriptive piece "Ben Hur's Chariot Race," and no doubt he will do so. 1d

Faust.

The drama, "Faust," will be presented on Monday night next at the opera house by the Rowell Company. The Batavia, N. Y., Daily News, in speaking of the company says:—"Those refined and delightful entertainers, the Labadie-Rowell Company, appeared here last night in Faust. The audience was well pleased with the performance. The company as a whole is composed of excellent material. Mr. Francis Labadie as Mephisto and Miss Hattie Rowell as Marguerite were very good, as was also the Faust of Mr. Hubert Labadie, a brother of the star. The entertainment was one of the best we have had in Batavia this season." Reserved seats can be procured at Street Railway office. Prices 25, 35, 50 cents.

NEWS NUGGETS.

—Mr. Stratton's speech, at Bailieboro, on eighth page.

—The Gun Club holds its regular weekly shoot to-morrow.

—One drunk was up before the magistrate this morning. He was allowed to go.

—The Court of Revision met last night. No appeals lowering assessment were allowed.

—The Bicycle Club will run out to Chemong to-morrow evening, leaving the Court House Park at 7 o'clock sharp.

—The school children are having their sports this afternoon, Inspector Garvin thinking it best to hold them when he was sure of a fine day.

—Mr. A. Kingscote, the tent, sail and awning maker, has supplied the new steamer City of Peterborough with a complete set of storm curtains.

—The ballot boxes for the reception of the ballots in re. municipal union with Ashburnham to-morrow are being put into condition by Mr. Phil. English.

—Destroys bed bugs, cockroaches and other similiar pests, sure as death. What? Post's Corrosive Sublimote, for sale at Lynch's Drug Store, 168 Hunter street.

Women's cottage prayer meeting will be held this week at the residence of Mr. H. Watts, 105 Lake street to-morrow evening at 8 o'clock. Welcome extended to women. These services are conducted by the members.

—The band has not as yet played the same piece twice in the park concerts this year. Last season an incredible number of different selections were rendered and repetitions were only made in three cases and these were by request.

—An order has been given for a regimental blanket for "Wallace," the big mastiff band-dog owned by Mr. Will. Crowe. The blanket will be a brilliant red in colour to match the uniforms of the battalion band and will have "57th" worked in white on either side.

—The new steamer, over the construction of which the public have manifested such an interest, is making her trial trip out on the lake to-day. Her first public outing will take place to-morrow when the Farmers' Institute union excursion to Jubilee Point takes place.

—The band's big English drum has been taken to pieces and goes down to Fred Cook to-day to receive a new coat of paint. A coat of arms and "57th Battallion, Peterborough," will be emblazoned on the frame. Mr. George Chambers takes considerable pride in his drum which is one of the best.

—Remember the auction sale of that most desirable, modern, solid brick dwelling house, No. 372 Hunter street (corner of Part street), on Wednesday evening, June 6th, at six o'clock on the premises. This is a chance that seldom occurs to purchase, at your own price, a fine residence in the best part of the town. Be sure and attend the sale. 2d131

A POPULAR EXCURSION.

The Foresters Picnic on Tuesday Next Will be a Great Success.

A grand union Foresters' excursion under the auspices of Court Bridgenorth No. 315 and Court Selwyn No. 427, Canadian Order of Foresters, will be held on Tuesday, June 12th, per steamer "Maple Leaf" and palace scow "Chemong" to Jacob's Island and Bobcaygeon.

The boat will leave Bridgenorth wharf at 8 a.m., calling at Chemong wharf at Chemong wharf at 8.30 and Indian village at 9 o'clock, arriving at Jacob's Island at 10.30, where a grand programme of sports and games will be contested for, including a football match between Bridgenorth and Zion.

For those who prefer a longer sail, the boat will go through to Bobcaygeon, arriving at noon and leaving for the return trip at three o'clock.

The Fourth Line band and other music will be in attendance and a most enjoyable outing is anticipated.

The capable committee who are in charge of affairs and who will doubtless bring the picnic to a most successful culmination, is composed of Messrs. T. A. Young, Wm. Bell, James Fowler, Fred McKee, W. Mann and W. G. Preston.

BAY OF QUINTE CONFERENCE.

Meetings Preliminary to the Formal Opening on Thursday—The Ministerial Association—The Laymen's Convention.

JUNE 6th, 1894.

The stationing committee this morning completed their first draft of the stations of the ministers for the next triad, and their report will be presented to the conference to-morrow.

The ministerial association met this morning, Rev. Wm. Johnston, president, in the chair, and got through with considerable routine work. The work of examination into ministerial character was completed with satisfactory answers to the prescribed questions. The standing and progress of the probationers for the ministry in the several years was also considered, with satisfactory results. The following fourth year probationers were recommended for ordination:—Messrs. A. J. H. Strike, C. R. Sing, W. E. Smith, F. J. Anderson, J. R. Butler, J. S. Ivison Wilson, B.A., and M. E. Sexsmith. The association is sitting this afternoon.

THE LAYMEN'S CONVENTION

met this morning in the lecture room of the George Street Methodist Church, Mr. J. L. Hughes, third vice-president, in the chair. The attendance at this session was not very large, several delegates not having arrived in town. The session was opened by singing of hymn 441, and prayer by Dr. Ford, Norwood. Dr. S. P. Ford was elected president and Mr. R. W. Clarke, secretary. On motion the President was requested to name a committee to draft a constitution for the association and he named the following gentlemen: Dr. Crowle, and Messrs. Geo. Wilson, J. A. Holgate, T. Atkinson, and J. L. Hughes. The President and Secretary were requested to act as associate members of the committee. The convention adjourned at 11:10.

OUR GIGANTIC DEMONSTRATION ON DOMINION DAY.

A Programme of Amusements and Sports Offered which has Never Been Equalled in the Midland Counties.

There is not a doubt but that the whole countryside, as well as a big influx from all the towns and villages within a radius of a hundred miles, will be present at the grand demonstration which the firemen have been working so hard to make a success on Dominion Day.

The programme of sports and amusements which have been announced for the day is one of unusual excellence and merit. The calithumpiam procession in the morning, in which over fifty floats will participate, will be one of the most perfectly managed and arranged spectacles of the kind which has been introduced in a celebration. No effort is being spared to make the entire demonstration such a success as will ever give Peterborough the name of being a town, which, when it does celebrate, does so gloriously.

Other features of the day's amusements will be a baloon ascension by Prof. Walcott, of New York, who will give a trapeze performance while hanging in mid-air from his balloon. Then there are the horse races and sports of all kinds during the afternoon and a grand display of fireworks at night.

A band competition will take place during the day and all the bands in the neighborhood will participate. Valuable prizes are offered for everything.

ALWAYS LOOKED FORWARD TO.

St. Peter's Annual Picnic to be Held on Dominion Day—As Popular as Ever.

The annual picnic of St. Peter's Cathedral will be held in the beautiful grounds of St. Joseph's Hospital on the first of July. The list of amusements provided will, of course, include a good programme of sports, and as the cathedral clergy are famous for the excellent manner in which they arrange and carry out affairs of this kind it is unnecessary to go into particulars concerning the different events. Sufficient to say, therefore, that this picnic will be in advance of any of those previously given and that the members of the committee in charge are sparing no effort to make the affair an even greater success than formerly.

A Swell Affair

Dried apples in hot water are always "swell affairs." They with other fruits come in very handy at this time of the year—just before fresh fruits are plenty. A new stock of canned fruits, also jams by the pound, has been opened at MASON & Co's Grocery, and are fit for a gentleman's table.

Be Sure and Attend.

The sale of fine and useful goods in the store opposite the Grand Central Hotel every night this week will be worth attending, as there has never been as fine an assortment of good goods offered by auction in Peterborough. Dinner Sets, Tea Sets, Chamber sets, Lamps, Silver ware, art goods, etc., of every description, beautiful designs and newest patterns in the market. All at your own price. Open for inspection now.
JOHN HAGGART, Auctioneer.

A Beautiful Display

All should avail themselves of the opportunity of viewing the exhibit of paintings at A. Clegg's. These pictures are treated in a very able manner, the marine subjects are very good. Mr. Wilkinson's evening effects are charming, full of tender warmth. No. 9, "Murmuring Waters," is very realistic. This is a rare chance to procure some choice original paintings at very moderate prices and we think few of the pieces should leave town. On view at A. CLEGG'S, George street.

OUR CITIZEN SOLDIERY.

The Rangers were on Parade Last Night at the Armoury—A Good Time Out.

A great amount of steady drill will have to be put in between now and the First of July by the Volunteers as it is thought that inspection will take place about the last week in June. Col. Rogers is at present in Kingston on a mission to ascertain the exact date upon which the men will be inspected and to which of the inspecting officers that duty will be assigned. It is thought that as General Herbert was not here in 1893 that in all probability he will inspect the Rangers this year.

Last night the men practiced the new formations where the ranks are drilled in in single file and in sections, each section being under the control of a non-commissioned officer, who is responsible to the Captain for the men in his section, as the Captain is responsible to the Colonel for the company. The following orders were issued:—

HEADQUARTERS,
Peterborough, June 5th, 1894.

Orders by Lieut.-Col. J. Z. Rogers, commanding the 57th Battalion of Infantry, Peterborough Rangers:

1. To be officer of the week Lieut. L. M. Hayes, next for duty, Lieut. Matthews.
2. The battalion will parade with both bands, pioneer and ambulance corps, on Sunday, June 10th, at 3 p. m. sharp, and march to St. John's church for divine service.
3. The battalion will parade as usual on Thursday evening, when non-commissioned officers will be examined for certificates and an examination of the men to pass them from the recruit class will also take place
4. Leave of absence from parade has been granted the following officers: Captains Donnistous and Brennan.
5. The commanding officer has been pleased to make the following promotions: To be Sergt. Corp. Roberts, R.S. of L, vice Sergt. Raby, resigned. By order,

E. F. MASON, Capt.

THE KINDERGARTEN SYSTEM.

IT IS NOW AN INTEGRAL PART OF THE BOARD'S POLICY.

A Short Meeting is Held—The Inspector's Report—Mr. Hamilton Speaks Strongly in Favour of the Kindergartens.

At the meeting of the Board of Education last night the following members were present:—Dr. Burnham, chairman, and Messrs. J. McKee, Dr. Boucher, L. M. Hayes, W. H. Law, P. Hamilton, J. J. Hartley, H. Denne, J. J. McBain, W. G. Ferguson and Dr. Caldwell.

COMMUNICATIONS.

An application was received from Miss Maggie A. Mark for a position as teacher in one of the schools, and also from Miss Clara Cairns. Both applications were tabled.

Miss Dorothy J. Hall and Miss Emma Aldridge applied for leave of absence from school duties for the next school term.

It was agreed that the two young lady teachers could absent themselves for the reasons stated in their letters, viz., ill-health and need of rest, and that, upon their recovery, their reinstatement would ensue upon application.

INSPECTOR'S REPORT.

Inspector Garvin's monthly report was read as follows:

The number of pupils enrolled in May was 1479. The average attendance was 1,279 or 86.5 per cent. of those enrolled. This is the lowest average attendance for the year by 1.7 per cent, due no doubt to the heavy rains and resulting sickness. However, the improvement on May, 1893 is marked, as shown by the following figures: Enrolled 1 432, or 47 less than in May, '94; average, 11.90 or 89 less than last month.

Enrolled in May, 1894: Central, 670; average, 574, or 85 6 per cent. Rubidge street school, 383; average, 316 or 87 per cent. Park street school, 247; average, 214.5 or 86.8 per cent. Barnardo, 199; average 174 7 or 87.8 per cent.

The accommodation question must soon engage again the attention of the Board. We have now need of at least thirty divisions, we have but twenty-seven. The North and South schools are not suffering but the West and central are. There is an averag enrollment of 62 for each division of the West school and of 56 for each division of the Central. Miss Throup's division in the Central has an enrollment of 114 and Miss Might's in the Park street school an enrollment of 90. The North and South schools have an average enrollment for each division of about 50 pupils.

For some weeks a majority of the staff have been taking on Saturday afternoon, from D. A. Shaw, artist, at their own expense, a series of lessons in perspective and model drawing. The object is to improve the teaching of drawing in our schools. Such action is commendable and will no doubt be appreciated by the Board.

The half yearly promotion examinations will be held the last week of this month.

From the observations made during late inspections I have reasons to believe that the results of the next promotion examinations will be highly satisfactory.

Received.

A SMALL GRANT.

Mr. McCreary, Principal of the West Ward school, applied personally to the Board to make a small grant to assist the children of his school in purchasing plants to beautify the grounds.

On motion of Messrs McBain and Law a grant of $5 was made for this purpose.

On motion of Dr. Boucher and Mr. Denne, a resolution was passed requiring the Inspector of public schools to present a yearly secret report to the Board regarding the efficiency of the different teachers on the staff of the schools.

The following

As it appeared from the remarks of different members of the Board that some of the schools were largely in need of repair, the Property Committee will, on motion of Dr. Boucher, make a tour of inspection and report to the next meeting of the board.

Mr. Peter Hamilton spoke strongly in favour of the kindergarten system being extended, and in the support of his argument quoted the following extract from The Mail of May 19, 1894:—

THE KINDERGARTEN.

It is scarcely possible to understand the attitude of those who underrate and despise the kindergarten, which has been shown to be one of the best means of laying a foundation in a child's mind for future educational work. The kindergarten not only educates the mind of the little one, but begins the cultivation of its bodily and manual powers. France, at present the most progressive country in the world, under the able leadership of the great educational statesman, M. Buisson, has a more complete kindergarten system and a larger attendance at the kindergartens than any other country. Germany comes next. America, having the system of local municipal control in educational matters, has moved more slowly in adopting the kindergarten, but during the last five years the progress has been most marked. More kindergartens have been opened in connection with the Public schools during the last five years than in all previous years. In England the change during the last five years has amounted to a revolution. Education in England being under the government, new features are introduced rapidly when once approved.

J. G. Fitch, the greatest educator England has produced in the last half of the 19th century, says in a report recently issued:—"In watching the gradual development of the training colleges for women from year to year, nothing is more striking than the increased attention which is being paid in these institutions to the true principles of infant teaching and discipline. The circular which has been recently issued and which has been designed to enforce and explain these principles, would, if put forth a few years ago, have fallen on unprepared soil and would, indeed, have seemed to many teachers both in and out of training colleges, to be scarcely intelligible. Now its counsels will be welcomed with sympathy and full appreciation. In almost every college a special course of lectures is provided in the teaching of Froebel and Pestalozzi, and on the application of their doctrines to the work of the infant school. Attempts to treat the kindergarten as a separate institution, having aims and methods of its own, different from those which should prevail in other schools, have often in Germany and America proved unsuccessful. It is an organic part of a complete scheme of juvenile instruction, as a preliminary training of those faculties and aptitudes which have afterwards to be developed when the time for serious application arrives that the kindergarten is most valuable."

It means a good deal when Mr. Fitch, speaking for the education department of England, says that the kindergarten has so completely revolutionized the teaching and discipline of English primary schools that the teachers of a few years ago would not have comprehended the instructions issued by the Education Department to-day.

Seconded by Mr. J. J. McBain, Mr. Hamilton then introduced the following resolution, which was carried:

That whereas a late report of the Inspector's so conclusively proved that that the Kindergarten in the Central School is the most valuable adjunct of our public school system. Be it resolved that the Inspector and Supervision Committee co-operate in considering the advisability of establishing a Kindergarten class in the South Ward in the beginning of the next term, it being understood that the Kindergartens henceforth are integral parts of our school system, with an admission fee of not more than 15 cents per month, and that subsequently they be extended to the other wards, and report to this Board at the next regular meeting.—Carried.

The Board then adjourned.

HOW GHOSTS ARE BORN.

A Water Street Terrace Which is Haunted and Subject to Ghostly Visitations.

A few evenings since, the residents in a Water street terrace were considerably alarmed after they had retired for the night to hear sundry strange rappings through the upper part of the house. Not much attention was paid to the noise at first, but when it seemed to flit from one part of the house to another with a sort of uncanny indecision, the more timorous of those who heard it rose and attributing the peculiar noises to spiritual manifestations took refuge in the lower part of the house as the rappings seemed to be confined to the upper regions. The information was volunteered, by one more learned in ghost lore than the others, that the rappings were a sign or manifestation sent to warn them that a near and dear friend had been summoned aloft.

The ghostly rapping ceased after a time and the thoroughly frightened members of the family again sought repose, but sleep visited few of their eyelids that night.

Early next morning the spiritual visitation was the topic of conversation at every breakfast table in the neighbourhood, but not a few quiet laughs were enjoyed later on in the day when it was ascertained that the young man next door had been out late and careless of the comfort of others, had proceeded to decorate his room and hang pictures in the middle of the night. The connecting walls in the terrace had carried the sound, and he had thus innocently conveyed terror into the hearts of his next door neighbours. What further enhanced the mystery was the fact that others in the same house with the young man, who was doing the "medium" act, were quite well aware of what he was up to and rapped out a few signals to him to desist and choose a more seemly hour for his freaks. This rapping in a different part of the house naturally greatly heightened the effect produced.

HUSTLING HAVELOCK.

(From a Correspondent.)

The School Board met June 4th, present Messrs. Milne Maider, Mark and Ritchie. On motion of Messrs. Maider and Neill, it was resolved to calcimine a part of the school room, put partition in hall upstairs and do all necessary repairs. On motion of Messrs. Neill and Ritchie it was decided to borrow $300 for current expenses. On motion of Messrs. Maider and Ritchie the resignation of Mr. Miller was accepted, and a letter of recommendation to be granted. On motion of Messrs. Maider and Neill, the secretary was instructed to advertise in the EXAMINER and Mail newspapers for male teacher, second or third class. On motion Messrs. Maider and Ritchie it was resolved to adopt the note system, clauses 3 and 4 of the statutes and school regulations. On motion of Messrs. Maider and Neill it was resolved to obtain legal advice regarding the closing of a street north and south of past school property. Board adjourned at 11 p. m.

Mr. Drain's new building is progressing, and will be ready for occupancy in a few days. Mr. Duffield's is also about completed.

Mr. Irwin, of the east end, is building a new stable.

Rumour says that some parties are to be up before the justice for not taking out dog tags.

A large and enthusiastic crowd was at the depot on Tuesday to welcome the Hon. Mr. Hardy and Mr. Blezard on the arrival of the passenger train from the west, and a very hearty reception they got.

A meeting in Mr. Lancaster's interests was addressed on Friday night by Messrs. Lancaster, Peck and Campbell, of Algoma, Mr. McWilliams appearing in Mr. Blezard's behalf.

The managers of the Presbyterian church here have purchased from Mr. William Mathieson two and one-half acres of land for a cemetery in addition to the half acre which they already own near the Catholic church. The job of stumping, fencing, leveling up and laying out the lots has been let, the work to be proceeded with at once. The place selected for the cemetery is a most suitable one, as the ground is composed of sandy loam to a depth of about ten or twelve feet and is located just outside of the corporation. This has been a long felt want in the village and surrounding country and its supply will no doubt be much appreciated.

Court of Revision on the assessment roll met on Tuesday. There was only one appeal from assessments.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

TO RESIST THE ATTACK —of the germs of Consumption, Scrofula, Grip, Malaria, and many other diseases—means fight or die for all of us. These germs are everywhere in the air we breathe. The odds are in favor of the germs, if our liver is inactive and our blood impure.

What is needed most is an increase in our germ-fighting strength. To do this successfully you need to put on *healthy flesh*, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spot," nor soil for germ-growth.

We claim for Dr. Pierce's Golden Medical Discovery, that it does all this in a way peculiar to itself. It is the development of generations of medical thought—it has stood the test of a quarter of a century of *cures*.

That is why the makers can *guarantee* it. In every trouble caused by torpid liver or impure blood, if the "Discovery" fails to benefit or cure, your money is refunded.

There wouldn't be any cases of Chronic Catarrh if everyone used Dr. Sage's Remedy. There's $500 reward for an incurable case.

THE MONEY OF CHINA.

HOW THE GREAT EMPIRE MANAGES ITS FINANCIAL MATTERS.

500,000,000 of People Who Do Business With Copper Cash—Chinese Banks and Bankers—How They Treat Bankrupts in the Celestial Empire.

HANKOW, China.—China contains between four and five hundred millions of people. With its tributary provinces it is said to have the enormous population of 537,000,000. Since the beginning of the United States government we have coined all told about 461,000,000 silver dollars, not including the dimes, halves and quarters, and if the whole could be gathered together and carried to China there would not be enough to give a dollar to each of its inhabitants. China is generally supposed to be very poor. I believe, on the contrary, that is a rich country, and it must require a vast amount to do its business. It is true there are many millions of poor, but there are also millions of well-to-do and millions of comparatively rich. There are few countries where jewelry is more commonly worn and where the clothes of the better classes are more costly. I have seen since I came here thousands of ordinary citizens dressed in long gowns of brocaded silk lined with furs, and nearly every other woman you see outside of the laboring women wears a silk coat and silk pantaloons, while her little pinched toes are covered with silk, silver or gold-embroidered shoes. She has silver or gold ornaments in her hair and her silk headdress is often decorated with rows of pearls. Both sexes wear gold rings, and a well to-do Chinaman expects to fit out his daughters with gold ornaments on the occasion of their marriage. They look upon change in the prices of money as a rise in gold rather than a fall in silver, and I hear everywhere the question, "Why for makee gold so dear?" They realize the change when they have a daughter whom they want to marry off, and the rise is, in fact, so surprising to many of the people that they are selling their gold ornaments. They are bringing out the gold bricks they have hoarded and the country is being drained of its gold.

The Chinese are a great business people. Their cities are beehives of work, and they require a great deal of money to do their trading. The City of Canton absorbes about three millions of silver dollars a year. It takes millions to do the business of Shanghai and Tientsin, and there are scattered over this land thousands of native banks which do a regular banking business and some of which issue notes. There are 400 native banks in Peking, 300 in Tientsin and hundreds in Shanghai, Foo Chow, Ningpo, Hankow and Canton. All of the big cities have their stock exchanges and in these the brokers meet daily and buy and sell like our bulls and bears. I saw a thousand such brokers pulling, hauling and scratching each other in the stock exchange in Peking, and I am told that many of them have recently lost great sums in betting on silver. The taotoi or Chinese mayor of Shanghai has lost, it is said, $600,000 within the last three months in buying silver, and he has, in fact, speculated himself out of office, and his place will shortly be filled with a new appointee. In all of the treaty ports the foreign as well as the native business is really done by the Chinese. All of the foreign firms have Chinese cashiers, and these men make all of the calculations and handle all the money. When you go into a bank the English clerk will call a Chinaman to

TWO DEFAULTING CASHIERS.

figure out your exchange for him and it will be the Chinaman who will pay you your money. If you make a deposit or pay a bill it is a Chinaman who handles every silver dollar, testing it carefully by ringing it before he accepts it, and estimating the amount and the rate of exchange with one of these boxes of balls strung on wires, which form the slates and pencils of the celestials. It is wonderful how fast these men can figure in this way. They push the balls this way and that with their aristocratic, long finger-nailed yellow hands and in less time than you could put down the figures they give you the result. They are always sure of themselves, and if they make a mistake the firm by whom they are employed expects them to make it good. They are under heavy bonds, often running up into the hundreds of thousands of dollars, and there are few defaulting Chinese cashiers. These "compradors" and "shroffs" as they are called, keep track of the Chinese markets for the foreign firms. They have cashiers' and bankers' meetings, as it were, every day among themselves and report later on to their masters. They know all about the standing of different Chinese banks and firms. In speaking of them they divide them into four classes. If they say a bank is a number one bank it is sure to be as

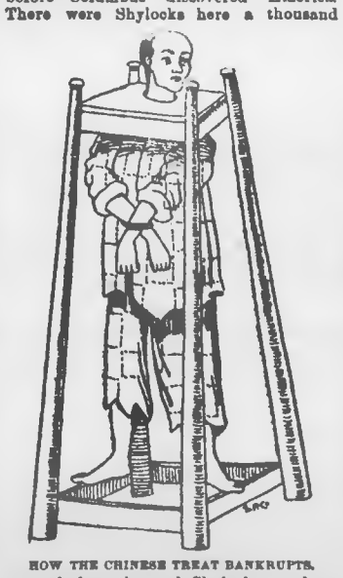
COPPER CASH IN CHINA.

good as the gold. If they call it number two it is fair. If number three, its reputation is cloudy, and if four, you had better let it alone.

Chinese banknotes are more like promissory notes than banknotes. There is not and never has been a national bank and notes are not used as currency to any extent. The banker merely writes the amount on the note and puts his private seal or chop over it. Such notes are made out for all sums from 5,000 to 20,000 taels and the Chinese banker never goes back on his signature. He pays the notes when they are presented, in silver or gold. The silver is usually paid according to weight, in lumps the shape of a toy bath tub, ranging in value all the way from $1 up to $50. The usual size is worth about $50, and it weighs about five pounds. The gold is made in long, thin cakes, and is twenty carats fine. The banker stamps with his private seal every piece of silver he pays.

Silver dollars will not pass in interior China, and outside of ports silver is taken entirely by weight. The only coin current in the empire is the copper cash, of which it takes 1,000 to make a dollar in silver. A thousand cash will weigh about nine pounds and ten of our dollars changed into cash would weigh nearly one hundred pounds, and would form a fair wheelbarrow load of money. I see lots of money carried on wheelbarrows through these Chinese cities, and a common sight is a coolie going out to market with strings of these copper coins slung over his shoulder. The cash are about the size and shape of our old red cents, save that they have square holes of about the size of the tip of your little finger running through them. They are strung in strings of 1,000 on ropes of twist straw. I sent my Chinese servant for $10 worth of these cash to-day, and he came back loaded. His hands were full and his shoulders were covered with strings of cash. The picture was so curious that I had my photographer snap his camera on him as I helped him unload.

The banking system of China is the oldest known to man. According to Chinese records there were banks of discount and deposit here as far back as 2600 B. C., and the interest laws of China were made long before Columbus discovered America. There were Shylocks here a thousand



HOW THE CHINESE TREAT BANKRUPTS.

years before the real Shylock was born in the mind of Shakespeare, and nowhere on earth among civilized people will you find higher rates of interest paid, more money borrowed and more debts conscientiously paid. The legal rate of interest in many of the provinces of China is 30 per cent. and in others it is 36 per cent. Still millions are lent, I am told, in the shape of call loans in the seaport towns at 5 and 6 per cent., and all sorts of money transactions are entered into. China had a system of building and loan associations long before we began to exist as a nation, and all over the empire there are associations for the loaning of money, in which the different members pay so much a month and the joint capital is passed from one member to another from year to year, so that each gets a chance to use it for a part of the ten years during which such associations usually run. There is no place in the world where capital combines more readily than in China. The bankers have their guilds or associations, which fix all their rates of credit or interest. Every city has its clearing-house, which settles up the business between the banks at the close of each day, and the native banks issue circular letters of credit to travelers going through the empire. There are big banks who push Chinese patent medicines, and little ones which loan out sums which we Americans would hardly think worth while borrowing. There are trade unions of all sorts and even the beggars club together and are bound by the rules of their union. Farmers combine together to buy cattle, peddlers buy and sell the custom of particular streets to their fellows, and a man who wants to get married and has perhaps not enough money to buy a wife will go into one of these loan associations to get it.

I tried to buy some pictures at Kiukiang, but found the dealer's store shut and was told that he was closed until he could get enough money from his friends to pay his last year's debts. All firms here have to settle up at the close of the year, and it is the greatest disgrace to go into bankruptcy. Bankrupts often commit suicide, and the son feels bound to pay his father's debts. It is the same with other relatives. The debts of any member of a family are a disgrace to the whole family, and rich men having failed will go to work at the most menial occupations in order to pay up. Big failures are always punished by law. If the amount is from $1,000 to $5,000 the bankrupt is banished, and if it runs above that amount his head is taken off. There is not much discussion about the matter and the law is that the bankrupt who becomes such from unavoidable circumstances is decapitated just the same as the fraudulent one. There are no lawyers and no juries and the judges or officials of the town pass the sentences. Sometimes the bankrupts carry heavy chains for weeks through the streets. At others they are put in the cangue and not infrequently they lose their heads. If, however, the bankrupt can save enough out of the failure he can sometimes buy off the judges and thus save his head. In many cases the creditors forgive their customers their debts, and many a man at the annual settlement day, which always comes at the close of the year, has his friends come together and start him anew clear of debt.

It he cannot clear himself in some way his shop is kept shut until he announces his failure or gets the funds to continue. This prevents there ever being a great panic in China. The actual standings of the different merchants and business men are known at least every twelve months, and there is no chance for a man to continue a long career of fraud and failure.

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 180 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

PASSED THE SUGAR SCHEDULE.

Forty Per Cent. Ad Valorem is the American Tariff.

WASHINGTON, June 6.—The sugar schedule was completed in the Senate after an intensely exciting and interesting struggle, the Democratic majority carrying out its programme on every point. The fight for the greater part of the day was, as it had been during the preceding four days, over the proposition to postpone the time when the repeal of the sugar bounty is to take effect from July 1, 1894, to January 1, 1895. It was carried by a vote of 38 to 31.

Various amendments which were offered by Senator Manderson (Rep., Neb.) to continue the sugar bounty until 1905, to continue it with annual reductions of 1 1-10c, to confine it to the producers of beet and sorghum sugar only, and to reduce it to 1 cent a pound, were severally voted down with slightly varying majorities against them—the two Populist Senators, Allen and Kyle, and the New York Senator Hill, voting now on one side and now on the opposite side.

An amendment for free sugar was offered by Mr. Peffer and was rejected—yeas 26, nays 37; and one offered by Mr. Allison (Rep., Iowa.), to make the sugar duty go into effect with the passage of the bill, was rejected—years 30, nays 33. This was the closest of all the votes. Two of the Populist senators (Kyle and Peffer) joined with Mr. Hill in supporting the amendment, and if the third Populist (Mr. Allen) had cast his the same way, the vote would have stood 31 to 32, but Mr. Allen voted in the negative.

Finally the amendment of the Finance Committee, or rather the Jones modification of it, was agreed to—yeas 35, nays 28—and with a few minor amendments to the other paragraphs the sugar schedule was completed and the tobacco schedule reached. The bill provides for a duty of 40 per cent. ad valorem on all sugars, with additions where they are above No. 16 Dutch standard, and this duty is to go into effect on January 1, 1895.

OUTRAGES BY STRIKERS.

Five Thousand Attack the Men of the National Tube Works.

MCKEESPORT, Pa., June 6.—The expected trouble at the National Tube Works has occurred. A mob of five thousand strikers broke down the entrance to the mill yard and drove the workmen employed in the various departments out of the plant. As the men were driven out of the works they were surrounded by another mob of strikers on the outside and beaten with clubs and chased through the central part of the city. Several welders crossed the Monoghela river. They were pursued by the strikers down the river. One of the men was caught and severely stabbed by his pursuers. His condition is critical.

The strikers intended to intercept the men when they came out of the works at six o'clock and try and induce them to join their ranks. The officials of the company anticipated a move of this kind and had a dining-room erected in the works where the men at work could get their meals without leaving the place. A foreigner came out of the shops shortly after six o'clock. He was halted by the strikers. The man drew a knife, and in an instant at least twenty strikers jumped on him and would have killed him but for the interference of police officers.

The mob broke into the mill. Charles Manlin and Joe Koberky, two of the men beaten by the mob, are maimed for life and internally injured. Councilman Watson was mistaken for one of the non-union men and was badly beaten by the strikers. The mob stopped a street car and took off a man, who also received a severe drubbing. No one was killed, but many of the non-union workers had narrow escapes at the hands of the angry mob.

THE RULING MARKETS.

TORONTO, June 6, 1894.

Grand Trunk railway returns of traffic for week ending June 2, show a total decrease for 1894 of 58,197.

THE FARMERS' MARKET.—There is no improvements in receipts, and prices are nominal. Wheat is quiet at 61c for white, at 60c for red and 58c for goose. Barley 41c to 42c, peas 66c, and oats at 39c.

Chicago wheat was higher on predictions of a frost and better cable reports. The close was ¼c higher. Corn was firm, and closed ¼c to 1c higher. Oats were very firm on decreasing stocks and reports of damage to the growing crops.

At Buffalo cattle were light, only a few cars on sale; steady. Sheep and lambs, 10 cars; dull and slow. Fair to good mixed sheep, $3.75 to $4; fair to choice lambs, $4.25 to $4.65; no fancy here. Hogs—12 cars; fair demand; 5 to 10c higher; mediums and heavy when choice selling up to $4.90; general run $4.85.

At the New York stock market there was no genuine business worth recording. In sugar stock, nevertheless, there was great activity. London houses which bought securities sold again. The unexpected news of the Italian Ministers resignation cast a very natural chill on financial sentiment, and American stocks suffered with the rest of the London market.

HOUSE OF COMMONS.

The Case of Editor Ellis of the St. John Globe.

OTTAWA, June 6.—Hon. Mr. Daly introduced in the Commons a bill to amend the Northwest Territories Act and a bill entitled the Dominion Irrigation Act.

Mr. Davies called the attention of Parliament to the case of Editor Ellis, who was imprisoned for contempt of court by Judge Tuck last autumn. He quoted the articles published in the St. John Globe, and said that considering the outrageous fraud which had been committed by Judge Tuck, he did not believe that there was a word there which was not warranted. He called the returning officer, in the election over which the trouble arose, a scoundrel and a coward. He asked the House to decide whether or not Mr. Ellis had acted from honest, high and constitutional motives, or if he had acted from malice or hatred against Judge Tuck personally. He moved the following resolution:

"That, in the opinion of this House, the action of the returning officer, Duan, in refusing to return George G. King, who had polled a large majority of the votes at an election held, and in returning Mr. George F. Baird, the minority candidate instead, was a gross violation of law and justice, a wicked and indefensible outrage upon the rights of the electors of Queen's county, N.B., and a precedent pregnant with much danger to the future political government of Canada as to have demanded and justified on the part of the newspaper press the severest possible condemnation and censure.

"That, in the further opinion of this House, the jurisdiction claimed by the judges of the Superior Courts of Record of punishing by fine and imprisonment to prison for constructive contempt being practically arbitrary and unlimited, and exercised by judges who are at the same time judges of the law, of the fact, of the intention, and of the sentence, and whose decisions are given without the aid of a jury, and without being subject to a review, is opposed to the genius and spirit of constitutional liberty, and ought never to be exercised where any other pertinent remedy can be found or recourse had to any other method of obtaining justice.

"That the punishment inflicted by the Supreme Court of New Brunswick upon John V. Ellis, in the month of October, 1893, for an alleged constructive contempt of court contained in articles published by him on the Queen's county election herein referred to was arbitrary, excessive, inimical to the public interest, and deserving of censure, and, in so far as it added costs to the fine and imprisonment, without precedent."

The debate on the Ellis case continued up to recess, and occupied the whole of the evening session also. Messrs. Hazen, Fraser (Guysboro), Baird, Gilmor and Dr. Weldon spoke. Mr. Baird gave his version of the case. The position he took was that he need not have resigned, as he held his seat legally, but that he did resign and stand again to show that he had the confidence of the electorate.

On motion of Mr. Mills the debate was adjourned, and the House rose.

MR. STRATTON'S ELEVENTH MEETING.

A GREAT RALLY OF SOUTH MONAGHAN ELECTORS.

A ROUSING MEETING AT BAILLIEBORO.

Mr. Roger's Address upon Several Topics—Mr. Stratton Dealt With the Misrepresentations of his Opposition—What Great and Good Men Think of the Mowat Government—A Grand and Successful Meeting.

As the campaign progresses it becomes more and more evident that the electors of West Peterborough have decided to stand by the Mowat Government and its candidate in the Riding, Mr. J. R. Stratton. Wherever meetings are held, the farming community show in an unmistakeable manner their sympathy with the Government, that of all Governments has done the most in every way to promote the interests of the great agricultural community.

The tenth meeting of the campaign was held on Tuesday night in the Bailieboro town hall, which was crowded to the doors. The meeting, which was a most enthusiastic one, was presided over by that veteran Liberal, Mr. John Porter, who briefly addressed the electors and called upon

Mr. G. M. Roger, who pointed out the disadvantages it would be to the province to accept the suggestion of Mr. Meredith and the Opposition for introducing upon British soil the political methods that prevail in the United States, with such corrupting results, in the shape of biennial sessions or sessions every two years. The small saving to the province in the sessional indemnity to the members would be more than made up by the extra length of the session and the

COST OF THE SESSION

generally. The hollow mockery of the cry of Mr. Winch and his speakers in reference to the temperance question was fully exploded. It was pointed out by Mr. Roger that most of those that pretended such a burning zeal for temperance had never done one thing to advance its interest, but that, on the contrary, they had all, with a couple of exceptions, been active opponents of all measures tending to promote the interests of temperance. Mr. Roger also dealt with other public questions at issue in this contest in a quiet, convincing manner, that won him hearty favour.

Mr. Stratton, who was given a most enthusiastic reception, referred to the pleasure to see before him the faces of so many who had stood by him in previous elections as well as the young men whom Sir Oliver Mowat by his Manhood Suffrage Act, had given an opportunity of casting their ballot in expression of their opinions upon the government of the country, and he hoped that these with many who had opposed him at the last election would come to his support on the 28th of June. Mr. Stratton referred to the fact that his opponent Mr. Winch had not deputized one of his speakers to represent him there that evening. It appeared that since Mr. Hampden Burnham had become lukewarm Mr. Winch's oratorical support had been weakened, but after a few evenings absent from the platform and a readjustment of the views with which he entered the campaign, Mr. Burnham had emerged from his retirement and appeared at Selwyn the previous night. The platform of the opposition in this campaign and in this riding especially, reminded the speaker of of the American politician who after treating his auditors to an exposition of his platform, remarked "Them's my sentiments, gentlemen, and if they don't suit you I can blame soon change them." and consequently Mr. Meredith's platform not suiting the present political haranguers the speakers in this riding have taken

THE LIBERTY OF CHANGING IT

to suit what they think will best suit the particular section they are addressing. Mr. Stratton went on to remark that the Mowat Government had been in power for 22 years administering the affairs in a manner that had never before been equalled for statesmanlike grasp of the situation and a comprehensive regard for every interest of the public. But it might be said that any eulogy he might pronounce upon the Mowat Government would be regarded as the testimony of a partial witness. Therefore he would ask the liberty of quoting the opinions of men, who were in political faith opposed to the Liberals but who from their lofty position of eminence, as citizens, commanded the highest respect for whatever opinions they might express. While stampers might bring petty charges against the Government, here was what Principal Grant, the head of the great Presbyterian University at Kingston, and the foremost divine in Canada, said in referring to the Mowat Government:

"Ontario cannot afford to dismiss Sir Oliver Mowat."

Here was a condensed certificate of character from a great man, which a great Government might well be proud of. Rev. Principal Grant was, as is well known, a Conservative, and his hearty endorsation was not influenced by party considerations but

BUT BY HONEST CONVICTION.

Principal Grant also said:

"What might have happened to the richest Province in the Dominion if an easy-going politician had had charge of its strong box! What plunder there was for a gang! We have timber limits worth tens of millions; we could stand a debt of twenty or thirty millions as easily as Quebec. A politician of easy virtue would have lavished these millions on healers and hangers-on, who, in return, would be enthusiastically voting him a god. Does not this thought throw some light on what we have escaped, and on what we owe to the man who has been in charge of our strong box for twenty-two years?"

Rev. R. E. Knowles, a Presbyterian minister at Ottawa, in addressing his congregation upon their duties as electors, thus referred to Sir Oliver Mowat, making this statement:

"Those who know me are aware that in politics I am a Conservative, but that does not prevent me from acknowledging the merits of a political opponent. Sir Oliver Mowat is an honour to his province and to Canada, and I agree with Principal Grant, another Conservative, that Ontario cannot afford to dispense with his services. The people cannot afford to ignore honesty in politics or to display want of appreciation of those who manage our public affairs well."

In addition to these the Toronto Evening News, a decided opponent of the Mowat Administration, referring to a statement of Mr. Marter, says:—

"In his address Saturday night Mr. Marter declared that had the Sandfield Macdonald policy been continued there would now be a cash surplus of $20,000,000 in the Ontario Treasury. The statement is probably correct. But if the money had not been spent we would be minus half the railway mileage of the province; there would be no deaf and dumb institutes; our asylum accommodation would not be nearly so great and there would be no Central Prison or Model Farm. These things are surely of more benefit to us than cash hoarded in the treasury. A government is not to be condemned merely because it has spent the public funds. The question to be considered is: Has the expenditure been within the financial capabilities of the state, and have the best results been obtained from the spending?"

These endorsations spoke for themselves and called for no comment. Mr. Stratton then referred to the proposed bridge at Rosa's, giving a history of the proceedings in reference thereto from the time the deputation waited upon him to the present, and pointed out that those who were endeavouring to belittle and misrepresent him in this matter had better be doing something themselves and not to misrepresent the attitude and action of a government that had not refused to co-operate in meeting the wants of the people of South Monaghan in the matter of this bridge. After a reference to Mr. W. H. Hill's astonishing figures in regard to the finances of the province, Mr. Stratton referred to the fallacy of his contentions and showed by figures that the province of Ontario had

A SURPLUS OVER LIABILITIES

of over six millions of dollars and assets of nearly a hundred million dollars while the province of Quebec was reeling under a debt of twenty-five millions of dollars, New Brunswick with two millions, Nova Scotia nearly two millions, Manitoba with over two millions, British Columbia close to a million, and the Dominion with 240 millions. As against this dark record of debt the Province of Ontario, after a liberal expenditure of twenty-two years, meeting every want of the people, had not a single dollar of debt. Quebec, which started on even terms, could not get any further loans but had to resort to direct taxation, taxing commercial corporations, transfers of property, trading licenses, etc. Ontario has no direct taxation but has assets that will, husbaned with the same prudence as in the past, stave off direct taxation for the next century. While in the United States charitable institutions and hospitals were being maintained by the municipalities in Ontario, the Ontario Government took this duty upon itself the relieving of the municipalities to the extent of about $800,000 a year, and the cost of maintenance of these institutions was far less than the cost for similiar, and in fact not so good, services in any other country. In twenty years over twelve millions had been given for educational purposes, thirteen millions had been given to asylums, hospitals and charities, relieving the municipalities of a great amount of taxation. The direct grants to Peterborough from the Government for various services which prevented the imposition of taxes was nearly $400,000 in the past twenty years. The Opposition

COMPLAINED THAT THE EXPENDITURE

was increasing. Of course it was increasing and Mr. Stratton said he must acknowledge himself responsible for increasing the expenditure to the amount of $40,000 in the eight years of his term in the house for works for the benefit of this county. For any increase the people had good value, and it would be a poor, shiftless policy to hoard up the money of the province and force the people to tax themselves to maintain public institutions and to carry on enterprises which the Mowat Government liberally supported without calling upon the ratepayers for a cent of taxation. The Opposition complained of an act passed two sessions ago, known as the Succession Duties Act, but the general community need have no fear that the bill will affect them unless the hard times gave place to greater prosperity, for the act does not affect the estate of a deceased person passing directly to their immediate relatives, unless the value exceeds $100,000. With wheat at its present prices there is not much danger that any great number of Peterborough farmers who may die soon, will leave an estate of $100,000, which is the lowest sum upon which the duty of 2½ per cent. can be levied. The act provided that in the case of

ESTATES EXCEEDING $100,000,

passing to the immediate relatives, a duty of 2½ per cent. might be levied, and when the value exceeds $200,000 a duty of 5 per cent., but no estate up to $100,000, when the money was left to the direct members of the family, was affected by this act in any way. Here we had an illustration of the fact that those who are best able, are made to pay towards the maintenance of those who deserve the assistance of their more fortunate fellowmen. While the law recognized the right of any and every citizen to the enjoyment of the wealth his industry and energy may have created, at the same time there was no denying that a person who has accumulated enormous wealth should make some return for the protection he has received from the province in the gathering of his gains, and it seemed eminently proper that rich men who do not gain wealth generally by bestowing money upon charitable objects, should be allowed a chance, after death, to balance the account, by contributing to the charitable objects that so lightly concerned them during their lifetime. And to what better or nobler purpose could a portion of the estate of a wealthy man be devoted than to a fund to provide for the maintenance and care of the poor and unfortunate, represented by our insane, our diseased, our blind or dumb or otherwise afflicted fellows? The proceeds of the duties collected from estates as affected by the act in question, went to form a fund to assist in defraying the expense of maintaining the hospitals, asylums and other charities of the province.

Such a government that touched the wants of the people at every point, that gave practical attention to every department of provincial life, that had an unsurpassed record for honesty of administration, was eminently entitled to another expression of public confidence which the speaker felt sure would be given, not only in West Peterborough, but throughout the province on the 28th of June.

The meeting closed with the usual cheers.

KEENE.

(From Our Own Correspondent.)

Political meetings are the order of the day, now.

The river here has risen fifteen inches during the last rains.

Mr. Jas. Yourex is talking of putting rollers in his grist mill.

Mr. Wm. Wedlock will start frog catching soon.

Mr. Marshal Weir has removed into his house, which he lately purchased from Miss Forsythe, on Front street.

Last Monday was revision court day here, but very little change was made in the list.

We have a new society here now, the S.O.R., with a membership of 26.

Mr. R. English is acting as agent for P. Hamilton's machinery, and has quite a stock on hand.

Mr. Joseph Bryce, of Belleville, spent a few days in Keene last week.

There will be a change of teachers in the junior department of the public school after midsummer.

Our enterprising carriage maker, Mr. S. Mather, has been kept very busy since his arrival here, and is turning out first-class work. Call and see him.

Miss Jessie McEwan, of Toronto, is visiting her sister, Mrs. J. Mr McGregor.

The anniversary services of the Keene Presbyterian church will be held on Sunday, June 24th. Rev. Dr. Mowat, Professor, Queen's University, will preach in the morning at 10.30 and in the evening at 7.30.

Rev. Mr. Cleland, of Port Hope, occupied the Presbyterian pulpit on Sunday, June 3rd, and delivered two very interesting and instructive sermons. The collections taken up went to the mission at Round Lake.

Court Otonabee, I.O.F., purpose having church parade on Sunday, June 17th. It is supposed all the neighbouring courts will be present.

Professor Satoh, of Japan, gave a very interesting sermon last Sunday in the Methodist church. For a man who has used the English language so little, he expressed himself remarkably well.

Mr. John Bertram will speak in the town hall on Monday night, June 11th, in the interest of Mr. T. Blezard, the Reform candidate for the East Riding.

The second annual excursion of Court Otonabee, I. O. F., will leave the Keene wharf on Friday, June 8th, and proceed to Idyl Wild for dinner, thence to Bewdley for lunch. A pleasant time is expected. Come all and spend a pleasant day.

DOMINION W. C. T. U.

War to Be Waged Against Immoral Literature—General Herbert Thanked.

LONDON, Ont., June 6.—Yesterday concluded the Dominion W. C. T. U. convention. Resolutions were passed urging "White Ribbon" women to use their utmost efforts to keep their own homes free from undesirable newspapers and advertisements, declaring its belief that one standard of morality is equally binding upon men and women. Major-General Herbert was thanked for issuing an order prohibiting the sale of intoxicating liquors at camps of instruction. Mrs. Rutherford advised all "White Ribboners" to patronize only papers who refused to accept liquor advertisements, and Mrs. Caven requested that any objectionable literature be sent to her address to be forwarded to the Government.

A resolution deploring the fact that the Manitoba Union does not affiliate with the Dominion Union was passed. Another resolution sanctioning the procuring of a petition or petitions to grant equal suffrage to men and women, signed by men only, to be presented to the different legislatures of the country, was passed unanimously. Mrs. Youmans, for some years past honorary president, was again unanimously elected for another term. The British Columbia Union reported the largest increase in membership and was presented with the prize banner.

Patron Coutts Accepts P.P.A. Platform.

BARRIE, June 6.—The Patrons of Industry of Centre Simcoe, at their convention held in March last, nominated Mr. James Coutts, of Vespers, as their candidate for the Local House. Since then Mr. Coutts has adopted the P P.A. platform also. This move did not meet with the approval of a few Patrons who endorsed him to represent the Patron platform only. Mr. Coutts, seeing his action was not favorable to some, asked the association to call another convention, which took place at Elmvale yesterday. Mr. Coutts explained to the convention his reasons for accepting the P.P.A. platform. His explanation met with the approval of the majority of the delegates and they again endorsed him as their candidate.

Trouble Among Stevedors.

MONCTON, N.B., June 6. — There is trouble at Point Duchene between stevedors and several arrests are probable. There are at present seven vessels at the wharf loading deals for trans-Atlantic points. The stowing club stevedors demand one dollar a standard. Dominque Boudreau was loading vessels, presumably at lower rates, when he was attacked, knocked down and ill-treated. The law has been since set in motion.

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

A New Idea.

You will remember that Goliath was very much struck when David hit him with a stone. He said that such a thing had never entered his head before. New ideas are numerous in our stock. We always have what is latest and best. We have the latest novels by the most modern writers, too numerous to enumerate—come and see. We also have a splendid line of popular paper bound books 2 for 25c. or 5 for 50 cents—a. h. stratton & co.

The Wabash Railway Trains

Children Cry for Pitcher's Castoria

A DEMON IN HUMAN FORM.

Zeu Krider Brutally Beats His Five-Year Old Step-Daughter.

PITTSBURG, June 6.—The prompt action of Constable Hellman of Duquesne, in hustling Zeu Krider into the county jail, was the means of saving the life of a brute in human form. Krider had abused the five-year-old step-daughter in a manner to excite the envy of a barbarian. During the temporary absence of the child's mother, Krider beat Zenie over the back and shoulders with a poker; pulled two great bunches of hair from her head; raised her to the ceiling of the room by the feet; dropped her to the floor, and then kicked the unconscious child in the pit of the stomach. Mrs. Krider returned and attempted to care for her injured baby. The brutal fiend threatened to kill her with a knife and drove her from the house.

Krider made no resistance when arrested, for when the story of his crime became known preparations were at once begun to lynch him. At the magistrate's office Krider entered a plea of guilty in order to be hurried to jail. Dr. Hawkins, who dressed Zenie's injuries, says they may prove fatal.

Krider is 57 years of age, a brakesman employed by the Carnegie Company. There is an insurance of $300 on the little girl's life and it is believed Krider is anxious to have her die in order to get the money.

EXPLOSION IN A LAUNDRY.

Six Employes Killed and Several Severely Injured.

PORTLAND, Ore., June 6.—Six people were killed, one fatally and three seriously scalded by an explosion which occurred in a laundry here yesterday. The high water caused the gas company to shut down, forcing the Troy steam laundry to find other means to operate its irons. A gasoline generator was put in and yesterday it exploded. The building is a mass of smouldering ruins and six employes are dead, three are in the hospital severely injured and the proprietor, J. B. Henderson is fatally burned. The dead and injured employes are Chinamen. Those in the hospital escaped by jumping from from windows, and in addition to being burned have broken legs or arms.

To the Memory of Lord Tennyson.

LONDON, June 6.—The English committee have accepted the design of John L. Pearson, a member of the Royal Academy, for the Tennyson memorial, which is to be an Iona cross, thirty-four feet high, and called the Tennyson Beacon. The cross will bear an inscription showing that it was erected by the friends of Tennyson in England and America. The beacon, which will occupy a commanding position near Faring Ford, the home of the late laureate at Fresh Water, Isle of Wight, will be 716 feet above high water and visible many miles landward and seaward.

Blew Up a Chicago Saloon.

CHICAGO, June 6.—Somebody threw a dynamite bomb into the saloon of Charles Neffz, 188 Eighteenth street, wrecking the entire front of the building and badly smashing things inside. Neffz and his bartender, Frank Heeler, were injured.

Rejoice With Us!

Only a few times in many years has been our pleasant privilege to give the ladies of Peterborough that which every lady appreciates most—a new dress of seasonable fabrics, just when it is most needed—AT HALF OR LESS THAN HALF PRICE. But, while we do not make much on these two lots of Dress Goods, you save from 25 to 50c. on every yard.

"It's Fair's way."

Don't let your dress speak of a prosperous past, but be up to date in the fashion, as our low prices enables you to be.

DRESS IN GLOVES.

The colour, make, and fit are what you need when you are out. If you dress without the proper effect in gloves, you are out of style. Our glove display comprises everything in this line in vogue this season.

There are fads in bonnets and dresses and wraps,
And fads so funny we love;
And though it may seem unlikely perhaps,
'Tis a fact there is a fad in a glove.

On the crinoline dress there are plenty of jokes,
And the fad is a subject of jest;
But the glove that suits both young and old folks,
Is at Fair's—it leads all the rest.

CUT THIS OUT

And see you get what we advertise.

LADIES' BLOUSES—All our $1.50, $1.75, $2.00 Blouses we let you have your choice for a one dollar bill.

LADIES' CLOAKS AND RUBBER COSSAMERS—to keep the rain out and protect your dresses—in some instances at HALF the original prices. For instance, Cloaks that were $6 to $8 now going at $2.75 to $3.50.

LADIES' COLOURED CLOTH CAPES—specially reduced to suit all cases—you may take them prices.

JACKETS—Latest styles, large sleeves—cost of material. MANTLES—Profits pushed aside—it's a clear sweep—It's Fair's way.

LADIES' SILK PARASOLS 75c., $1, $1.50. If you want an aristocratic Umbrella, with fashionable handles and sensible covering, you know where to look for it. UMBRELLAS RE-COVERED WHILE YOU WAIT. The prices tell, and everyone tells the prices.

CARPET ROOM SPECIALS.

Best Tapestry Carpets, 75c., were 95c. Best Five-Frame Brussels, $1.05, were $1.38. Best Wool Carpets at Toronto prices—all the style you want—all the wear you want. It's what you get for your money, not what you pay in apparent price. "It's Fair's way."

CONTROLLED BY MOBS

McKeesport, Pa., in the Hands of the Striking Miners.

OUTRAGES AT OTHER PLACES

One Man Killed and Several Severely Wounded in a Fight With Strikers in an Illinois Mining Town—Ready for Battle at Cripple Creek.

McKEESPORT, Pa., June 7.—An angry mob of 2,000 foreigners, national tube works strikers, returned to McKeesport just having in their raid destroyed two of the largest coal tipples on the river. The raiders first halted at David Moore's tipple at Point View The structure was soon razed to the ground. The rioters then tore down the tippled owned by John P. McIntyre. The mob first tore down the platform at the railroad siding, but was stopped on the hill by Mr. Correy, superintendent of the company, who had a revolver. A half dozen men rushed upon him and quickly disarmed him. He denied that any men were at work, but the infuriated foreigners would not listen to him, and a committee was appointed to inspect the mine. They returned shortly afterwards with twenty-five men.

McIntyre arrived and ordered the men off the place. The mob, seeing a revolver in his hand, shouted: "Teach him a lesson." This was followed by an attack on the tipple, the men using picks and axes and in less than fifteen minutes the structure was in ruins. Not content with this, the torch was applied and the entire tipple, machinery and all other equipments were soon ablaze. The mob then continued the march over the hill. McIntyre and Corry were helpless and had to stand by and see the property destroyed. The property destroyed was valued at over $10,000.

During the rioting several men were trampled upon. Upon returning to the city the mob took possession of the streets in the vicinity of the tube works, shouting, cursing and creating the greatest excitement.

The situation is much the same as prevailed at Homestead before the big battle. The men are in complete possession of the town. Mayor Andre has issued a stronger proclamation calling upon all citizens to preserve the peace at any hazard.

The strikers have secured three cannon which they planted in the bushes on the hill opposite McKeesport. They were turned directly on the tube works. They then entered the works and asked those at work to stop. There were 350 men at work. The men obeyed the order to quit at once.

PEORIA, Ill., June 7.—A messenger just arrived from Wesley, a small mining town three miles distant, reports the miners having attacked the Little brothers, the operators of the mines there, and fatally wounding three of them with dynamite bombs.

A United Press representative just returned from the scene of the miners' riot at Welsley reports one man killed and two fatally and a dozen others more or less seriously wounded. The mining property was destroyed.

CRIPPLE CREEK, Col., June 7.—The deputies have taken up a fortified position at the Summit mill, just below Gillette, and have placed their cannon in position. The strikers have all retreated to Bull Hill and are fortified, and they have also been largely reinforced. Demands on them to surrender was refused although they stated they would lay down their arms to the militia.

Big Dry Goods Failure.

MONTREAL, June 7.—Another big failure is reported in the Montreal dry goods trade. The Campagnie Generale des Bazaar, which was one of the largest retail houses in the city, assigned on the demand of Gault Bros. The liabilities will amount to about $175,000.

Tendered the Engineers a Reception.

MONTREAL, June 7.—The members of the American Society of Mechanical Engineers attended a reception given at the residence of Sir Donald Smith, Chancellor of McGill University, last night.

FIGHTING IN BRAZIL.

Rebels Under General Saraiva Keep Up the Insurrection.

NEW YORK, June 7.—The Herald's special from Rio Janeiro says: The government is taking active steps to prosecute several Englishmen who aided and abetted the revolutionists. Mr. Tilly, an American, who was openly in favor of the revolution, has fled inland. Federal forces under Gen. Pina have taken Cangarsa, Rio Grand, routing the government troops in a fight which lasted forty-eight hours and in which many were killed.

RIO DE JANEIRO, June 7.—The government has received information that part of the insurgent forces under Gen. Saraiva have been routed at Campos Novos, in Santa Catharine, the federal troops capturing six pieces of artillery. The insurgent losses were 150 killed and wounded and the government losses are 80 killed and wounded, including two captains in the former category. A large body of reinforcements embarked from here for the south.

Stabbed Two Military Officers.

MUNICH, June 7.—Two military officers engaged in a quarrel with a stranger in front of the Nymphenburg Castle and in the ensuing melee both were stabbed and are in a serious condition. The man was arrested. He claims to be an American.

Y.M.C.A. OF THE WORLD

Closing Services of the Conference Held in Exeter Hall.

SIR GEORGE WILLIAMS' WORK

The Veteran Founder of the Association Eulogized by the American Representatives and Congratulated on the Fruit of His Life's Work.

LONDON, June 7.—The closing services of the Jubilee celebration of the Y.M.C.A. took place in Exeter hall. John Wannamaker presided.

Mr. Wanamaker said that he had been thinking how great God could make one man. All present would agree that no other man in the world had touched so many men for their own good as had Sir George Williams. The Queen was the greatest woman in the realm, but Sir George Williams was the greatest man. London, the foremost city in the world, had conferred the highest honors upon Sir George Williams, the foremost man in the world. Mr. Wanamaker said that as the representative of many Philadelphia friends, he bore their greeting to the parent association and the brethren in council.

As the first employed secretary of an American association, he had watched with very deep interest the progress of the associations on the American side of the water, and the fact that they employ nearly 1,300 secretaries was certainly an indication of growth such as only a vigorous country could produce. He spoke of the progress that had been made in the American associations in the direction of a definite work for young men, and attributed not a little of the prosperity and success that had attended this work to the guidance that it had received from the good men who had given their lives to this work.

The Rev. Theodore Cuyler of Brooklyn delighted the audience by one of the best speeches of the conference. He referred to Morris K. Jessup of New York, as the "Consecrated millionaire banker," and to Cornelius Vanderbilt as the "Christian railroad president." Of James Stokes of New York, he said, "He is too modest to wear the knightly badge of France." In conclusion he said: "I have brought you the greetings of 250,000 American associates in whose hearts the name of George Williams is enshrined."

James Stokes congratulated Sir William upon the eventful jubilee season, and said he trusted that many more years of usefulness would be given him, and that his work, so auspiciously begun, would go forward with renewed vigor as the result of the wonderful days of the conference.

The great jubilee of the Y. M. C. A. just celebrated was the fiftieth anniversary of the organization of the first association which occurred June 6, 1844, in a small room in St. Paul's churchyard under the shadow of the cathedral. Sir George Williams, the founder, is a man still active in business and a leader in all departments of religious and benevolent work. Prior to this there had been young men's societies, but none were called Young Men's Christian Associations, and none did the work the Y. M. C. A. are now doing.

Youthful Thieves in Stouffville.

STOUFFVILLE, June 7.—Four young men of hitherto good character have been arrested on a multitude of charges. For a year and a half past numerous robberies have taken place in the vicinity, but no evidence could be secured against the evildoers. Magistrate Saunders issued warrants on what he considered indisputable evidence for the arrest of George Forsyth, S. Williams, John Wetherell and Anson Forsyth, all young men of fairly good standing. The county police are sure that they have the thieves and the residents of Stouffville are correspondingly elated. Another of the Forsyth boys pleaded guilty to a charge of theft before Judge McDougall yesterday.

The Wreck of the Texas.

ST. JOHNS, Nfld., June 6.—In response to enquiries the telegraph operator at Trepassey sends fuller details of the wreck. He states that the ship is not a total wreck. The captain says that part of the cargo can be saved if the water becomes smoother. Some of the cattle on the deck were saved. The captain has wired Messrs. Bowrings, Lloyd's agents here, asking how to proceed in the matter, and the Bowrings have given him carte blanche to do the best he can to save the property for the underwriters. The crew are now at St. Marys in care of the wreck commissioners deputy. The commissioners will be sent on immediately. The men appear all well.

Decrease in Emigration.

LONDON, June 7.—There is a continued heavy decline in the emigration to America through British ports. As is shown by the Board of Trade returns, compared with last year's emigration to Canada in May, decreased from 8,070 to 3,006, and United States emigration from 31,514 to 16,318. During the five months emigration to Canada has decreased from 26,329 to 10,017. To the United States the figures show a decrease from 103,560 to 51,995.

A Petrified Corpse.

ST. JOHNS, Que., June 7.—Unusual excitement prevails here over the discovery of the petrified remains of Marie Louise Lefevbre, late wife of Crossby Towner of this town, buried twenty-one years ago. Upon exhumation for reinterment in the new Catholic cemetery the body, though perfect in form, was found to be as hard as stone and a dark stony color. It has been viewed by hundreds.

Struck by a Train.

ALVINSTON, Ont., June 7.—Mr. John Hand, a Brock farmer, and his daughter, while driving over the G.T.R. tracks here were struck by the Glencoe and Kingscourt accommodation train. The horse was slightly hurt and the shafts of the rig broken, but the occupants escaped without injury.

Raided a French Anarchist.

LONDON, June 7.—The lodgings of a French anarchist in the Hampstead road were raided by the police. They profess to have made important discoveries in search of the premises, but refuse to say what they were.

NEWFOUNDLAND CRISIS

Governor O'Brien's Action Discussed by the London Times.

INDIGNATION IN THE COLONY

Speaker Emerson of the Assembly Declares the Governor Acted in an Unconstitutional Manner and Established a Dangerous Precedent.

LONDON, June 7.—G. Emerson, speaker of the Newfoundland House of Assembly, has cabled to the Times the details of the situation in St. Johns. He closes his despatch thus: "There is deep-seated indignation throughout the colony. The Governor's action is unconstitutional in its nature and is without a parallel. The Governor's advisers openly assert that the Governor is acting on the advice of the Imperial Government. If that is correct it amounts to an abrogation of the constitution of the colony, which must appeal to the other colonies against the establishment of a precedent of such far-reaching consequences. It is felt that the British press should sustain the colony."

The Times editorially on the despatch says: "It is incomplete and unintelligible. It is evident that the Governor must have acted under the compulsion of very powerful motives when he decided to encounter these difficulties."

The Times discusses the election petitions and asserts that the Whiteway party manifestly demanded a dissolution to enable them to escape the consequences of the petitions. This the Times regards as virtually a scheme for burking inquiries. "In this country there is no disposition to side with this or that set of colonial politicians," adds the Times, but it is a point of honor that a prerogative of the crown shall not be used to defeat a judicial inquiry, however able and eminent the person concerned may be."

Revenue Difficulties Ahead.

ST. JOHNS, Nfld., June 7.—The Government has made a lot of new appointments. The Gazette contains board of revenue, board of works and commission of inquiry to investigate the stolen telegraphic messages published in the Telegram newspaper during the Bay De Vere election; also a road board for the whole district of Bay De Verde, and a variety of smaller appointments. It is reported considerable difficulty will be encountered next week in collecting revenue. The new board of revenue frames a regulation enforcing the duties. The Whiteway party anticipate that something will turn up to their advantage.

MYSTERY OF CALEB HARTLEY.

Unimportant Evidence Adduced at the Resumed Inquest.

NORWICH, Ont., June 7.—The inquest in the matter of the death of the late Caleb Hartley was resumed yesterday at his late residence at New Durham. The evidence adduced was unimportant, though the case is still regarded with marked interest throughout this section generally. Some of the witnesses who had previously testified, were recalled and entered further into details of the deceased's condition when last seen by them.

One of the witnesses testified that in his opinion the condition of the body at death denoted the presence of arsenic. The analysis report is the centre point of all interest, and as that has not arrived yet the case drags along somewhat wearily. Owing to want of room the public were excluded, and only officials, witnesses, jury and reporters were present.

The coroner positively refused to allow the lawyers to question or interfere with the witnesses. The case is again adjourned to Tuesday next when the coroner expects to have the analysist's report as to the condition of the organs sent to Toronto for analysis. It is generally thought that evidence of a sensational character will be forthcoming when the relatives of the deceased are called upon to testify.

TORONTO'S BIG MEETING.

Reformers Hold a Grand Rally at the Provincial Capital.

TORONTO, June 7.—The Reformers held a grand rally in the Pavilion last night, the three candidates for the city, Messrs. Tait, Lindsey and Moss being present. Dr. Ogden was in the chair. The meeting was graced with the flower of provincial oratory, the speakers being Wm. Lount, Q. C., Charles Moss, Q. C., W. S. Wilson, managing editor of the Globe, G. G. S. Lindsey, Joseph Tait, Sir Oliver Mowat and Hon. Geo. W. Ross. The speakers were earnest in their appreciation of the services rendered the province by the present administration. The audience was thoroughly in accord with the views expressed and showed their approval by enthusiastic applause.

Death From a Horse's Kick.

HAMILTON, June 7.—A farmer living near Ryckman's corners, named Harry Storrar, was killed almost instantly by being kicked by a horse. Mr. Storrar was driving his team attached to a heavy load, and in urging them forward he struck one of the horses with the line. The horse kicked at him viciously and his hoof caught him in the pit of the stomach. Deceased was 55 years of age and leaves a widow.

British Columbia Floods Subside.

VANCOUVER, B.C., June 7.—Reports from all points up the country show falling water. It is hoped the turning point has now been reached. The delta lands came through all right excepting the little damage already reported. Most of the farmers whose lands were inundated are being taken care of by their neighbors.

Canadian Poor in Canada.

MONTREAL, June 7.—Lord and Lady Mount-Stephen arrived in Montreal this morning. Lord Mount-Stephen's visit is partly for business and partly for pleasure. After a stay for a few days in Montreal to look after his investments, he and her Ladyship will proceed to his Lordship's fishing reserve on the Metapedia.

"El Padre" and "La Flora" [Especial] are the recognized standard 10c. Cigars.

METHODISTS WANT A DOLLAR NEWSPAPER.

To the Editor of the Examiner:

It were almost impossible to estimate the value of a properly edited, rightly managed, and largely circulated religious newspaper. No church in this day can afford to ignore this powerful adjunct to its growth and usefulness, and further, it almost goes far the saying that the Christian Guardian is without a rival on its claim upon the support and patronage of the Methodist public of this Dominion. In regard to form, style, finish and editorial management, one would have to travel far to find its equal yet the fact abides that at the close of the last quadrennial the circulation was only a little over 13,000 copies. From the report of the western section of the book committee presented to the last general conference, I quote the following sentence: "Wherever the Guardian is read by our people they are brought into intelligent sympathy with our missionary, educational, publishing and evangelistic work." But a line farther on in this same report we meet with the disheartening statement that the circulation of the Guardian, between 1886 and 1893 suffered a decrease of one thousand seven hundred and sixteen copies.

With such a record the hope of intelligent sympathy throughout the connection becomes a greatly diminished quantity. If, after an existence of sixty years only so small a proportion of our people take the Guardian, there must be something radically wrong somewhere. I cannot think it is in the "make-up," but rather in the price of the paper. In reaching the masses of our members and adherents, the Guardian has signally failed. Now, in making such a statement you may accuse me of disloyalty. My answer to all that do question me is this, "I am far more convinced that Methodism shall have a people thoroughly informed on all matters relating to our church, work and policy, than that she shall continue the existence of a high-toned, high-priced, and non-read paper." I am well aware that the Guardian cannot be published, as it now is, for the price named in the heading of this article. But, surely the Methodist church is not wedded to form and style. An experience of over fifty years has demonstrated the fact that Dominion Methodism has but little use for a newspaper such as the Guardian now is. Wherein lies the wisdom of prolonging this policy of failure, I am unable to discern. Our persistency in keeping up the style and price of the Guardian has opened the flood-gates to half a score of other religious periodicals obtained for a dollar a year.

Thousands of such publications enter the homes of our people every week, simply because the Methodist church will not supply her connectional organ for that price. Many of these papers are anti-British as well as anti-Methodist. I plead for a Methodist paper for our people from ocean to ocean which shall not cost over one dollar per year. Even if there should be the loss of a few thousand dollars in starting such an enterprise, the issue would result in greater gain. The claims and workings of the various connectional funds of the church, especially the missionary and educational funds, should be set forth so frequently, that all the children of our homes would grow up with a thorough knowledge of the inner workings of the church, and thus from their very youth be more liable to become intelligent and sympathetic members in later years. The idea or possibility of reaching our people and imparting sound and healthful information on all questions affecting our vital interests with a circulation of 13,000 copies is simply a farce. I plead for a cheaper paper for the masses of our Methodism. A paper that shall be large and good enough to convey needed help and information, if not so elaborate as the one now issued. Such a paper the Methodism of this Dominion must have, if it is to keep pace with the onward march of a sound and abiding evangelism, and may I not express the conviction that such a paper we shall have in the not far distant future. A paper that shall be so cheap and yet so full of Methodist information and dealt out in such attractive style as to quickly find its way into nearly every Methodist family from Halifax to Vancouver. Such a paper is a possibility, and for its advent I earnestly plead.

O. R. LAMBLY.

A Large Waist

Is not generally considered a necessary adjunct to the grace, beauty or symmetry of the womanly form. Within the body, however is a great waste made necessary according to the condition of things—continually in process and requiring the perfect action of all bodily functions to absorb or dispel the refuse. When there is irregularity or inaction, ladies who value a clean, healthy body will take Dr. Pierce's Favorite Prescription—the only remedy for woman sold with a positive guarantee to RIGHT all her peculiar WRONGS.

To those about to become mothers, it is a priceless boon, for it lessens the pains and perils of childbirth, shortens labor, promotes an abundant secretion of nourishment for the child and shortens the period of confinement.

Dr. Pierce's Pellets cure billousness, constipation, sick headache, indigestion or dyspepsia, and kindred diseases.

ROYAL BARGAINS!

Here are a few actual specimens of some of the RICHEST NUGGETS in the Dry Goods line thrown on the market for many a day.

To avoid sensationalism—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods

WORTH ABOUT DOUBLE THE PRICE—

5c. 3 Papers of Good Pins. Good Glass Towelling. 1 Pair Good Towels. Good Flannelette. Good Straw Hats.

10c. Good All-Wool Debeige. Good All Wool Delaine. The Best 10c. Prints. 2 Ladies' Knitted Vests. Ladies' Fast Dye Black Hose.

15c. 4 Good Lawn Handkerchiefs. 4 Nice Fancy Frills. Fancy Veiling. Nice Ceylon Flannel. White Japanese Silk Hemstitched Handkerchiefs.

20c. 500 yards Lovely French Figured Crepons, to be sold at 20 cents a yard—sold everywhere else at 35 cents.

25c. 2 pairs Ladies' Kid Gloves. 2 yards of Fancy Colored Skirting with Border. 3 yards Fine Checked Muslin. 3 pairs Gents' Wool Socks. 3 yards of Satin Striped Muslin.

30c. 750 yards of Beautiful Dress Goods to be cleared out at 30c. These Goods would be good value at 50c.

35c. Good Kid Gloves. Good Lace Curtains. Good Corsets. Ladies' White Chemisettes.

40c. 3000 yards of Good All-Wool Silk-Finished Henriettas at 40c. These Goods are actually worth 60c.

Y. P. S. C. E. NOTES.

Under the above heading we propose to insert all items of interest to Endeavourers, and trust each society will see to it that we are kept informed of work done or work contemplated. Let some one member be appointed to help us, and you will find these Notes of interest. Please send in at least two copies of your report; write on one side of the paper. addressed to "C. E. Editor," Box 565, Peterborough.

THE UNION EXCURSION TO JUBILEE.

Arrangements have been completed for this excursion and a grand rally is expected on the 15th of June. The social committees of the respective societies met on Friday evening last and drafted a programme. One hour will be taken up with addresses and some of the pastors most interested in the work will be asked to take part. Games, etc., will be introduced.

ST. PAUL'S SOCIETY.

We held our consecration meeting on Monday night and the full hour was almost taken up with responses to the roll call. The roll was grouped in committees and a member of each committee offered up prayer after the committee had all responded to their names. It is needless to say that this deviation from the regular way of calling the roll made the meeting very interesting.

THE UNION EXECUTIVE

will meet in the Y.M.C.A. rooms on Friday night at eight o'clock. A full attendance is requested at this meeting.

NORTH SMITH.

Selwyn, May 21, 1894.—North Smith Y. P.S.C.E. report of officers as follows:

President—Mrs. Hall Sanderson.
Vice-President—Mrs. W. A. Graham.
Corresponding Secretary—Miss M. M. Nelson.
Recording Secretary—Miss B. Sanderson.
Treasurer—Mr. F. Blewett.
Conveners of Committees:—
Prayer Meeting Committee—M. M. Nelson.
Look-out Committee—Miss M. Fitzgerald.
Social Committee—Mrs. W. A. Graham.
Visiting Committee—Mr. Fred Sanderson.
Flower Committee—Miss Minnie Blewett.
Music Committee—Miss Essie Blewett.

Our Christian Endeavour prayer meeting is on Thursday, average attendance, thirty. A pleasant feature of our last Thursday evening's meeting was an address on committee work, by Miss M. E. McEwen, vice president of Smith Local Union. Her address was practical and instructive and will prove a help to the members.

May 28th, 1894.

North Smith Y. P. S. C. E. held their meeting on Friday evening, May 25th, which was ably led by Miss M. Sanderson, while the topic was assigned to Miss Essie Blewitt, who gave a very helpful paper on "What Love Does for the World." A pleasing feature of the programme was an address by Rev. Mr. Dailey, who explained the difference between the person who was possessed of love and the natural selfishness of the one who had not that love.

CHARLOTTE STREET CHURCH E. L. OF C. E.

The Rev. J. W. Bell, B. D., gave a profitable and interesting lecture Monday evening under the auspices of our society. The subject upon which he dwelt was "The Gin Mill," which was was not only clearly brought before the audience by the aid of his lime light views, but by words, pictured more vividly to our minds the awful effects of intemperance. He spoke very eloquently and moved the audience to laughter and tears at will. The lecture room was filled to its capacity and all seemed to go away pleased.

THE JUNIOR RALLY.

Owing to the death of the secretary of the Junior Union, Miss Jennie Mercer, the rally of the Juniors has been postponed till Saturday, June 9th. It is desirable that as many of the parents, and friends of the Senior Societies, as possible should attend. The meeting will be held in the Y. M. C. A. Hall, at 4 p. m. The programme will be the same as announced. We expect two new societies, Murray street Baptist and Park street Baptist, to join us on this occasion.

GEORGE STREET METHODIST.

The regular monthly business meeting of the George street church Epworth League was held on Monday evening, 28th. Miss Rutherford presided. After the Scripture lesson Mr. Edward Cragg gave a short address on the topic. The reports of committees and the secretary and treasurer's reports were read. At the close of the regular meeting the executive committee held a meeting.

SPRAYING ORCHARDS.

Timely and Practical Directions for Owners of Orchards.

Those who have not already done so should get a pump and try the effect of spraying their apple trees. Small hand pumps which will answer for a small orchard, or small trees, can be got at moderate prices ($3.50 to $5.00) from our local dealers, and it is safe to say that they will easily pay for themselves in a single year. No time should be lost. Below we give the formula:

Bordeaux Mixture.

Copper Sulphate (Blue Vitriol)	6 pounds
Quicklime	4 "
Water	40 gallons

Dissolve the copper sulphate by putting it in a bag of coarse cloth and hanging it in a vessel, holding at least 4 gallons, so that it is just covered by the water, or by using boiling water. Use earthen or wooden vessels. Shake the lime in an equal amount of water. Then mix the two and add water to make 40 gallons. Mix 3 ounces of paris green in a little water and add it to the mixture. For tall trees a longer hose is necessary than that which is usually sold with the small pump, and a bamboo rod may be used to elevate the nozzle. A very fine spray is required, and the leaves should only be lightly covered with the spray. The lime should be fresh. Mr. Craig, Horticulturist of the Experimental Farm, Ottawa, says: A good practice is to dissolve in 20 or 30 gallons of water as many pounds of copper sulphate and keep this for the concentrated stock solution. In another barrel slake as many pounds of lime in as many gallons of water. Then from an ordinary coal oil barrel take 4 gallons of your copper sulphate solution and add the lime till the ferrocyanide test tells you that you have sufficient. This is for spraying on a larger scale.

SURGEON'S KNIVES.

Failed to Remove the Disease from Hezekiah Vaughan's System—Dodd's Kidney Pills, which have Never yet Failed, Cured Him in Short Order.

SANDWICH, May 28.—Hezekiah Vaughan, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Detroit, for what different doctors diagnosed as liver complaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 4½ hours, but when they got through, none of them could tell what was wrong, and the patient was left as bad as ever. The benefits derived by a neighbor from the use of Dodd's Kidney Pills, induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that afflicted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

COLD SPRINGS—OTONABEE.

From our own Correspondent.

Sabbath School Anniversary.—The sixth anniversary of Cold Springs Union Sabbath School, like the preceding anniversaries, was a most decided success, financially and otherwise. Rev. W. R. Young, B.A., the popular pastor of George Street Methodist Church, Peterborough, was present on Sunday, May 27th, and delivered an interesting and very profitable address to the large audience that had gathered to hear him.

On Monday evening, May 28th, there was a tea and entertainment. Tea was served in a large tent which had been erected for the occasion and which answered the purpose admirably. After the wants of the inner man had been satisfied an adjournment was made to the school room, where the following programme was rendered by members of the school and by others, to whom the hearty thanks of the school is tendered for their very kind assistance.

As the lady members of the school had provided an over-abundant supply of refreshments, a social was held on Wednesday evening, when a very pleasant time was spent. When the social was over an impromptu programme was given, consisting of mouth organ music by Messrs. G. Anderson, M. Kennedy and W. Robertson; readings by Miss L. Bennett and Mr. H. P. Kennedy, and two-minute speeches by Misses J. Ambrose, C. Robertson and L. Bennett; Mrs. T. Sisson and Messrs. D. Kennedy, M. W. Matchett, R. A. Ward, H. P. Kennedy and A. Owens. In the matter of orators this section is very highly favoured, the subjects discussed ranging from politics to astronomy, and including much that comes between. Judging by the hearty and frequent applause of the audience, and the encouraging and commendatory remarks, it was evident that the programme was highly satisfactory to all.

The school enters upon its seventh year with very encouraging prospects of success. All who can do so are cordially invited to attend the sessions which are held every Sunday afternoon at 2.45. Strangers and visitors are specially welcome. Since the organization of the school there has never been a "blank" Sunday, except when the building was undergoing repairs or in case of funerals, so the members mean just what they say that they meet "every" Sunday.

ANNUAL CONFERENCE BOUNDARIES.

To The Editor of the Examiner:

DEAR SIR,—The Rev. J. S. Ross has clearly set forth in last week's issue of the Guardian some of the great disadvantages that would result from the change of Conference boundaries, as proposed by the Commission. I am persuaded that such a change would seriously interfere with the working power and consequent growth of the church. For all purposes of administration our Conferences are sufficiently large as at present constituted. To diminish the number of Conferences means to decrease the number of power centres in the church. Everybody knows that tact and ability, so much desired in the discharge of all conferential duties, are fostered and developed by opportunity and exercise. But let our numbers be increased twofold, and there would be scores of younger men in each Conference to whom the opportunity of engaging in the business of the Conference, or even serving on committees, would be small indeed. All the work to be done by an Annual Conference can be more efficiently accomplished by a comparatively small body of men; while, on the other hand, small Conferences will the better equip a larger number of men for effective service. A little farm under a good and thorough state of cultivation, will produce larger crops and better profits than many acres but poorly tilled.

The remedy for the ills of Methodism, if such there are, will not be found in enlarged Conferences, but in a better and more workable system of transfer. If transfers were made possible, without depending upon an invitation from a Quarterly Board, and if a transferred man were not made to feel that he is an alien, but a brother beloved, and entitled to all the rights and privileges of the other members of such Conferences, some of the reasons leading men to seek for enlarged boundaries would disappear. More Christlikeness, and not larger territory, would adjust many of our difficulties. Increased numbers mean the Conference work done under increased difficulties, fewer men interested in and fitted for the work, fewer towns and churches benefitted by these annual gatherings, and largely increased connexional expense. Better far, for every interest of the church, to let Conference boundaries remain as at present.

FRATERNAL ASSESSMENT LIABILITY.

"Can't I get out when I please, and have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate*. The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any similiar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

Another June Wedding.

A pretty wedding took place last night at the residence of Mr. Wesley Edwards, Gilmour street, being the marriage of his sister, Miss Lilly Edwards, to Mr. Seth Adlum, of the lock works. The ceremony was performed by Rev. Mr. Young, the bridesmaid being Miss Maud Edwards and the groomsman Mr. W. Brenton. The two little sisters of the bride were the maids of honour. A large number of very pretty presents were received.

A Drop of 25 Per Cent.

Frank Anthony is bound to do the fruit trade of the town, and for the next two weeks will sell at 25 per cent less than what other dealers are charging. He will be at the Grand Central Hotel Saturday, June 9th. One day only.

Faust.

The costumes worn by the Labadie-Rowell company which will appear in the drama "Faust" at the opera house Monday night, June 11th, are the finest ever seen in this city. They were especially designed for this company and play by the celebrated Acme Costume Co., of Owasso, Mich. The effects introduced into "Faust" are new and novel. The play is a legitimate drama of the higher class and appeals most directly to the better class of theatre-goers. The supporting company is a strong one selected from the cream of metropolitan artists. Secure seats at Street Railway office. Prices, 25c, 35c, 50c.

Married Last Evening.

An interesting event took place last evening at eight o'clock in the marriage of Miss Emma Ida Mitchell to Mr. Reginald Hounsell, at the residence of the bride's father, Mr. G. A. Mitchell, 420 Water street. The knot was tied by Rev. Mr. Young, the bride being assisted by Miss Lina Rountree, who was gowned, as was the bride, in cream cashmere prettily trimmed with lace. The groomsman was Mr. Edward Manning, and but a few of the most intimate of the friends of the young couple were present, on account of the recent illness of Mr. Mitchell. The presents were both costly and numerous. Mr. and Mrs. Hounsell will reside in future at No. 276 Smith street.

You'll go—of Course You Will.

You and your wife have been talking about going down the river for an excursion the first good chance that occurred, just to see if there were as many graceful bends and corners along the Otonabee to Jubilee Point as there used to be, when both of you went down on the Golden Eye in those good old days before you got married. Here's your chance. The money making boys belonging to Court St. Peter C. O. F., have been wanting to snap up the first good date that was open with the new "City of Peterborough" syndicate, and, after saying all the nice things they could to Harry Calcutt about his new parlour-car steamer and the electric gorgeousness of the saloon when it was lit up, fairly captivated the Commodore's good heart and he let them take first pick on the slate. So they have selected Thursday, June 21st, and now they're hustling about, like canvassers on an election day, making preparations for the biggest society picnic and excursion that ever went down the river. The say the "City of Peterborough" can carry over 300 passengers, and when you come to consider that the committee have also secured two palace barges besides to accommodate their friends. You can imagine what an interesting float the affair is to be. There will be music and dancing of course, by good musicians and good dancers. Lots of tempting refreshments on board, and interesting amusements and many other features too numerous to mention. Tickets 50 cents, children 25 cents. You'll go—of course you will—for old associations. 133-dtf

NEWS NUGGETS.

—Court of Revision meets to-night.

—Additional local matter on eighth page.

—A number of June weddings are on the tapis.

—Three cases of typhoid fever are reported in Lakefield.

—No arrests yesterday or last night and no police court this morning.

—St. Andrew's Sunday school scholars will hold their annual picnic on July 10th.

—There have been very few days during the past four weeks on which rain has not fallen.

—The lumbermen are making the best of the opportunity offered by high water, and are rushing their drives.

—Mr. James O'Connor plucked two fine ripe strawberries in his garden in Campbellford a week ago, as a sample of early growth and maturity.

—Destroys bed bugs, cockroaches and other similiar pests, sure as death. What? Post's Corrosive Sublimote, for sale at Lynch's Drug Store.

—Peterborough Lodge, No. 111, I. O. O. F. will confer initiation on several candidates on Thursday evening next. All visiting Brothers are cordially invited.

—One would almost fancy that even the street watering carts would take exception to the dullness of trade consequent upon the long, dreary spell of wet weather.

—The Farmers' Institute excursion on the City of Peterborough to-day was well patronized the boat carried out her full complement of 300 passengers from the wharf.

—The Knights of the Maccabees held a most successful meeting, Tuesday evening, and initiated a few candidates. Rev. Mr. Young will, it is understood, become the Chaplain of the Order.

—The fourteenth annual meeting of the Ontario Medical Association is in session in Toronto. It is expected the attendance will reach 250. Among those present from this vicinity are Dr. W. H. Jeff, Havelock, and Dr. A. Wilson, Fenelon Falls.

—Mr. R. W. Muncaster, formerly of Peterborough, but who is now living in Carolina, recently sent home to his mother a small parcel of cotton-seeds. The formation of the seed is most curious, each one being enclosed in a soft silky sack.

—A private letter from a gentleman in Ottawa states that the Governor-General was so delighted with his visit to Belleville that, in the writer's opinion, he may be inclined to repeat it after the return of Her Excellency the Countess of Aberdeen from England.

—Inspector Garvin states that the receipts taken in yesterday did not equal the expenses. The deficit will be about $15. This amount will likely be made up when the balance of the sports are carried out later on. Fully 1500 people were present on the grounds.

—Mr. J. Telford this morning caught a sparrow on George street which had a small label attached to its foot. On the label were printed the words "Vote for Stratton." As the bird fluttered down from aloft it is not known from what height it may have come.

—The W. C. T. U. will hold their annual flower service on Friday, 8th June at 2 o'clock, at the residence of Mrs. G. Paton, 202 Brock street. Any person interested in such work and having any extra flowers will please leave them at any of the following places: Mrs. Dobson, 146 Murray st.; Mrs. Martin, 229 Edinburgh street; Dr. Fife, George street; Mrs. George Laing, corner Charlotte and Park streets.

MR. STRATTON'S THIRTEENTH MEETING.

A BIG RALLY AT BRIDGENORTH.

Smith Solid for Stratton—Addresses by Mr. Roger, Mr. Hamilton and Mr. Stratton.

Last night, a splendid political gathering of the electors of Smith was held in the Town Hall, Bridgenorth. Mr. Wm. Telford, the vetern baird of Smith, was in the chair.

Mr. G. M. Roger opened the meeting in a stirring address, referring to the work accomplished by Sir Oliver Mowat and his government for the past 22 years. The fallacies of the Opposition were pointed out by the speaker and the general tendency of the administration of the government shown to be in complete harmony with the necessities of the province.

Mr. A. P. Pousette appeared as counsel for Mr. Winch and presented the cause of the Opposition in his usual clear and forcible manner.

Mr. Stratton referred to the change of front of Mr. Pousette since the last election, when he occupied the prominent position of chairman of the Equal Right Party. It would appear that that he had relapsed from the lofty ground of independent action, from a great principle independent of parties and taken his place in the ranks of the Ontario Opposition again. Mr. Stratton pointed out in the financial standing of the Province, that the most bitter opponent of the government could not point to a single corrupt transaction in the long course of 22 years. He referred to the general excellent administration of the government in every department and closed with an appeal to the electors to show by their votes that they still stood the friends of a government that had for so many years stood the true friend of Ontario.

Mr. Peter Hamilton referred to the distinguished position Ontario occupied in comparison with the other provinces, to the excellent administrative record of the government, to the wise legislation given the people from time to time, to the action and practical interest always shown in the Riding by Mr. Stratton, and to his claims as a supporter of the best Government that ever existed in Canada, as well as by his own individual record to a hearty support such as would place him at the head of the poll on June 26th.

The meeting was closed with the usual hearty cheers for the Queen, Mr. Stratton and the chairman.

Mr. Stratton addresses the electors to-night at Montgomery's school near Buckhorn, and at Young's Point to-morow night.

ENNISMORE'S ANNUAL PIC-NIC.

A Great Day of Enjoyment Promised—An Exciting Canoe Race.

The annual Pic-nic of St. Martin's church Ennismore, will be held in a beautiful grove, at Gannon's Narrows, on Wednesday, June 13th. One of the great attractions of the occasion will be a canoe race for a prize of $10 in gold, or for those who do not wish to risk their amateur standing, a silver cup of equal value. This event is open to the two counties of Peterborough and Northumberland, and already there are two entries, which insure a speedy and game canoe contest. The conditions governing the race are:—Distance, 1½ mile—three-quarters of a mile with turn; canoes must not be more than 17 feet in length nor less than 24 inches beam. The two entries already made are Mr. Geo. Taylor and Gardiner Nicholls, two old rivals, who will doubtless put up an exciting race. But the entries are not confined to these two; any other canoeist in the two counties can enter the contest. In addition to this grand canoe race there will be a full programme of sports and games, excellent dinner will be provided and speeches appropriate to the occasion will be delivered. Special reduction in railway and steamer fares for the occasion. Remember the date, June 13th, and watch posters for particulars.

SPRIGHTLY SUMMER SPORTS.

On the Lacrosse Field, the Crease and the Diamond—Triple A. Topics—The Bicycle and Football.

LACROSSE.

The Peterboroughs held one of the fastest practices of the season on their grounds, Ashburnham, last evening, almost all the players were present. The team for the match to-morrow will be picked to-day.

Don't miss seeing the grand Lacrosse match to-morrow on the P. A. A. A. grounds Ashburnham, between Port Hope and Peterborough. Guaranteed best of the season.

A special meeting of the Peterborough lacrosse club will be held to-night at the Palace Restaurant. As this is the eve of the great Peterborough-Port Hope match every member is expected to be present.

BASEBALL.

The Carlton baseball club, of Toronto, are anxious to arrange a match for Dominion Day out of the city, and the secretary, C. T. Waterman, 279 Sackville street, will be pleased to receive a challenge, or some intimation of a club who are desirous of playing on that day or a subsequent Saturday afternoon.

LIVE LAKEFIELD.

(From Our Own Correspondent.)

The water in the river keeps very high, and as the upper lakes are full we should have a good water supply all summer.

The only case of diphtheria left in the village is now well. There are several cases of typhoid fever in the country adjoining the village.

Lakefield will give J. R. Stratton a larger vote that ever before on the 26th of June.

Several who were engaged in fighting, etc., have been up before J. Hull and fined. There are yet one or two in town wanted but their turn will come as soon as Constable Dridge gets time.

The wet weather has kept the village very quiet, so there is little or no news to give.

The village council meets next Monday night in the Town Hall.

Mr. W. M. Graham is up in Brantford attending to his duties as auditor High Court, C.O.F.

The county council has had a new sidewalk laid on the iron bridge and the approaches improved. It has made a great improvement.

PERSONAL.

Rev. Mr. Powell, of Harvey, conducted the prayer meeting services last evening at the Charlotte street Methodist church, gave an earnest and practical talk on the closing scenes of the life of the patriarch, Job.

A Member of The Ontario Board of Health, says:

"I have prescribed Scott's Emulsion in Consumption and even when the digestive powers were weak it has been followed by good results." H. P. Yeomans, A.D., M.D.

Be Sure and Attend.

The sale of fine and useful goods in the store opposite the Grand Central Hotel every night this week will be worth attending, as there has never been as fine an assortment of good goods offered by auction in Peterborough. Dinner Sets, Tea Sets, Chamber sets, Lamps, Silver ware, art goods, etc., of every description, beautiful designs and newest patterns in the market. All at your own price. Open for inspection now.

JOHN HAGGART, Auctioneer.

COMMITTEE ROOMS.

Mr. Stratton's committee rooms will be open every night hereafter from 7 o'clock p. m. The daily papers are on the tables, so that those who desire to use the hall as a reading room can do. This announcement is made so that Mr. Stratton's supporters and the supporters of the Mowat Administration can at all times have a place in which to confer and report or exchange information and suggest action in the interest of the Liberal candidate in the West Riding.

CROP REPORTS.

The Mail's Peterborough correspondent has the following to say of the crops:—The recent heavy rains in this vicinity, so far as known, have done considerable damage to crops, but as yet it is hardly possible to estimate to what extent. The apple trees do not seem to be affected by frost, but small garden stuff will be damaged somewhat. Potatoes are rotting in the ground, and farmers and gardners are purchasing fresh seed to replace that planted as soon as the weather will permit. The hay crop will be considerably damaged, and low-lying hay lands suffering very much from the rain. Old meadow lands will be light crop, owing to backwardness of the weather. New hay lands on high ground promise a good yield. Coarse grains in this vicinity are suffering from the large amount of rain. The wheat yield will be less than former years, as farmers have sown more coarse grains owing to the low prices. Too early to give any estimate of what any grain yield will be.

A Swell Affair

Dried apples in hot water are always "a swell affairs." They with other fruits come in very handy at this time of the year—just before fresh fruits are plenty. A new stock of canned fruits, also jams by the pound, has been opened at MASON & Co's Grocery, and are fit for a gentleman's table.

THE SCHOOL CHILDREN'S SPORTS YESTERDAY.

A GALA DAY FOR THE LITTLE ONES.

Interesting and Graceful Exercises by the Girls—The Cadet Corps—A Football Match—The Programme of Sports.

The school children's sports, which have been looked forward to by every little one in town, ever since the early spring, were finally carried off successfully yesterday in the cricket grounds, Ashburnham.

At about three o'clock the five cadet corps of the public schools headed by the 57th Battalion band marched forth from the school grounds with sashes streaming in the breeze, down George street to Charlotte, to Water, to Hunter and thence, across the bridge, to the grounds. The streets were crowded with spectators and the little fellows did themselves and their instructor, Sergt.-Major Rundle, credit by the way they marched. They kept the step like veterans.

Arrived at the grounds what a scene presented itself to the eye. Almost every child in town was there and was rushing hither and thither in search of something or someone. Inspector Garvin, however, quickly restored order, and the field being cleared, the cadet corps were put through their facings. They "marched past" and saluted Colonel Rogers in gallant style.

The girls were then called out and were put through the bar-bell exercises by their instructor, Sergt.-Major Rundle. The scene was one of indescribable beauty. Out in the centre of the green stood fully a hundred little girls, clad in gowns of white trimmed with scarlet, and it is hard to

RAISE THE IMAGINATION

to the effect produced unless one was an eye-witness of the pretty picture presented. The exercise was gone through perfectly—what more can be said. The band played all the time and the movements were timed to the music. Everyone, who witnessed the clever and graceful movements, was delighted beyond measure. The Indian club swinging and the exercises performed with the wreaths of flowers were equally as pretty and as interesting to watch.

The boys were then put through the physical drill with their rifles and although they did it well their performance did not equal that of the girls, the latter having a better ear for time apparently.

A FOOTBALL MATCH

was played between teams representing the Central and Separate schools. The teams lined up as follows:—

Central School.		*Separate School.*
G. Evans	goal	J. Connors
R. Brown	backs	W. Brennan
R. Collins	backs	J. Doris
H. Snowden	half backs	N. O'Toole
R. Clurton	half backs	J. Anglesey
E. Hall	half backs	T. Leahy
N. Bell	right wing	M. Clancy
J. Dixon	right wing	J. McPherson
E. Simpson	centre	G. Hayes
L. McWilliams	left wing	W. Clancy
G. Galley	left wing	T. Kennedy

The game lasted an hour and was not characterized by scientific football, but notwithstanding this the boys did some good individual playing. For the Central School Bell, Simpson, Collins and McWilliams were most prominent; while for the Separate School W. and M. Clancy, Hayes and McPherson did the best work. The game was evenly contested, but near the close the Centrals scored a goal, thus winning the match.

Mr. W. J. Drope refereed the game in a manner most satisfactory.

THE SPORTS.

There were so many sports on the programme that it was impossible to hold all the contests and in consequence a number of them will be held at a later date in the drill shed as will the competitions for the cup.

The following is a list of the winners:—

RICHARDSON, Canadian passenger agent, north-east corner King and Yonge streets, Toronto.

A CRUMB OF COMFORT.

At Selwyn Mr. Hampden Burnham strove to revive the drooping courage of his co-workers by pointing to the defection of Sir Oliver's followers as a proof that "Mowat must go" this time without fail. The instance was cited of Mr. McIntyre, Q.C., Ottawa, who was, it was alleged, in opposition to the Government. The fact is that Mr. McIntyre was an applicant for the position of County Crown Attorney at Ottawa. He was not appointed to the position he sought. He was very anxious to receive the position, and haunted the corridors of the Legislative halls for days in furtherance of his quest. He naturally felt sore at not having his fitness for the office recognised and hence his present position. All the fault Mr. McIntyre has against the government is that they did not give him an office, and the Opposition are not to be much congratulated on the accession to its ranks of a man who turns against a government which he would have been perfectly willing to support if he had been given the petty office he sought. He is not in opposition because he loved Mowat less, but McIntyre more. A man who has no higher ideal of his duty to his country than to prefer his selfish interest to that duty is not a very valuable acquisition to the Opposition ranks. There is one bond of sympathy however—the Opposition wants office and Mr. McIntyre wants office. As regards Mr. Biggar why should he not assume an independent stand if he thinks thereby to better his chances of election? Mr. Burnham and his co-workers are welcome to all the comfort they can extract from the defection of a disgruntled office seeker, and a wide awake candidate who adopts the expedient of independence to assist his candidature. It will take a few more crumbs of comfort like this to win West Peterborough, for Mr. Winch and the treasury benches, for Mr. Meredith.

PRESIDENT REV. S. J. SHOREY.

If the results of the deliberations of the Bay of Quinte Conference are to be judged by the excellent beginning that was made in the selection of a president the issue will indeed be satisfactory. The EXAMINER gives its heartiest congratulations to Rev. S. J. Shorey, of Napanee, who was this morning selected by a large majority for the important position of President of the Bay of Quinte Conference. Rev. Mr. Shorey is a native of Addington county, near the town of Napanee, where he has been stationed for the past three years. He received his literary education at the Newburg High School and at Victoria College. He studied law for one year, having been in the office of Messrs. Reeve & Morden, Napanee—the late W. A. Reeve, of Toronto, and A. S. Morde, Q.C., County Crown Attorney, Napanee—so that the new President represents affiliation with both dispensations—the law and the Gospel. After having passed the first year's examination in law, Mr. Shorey entered the ministry in 1874, and was ordained in 1878. Since his ordination his abilities opened to him many charges. His first station was Cherry Valley, in Prince Edward County. He subsequently and successively held the pastorate in Belleville, Oshawa, Toronto, Peterborough and Napanee and this year he goes to Lindsay. Rev. Mr. Shorey is one of the ablest pulpit orators in the Conference, his sermons being models of logical structure, eloquent elabartion and fervid, earnest appeal. As a pastor he has won unusual popularity among all creeds and classes. As an administrator he has proven the success that is testified to by his election to the position of president, which he will doubtless fill in a manner to amply justify the wisdom of the choice of the conference.

are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Dr. Pierce's Favorite Prescription. If she's overworked, nervous, or "run-down," she has new life and strength after using this remarkable remedy. It's a powerful, invigorating tonic and nervine which was discovered and used by an eminent physician for many years, in all cases of "female complaints" and weaknesses. For young girls just entering womanhood; for women at the critical "change of life"; in bearing-down sensations, periodical pains, ulceration, inflammation, and every kindred ailment, if it ever fails to benefit or cure, you have your money back.

The key to the situation—if you suffer from Catarrh, you'll find in Dr. Sage's Remedy. No matter how bad your case may be, the proprietors of the medicine promise to pay $500 if they can't cure you. For sale by all druggists.

NORWOOD NEWS NOTES.

(From Our Own Correspondent.)

Mrs. J. Chisholm and son, of Toronto Junction, are the guests of her parents, Mr. and Mrs. Jas. Starr.

Miss Annie Herring, of Deseronto, is visiting her parents, Mr. and Mrs. H. Herring.

Misses E. Cumming and R. Fry are spending a week with Mrs. A. Barnard, North Monaghan.

Rev. R. H. Hamilton, Toronto, will preach in the Presbyterian church here, ne Sunday.

Mr. J. Finlay has purchased a large hand fire engine from the town of Lindsay. It weighs about 1300 lbs., and there is room for twenty-five men or more to work it. The engine was procured for the protection of Mr. Finlay's factory, and at a trial last week a stream of water was thrown over the smokestack.

On Sunday afternoon Mr. and Mrs. Pearce and Russel were out walking in the woods behind the park. While running Russel stumbled over something hidden under the leaves. Two rolls of cashmere, worth about $40, were discovered. These were part of the stuff taken from Mr. Pearce's store, though only one roll had been missed before.

Council Meeting.

The council met on Monday evening, all the members present. A communication from the Waterous Engine Company was read and the council adjourned to inspect the fire engine. It was found to be in a satisfactory condition. The following accounts were passed:—Dorrin Plating and Mfg. Co., $4.80; W. P. Plant, $2.05; F. Fry, $1; Geo. Peters' account of $9 for repairing fence was laid before the council and it was ordered that the account be paid when certified to; accounts of N. Pettifore and Geo. Heatherly were ordered paid when certified to by the commissioners, Councillors Stuart and Drain. An order is to be issued for $20, amount of assessor's salary. Moved by Councillor Stuart, seconded by Councillor Drain, that the sanitary inspector receive $10. Moved by Councillors Stuart and Drain, that the sum of $100 be appropriated for gravelling, and that Dennis Mahoney be commissioner.

A meeting was held in the interests of Mr. Lancaster on Tuesday evening in the town hall. A large number of the electors were addressed by Messrs. Lancaster, Dennistoun and A.F. Campbell, ex-M.P.P. of Algoma.

The women's residence association in connection with Toronto University have opened a branch here to assist in procuring aid for a women's residence building. The following is the committee appointed:—Mrs. J. Davidson, convener; Mrs. R. Nicoll, and Misses. Ford, Garratt and Campbell.

AFFLICTED FROM INFANCY.

A Lad Who Had Been Dropsical From His Childhood Cured by Dodd's Kidney Pills—The Remedy That Never Failed.

McINTYRE, Ont., June 4—The young son of Hugh Lamont of this place has been afflicted with dropsy from infancy. He was bloated and swollen all over. His parents were at their wits end to find some cure for him when they read of Dodd's Kidney Pills. Mr. Lamont got six bottles of the pills and the boy began taking them. Before the sixth box was finished he was cured. It doesn't matter whether the patient is young or old, the pills will effect a cure of any kidney disease or of any disease arising from disordered kidneys.

LADAS WINS THE DERBY.

Lord Rosebery's Horse the Winner—Ultra Moralists Indignant.

LONDON, June 7.—Lord Rosebery's Ladas won the Derby. Lord Allington's Matchbox finished second, and the Canon's Reminder third.

Lord Rosebery arrived at the course early in company with Sir F. Johnstone. The Prince of Wales and Princess Maud of Wales, accompanied by the Duke and Duchess of Saxe-Coburg, the Duke of York, the Duke and Duchess of Connaught, and the Duke of Cambridge, went to Epsom by a special train and arrived comparatively early. Among the other notable persons present were the Duke of Portland, Earl and Countess Cadogan, the Marquis of Londonderry, Baron de Rothschild, Lord Randolph Churchill, the Earl of Durham, the Duke of Westminster and Lord Russell of Killowen.

After the race Lord Rosebery himself led Ladas back to the enclosure, surrounded by thousands of persons cheering like mad. The police were obliged to make a cordon round the Premier and his victorious three-year-old, in order to relieve them of the pressure of the crowd. The Prince of Wales personally congratulated Lord Rosebery on his triumph. The Premier was flushed with pleasurable excitement, but bore his honors modestly and soon relapsed into his normal self. It is estimated that over 100,000 people were in attendance.

A Horse-Racing Premier.

LONDON, June 7.—Lord Rosebery's declaration of pride in the ownership of a good race-horse has raised the storm of indignant protest in ultra-moral circles that was to have been expected. A non-Conformist minister has addressed a letter to the Chronicle, in which the writer says: "The Premier's utterances are bound to further popularize an institution which is the most corrupt and most dangerous of our national life. The Nonconformist conscience will not much longer tolerate a horse racing Prime Minister."

The Westminster Gazette commenting on the suggestion of the Premier's retirement from the turf, says; "It is possible to imagine Lord Rosebery retiring from politics, but it is impossible to fancy his retirement from the turf. This view is more acceptable politically by his critics. Nevertheless the letter published in the Chronicle is significantly typical of many of the opinions expressed."

WILSON TARIFF BILL.

Tobacco and Agricultural Schedules Discussed in the Senate.

WASHINGTON, June 7. — The tobacco schedule was passed in the Senate with the exception of rates on leaf tobacco, which is to be acted upon later. Most of the session was devoted to the consideration of the agricultural products. By the provisions of the bill, as it now stands, filler tobacco, unstemmed, in box, package or in bulk, will be taxed 35 cents per pound; if stemmed, 50 cents per pound. Tobacco not specially provided for will be taxed 40 cents a pound.

Schedule G taken up—agricultural products and provisions—the first paragraph being 18 9-20 per cent. ad valorem on live animals not specially provided for. Mr. Hale (Rep., Me.,) moved to strike out the paragraph and insert paragraph 247 of the existing law, making the duty on horses and mules $30 per head; horses valued at $150 and over to pay a duty of 30 per cent. ad valorem.

Mr. Vest (Dem., Mo.) opposed the amendment and characterized the protection of American agriculture as a myth, if not an absolute fraud. This led to a political discussion, in which Messrs. Hale, Aldrich, Vest, Gallinger, Stewart, Hoar and Hawley were the principal speakers. The debate went on until Mr. Harris (Dem., Tenn.) rose and moved to lay the amendment on the table.

At the request of Mr. Hale, Mr. Harris withdrew the motion so as to let the vote be taken directly on the amendment. The vote was taken and Mr. Hales' amendment was rejected. Yeas, 23; nays, 30.

Malaria is one of the most insidious of health destroyers. Hood's Sarsaparilla counteracts its deadly poison and builds up the system.

Biliousness and Liver Complaint, Headache, etc., are cured by Burdock Pills.

SHILOH'S VITALIZER.

Mrs. T. S. Hawkins, Chattanooga Tenn., says: "Shiloh's Vitalizer SAVED MY LIFE. I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, Liver or Kidney trouble it excels. Price 25c. Sold by Geo. A. Schofield.

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

HOUSE OF COMMONS.

John V. Ellis' Case Discussed — Mr. Davies' Resolution Lost.

OTTAWA, June 7.—Hon. Mr. Foster said, in answer to Mr. Flint, that the interim report of the Prohibition Commission was nearly ready for presentation to Parliament.

Hon. Mr. Patterson requested that the question put by Major McLennan as to whether the Government intended taking any steps to satisfy the claims of the veterans of 1837 should stand.

Hon. Mr. Wallace said, in answer to Mr. McMillan, that the Treasury Board was considering whether or not to make Seaforth an outport of entry.

The Ellis case debate was then continued and occupied the rest of the day.

After Mr. Mills had spoken Sir John Thompson rose to oppose the resolution. He challenged the supporters of the resolution to cite a single case in British or colonial history in which the discussion which took place in Parliament was in view of a judgment where a judge was of a court. The constitution was perfectly clear on this point. The business of the judges was to administer the law. The business of the House was confined to politics (including legislation), and when the House undertook to administer judgment on such a reference as this it was open to the very contempt which this resolution would pronounce against the court. If such a resolution were passed it would be held in contempt by every reasonable man. When Mr. Dunn was before the House seven years ago he was discharged. Could he be condemned now without a hearing? The House had no jurisdiction in the premises and would be acting the part of a Star Chamber if it passed this resolution of censure. As against the argument of Mr. Mills that the county judge was an officer of the House in an election case, Sir John quoted Hon. Edward Blake's words in the Bothwell case, which advocated the opposite view.

After recess Sir John continued his speech, holding that the penalty imposed by the judge in the case was not over severe.

After Sir John Thompson sat down, the debate on the resolution was carried on by Messrs. Casey, McLennan, Davin, McCarthy, Hon. Mr. Laurier and Hon. Mr. Davies.

The House then divided on Mr. Davies' resolution, and it was lost on a division of 66 yeas and 105 nays.

The House adjourned at 1.15.

Capital Notes.

The Montreal Island Belt Line Railway Bill, which has been before the Railway Committee for over a month, was reported. An important amendment was introduced, providing for the payment of compensation to all persons interested for damage caused to the land abutting upon the streets along which the elevated road may be constructed.

Prof. Robertson, Dairy Commissioner at the Experimental Farm, has returned from Manitoba where he started the travelling dairies off on their rounds. He also held dairy meetings at Moose Jaw and Moosomin. There is some little apprehension on the part of the directors of the Experimental Farm here as to the fate of the Government's branch farm at Agassiz, B.C. It has not been stated so far, but the farm at Agassiz is in the heart of the flood district, being ten miles below Ruby Creek, one of the worst parts of destruction. Since the flood broke no news has been received from the farm.

H. G. Beemer, president of the Pontiac and Pacific railway and the Gatineau Valley railway, is in the city. He stated that the company was doing everything in its power to bring the inter provincial bridge scheme to a successful consummation. Mr. Beemer thinks that if the press and people really desire the bridge they should do everything possible to back the scheme. Application has been made to the Dominion Government for a grant, and if successful the work will go on at once. Mr. Beemer has every hope of obtaining a grant from the Ontario Government.

Dr. Roome is moving in the matter of the dairy exhibit in the country, and as a result the following resolution will be dealt with at the meeting of the Agricultural Committee: That this committee would strongly urge upon the Government to set apart a sum—say $10,000 yearly—for the purpose of establishing a dairy exhibition in the Dominion of Canada, so as to stimulate this industry by bringing together exhibits from all parts of Canada in competition by awarding prizes and medals, the said sum to be placed under the control of the Minister of Agriculture and the Dairy Commissioner, they to select the place for holding such exhibition, the manner of awarding prizes and medals, and make regulations for the general management of the same.

A Sleek Sharper in the Toils.

NIAGARA FALLS, Ont., June 7.—Chief of Police Young and Detective Griffin run in a sleek looking man giving his name as W. Grant Symmons, and his business, agent for his own firm, which he said was located at 268 Water street, New York. This man was taking orders for this supposed New York firm of designers and cutters of ladies' dress patterns of the latest New York and Paris styles. In fact the purchaser for $1.50 could become their own dressmakers of any style they wished. The police wired New York authorities, the reply being no such a firm existed at 268 Water street, but instead the place was a foundry. The man, when confronted with his swindle, admitted it and Police Magistrate Hill gave him three months for receiving money under false pretences.

Lynching Discussed at a Breakfast.

Serious Outlook for the Canal.

MANCHESTER, June 7.—Sir John Harwood, vice-chairman of the Ship Canal Company, submitted to the town council a long financial statement. He contended that by next December the deficiency in the canal accounts would be £146,862. An examination of the company's list of obligations revealed a most serious outlook. The fulfilment of the obligations would largely drain the resources of the corporation. After giving this dark picture of the company's condition, Sir John announced his resignation. His action has caused consternation among the business men of Manchester.

A Knightly Bout Declared Off.

LONDON, June 7.—Sir John Pender and Sir Charles Tupper, Canadian High Commissioner in London, have continued exchanging open letters concerning the Pacific cable until to-day. In this morning's papers, however, Sir John announces that his and Sir Charles' views are so divergent that it would be useless to continue the discussion. If the Pacific cable should take definite shape, however, he would be happy to resume the exchange of views.

Redmond Wants Dissolution.

DUBLIN, June 7.—John Redmond, M.P., in a speech at the meeting of the Irish National League in this city, declared the Government was powerless to do anything for Ireland. The country had nothing to gain by a dissolution of Parliament, and it was the duty of the Parnellite members to do their best to force a dissolution, which could not, in any case, be postponed beyond spring.

Cholera's Ravages in Poland.

WARSAW, June 7.—During the last twenty four hours forty-eight new cases and twenty-one deaths from cholera have been reported in this country. In Plock eighteen cases and nine deaths are reported, and in Dantzig one case. The reports from all other infected places in this region aggregate thirteen new cases and six deaths.

There Will be Another Strike.

GLASGOW, June 7.—Representatives of the Mine Owners' Association resolved unanimously in a meeting here to reduce wages one shilling per day. This resolution is a direct challenge to the men, who have been threatening to strike for some time.

French Conspirators Arrested.

THE RULING MARKETS.

TORONTO, June 7, 1894.

The steamer Normania took out $1,750,000 gold to-day from New York, making the total for the week thus far $3,150,000.

In Chicago wheat made a strong advance on a reported decline of 35 to 45 per cent. in the condition of the Kansas crop and higher cables. The close showed a gain of 3 1-8 to 3 1-4c. Oats were firm.

THE FARMERS' MARKET.—Receipts of grain show a slight increase. Wheat sold at 61c for white and at 60c for standard red. Oats steady, 300 bushels selling at 38½ to 39c. Barley is quoted at 41 to 42c and peas at 66c.

In Buffalo cattle receipts were 6 cars; on sale, 8 cars; active and strong; about 5 to 10c higher than Monday for good cattle. Sheep and lambs—15 cars; rather slow, but good quantities; both sheep and lambs steady. Hogs—15 cars; best Yorkers, choice mediums and heavy packers, $4.90 to $4.95; pigs, $4.85 to $4.95, selling in generally with the light stuff.

In a considerable degree the strength of the New York general stock market was due to manipulative advances in some quarters for the purpose of liquidating elsewhere. The notion has now received pretty general acceptance that improving grain prices, even if caused in a measure by prospect of higher yield, will indirectly, if not directly, benefit western railway finances. While railway shares advanced opportunity was taken to get rid of some holdings of the industrials in Sugar. This was done on the usual plan, the stock being marked up 1½ to 108 on the first transaction, after which the price fell slowly back to 106½. The usual manoeuvres marked the closing hour.

THE BAY OF QUINTE ANNUAL CONFERENCE.

THE ELEVENTH ANNUAL SESSION.

Opening of the Conference—The Election of President—Rev. S. J. Shorey, of Napanee Selected—Report of Stationing Committee.

THURSDAY, June 7th, 1894.

The eleventh annual session of the Bay of Quinte Conference of the Methodist church opened in the George street Methodist church this morning with a large attendance of ministers and laymen. Rev. Wm. Johnston, president, presided.

The session opened with devotional exercises, consisting of the singing of the 753rd hymn—"And are we yet alive," scripture reading by Rev. R. R. Drake, conference secretary—Acts, chapter 1—and prayer by Rev. A. Campbell and Rev. T. W. Jolliffe, and the Lord's prayer repeated in unision. After the roll call of the conference, ministerial and lay, the retiring president thanked the conference for the honour of the position of president the past year. He had tried to do his duty faithfully and was glad that the past year had been one of progress.

ELECTION OF PRESIDENT.

The balloting for president then took place. The result of the first ballot was the casting of 239 votes—120 being necessary to election. The ballots were distributed as follows; Rev. S. J. Shorey, 97; Rev. F. B. Stratton, 59; Rev. T. M. Campbell, 48; Scattering, 35. The second ballot resulted in the election of Rev. S. J. Shorey. The ballot standing, S. J. Shorey 144, F. B. Stratton 60, T. M. Campbell 23. The announcement of Rev. Mr. Shorey's election was received with hearty applause which was continued as he advanced to the dais, and was installed in the chair.

Rev. Mr. Shorey gratefully acknowledged the honor conferred upon him, which he accepted since it was voluntarily bestowed, for he had not asked a single person to vote for his appointment. He would discharge the responsible duties of the office—which was especially important on account of this being the General Conference year—faithfully and to the best of his ability.

Rev. J. J. Rice presented the

RECOMMENDED TO BE ORDAINED FOR SPECIAL PURPOSES:

A. L. Brown, D. C. Day, Enos Farnsworth, W. P. Rogers, Robt. Emberson.

RECOMMENDED FOR SUPERANNUATION:

R. Sanderson, J. C. Seymour, Archelaus Doxsee, Tobias Meyers, A. R. Campbell, S. B. Phillips.

The first ballot was taken for secretary when the hour of adjournment arrived.

The hours of meeting were fixed, as follows:—From 9 a.m. to 12 m.; from 2 p.m. to 5.30 p.m.; from 7.30 p.m. to 10 p.m.

THE LAYMEN MEET.

The second session met at 1.30 p.m., the president in the chair. Hymn No. 103 was sung and Dr. Crowle led in prayer. The minutes of the morning session were read and adopted.

The report of the

COMMITTEE ON CONSTITUTION

was read by the secretary and after being discussed, clause by clause, was adopted as amended as follows:

THE CONSTITUTION.

1. That this organization be called "The Laymen's Association of the Bay of Quinte Conference."

2. That all the lay delegates elected to the annual conference be members of this Association.

3. That the officers of the association be president, 1st vice-president, 2nd vice-president, secretary-treasurer, and an executive committee consisting of the officers and seven members of the association five of whom shall form a quorum.

4. The Association shall meet yearly at the same time and place as the Ministerial Session of the Annual Conference.

5. That the officers and Executive Committee shall be elected individually by nomination and open vote.

6. That the object of the Association shall be to discuss any subjects relating to the interests of the Methodist Church.

7. That the membership fee be 25 cents per annum.

8. That in the event of the absence at opening of the meeting of the Association of the President and vice-President, a chairman shall be elected by the meeting.

On the subject of elections being taken up the list of officers was completed as follows: 1st Vice-President J. L. Hughes; 2nd Vice-President, George Wilson; Sec.-Treas., R. W. Clarke; Executive Committee, Dr. Crowle, J. A. Holgate, J. L. Winters, W. F. Hall, G. T. Atkinson, P. C. Trebilcock and E. Roblin.

Mr. P. C. Trebilcock was appointed assistant secretary by the suggestion of Mr. R. Clarke, secretary.

The subject of the

SUPERANNUATION FUND

was taken up for discussion and a number of communications on the subject from circuits were read of the secretary.

Moved by J. A. Holgate that the report of the commission on the Superannuation Fund, appointed by the general Conference, be received and considered clause by clause.—Carried.

Section 1, 2, 3, 4, 5 and 6 were then read by the President.

Sections 1 and 2 were adopted.

Moved by P. C. Trebilcock, seconded by J. L. Hughs that the meeting pass on to subsection No. 398.

Moved in amendment by Dr. Crowle, seconded by A. Foster, that sub section No. 397 be taken up.

Amendment carried.

Moved by Dr. Crowle, seconded by Geo. Wilson, that the minnium salary to be taxed be $600.

Lost.

Moved by T. G. Atkinson, seconded by A. Foster, that we recommend that a tax of three per cent. be placed on salaries in lieu of the $12 subscription, as at present.

Moved in amendment by A. D. Weeks, seconded by J. A. Hopkins, that the tax on ministers' salaries be levied each year on a salary percentage, to make up the amount required after the voluntary contributions of the church and other fund incomes are received.

Motion and amendment were lost.

A general discussion on the merits and demerits of the superannuation fund, as a church policy then followed. The majority of those present were strongly in favor of its discontinuance unless the fund was kept up entirely by the clergymen themselves. This however cannot be taken as the true expression of the feeling of the Laymens' Association with regard to the fund as only some forty were present out of a membership of about 150.

At the

EVENING SESSION

of the association the following business was transacted:—

Moved by A. Foster, seconded by Dr. Crowle "that in the opinion of this association the invitation system as at present practised is an injury to the church and we advise its discontinuance altogether." Carried.

Mr. Geo. Wilson, a member of the book and publishing committee, reported that that committee had recommended the General Conference to reduce the price of the Guardian to $1.50. A motion of satisfaction in the report was passed.

Messrs. J. A. Holgate, D. H. Minaker, J. L. Winters, Wm. Johnston, Dr. Crowle, E. D. O'Flynn and Dr. Fife were appointed a committee to formulate the business of the day and report to the Association. An adjournment was then made. The association will meet at intervals during the session of the Conference.

Hon Mr. Ross' Son's Adventure.

WARDSVILLE, Ont., June 7.—Yesterday as a son of Hon. G. W. Ross, accompanied by two young ladies, was driving into our village, the horses became unmanageable and rushed down the hill, making straight for the bridge and dashing across it, struck the railway on the opposite side detaching the carriage and leaving the occupants uninjured. Mr. Ross was pure grit, never losing his presence of mind.

A Thorold Miller Suicides.

THOROLD, Ont., June 7.—The body of James A. Band, a miller in the employ of the Morris estate, and who, with his father has had charge of the Thorold mills for some time, was found in the mill office here with a bullet hole in his head. He evidently took his life during the night. The body was found on the floor with the head on a pillow of bran. The fatal revolver was found by his side.

Rejoice With Us!

Only a few times in many years has been our pleasant privilege to give the ladies of Peterborough that which every lady appreciates most—a new dress of seasonable fabrics, just when it is most needed—AT HALF OR LESS THAN HALF PRICE. But, while we do not make much on these two lots of Dress Goods, you save from 25 to 50c. on every yard.

"It's Fair's way."

Don't let your dress speak of a prosperous past, but be up to date in the fashion, as our low prices enables you to be.

DRESS IN GLOVES.

The colour, make, and fit are what you need when you are out. If you dress without the proper effect in gloves, you are out of style. Our glove display comprises everything in this line in vogue this season.

There are fads in bonnets and dresses and wraps,
And fads so funny we love;
And though it may seem unlikely perhaps,
'Tis a fact there is a fad in a glove.

On the crinoline dress there are plenty of jokes,
And the fad is a subject of jest;
But the glove that suits both young and old folks,
Is at Fair's—it leads all the rest.

CUT THIS OUT

And see you get what we advertise.

LADIES' BLOUSES—All our $1.50, $1.75, $2.00 Blouses we let you have your choice for a one dollar bill.

LADIES' CLOAKS AND RUBBER COSSAMERS—to keep the rain out and protect your dresses—in some instances at HALF the original prices. For instance, Cloaks that were $6 to $8 now going at $2.75 to $3.50.

LADIES' COLOURED CLOTH CAPES—specially reduced to suit all cases—you-may-take-them prices.

JACKETS—Latest styles, large sleeves—cost of material. **MANTLES**—Profits pushed aside—it's a clear sweep—It's Fair's way.

LADIES' SILK PARASOLS 75c., $1, $1.50. If you want an aristocratic Umbrella, with fashionable handles and sensible covering, you know where to look for it. ☞UMBRELLAS RE-COVERED WHILE YOU WAIT. The prices tell, and everyone tells the prices.

CARPET ROOM SPECIALS.

Best Tapestry Carpets, 75c., were 95c. Best Five-Frame Brussels, $1.05, were $1.38. Best Wool Carpets at Toronto prices—all the style you want—all the wear you want. It's what you get for your money, not what you pay in apparent price. "It's Fair's way."

Y. M. C. A. Delegates Pay a Visit to Windsor Castle.

GENERAL HEWSTON IN COURT

Memorial to the Memory of Phillips Brooks — The St. James Gazette Doubts Tynan's Existence— Baron Thurlow's Big Failure.

LONDON, June 8.—The delegates to the Y.M.C.A. conference and their friends, making a party of some 2,000, were taken to Windsor castle by four special trains. The castle and grounds, by special permission of the Queen, were given up to them for the day. The party was received by the Queen's equerries, and household officers, and was shown through the state apartments, the Queen's audience and presence chambers, reception and throne rooms, some of the private apartments, the chapel and the royal stables. The Queen's private grounds and Frogmore, the burial place of Prince Albert, were opened by special permission of the Queen to the delegates, a privilege never before accorded to a public assembly.

By invitation the party visited Eton College, two miles from Windsor. The party were photographed in the Royal grounds. A large tent was erected in the Royal park in which lunch was served and the farewell meeting was held. At 5 o'clock Howard Williams called the delegates to order, and addresses of farewell were made by John Wanamaker, H. Thane Miller and the Rev. Theodore Guyler.

General Hewston Committed.

LONDON, June 8.—In the Clerkenwell police court, Gen. John Hewston was committed for trial in causing the death of George Burton by thrusting the ferrule of an umbrella into his eye. Pending his trial Gen. Hewston was set at liberty on his original bail. United States Consula Colling and Lathrop being his sureties. Gen. Hewston was asked by the magistrate if he wished to make a statement. He replied that he was greatly distracted over the seriousness of the matter. The injury inflicted was purely accidental and without the slightest intention of producing any other results than self-defence. Upon the advice of counsel, Gen. Hewston said he had not anything further to say.

Did Tynan Write the Book?

LONDON, June 8.—The St. James' Gazette, commenting on the book issued under the name P. J. Tynan (Number one), expresses the belief that Tynan is dead, and that he never had anything to do with writing the book. The Gazette attributes the authorship of the book to "A certain burley, good-looking ruffian, who knew none of the Invincibles personally."

Baron Thurlow's Failure.

LONDON, June 8.—A statement issued regarding the bankruptcy of Baron Thurlow, formerly paymaster general, and at one time attached to the British legation at Washington, shows his liabilities are $2,100,000, of which $1,250,000 are unsecured. His assets are stated to be $145,000. The insolvency of Baron Thurlow is mainly due to the fall in value of various shares.

To the Memory of Phillips Brooks.

LONDON, June 8. — The memorial to Phillips Brooks has been placed in the wall along the south aisle of St. Margaret's church, Westminster. It is sextile work, and symbolizes the command, "Feed my sheep." The Archbishop of Canterbury composed the quatrain of Latin elegiacs inscribed underneath.

Englishmen Arrested at Rio.

LONDON, June 8.—A despatch from Rio Janeiro says that Edward Wilson, a member of the English firm of Wilson, Sons & Co., of Rio Janeiro, and James Florence, the company's manager, have been arrested there for reasons not yet disclosed.

Sheridan Again Liberated.

DUBLIN, June 8.—Walter Sheridan, who was accused of attempting to blow up the Aldboro' barracks with dynamite last November, was tried once more. For the third time the jury disagreed. Sheridan was liberated.

Matchbox Changes Owners.

LONDON, June 8.—Lord Alington has sold his bay colt Matchbox, which finished second in the Derby, to Baron de Hirsch for £15,000.

MR. STRATTON'S FOURTEENTH MEETING.

A BIG RALLY OF THE ELECTORS OF NORTH SMITH.

Good Meeting at Montgomery's School House — Dr. Bell's Remarks — Mr. Burnham's Criticisms—Mr. Stratton's Effective Rejoinder.

Another of the grandly successful meetings of the present campaign in Mr. Stratton's interest was held in Montgomery's school house, Smith, Thursday night. The building was well filled with enthusiastic electors. The chair was occupied by Mr. Henry Graham, one of Sir Oliver Mowat's staunchest and most enthusiastic supporters.

Dr. Bell opened the meeting by an exposition of the financial standing of Ontario as compared with the debt burdened condition of the other provinces of the Dominion. He showed that while Ontario had received nearly $400,000 of interest on her investments, the province of Quebec had paid in interest on her public debt nearly a million and a half. Continuing his comparison, Dr. Bell showed that while Ontario had a surplus of over six millions, Quebec had a debt of 25 millions and the other provinces, all much smaller than Ontario, had debts of two and one millions each. He concluded by appealing to the electors to sustain in the person of its candidate Mr. Stratton, a government which had so wisely and honestly administered the affairs of the first province of the confederation.

MR. BURNHAM'S REMARKS.

Mr. Hampden Burnham appeared on behalf of Mr. Winch, and made a very strenuous effort to elevate him into the saddle of the prohibition horse. He got one foot into the stirrup and if he had gone on much longer he would have gotten Mr. Winch clean over his mount. Mr. Burnham has lately taken a strong antipathy against Collegiate Institutes and High schools, denouncing in apparently honest terms the expenditure upon them as compared to public schools expenditure. But when he stated that last year High School inspection cost $56,000, Mr. Burnham put both feet into it, for as afterwards pointed out, the amount required for inspection was less than one tenth of what Mr. Burnham had stated and which when cornered he was forced to admit was wrong. He also referred to the secrecy of the ballot, using the usual stock arguments of the Opposition against the ballot identically the same as that which was used by seven million British voters.

MR. STRATTON'S ADDRESS,

Mr. Stratton, who was received with great enthusiasm, referred to the false statement that Ontario had been gerrymandered by the government and said that the answer to that statement was to point to our own riding where no gerrymander had taken place. It was something highly amusing to hear the Opposition talk of gerrymander, as the Conservatives had so carved and complicated the constituences for Dominion election purposes as to make, in scores of cases the election of a Liberal an impossibility. The establishment of government house (the Lieut-Governor's) by the Conservative party, and Mr. Meredith's flop on this question was dealt with, as well as other instances of his change of base on other questions and almost always in opposition to the interests of Ontario. The condemnation by the Opposition of the expenditure of the Government was dealt with in a

MOST CONVINCING MANNER.

It was pointed out that the Ontario government had expended since it had been in office the sum of $71,500,000. Of this about sixty millions had been returned to the people in the shape of the following sums, for the several services of agriculture, education, maintenance of public institutions, hospitals, asylums, charities, railway and municipal loan fund debentures. All this expenditure was made, under the criticism of the Opposition. Of these millions voted for public purposes the Opposition had on the floor of the house objected to only a few thousands showing that there was no ground to the false assertions of extravagance they made only at election times. If there had been extravagance the Opposition were equally responsible with the Government for it, for by their silence they had consented to it. In spite of all this great expenditure of which

IT HAD NEVER BEEN CHARGED

that a single dollar was corruptly spent, Ontario had a surplus of over six millions. Was this a Government that had been false to its trust, and should give way to a Government of a party that was seeking power and was in alliance with Ottawa, where corruption and extravagance that disgraced civilization was rampant from year's end to year's end. In conclusion, Mr. Stratton strongly appealed to the electors to stand by the government that had ruled the province longer and more successfully than any government that had ever existed.

The meeting closed with the usual cheers. Mr. Stratton addresses the electors at Young's Point to-day.

CRICKET.

The crease in the P. A. A. A. grounds is being considerably cut up by lacrosse players who use the grounds in the afternoon and do not wear rubber shoes. It is understood that these lacrossists are not members of the association and orders have been issued for the ejectment of all from the grounds who are not on the roll of the affiliated clubs of the P.A.A.A.

A good practice was enjoyed yesterday, but strange to say only three members of the first eleven took a hand, notwithstanding their recent defeat at the hands of the Trinity School team.

LACROSSE.

The members of the Ontario Lacrosse Club, of Port Hope, came in on the express this morning and registered at the Oriental. They are all fine, big, strapping fellows and it will keep the Peterboroughs hustling to make away with them this afternoon——but then it isn't as though the Peterboroughs couldn't hustle.

QUOITS.

On Wednesday morning an exciting quoit match was played on the market square between Messrs. R. C. Strickland and Levi Payne, vs. P. G. McCargar and I. Robinson. The Lower Town club succeeded in knocking out the Upper Town club by 63 to 58. A return match will be played at no distant date.—Lakefield News. May be the Lakefield men could be induced to come down and give the Peterborough Quoit Club a whirl one of these days.

WEST PETERBOROUGH.

The unseen hand of this journal, says the Bobcaygeon Independent, has to grasp many of the numerous political complications of the European powers; it has to feel the way for humanity's advancement; it has to guide the course of such men as Cleveland and Roseberry; it has to beckon onward with its finger such deserving but over-cautious statesmen as Mowat and besides all this it has to take hold of the affairs of the four great constituencies of which this village is the centre. This journal has already explained the position of east Victoria—it will now expend a little ink upon West Peterborough.

Not much need be said. The Reform candidate is Mr. Stratton, the Conservative candidate is Mr. Winch. This journal makes no pretensions to the possession of preternatural faculties when it predicts that in all probability the Conservatives will vote for Winch and the Reformers for Stratton. But there are now, thanks to this journal and its esteemed colleagues of Common-sense, a large number of remarkably good looking and highly intelligent gentlemen in these constituencies who are neither Grits or Tories and who believe strongly in citizenship and not all in partizanship. These remarkably good looking and highly intelligent gentlemen are advanced thinkers and are Independents. What way will they vote?

Mr. Winch is a thoroughly good fellow, his record is above reproach, he is a loyal supporter of church, Queen, and constitution and a better judge of a horse, beef or steer is not to be found in the Midland Counties. And this is very much to his credit.

Mr. Stratton is an out-and-out Reformer; he refuses to be bound by the traditions of the past, and lives in the present, he is a hustler all the while and his familiarity with journalism keeps him in touch with the wants and demands of the time. Again in the northern townships Mr. Stratton has made so many personal friends and has so frequently and so advantageously used his influence to promote local improvements, that the vote he will take will be in many instances personal and quite free from political felling.

It is a good thing to have journalists in Parliament. Farmers scarcely know enough; lawyers know too much, journalists know exactly the right quantity about everything. These last remarks, it must be clearly understood, do not in any way apply to a gentleman of the name of Smiff, who for three weeks last past has been steadily haunting Goulais' back parlour declaring his intention to be a candidate for any given quantity of cock-tails and hourly increasing the risk of discharge from his position on the staff of this journal.

Mr. Stratton has been a useful member of the Legislature, and whilst Mr. Winch's popularity will stand him in good stead and may possibly be sufficient to select him still the chances are favourable to the assumption that Mr. Stratton's energetic and successful efforts in promoting the interests of his constituency will again return him at the head of the poll.

LAKEFIELD.

The Late Mr. James Buckley.

(From Our Own Correspondent.)

Mr. James Buckley, aged seventy years, an old resident of Douro, one mile from Lakefield, died at his home on Thursday, May 31st. He leaves behind him a wife and eight children to mourn his loss: Mrs. P. P. R. Maher, of West Toronto; Mrs. Walter Young, Young's Point; two boys, John and James, and four girls, Misses Lizzie, Nellie, Clara and Aggie, residing at home. Mr. Buckley had one of the largest funerals that ever was known to pass to Douro cemetery, which showed the respect people had for him. There were three deaths in the family inside of a month. His daughter, Mrs. M. Lynch, dying on the 9th, Timothy on the 21st and now the father on the 30th. The whole village of Lakefield sympathizes with the family.

FRIDAY, JUNE 8, 1894.

THE Rev. Principal Grant, the great Presbyterian divine, says: "As we think of the saturnalia that must have existed for a long time before such a state of public morals could become possible in the Dominion, we are forced to ask what might have happened to the richest province in the Dominion if any easy-going politician had had charge of its strong box. What plunder there was for a gang! We have timber limits worth tens of millions; we could stand a debt of twenty or thirty millions as easily as Quebec. A politician of easy virtue would have lavished these millions on heelers and hangers-on, who, in return would be enthusiastically voting him a god. Does not this thought throw some light on what we have escaped, and what we owe to the man who has been in charge of our strong-box for twenty-two years. Assuredly, the revelations have had that effect upon me. Our money is still ours and our honour is safe. Thank God for it, and also let us keep our powder dry—that is, keep a good servant at his post. A man who will not read this lesson will not read anything. In one word, Ontario cannot afford to dismiss Sir Oliver Mowat."

WHATEVER the official representatives of party in Parliament may do, the opinion of the country is practically unanimous, says the Montreal Star, in favour of some sweeping resolution declaring the imprisonment of that estimable citizen and courageous journalist, Mr. Ellis, of St. John, to have been a personal outrage and a public calamity. It has brought the New Brunswick bench more into disrepute than a whole volume of editorial attack would have done. It has made against outspoken patriotism and for truckling silence. Mr. Davies' review of the case Tuesday was masterly and convincing. It is unfortunate that the Government supporters seem determined to shoulder the responsibility for the affair; and it is to be hoped that when the Ministers come to speak they will show, at least, that the Government of this country does not think that the Ellis's are the kind of men with whom to fill our gaols.

"Look on this picture and then on that." Ontario has no direct taxation. It has taken from the forests, in timber dues and bonuses, during the 21 years, to supply funds for expenses of Government, $15,000,000, or 35 cents per head of population per annum. The Dominion levies annually in taxes over $30,000,000, Ontario's share being fully one-half, or $15,000,000; the Dominion taxes in 20 years have amounted to $590,000,000, in addition to borrowing $173,000,000, or a total of $763,000,000. The Dominion thus levies $6.33 per head per annum in taxes, as against Ontario's 35 cents per head, received from timber dues. And the Mowat Government has given back in 22 years 23 millions of dollars to relieve the taxpayers of the municipalities, and of this Peterborough's share has been nearly four hundred thousand dollars.

MONTREAL Witness (Independent) Dec. 27th, 1893: "Sir Oliver Mowat has given the Province of Ontario twenty-one years of administration so honest and economical—so capable and so free even from ill report, that his political foes have been constrained to praise both him and his administration. If the Ontario exchequer is to-day that of a wealthy Province, when all other Provinces are plunging deeper and deeper into public debt, it is owing to the just and economical government of Sir Oliver Mowat."

THE Montreal Insurance and Finance Chronicle, April 15th, 1894.—"The annual statement of the Treasurer of Ontario, even if the criticisms of the opponents of the Government are correct, is one to make the people of this Province (Quebec) acutely envious. . . Apart from all political considerations, it is generally admitted that whatever other sins may be laid to the charge of the veteran, Sir Oliver Mowat, he cannot be accused of extravagance."

REV. MR. TRUAX DEPOSED.

His Case Considered by the Niagara Conference—The Resolution.

WOODSTOCK, June 8.—At the Niagara conference of the Methodist church in the Central church yesterday, the case of Rev. A. Truax, who is charged with heresy, came up for consideration. The Norwich district meeting having sent all the documents in the case to the conference, the charges preferred and the findings of the committee were read. The following resolution was finally adopted by a very large majority: "That, having heard and carefully weighed the evidence and findings of the committee appointed to consider the charges laid against the Rev. A. Truax, which findings sustain said charges, declaring him to be out of harmony with the doctrines and teachings of the Methodist church, this conference accept the decision of the committee, and in view of the unscriptural and dangerous tendency of the teachings of the Rev. A. Truax and his determined persistence in those teachings, remove his name from our ministers and depose him from the ministry of the Methodist church. This conference would also regard and declare Mr. Truax to be unworthy of membership or any official position in the Methodist church so long as he maintains his hostile spirit and unscriptural views, manifested and expressed in his statement as given in the evidence and charges preferred."

An Elopement in Daylight.

TORONTO, June 8.—Mr. J. G. Burnham, a law student, and son of the Mayor of Port Hope, was married to Miss Cawthra of 140 Beverley street. The marriage was not with the consent of the young lady's father, and was of the kind that is generally styled an elopement. The elopement happened in open daylight. The young lady went to her room and let down by a rope all her baggage, and a cabman was on the spot to receive them. The twain then proceeded to St. Simon's church and were made one by Rev. Mr. MacKlem, the rector.

Searching for a Missing Foreman.

PRESTON, June 8.—Thomas Jell, foreman of the shipping department of the woollen mill, went home to dinner on Monday as usual. His wife says he seemed to be in his usual health. He ate a hearty dinner and a short time before 1 o'clock left the house, saying he was off for the factory. Since then not a single trace of him has been seen. His disappearance is as thorough as if the earth had opened and swallowed him up. It is believed by his friends that Jell has committed suicide and searching parties are scouring the country for his body.

A Large Waist

Is not generally considered a necessary adjunct to the grace, beauty or symmetry of the womanly form. Within the body, however is a great waste made necessary according to the condition of things—continually in process and requiring the perfect action of all bodily functions to absorb or dispel the refuse. When there is irregularity or inaction, ladies who value a clean, healthy body will take Dr. Pierce's Favorite Prescription—the only remedy for woman sold with a positive guarantee to RIGHT all her peculiar WRONGS.

To those about to become mothers, it is a priceless boon, for it lessens the pains and perils of childbirth, shortens labor, promotes an abundant secretion of nourishment for the child and shortens the period of confinement.

As Well as Ever

After Taking Hood's Sarsaparilla

Cured of a Serious Disease.

"I was suffering from what is known as Bright's disease for five years, and for days at a time I have been unable to straighten myself up. I was in bed for three weeks; during that time I had leeches applied and derived no benefit. Seeing Hood's Sarsaparilla advertised in the papers I decided to try a bottle. I found

HOOD'S Sarsaparilla CURES

relief before I had finished taking half of a bottle. I got so much help from taking the first bottle that I decided to try another, and since taking the second bottle I feel as well as ever I did in my life." GEO. MERRETT, Toronto, Ont.

Hood's Pills are prompt and efficient, yet easy of action. Sold by all druggists. 25c.

Here are a few actual specimens of some of the RICHEST NUGGETS in the Dry Goods line thrown on the market for many a day.

To avoid sensationalism—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods

WORTH ABOUT DOUBLE THE PRICE—

5c. 3 Papers of Good Pins. Good Glass Towelling. 1 Pair Good Towels. Good Flannelette. Good Straw Hats.

10c. Good All-Wool Debeige. Good All-Wool Delaine. The Best 15c. Prints. 2 Ladies Knitted Vests. Ladies' Fast Dye Black Hose.

15c. 4 Good Lawn Handkerchiefs. 4 Nice Fancy Frills. Fancy Veiling. Nice Ceylon Flannel. White Japanese Silk Hemstitched Handkerchiefs.

20c. 800 yards Lovely French Figured Crepons, to be sold at 20 cents a yard—sold everywhere else at 25 cents.

25c. 2 pairs Ladies' Lisle Gloves. 2 yards of Fancy Colored Shirting with Border. 3 yards Fine Checked Muslin. 3 pairs Gents' Wool Socks. 2 yards of Satin Striped Muslin.

30c. 720 yards of Beautiful Dress Goods to be cleared out at 30c. These Goods would be good value at 50c.

35c. Good Kid Gloves. Good Lace Curtains. Good Corsets. Ladies' White Chemisettes.

40c. 3000 yards of Good All-Wool Silk-Finished Henriettes at 40c. These Goods are actually worth 60c.

FARMERS' INSTITUTE ANNUAL EXCURSION.

OVER 1,500 VISITORS IN ATTENDANCE AT JUBILEE POINT.

The Day Turns out Fine and a Most Enjoyable Time is Spent—Professor Fletcher, and Thos. Blezard, M.P.P., Deliver Addresses.

The grand union picnic of the Farmers' Institutes of the counties of Peterborough, Durham and Northumberland was held at Jubilee Point Thursday, and was a most successful one in every respect. At 8.30 the new steamer City of Peterborough steamed out from the Wolfe street wharf with a large crowd on board, which was considerably augmented at Victoria Park, Hales' Bridge and Campbelltown. The excursionists arrived at Jubilee shortly after noon, where they joined a large contingent brought in from different points on the lake and river by the steamers Daisy and Beaver, a large number coming in smaller craft. There was said to be fully 1,500 excursionists at the Point. Dinner was partaken of by a large number at the hotel, while the majority of the picnicers enjoyed their dinner in true holiday style—under the shade of the many trees. Small groups could be noticed discussing the merits of two-rowed barley or a certain make of binder twine, and wondering what effects the recent rainfall would have on the crops, while the gayer portion of the gathering—the young people—could be seen arm in arm strolling through the groups, not to mention the number of young gallants with their particular lady friends gathered under the spreading oaks enjoying themselves in the sweet luxury of love's young dream. The lovers of the "light fantastic" crowded the pavilion and the scow where two orchestras did all in their power to satisfy the dancers. Young and old were on the floor, the latter showing the former, as one white-haired enthusiast remarked, "how to make their feet speak." Amusements of all kinds were provided; the "cane racket" fakir and wheel of fortune reaped a good harvest.

Shortly after three o'clock Messrs. Prof. Fletcher, of the Dominion Experimental Farm, Ottawa, T. Blezard, M.P.P., Wm. Collins, F. Birdsall and several other gentlemen of the committee, stepped on to the grand stand for the purpose of addressing the farmers present. Mr. Birdsall occupied the chair, and called upon the first speaker, Mr. T. Blezard, M.P.P.

Mr. Blezard stated that it gave him great pleasure to be able to attend such a gathering as this. He was at the present time head and heels in politics and was neglecting his farm and home in order to serve his country. He appeared before them as the "Deputy-Minister of Agriculture"—to represent Hon. John Dryden, who, he said, was unable to be present. He stated that at the present day wheat raising from a financial point of view, was a failure, and he strongly advised the farmers to take more interest in the cheese and butter making. He referred to the success Canadian cheese achieved at the Chicago Exposition, and urged upon those present to encourage the industry. His remarks were to the point and of great value to the farming community.

Prof. Fletcher was next introduced. He stated that he would speak to the gathering on the Dominion Experimental Farm and what it was doing for the farmers of this country. A newspaper report would give no idea of the interesting and valuable address of Prof. Fletcher and it is to be regretted that such a poor gathering listened to the remarks of the professor, as they contained valuable hints for farmers on different subjects.

At five o'clock in the evening the whistle of the different boats called the excursionists to the wharf. The City of Peterborough with her load reached home shortly after 9 o'clock.

NOTES.

The Peterborough Fire Brigade orchestra supplied first class music for dancing.

Capt. Ada and crew of the City of Peterborough were most courteous to their passengers.

The new boat behaved well on the trip and was admired by hundreds while tied up at Jubilee.

The weather during the early part of the day was rather disagreeable but in the afternoon the sun came out which fact considerably added to the enjoyment of all present.

At the locks the steamer took on a scow for the convenience of the dancers but were forced to leave it at Hale's Bridge on account of being unable to force it through the bridge.

Inspector Tom Donnelly was on the boat all day while she was out.

The water along the river has overflowed its banks in many places.

Councillor John Smith, of Ashburnham, was captain, crew and everything else on the scow.

The excursion was one of the most successful yet held, from every standpoint.

A number of the directors of the Navigation Company took the trip in and they appeared to be satisfied with the appearance and work of the new steamer.

A programme of sports, including a canoe race, was run off at the park during the afternoon.

Considerable disappointment was experienced by many of the excursionists at not being able to rent canoes or skiffs, as the weather was fine for sailing.

The young ladies outnumbered the gentlemen two to one at the park yesterday, and as an Ashburnham young man remarked at supper—"they were all so fine looking and sociable that their presence seemed to change the weather from rain to sunshine."

THE CONGO DISPUTE.

France Declares the Anglo-Belgian Treaty Null and Void.

PARIS, June 8.—In the Chamber of Deputies, M. Etienne interpellated the government upon the policy of France in Africa. In the course of his speech he retraced the encroachment of England, which he said was barring the progress of France in the Congo country in Egypt and in Siam, and demanded an immediate and energetic resistance to England's further advances.

M. Hanotaux, Minister of Foreign Affairs, said the territory which England conceded to King Leopold belonged to Turkey, and declared that the Anglo-Belgian agreement was null and void. M. Hanotaux announced that M. Delcasse, Minister of Colonies, had sent troops to defend the territory claimed by the Congo State and disputed by France, and other troops would be sent shortly. The Chamber unanimously approved the declarations of the Ministry that they would defend the rights of France at all hazards. M. Hanotaux said also that England had expressed her willingness to discuss immediately with France all pending questions concerning Africa. The governor of the French Congo will return by the next steamer to this port.

Accident at Merriton.

MERRITON, Ont., June 8.—A man calling himself James Smith, of Hamilton, was taking a free ride on a freight train seated on the platform of a car. When the train stopped at this station the two cars came together, catching his legs between the timbers and badly crushing them, also seriously injuring his back. He was taken to the hospital, where it is thought amputation is necessary.

A Lunatic Locked Up.

AURORA, June 8.—A lunatic reached here on June 5 and is confined in the lock-up. He is about 48 years of age, 5 feet 4 inches in height and weighs about 160 pounds. On his clothes is marked C. W. Inman. Chief Constable Petch would be pleased to hear from his friends.

AFFLICTED FROM INFANCY.

A Lad Who Had Been Dropsical From His Childhood Cured by Dodd's Kidney Pills—The Remedy That Never Failed.

McINTYRE, Ont., June 4—The young son of Hugh Lamont of this place has been afflicted with dropsy from infancy. He was bloated and swollen all over. His parents were at their wits end to find some cure for him when they read of Dodd's Kidney Pills. Mr. Lamont got six bottles of the pills and the boy began taking them. Before the sixth box was finished he was cured. It doesn't matter whether the patient is young or old, the pills will effect a cure of any kidney disease or of any disease arising from disordered kidneys.

FRATERNAL ASSESSMENT LIABILITY.

"Can't I get out when I please, and have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate*. The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any similiar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

A Tea Ad.

"Have you ever tried Osh-Kosh Tea? asked one lady of another. "It is the best 40c. tea sold, and I notice that Stroud is selling it for the balance of this month at twenth eight cents a pound; and what is more, they give you four pounds for one dollar." Only 25 cents for a pound of 40c. tea. Their Peterborough store is 370 George street. f

A New Idea.

You will remember that Goliath was very much struck when David hit him with a stone. He said that such a thing had never entered his head before. New ideas are numerous in our stock. We always have what is latest and best. We have the latest novels by the most modern writers, too numerous to enumerate—come and see. We also have a splendid line of popular paper bound books 2 for 25c. or 5 for 50 cents—a. h. stratton & co.

Remember

That you can get 3 good common chairs at A. Clegg's for $1.00, a nice antique or walnut finished centre table for $2.50, or solid oak polished for $3.00. Bedroom suits in greater variety and cheaper than ever, springs, mattresses, pillows, couches, easy chairs, fancy rockers, pictures, window shades, cornice poles, &c., &c. Call and see our stock and get our prices. Remember the place A. Clegg's, 427 George street.

A Drop of 25 Per Cent.

Frank Anthony is bound to do the fruit trade of the town, and for the next two weeks will sell at 25 per cent less than what other dealers are charging. After that date he will sell right along at Montreal prices, good fresh first class fruit; Messina and blood oranges—in boxes of 100, 200 and 360. Bannnas, lemons and all kinds of fruit—first class and repacked. Frank says he is going to stay in Peterborough for life, and is going to make the fruit trade lively. Wholesale, 161 Hunter street, retail Aylmer street.

THE LAST CALL.

As we intend closing the sale of crockery, china, silverware, &c., to-morrow, we will hold three sales—at 10.30 in the morning, 3 o'clock in the afternoon, and at 7.30 in the evening—giving those who cannot come in the evening an opportunity to secure some of the bargains. Saturday night we will sell beautiful goods. No reserve.

JOHN HAGGART, Auctioneer.

Another Opportunity, Don't Miss it.

Prof. Dorenwend advertises another visit to our town with a full line of his celebrated human hair coverings. We would advise all whose hair has become thin or who are bald to take advantage of this visit as the Professor's business has assumed such large proportions that he is unable to visit each town as frequently as formerly, so be advised. See his lady's and gents wigs, toupees, bangs, waves, switches, and every form of human hair coverings and secure the style most becoming to you. He will be at the Grand Central Hotel Saturday, June 9th. One day only.

Public School Celebration.

As last Wednesday's celebration did not quite meet expenses, the remainder of the programme will be given on Saturday evening in the drill shed. The Public School cadet corps (six companies) will compete for the two silver cups. The series of delightful exercise with Indian clubs, hoops and bar bells will be repeated by a number of the girl brigade, who will also compete for the prizes offered for the best performance with Indian clubs. The tricycle races, potato race, etc., will also take place in the drill shed. At seven o'clock the following contests will take place in front of the drill shed:—Throwing baseball, dog race, half-mile bicycle race (boys), and the girls' bicycle race. Admission to the drill shed, 10 cents. The Band will be in attendance. 134-2d

Beautiful Lawns.

No other town in Ontario has so many handsome lawns as are to be found in Peterborough. Never before were lawn mowers so cheap and so well made. Look in the north window of the Peterborough Hardware Coy's store and see the display of lawn and garden tools. They have some magnificent cast iron urns at very low prices. dtf

Makes People Well Quick.

Life is short and if you can strike the right spring medicine at the first shot, time and nerve energy is saved. Three doses a day of that celebrated Sarsaparilla for sale at Lynch's drug store puts you "in fighting trim" in quick order, gives you a strengthened system, a pure skin, a toned liver and pure blood. Lynch's, 168 Hunter street.

Be Sure and Attend.

The sale of fine and useful goods in the store opposite the Grand Central Hotel every night this week will be worth attending, as there has never been as fine an assortment of good goods offered by auction in Peterborough. Dinner Sets, Tea Sets, Chamber sets, Lamps, Silver ware, art goods, etc., of every description, beautiful designs and newest patterns in the market. All at your own price. Open for inspection now.

JOHN HAGGART, Auctioneer.

A Speaking Likeness.

One of our local artists, Mr. S. G. Aslestine, 348 Water street, has just given additional evidence of his skill as a portrait painter. A newly completed half-size speaking likeness in oil of Mr. William Miller, corner of Water and Dublin streets, is at present on view in his studio. The portrait was sketched and painted from life sittings, and the execution was not left dependant upon the chances of the camera or any photographic development. The result has given a very accurate likeness, a natural expression, and a pleasing work of art. In the colouring, tone and shading of the features, the effects produced are such as only the patient skill of the practised artist could hope to achieve. Mr. Aslestine has been favoured with quite a number of desirable orders for oil paintings of late. At present a fine oil subject, entitled, "An Apt Scholar," from Mr. Aslestine's brush, has found a good position in the picture gallery of the Toronto Art Exhibition.

O. W. S. Officers Elected.

The Ontario Medical Society has elected the following officers:—President, Dr. Bruce Smith; vice-presidents, Dr. A. A. Macdonald, Toronto, Dr. Willford, Wood stock, Dr. Saunders, Kingston, and Dr. Forrest, Mount Albert. General secretary, Dr. T. N. E. Brown, Toronto; assistant secretary, Dr. Charles Temple, Toronto; treasurer, Dr. J. H. Burns, Toronto; additions to standing committees: Credentials, Dr. J. H. Duncan, Chatham, and Dr. Rennie, Hamilton; Public Health, Dr. E. H. Adams, Toronto, and Dr. McCulloch, Aillston; Legislation, Dr. John, McLaughlin, Bowmanville, and Dr. Mackay, Ingersoll; Publication, Dr. I. L. Dawson and Dr. J. Ferguson, Toronto; By-laws, Dr. J. G. Wishart and Dr. J. F. W. Ross, Toronto; Ethics, Dr. Mitchell, Toronto, and Dr. S. C. Hillier, Bowmanville; Advisory, Dr. R. W. Hillary, Aurora, and Dr. L. Macfarlane, Toronto. The next meeting will be held in Toronto.

A Treat In Store.

Rev. Dean Harris, of St. Catherines, will deliver a lecure in St. Peter's Cathedral in aid of the Catholic Association next Sunday evening. The reverend gentleman is well known throughout the western portion of Ontario as a pulpit orator of great ability, and is held in high esteem in the Niagara district by all classes of the community. He is an eloquent and forcible speaker and is always greeted with large congregations whenever he is announced to lecture. Dean Harris is also a writer of considerable note, the latest productions of his pen, the trials and troubles of the early missionaries in Ontario, winning for him warm praise from all quarters. The subject of his lecture will be "The Catholic Priest; in the Church and in the World." This subject will not be treated controversially, but will outline the education, labour, sacrifices and heroism of the average Priest in Ontario, placing him before the Catholic and Protestant minds in his true heroic light. The Catholic Association is to be congratulated on securing such an eloquent and popular lecturer, and no doubt a large congregation will welcome him on Sunday evening.

Tickets for Two.

Yes, its a long time now since I have been down the river on an excursion. When Calcutt first opened up the route to Idyl Wyld I hardly ever missed. Didn't make any difference if the boat got stuck or failed to run on time. An hour or two out on the water after dark when you had your girl along, and a few sandwiches left didn't hurt—in fact I rather liked it, and it seemed to agree with her. But, somehow or other, whether it was because we pine for changes or languish for new trips, or perhaps it was because we got married and started keeping house and other such things—we got out of the way of going down the river. Lately, however, we both have had a longing for a sail once more down the beautiful Otonabee. I asked the wife and she jumped at the chance. This trip of the Foresters of Court St. Peter, No. 25, will come in a good time for us, and the price, only 50 cents a ticket, ain't going to break anybody. Jubilee Point, I hear, is putting on its best appearance this year, and I have no doubt will be alive with jolly picnickers on the 21st. The committee promise heaps of fun, and games, prizes, etc., "ad libitum".

COMMITTEE ROOMS.

Mr. Stratton's committee rooms will be open every night hereafter from 7 o'clock p. m. The daily papers are on the tables, so that those who desire to use the hall as a reading room can do. This announcement is made so that Mr. Stratton's supporters and the supporters of the Mowat Administration can at all times have a place in which to confer and report or exchange information and suggest action in the interest of the Liberal candidate in the West Riding.

NEWS NUGGETS

—No arrests last night.

—The Band will play in the Park to-night.

—Additional local matter on first and eighth pages.

—An anti-poverty society will be established in Belleville.

—There was an incipient snow storm at Sturgeon Point on Tuesday.

—A Rawdon goose laid an egg recently which measured 12 x 9 inches.

—Mr. W. R. Climie, editor and proprietor of The Bowmanville Sun, died yesterday after a long illness.

—The quickest, cheapest and most effectual block that can be used to check a declining business is advertising.

—At the Police Court this morning a wages case was enlarged until Wednesday and the costs imposed in a dog case.

—Destroys bed bugs, cockroaches and other similiar pests, sure as death. What? Post's Corrosive Sublimote, for sale at Lynch's Drug Store.

—Branch 230 of the C.M.B.A. of Canada, has been organized at St. Boniface, Manitoba, by Mr. P. O'shea, deputy organizer, with a charter membership of 85, and if all applications had been approved, the charter membership would have been over 100.

—Adjutant Mason examined a class of eighteen aspirants for the corporal's stripes last night in the armoury. Fourteen out of the eighteen were successful in passing the oral, and in about ten days time will come up again to try a written examination, set by the adjutant, for the rank of sergeant.

—The Court of Revision met last night and dismissed a large number of appeals, as the applicants were not present to show cause why their assessments should be reduced. No assessments on real estate were cut. The assessable income of this agency of the Commercial Union Insurance Association was fixed at $75.

—Col. Rogers returned from Kingston yesterday, when he was successful in arranging for the inspection of the different companies of the 57th Battalion to take place in the drill shed on the evening of July 4th, 5th and 6th. On the afternoon of the 6th the inspection of the Battalion as a whole will take place. General Herbert, he thinks, will be the inspecting officer.

—Every paper published has its value as an advertising medium. What the advertiser must do is to discriminate between the value the publisher places upon his space and the value which unprejudiced investigation discloses. If he thinks it would be profitable to utilize the medium at the rate demanded, well and good. To take space in a paper without being satisfied as to its circulation is the height of folly.

—This summer's advertising can be made profitable if proper precaution and skill are exercised in conducting it. The people are ready to avail themselves of offers which appear to present means of economizing. And the merchant who will advertise an article that is really serviceable, at a price consistent with the times, will find that the he will get a good share of the money that is spent. The man who fails to advertise this summer will find it a most dreary season.

—Peterborough Lodge No. 111, I.O. O. F. had a crowded Lodge room last evening. Five candidates were initiated and 3 joined by card. There was quite a number of visitors among them, the Rev. H. J. Sanders, Grand Chap., Rev. A.J. H. Strike, of Peterborough Lodge, Robt. Walton, P. G., Genesee Lodge, Rochester, and quite a few of the Otonabee Lodge members. The visitors gave the Lodge great praise for the manner in which they went through the impressive ceremony of initiation.

—Out in Reaboro a singular little episode has occurred that is creating no small astonishment. On the farm of Mr. Thos. Wilson there is a cat that is destined to greatness. It appears that the feline was absent from the house for days at a time and was finally discovered in the loft of an adjacent log stable and was not only the mother of five smart little kittens, but also was rearing and caring for a brood of eleven chickens, which it is supposed were hatched out by her. The chickens are nicely feathered and the foster mother carries bread and other food and to them is unceasing in her parental attention.—The Watchman. Next!

ENNISMORE'S ANNUAL PIC-NIC.

A Great Day of Enjoyment Promised—An Exciting Canoe Race.

The annual Pic-nic of St. Martin's church Ennismore, will be held in a beautiful grove, at Gannon's Narrows, on Wednesday, June 13th. One of the great attractions of the occasion will be a canoe race for a prize of $10 in gold, or for those who do not wish to risk their amateur standing, a silver cup of equal value. This event is open to the two counties of Peterborough and Northumberland, and already there are two entries, which insure a speedy and game canoe contest. The conditions governing the race are:—Distance, 1½ mile—three-quarters of a mile with turn; canoes must not be more than 17 feet in length nor less than 24 inches beam. The two entries already made are Mr. Geo. Taylor and Gardiner Nicholls, two old rivals, who will doubtless put up an exciting race. But the entries are not confined to these two; any other canoeist in the two counties can enter the contest. In addition to this grand canoe race there will be a full programme of sports and games, excellent dinner will be provided and speeches appropriate to the occasion will be delivered. Special reduction in railway and steamer fares for the occasion. Remember the date, June 13th, and watch posters for particulars.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The Attention of Every Lady and Gentleman that has THIN HAIR or that is BALD is called to the visit of

PROF. DORENWEND

To PETERBOROUGH, who will be at

GRAND CENTRAL HOTEL

—ON—

Saturday, June 9.

There are indeed very few Ladies or Gentlemen in America but what have heard of the skill of PROF. DORENWEND as a manufacturer of Hair Goods of all styles, and there are very few places on the globe but what one or more of his styles are worn. Those that live closer to his manufacturing place, like all the Ontario cities and towns, are more fortunate than people of United States, Australia or England, and it is because he visits this place at least once a year, they are able to see his Goods before ordering and having then tried they see the effect his Hair Goods Coverings give to their general appearance, but his business has so rapidly grown in the last few years that he is unable to visit these places so often, for this reason. All who require these Goods should not miss the opportunity given by this visit.

See his beautiful LADIES and GENTS WIGS, TOUPEES, SWITCHES of every LENGHTH and SHADE, BANGS in every shape, heavy or plain fronts, etc.

Remember he is at the GRAND CENTRAL HOTEL, June 9th.

Rev. Prof. McLaughlin of Victoria College arrived yesterday to attend the conference. He is the guest of Rev. J. C. Davidson, 64 Hunter street.

Mr. C. Jenkins and wife, of Oakwood, are visiting friends in town. Mr. and Mrs. Jenkins nee Miss Parkinson, were both graduates of the Peterborough Business College.

The late Mr. Seward, was, as was well known, a most thorough and capable musician, and a composer of more than ordinary merit. His modesty was equal to his merit, and he made a no parade of his fine compositions. After death, however, recognition comes. Mr. Seward has the honour of one of his compositions, being selected for the great Massey Festival, Toronto, at the great Saturday afternoon concert on June 16th, one of Mr. Seward's compositions, a part song, "The Bells," has a conspicuous place in the programme.

Mrs. Warrington, wife of Mr. Robert Warrington, florist of Meridan, Conn., is in town on a visit to her parents, Mr. and Mrs. J. C. Baker, 546 Park street. One of the Meridan papers speaks as follows of a reception tendered Mrs. Warrington before she left for her trip north:—"A reception was held at the residence of Mrs. Hayes on North Washington avenue Friday evening in honor of Mrs. Warrington of Canada. The evening was pleasantly passed in dancing and card playing. The Ladies Amphion quartette of this city, composed of Misses Lake, Marsh, Renz and Hine rendered some fine selections. At a late hour the guests sat down to a bountiful supper.

THE BIG DOMINION DAY CELEBRATION.

A Programme of Amusements and Sports Offered which has Never Been Equalled in the Midland Counties.

Those who are engaged in pushing forward the preparations for the Dominion Day Celebration state that the greatest encouragement is being met with on every side.

There is not a doubt but that the whole countryside, as well as a big influx from all the towns and villages within a radius of a hundred miles, will be present at the grand demonstration which the firemen have been working so hard to make a success on Dominion Day.

A band competition will take place during the day and all the bands in the neighborhood will participate. Valuable prizes are offered for everything.

The programme of sports and amusements which have been announced for the day is one of unusual excellence and merit. The calithumpian procession in the morning, in which over fifty floats will participate, will be one of the most perfectly managed and arranged spectacles of the kind which has been introduced in a celebration. No effort is being spared to make the entire demonstration such a success as will ever give Peterborough the name of being a town, which, when it does celebrate, does so gloriously.

Other features of the day's amusements will be a baloon ascension by Prof. Walcotte, of New York, who will give a trapeze performance while hanging in mid-air from his balloon. Then there are the horse races and sports of all kinds during the afternoon and a grand display of fireworks at night.

ENGAGED TO BE MARRIED.

Peterborough Decides by a Majority of 147 to Unite With Ashburnham.

The voters did not turn out strongly yesterday to vote on the question of union with Ashburnham and the by-laws submitted. There were almost three to one in favor of union of those who cast their ballots. Appended is a tabulated statement of the voting in the wards:—

ON THE UNION.

	1	2	3	4	T'l
For	90	65	62	49	266
Against	31	23	22	13	89
Majority					147

THIRD WEEK OF KELLS' SALE!

Everything Lovely! Everything Propitious!

EARNESTNESS continues to characterize each day's sales. There is no let up to the splendid success which has marked our Enlarging Sale from the very outset. On Saturday last our salesmen were simply lost in the crowds of buyers, and many, we are sorry to say, could not be waited on

THANKS! THANKS!

We feel impelled, even at this early stage of our sale, to express our hearty thanks for the generous patronage extended to us, on this, the occasion of our First General Stock-Clearing Sale. We have to apologize, however, to those of our customers who we have been unable to wait upon during excessively crowded days, and also for the topsy-turvey shape of the store during the busiest hours of ceaseless selling.

Don't Forget Our Promise.

There will be a lot of goods sold during the next week, and we want to let our prices make such a name for our goods as will continue to draw the crowds.

Everything goes until our big stock is melted away like icicles before a hot sun.

We have determined to realize on our stock whether we do so at a loss or not. Here are a few of the Special Drives for the week:—

MANTLES.

This department must be closed out at once. It's a pity to give new goods such a slicing, but it's an all over bargain time, and there's no help for it. The Clearing Prices must be made sweeping enough to make the selling quick and prompt, as we have no time for waiting bids.

MILLINERY.

Including this season's Felt and Straw Shapes, Feathers, Ribbons and other Trimmings will be reduced to one-half. The doings of this department for the next few days will eclipse even the past good record. Everything will go to the people at almost their own price. You'll find all that's new here, and the service of skilled milliners at your command.

DRESS GOODS.

Another severe cut in prices all through our Dress Goods will put increased interest in our sale. Visit the department, see the goods, and you will buy.

PARASOLS.

The Parasol counter is one of the busiest spots in this busy store. We offer special inducements this week. All that are good, all that are new, at figures to startle and please.

Every Department is certain to awaken strong interest. We have made ample provision for the emergency, and you will be rewarded by such Exceptional Values as cannot be duplicated by any other Retail Store.

ALL WISE HEADS agree that the use of a liver pill after dinner, or to accomplish special results, is an important step in civilization. Dr. Pierce's Pleasant Pellets are better than other liver pills in almost every respect. They're the smallest, easiest to take, most natural in the way they act; cheapest, because guaranteed to give satisfaction, or money returned. We all have *weak spots*. Generally it's the liver. An active liver prevents impurities and poisons from entering the blood. "Pleasant Pellets" have a tonic effect upon the liver and the general system. They *cure* Indigestion, Dyspepsia, Dizzy Spells, Sick Headache, and all derangements of the liver, stomach and bowels.

BOOK OFFER. The People's Common Sense Medical Adviser, by R. V. Pierce, M. D., contains over 1,000 pages, 300 wood-cuts, and is bound in cloth. Usual price, $1.50. Treats of Anatomy, Physiology, Hygiene, Medicine. Contains 200 prescriptions. More copies have been sold (over 650,000) than any other book except the Bible. If you cut this out *now* and enclose it to us, with 50c. in stamps, the book will be mailed you. Address, WORLD'S DISPENSARY, Buffalo, N. Y.

MINERS STILL HOSTILE

Contradictory Reports of the Trouble at Cripple Creek.

BRIDGES BURNED BY STRIKERS

At Massillon, Ohio, the Mob is Fortified With Dynamite and Small Arms—They Threaten to Throw Newspaper Reporters Into the River.

COLUMBUS, Ohio, June 8.—Superintendent Peabody, of the Baltimore and Ohio Company, received notice from the strikers at St. Clairville to move a coal train side tracked there or they would burn it. Col. Peabody replied that he would move it westward, but this the strikers would not allow. A detachment of militia has been detailed by the governor to guard the State arsenal here. The miners fell back at the approach of the troops and relinquished the railway and took a position upon a neighboring hill, where they will not be molested unless they commit some unlawful act. Trains were moved the first time in three days.

BRIDGEPORT, June 8.—Train men report Baltimore & Ohio bridges burned near Barnesville. Troops are expected here any moment, and the coal crews have been ordered to report at once. The miners are still preparing to resist any effort to put coal trains through on the Cleveland, Lorraine & Wheeling.

DENVER, Col., June 8.—Gov. Waite has been in communication by telephone with Victor, and last evening stated that no difficulty had occurred during the day in spite of sensational reports sent out from Cripple Creek. The Sun has received from a reliable source a despatch sent from the deputies camp as follows: "According to the most reliable reports the casualties of the day are one killed and four wounded on the side of the miners. Not a deputy has been killed.

MASSILLON, Ohio, June 8.—The strikers at Wheeling Creek have posted notices warning the public to remain away, and threatening to throw newspaper reporters into the river. They have a hundred pounds of dynamite and small arms. At Canal Dover, Company H, 17th Regiment of New Philadelphia, was surrounded by mill men and miners and prevented from boarding the train for Cambridge.

Chinese Disgraceful Traffic.

SAN FRANCISCO, June 8.—The steamer China brings a shocking story from the Orient of the methods employed by agents of Chinese in this country for immoral purposes. While the vessel was at the wharf at Yokohoma a Japanese passenger came on board and asked to have four large boxes taken to his stateroom, but was refused as the boxes were too large. They rolled the boxes aside, called the police, and the boxes were found to contain four Japanese girls, almost suffocated. The boxes had a small air hole at one end, but they had been laid on the wharf on end and the holes were closed, shutting off air from the young women. Three of the girls were billed to Portland and the other to Tacoma.

SURGEON'S KNIVES.

Failed to Remove the Disease from Hezekiah Vaughan's System—Dodd's Kidney Pills, which have Never yet Failed, Cured Him in Short Order.

SANDWHICH, May 28.—Hezekiah Vaughan, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Detroit, for what different doctors diagnosed as liver complaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 4½ hours, but when they got through, none of them could tell what was wrong, and the patient was left as bad as ever. The benefits derived by a neighbor from the use of Dodd's Kidney Pills, induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that afflicted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

SHILOH'S VITALIZER.

Mrs. T. S. Hawkins, Chattanooga Tenn., says: "Shiloh's Vitalizer SAVED MY LIFE. I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, Liver or Kidney trouble it excels. Price 25c. Sold by Geo. A. Schofield.

Signs of Worms are variably appetite itching at the nose, etc. Dr. Low's Worm Syrup is the best worm expeller.

Children Cry for Pitcher's Castoria.

A Story Without Foundation.

NEW YORK, June 8.—The Western Associated sent out a despatch under Vancouver date stating that a cloud-burst on the Fraser River destroyed a Raymond & Whitcomb excursion train on the Canadian Pacific Railroad, and that forty persons had perished. There is no truth in the story. The Raymond and Whitman party referred to has met with no accident.

German Counterfeiters Captured.

BERLIN, June 8.—A lithographer and a merchant were arrested in Einensbuett, a suburb of Hamburg, with several million marks worth of counterfeit five dollar bills and five pound notes in their possession. The police seized the counterfeits, as well as all the plates, presses, instruments and chemicals in the counterfeiters' workshop.

Hanged Himself to a Bed Post.

BALTIMORE, June 8.—Gustave Liebmann of St. Louis, a member of the firm of Liebmann & Dellevie, tobacco importers, committed suicide at the Howard House yesterday. He cut the bed sheets into strips and twisted them into a rope with which he hanged himself to the bed post. He was thirty-seven years old.

Two Young Men Drowned.

BUFFALO, June 8.—James Burns and Albert Bradley, young men, started in a sail boat from Woodlawn Beach for this city. The boat was found bottom upward about six miles from the foot of Main street, and near by was Bradley's hat. Searching parties are looking for the bodies.

Deficit in the Spanish Budget.

MADRID, June 8.—The Spanish budget, which was presented to the Cortez, shows a deficit of 24,533,497 pexetas.

THE RULING MARKETS.

TORONTO, June 8, 1894.

The bank clearings here this week are $5,570,825, as against $5,189,600 last week and $6,519,052 during the corresponding week of last year.

THE FARMERS' MARKET.—Receipts of grain were small. Wheat quoted at 61c for white and at 60c for standard red. Oats steady, 200 bushels selling at 39 to 40c. Barley is quoted at 41 to 42c and peas at 66c.

Buffalo—cattle, two cars, steady, unchanged. Sheep and lambs, fifteen cars, steady for good, weaker for common. Good to best wethers, $4 to $4.50. Fair to good mixed, $3.50 to $4. Culls to fair sheep, $1 to $3.35. Lambs, choice to fancy, corn fed, $4.50 to $4.85. Fair to good, $4 to $4.50. Hogs, twenty-five cars. Fairly active. Pigs and light yorkers, $4.75 to $4.85. Roughs, $4 to $4.50.

In Chicago the fluctuations and changes in the temper of the wheat market showed a very unsettled feeling in the trade. July wheat opened from 59⅞ to 59⅛c, afterwards fluctuating very severely between 59⅞ and 58⅛c, closing with the loss above noted at 58⅜ to 58½c. Corn followed wheat, closing a shade lower. Oats were firm, June closed 1⅛c higher.

Speculation at the New York stock exchange was less active. London was a disappointment inasmuch as the foreigners did not respond with larger buying orders in view of the rise here. Local operators, however, set to work early and soon established an advance of ½ to 1 per cent. New York Central was something of a feature at this time, selling up to 99½c. The market closed firm notwithstanding the talk about shipments of at least $2,500 000 gold from this port and Boston to-morrow.

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 150 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

SCENE AT THE FLOOD

The Drenched Valley of the Fraser Viewed by a Correspondent.

SUFFERINGS OF THE SETTLERS

The Awful Calamity That Has Overtaken the Province of British Columbia Graphically Portrayed—Loss Sustained by the Canadian Pacific.

VANCOUVER, B.C., June 8.—The correspondent reached Kats Landing late on Tuesday night after travelling over one hundred miles of the Fraser River county on a special relief work steamer. Only those who have seen the result of the great calamity that has overtaken the province of British Columbia can conceive the magnitude of the appalling disaster or describe the destruction wrought by the destroying element. Hitherto the few hurried words flashed over the wire has but faintly conveyed an impression of the awful grandeur of the scene in full view for hundreds of miles along the once fair valley of the Fraser.

Scene of Mournful Desolation.

After a dangerous run through five miles of flood, we reached Port Harvey. Here we boarded the steamer Transfer which had her nose run into the road bed and which was moored to the rails. Starting directly, the boat whirled around in the violent current and her bow ploughed through the turbulent waters up stream. At once a scene of the most mournful desolation was spread before our eyes. We passed herds of half-starved cattle tied on the rafts with no one to guide the journey of the insecure raft.

Then two houses, tied with stripa to swaying rafts, glided swiftly by. The families were at the doors with excited faces, but apparently safe. By some unaccountable means these enterprising neighbors had moored their houses to the rafts, had put together their chatties, and then lot go from their anchorage. Next a large scow load of putrid carcasses of animals swirled by. That lot of cattle had starved to death

An Old Settler's Grief.

A red handkerchief was furiously waved at us a short distance off and the steamer's hands were soon lifting out of a boat an exhausted farmer and his wife. The woman had fainted for want of food. A moment later we were again hailed. A man on the shore called out to know if we had seen a raft with two dead bodies on it. He heard it had just passed down. The man was dripping wet and looked as if he had swam ashore. Perhaps the dead bodies were those of his comrades, perhaps of his sons. The news of these deaths had not reached the city before our return, so the bodies escaped observation. In a like manner news of many tragedies will never reach here. There were many other less exciting scenes on our trip. The steamer sailed over the Canadian Pacific railway tracks and tied up at the Wharnock railway station, which was half under water. The people of Wharnock told numerous tales of wholesale havoc and ruin, stretching beyond our vision. Mr. Robinson, the oldest settler in the province, lost everything and the old man cried bitterly when he had not seen anything like it for thirty years. He explained it was all because *the high tides of April*, May and June came together.

Careworn and Abject Settlers.

When Hatzic was reached the sun was shining on a remarkable scene of striking beauty. The waters were half way up the tall trees, and a dozen acres of straight trunks, with luxuriant branches, resembled a floating forest passing swiftly by. Behind were the mountains, down whose stone-bound sides roaring torrents leaped and sprung from rock to rock like living things, and away up on the mountain tops were the fatal snows, omens of evil, but marvellously beautiful. Moving about the trees were every conceivable kind of crafts, manned by people of the town, who were steadying their boats by pushing long poles into the mud. They stood staring at our boat with dull eyes, dogged and careworn faces. Two houses and a general store floated out towards the steamer, but the people of the buried town never spoke, never moved, they were too wretched, too desperately indifferent to ask for assistance. The steamer hurried its passengers away from the silent, grim visaged waifs of the floating forest, and in another moment deck hands and passengers were pulling a herd of swine from the waters that had tumbled off a raft rocked by the waves from the steamer. Soon Mission City was reached and a quantity of provisions was put off by the relief company. The populace of Mission

THE FLOODED DISTRICT.

are noted for their politeness, and certainly one remarkable scene did occur. Half a dozen men strolled leisurely along the front street up to their waists in water. Here they met a lady in a canoe, they paused, doffed their derbys and entered into a quiet chaff.

A Revolting Spectacle.

Many requests for help were made. As the steamer swung out of Sumas a band of Indians were seen holding a barbecue. The ox had been dragged dead from the river and the half-starved red men were devouring it. At present no stop can be put to this revolting spectacle which is said to be getting common all along the river. The Indian ranches have been swept away for hundreds of miles, and with nothing to cover them but blankets. These poor people are bivouacing on the mountain side and seizing the carcasses as they pass near the shore for food.

At Chilliwack City nothing could be seen but the tops of the houses. The entire population met the steamer at the foot of the principal street. They were comparatively merry people, not like the silent melancholies of Hatzic. There were white people, half-breeds, laborers and millionaires, brought into close companionship by the terrible disaster coming to all. They laughed and joked at the fate that had brought ruin and succeeding months of anxiety and distress to hundreds of once luxurious homes. Chilliwack is, or was, the garden city of the province. The farmers there were wealthy, and the retired miners rich. The steamer tied up to a fence post, and the canoes manned by Indians took the provisions up to the only inhabitable store in the city, which bore the legend on a high sign: "Climb up the ladder; same old business carried on up in the attic; goods cheap for cash, or if you have got no cash, you can get them for nothing."

Then we passed an upturned boat, a few more illustrated suggestions of ruined homes, desolation and despair and Sumas was reached. The venerable postmaster was at his post and gurgled out his desires from the space between the tide and the top of the postoffice door. The water was up to the roofs of the houses in this town and the greatest suffering was reported.

Langley Deserted.

At Langley not a soul was in sight and no sound could be heard but the swish of the waves against the window panes. The steamer sailed up the main street for a considerable distance, but, meeting no one, she was headed for Agassiz. Passing Agassiz woods every hundred yards a dusky Indian or a breathless white rancher rushed down to the water, waist deep, and frantically hailed us: "For God's sake, stop, captain; my cattle are starving," or "Come in quick, my family want food; we are suffering." So are appeals made all along the valley. Scores of times the steamer ran into the woods and temporarily relieved those human sufferers. But the dumb brutes had to take their chances to starve to death on the mountain side or to be cast adrift with the faint possibility of being rescued.

Heroes of the Calamity.

No one can compare the loss sustained by the hardy settlers of Fraser valley, but it must be enormous. Last night a mass meeting extraordinary was held in Victoria, Vancouver and New Westminster to devise means to provide for many hundreds of homeless, penniless ranchers. The great calamity has developed many heroes. The Cabinet Ministers, the busy men of business and the men of leisure have been working up to their armpits in water, relieving distress in the most practical manner, with no other reward than a sense of doing their duty, and so it has been among the railroad men. Many of them for want of sleep are dropping in their tracks. It is said of James Wilson, superintendent of the Canadian Pacific Railway Telegraph Co., that he was for three days on the river in an open boat, without food, sleep or change of clothing, refusing to rest or eat until he heard "O.K." ticked from Vancouver to Montreal. Between Vancouver and Katz Landing there are miles of washouts, including trestles.

Between Lytton and Kamloops there are a series of washouts extending ninety miles. The floods are not responsible for the latter trouble. As if the elements were not satisfied with the terrible destruction wrought, a terrific hurricane swept over the mountains from the south, gathering snow clouds until with a roar of a million cannon it struck the mountains at Lytton. Here the snow clouds burst, and melting in the fall, the contents were literally spilled upon the alkali ground, peculiar to that section of the country, and the earth ran like wet sugar undermining the track and eating away the embankment for ninety miles. When the cloud burst terrific peals of thunder came from each quarter of the compass and a hurricane lifted thousands of tons of rocks from their bases with trees, mud and earth piled them on the track. This hurricane did in five minutes as much damage to the tracks as the floods took two weeks to do.

Canadian Pacific's Loss.

Reconstruction work is being pushed with marvellous vigor an army of men being at work over five miles of road. A railroad man put the entire loss to the C. P.R. at over $1,000,000. The company have promised that there need be no idle men in this vicinity for the next six weeks as they will employ all comers. The track is to be rebuilt flood-proof along the Fraser.

A hard, bitter season is before the ruined ranchers. No practical plan has been suggested as to how they are to be provided, but it is thought that the Government will have to come to their relief. The railway promises to begin to carry passengers from Vancouver to Montreal in about four days.

A Hope despatch says that the ranches of a number of wealthy English men at Agassiz was flooded out on Tuesday night. The loss was very heavy in cattle and crops.

Assistance From Uncle Sam.

At Lytton the rise is seventy feet and it is reported that Lytton bridge has been swept away. A meat famine has been averted by the arrival of a hundred cattle from the United States.

Word has been brought that two canneries on the Fraser River have been demolished by the flood. At Katz Landing there is much snow in the mountains, and a return of the warm weather will make higher water. Big slides are reported at several more places near North Bend, the greatest one being six miles above Lytton.

Saw mill flats and the suspension bridge approaches are gone, and the water is rushing through at the rate of twenty miles an hour. The superstructure has been saved.

The bridge over the Thompson River at Ashcroft is gone. The government will erect another immediately. Great gangs of men are at work already where practicable, repairing the track. The rise of the river at Chilliwack is two feet higher than ever before known. The government steamer, with Hon. Col. Baker in charge, is relieving the settlers. Only canoes are moving about with people, chattles and stock.

THE BAY OF QUINTE ANNUAL CONFERENCE.

THE REPORT OF THE NOMINATING COMMITTEE.

Hundreds of Visitors Present at Last Night's Session—The Committees at Work—The Election of the Delegates To the General Conference now taking Place.

AFTERNOON SESSION.

After the usual devotional exercises the conference resumed business. On the second ballot Rev. N. A. McDarmid, S.T.D, was elected conference secretary, and R. W. Clarke, Esq., and Rev. D. Balfour, assistant secretaries, and Rev. G. W. Marvin, M.A., B.D., Ph.D., journal secretary.

The representatives of the several districts reported to the conference their members of the nominating committee, and by permission of the conference the committee retired to enter upon their deliberations.

The following are the names of the nominating committee:—Belleville, Rev. E. M. Baker, W. Johnston; Napanee, Rev. F. B. Stratton, and A. L. Morden, Q. C.; Picton, Rev. O. R. Lambly, R. T. Williamson; Brighton, Rev. J. S. Clarke and W. H. Ives; Cobourg, Rev. E. Roberts and Geo. Wilson; Bowmanville, Rev. E. W. Watch and P. C. Trebilcock; Uxbridge, Rev. Jos. Young and A. Forster; Cannington, Rev. B. H. Greatrex and A. H. Webster; Lindsay, Rev. C. L. Thompson and Jos. McFarlane: Peterborough, Rev. W. R. Young and John Hull; Campbellford, Rev. T. W. Joliffe and T. J. Atkinson; Madoc, Rev. W. Johnston and E. Flynn; Tamworth, Rev. J. J. Rice and J. M. Smith.

The members of the Sunday School committee and the Epworth League committee were reported from the several districts.

The names of those ministers or probationers who had died during the past year were—Cobourg district, Rev. E. H. Koyl, M.A., B.D., and Rev. R. Brooking; Lindsay, Rev. J. A. Rogers, and on motion the memorial service was made the first order on Friday afternoon.

The following gentlemen were recommended to be permitted to go to college from the following districts: Belleville, H. B. Kenny; Napanee, Francis W. White; Picton, F. A. Leitch; Cobourg, Geo. E. Ross, J. W. Sheir and John A. Reid; Bowmanville, Charles Adams, Uxbridge, Geo. Nicholl; Picton, A. M. Irwin; Lindsay, S. E. Moore; Peterborough, W. S. Boyce and A. W. Bunner: Campbellford, R. F. Stillman; Madoc, W. E. Smith and J. A. Connell.

Conference adjourned till 7.30 to permit the Ministerial association to meet.

THE EVENING SESSION.

A large number of ladies were present at the evening session of the conference and the visitors vied in numbers with the ministers who were in attendance.

The Y.M.C.A. extended an invitation to the members of the conference to use their rooms whenever convenient.

This communication was received and the members expressed their appreciation of the courtesy extended by a vote of thanks.

Rev. Henry Thomas was requested to report the proceedings of the conference for the Guardian.

Quite a discussion was evoked when the appointment was made, as some of the members held that the Guardian preferred to use the reports in the daily papers to those furnished by the members. The appointment, however, was confirmed.

Rev. T. W. Jolliffe was nominated by the secretary as conference letter writer.

To Rev. W. J. Saunders was allotted the task of signing the railway certificates. He declined the office, however, and Rev. Wesley Down undertook to look after them by request.

The nominating committee after meeting and appointing Rev. E. Roberts, chairman; George Wilson, secretary, and E. D. O'Flynn, assistant secretary, made the following report:

A great portion of the evening was taken up in the reading of memorials from the different districts and the relegating of them, for adjustment, to the proper committees.

VOTES OF THANKS.

Rev. O. R. Lambly, M. A., moved, seconded by Rev. Jas. Young, "That the hearty thanks of this conference be presented to Rev. Wm. Johnson, the retiring president, for his faithful and efficient services during the year. We are profoundly grateful to the Great Head of the Church for his abounding grace vouchafed to our brother during his official term. The manifest and responsible duties of the presidency have been discharged in such a manner as to merit the highest esteem of his brethren and secure and serve the best interests of the church. We wish to place on record our appreciation of his uniform kindness, and impartial administration of the discipline of the church and we pray that he may long be spared to serve the cause to which his life is devoted.—Carried.

A cordial vote of thanks was also passed to Rev. Richard Duke, the retiring secretary, on motion of the ex president, Rev. William Johnston.

Both of these retiring officers suitably expressed their appreciation of the resolutions.

Rev. S. T. Bartlett, R. W. Clark and and Rev. David Balfour were also the recepients of votes of thanks for their work as secretaries during the past year.

A vote of thanks coupled with an honorarium of $50 was tendered Rev. C. W. Watch for the work of indexing the journal for the past nine years and other work, which he undertook by direction of the conference. Mr. Watch wished to decline the honorarium, but the conference expressed its earnest wish that he would accept the gift.

INTRODUCTIONS.

Rev. James Kines and Rev. E. S. Shorey, who have been transferred from the Montreal Conference to the Bay of Quinte Conference were introduced to the members by the president, and each made a short address expressive of the pleasure they felt was in store for them in the new field.

A number of applications were received from the different districts for permission to sell property and for grants to aid the families of ministers who were in distress. These were referred to the proper committees.

MORNING SESSION.

The Nominating Committee made the following further appointments:

CONFERENCE, BOUNDARIES AND ITINERACY.

Ministers—John McCamus, R. Taylor, O. R. Lambly (convener), S. Cruikshank, W. H. Peake, W. J. Jolliffe, R. J. Fallis, B. Greatrix, T. M. Campbell, W. J. Clarke, Daniel Williams, W. Johnston, Gilbert Horton, W. B. Tucker.

Laymen,—Wm. Johnston, W. F. Hall, Kenneth McKenzie, Thos. Foster, W. A. Meadows, E. G. Rowse, Dr. Crowle, J. F. Cummings, Jos. McFarland, R. W. Clarke, Dr. Ford, James Clair, J. W. Smith, G. H. Wilson.

SUPERANNUATION FUND.

Ministers,—Amos Campbell, F. B. Stratton, T. J. Edminson, J. S. Clarke, E. Roberts, C. W. Watch, Jos. Young, J. W. Totten, C. L. Thompson, W. R. Young, T. W. Joliffe, D. Balfour, J. J. Rice.

Laymen—J. A. Holgate, A. L. Morden, (convener), G. D. Platt, Wm. Ives, Geo. Wilson, P. Treblcock, W. Sherin, A. H. Webster, Judge Dean, A. L. Davis, T. J. Atkinson, E. D. O'Flynn, G. F. Bryan.

The conference then rose from regular session and proceeded to elect sixteen ministers and sixteen laymen as delegates to the general conference.

The Laymen's Electoral College met in George street Sunday school room to elect sixteen delegates to the general conference this morning and organized by appointing His Honour Judge Dean, as chairman and R. W. Clarke, secretary.

On the first ballot, 107 votes were cast, necessary to a choice 54. The following were elected:—Judge Dean, Lindsay, 81; Dr. Crowle, Uxbridge, 80; Dr. Ford, Norwood, 79; W. J. Hall, Napanee, 78; Wm. Johnson, Belleville, 75; E. D. O'Flynn, Madoc, 70; R. W. Clarke, Millbrook, 66; Geo. Wilson, Port Hope, 63; D. W. E. Tilley, Bowmanville, 51. The remaining seven will be elected at a subsequent meeting of the College.

We understand those who stand next highest on the list are: A. L. Morden with 52 votes; John A. Holgate, 51; H. C. McMullen, 49; I. M. Smith, 42; J. L. Hughes, 40; I. J. Cummings, 34; I. D. Platt, 34; Jas. Aylsworth, 32; George S. Miller, 28; E. I. Rowse, 26; E. V. Dyer, 25.

HOUSE OF COMMONS.

The Turcotte Case—Charlton's Motion Respecting Crown Lands.

OTTAWA, June 8.—Mr. Edgar moved in the House of Commons yesterday that J. B. Provost and O. E. Larose, Quebec, be summoned to appear before the bar of the House because they had neglected to appear as witnesses before the Privileges and Elections Committee in the case against Mr. Turcotte, M.P. They had been summoned by telegraph, and afterwards by the sheriff, but had failed to appear.

Sir Hector Langevin said that it was customary to send expenses, and until travelling expenses were sent to them he would not agree to the motion.

Hon. Mr. Laurier said it was an urgent case, and that the motion should pass.

Sir John Thompson read from Bourinot, showing that the parliamentary rule was not to pay witnesses until after they had attended. He thought that these men should be telegraphed that their expenses would be paid, however.

The motion carried.

Hon. Mr. Daly resumed the debate on Mr. Charlton's motion of June 1, "That in the opinion of this House the public lands of the Dominion should be sold to actual settlers only, upon reasonable terms of settlement, and in such areas as can be reasonably occupied and cultivated by the settler; that no sales of public lands to speculators or middlemen should be permitted; that liberal provisions should be made for free homestead grants to settlers; and that land grants to railway corporations have been made by the Government with reckless lavishness and to the serious detriment of the public interest."

He said that if there ever was a time in Canada when these lands were not properly administered, when they were sold to speculators and middlemen, it was during the Mackenzie administration. He said that the twenty-mile belt on either side of the C.P.R. tracks in which homesteads were prohibited was inaugurated by the Mackenzie Government. Mr. Mackenzie himself had been interested in one of these companies.

Sir Richard Cartwright—I think not; I think that is a mistake. I don't think Mr Mackenzie had any interest in any of these companies.

Hon. Mr. Daly said that in Hansard of 1886, at page 1,042, it would be seen that Mr. Mackenzie was the president of a land company with capital of $1,000,000. The object of the formation of the company was to purchase Northwest lands. He next dealt with the timber limits, and showed that the Liberals sold by private sale without competition while in power, and got lower prices than the present Government. He denied that the railway grants were lavish or extravagant, and said that if the Government had been lavish the Opposition while in power had been doubly so.

The Government still had 1,000,000 acres of land to give to railways, 1,496,000 acres to give to private persons, besides an immense reserve area.

Mr. Davin and Mr. Mills spoke. A division was then taken and Mr. Charlton's motion was defeated by 100 to 47 votes.

Rejoice With Us!

Only a few times in many years has been our pleasant privilege to give the ladies of Peterborough that which every lady appreciates most—a new dress of seasonable fabrics, just when it is most needed—AT HALF OR LESS THAN HALF PRICE. But, while we do not make much on these two lots of Dress Goods, you save from 25 to 50c. on every yard.
"It's Fair's way."
Don't let your dress speak of a prosperous past, but be up to date in the fashion, as our low prices enables you to be.

DRESS IN GLOVES.

The colour, make, and fit are what you need when you are out. If you dress without the proper effect in gloves, you are out of style. Our glove display comprises everything in this line in vogue this season.

There are fads in bonnets and dresses and wraps,
And fads so funny we love;
And though it may seem unlikely perhaps,
'Tis a fact there is a fad in a glove.

On the crinoline dress there are plenty of jokes,
And the fad is a subject of jest;
But the glove that suits both young and old folks,
Is at Fair's—it leads all the rest.

CUT THIS OUT

And see you get what we advertise.
LADIES' BLOUSES—All our $1.50, $1.75, $2.00 Blouses we let you have your choice for a one dollar bill.
LADIES' CLOAKS AND RUBBER COSSAMERS—to keep the rain out and protect your dresses—in some instances at HALF the original prices. For instance, Cloaks that were $6 to $8 now going at $2.75 to $3.50.
LADIES' COLOURED CLOTH CAPES—specially reduced to suit all cases—you-may-take-them prices.
JACKETS—Latest styles, large sleeves—cost of material. MANTLES—Profits pushed aside—it's a clear sweep—It's Fair's way.
LADIES' SILK PARASOLS 75c., $1, $1.50. If you want an aristocratic Umbrella, with fashionable handles and sensible covering, you know where to look for it. UMBRELLAS RE-COVERED WHILE YOU WAIT. The prices tell, and everyone tells the prices.

DOMINION PARLIAMENT

The House Again Occupied With Foster's New Tariff.

RECIPROCAL DUTY ON EGGS

The Tariff on This Article Will be Regulated at Washington—Bill Amending the Customs Act Introduced—Private Bills Read a Third Time.

OTTAWA, June 9.—In the Commons, on motion of Mr. Foster, the House went into concurrence on the tariff items.

Mr. Cargill said that the new tariff provided a duty of five cents per dozen on eggs, or to come in free if the United States made such a concession. He wanted to know if, in case the United States government should reduce their tariff on eggs, say to one, two or three cents per dozen, would the Canadian Government do the same?

Hon. Mr. Foster said yes; that was the spirit of the new tariff. Of course, if the Government were of the opinion that they should make eggs free provided the United States made them free, that carried with it reciprocity. If they made them less, and if the Canadian Parliament were in session at the time, the Government would be very glad to make them at the same rate, and when the item was reached it might be well to provide for that.

Mr. Maclean protested against the provisions of the new tariff which reduced the duty of 35 per cent. on agricultural implements to 20 per cent. He said that no reduction had been made in the raw material used in the manufacture of these machines, and that it would be ruinous to the business if the reduction should be allowed to stand. He asked the Government to reimpose the old duty.

Mr. Davin and Mr. McMullen opposed this view. They protested against an increase in the duty on this item.

Vinegar was changed from 8 cents to 6 cents per gallon. Items 220 and 222 were altered to read as follows:

220—Iron or steel plates or sheets, sheared or unsheared, hoop, band strip and skelp, iron or steel, sheared or rolled in grooves, and iron or steel of all widths not thicker than No. 17 gauge, n.e.s., $10 per ton.

222—Iron or steel sheets, iron or steel hoops, bands and strips, n.e.s., and other iron or steel of all widths, sheet iron common or black, smoothed, polished, coated or galvanized, and Canada plates, No. 17 gauge and thinner, 5 per cent. ad valorem.

The egg duty was further amended with the addition of the following: "Provided also that the United States impose a less duty than 5 cents per dozen, an equivalent duty shall be collected on eggs imported into Canada."

Hon. Mr. Foster then introduced the bill amending the Act respecting the duties of customs founded on the resolutions. The bill was read a first time.

The following private bills passed through committee and were read a third time:

To incorporate the Metis, Matane and Gaspe Railway Company—Mr. Turcotte.

Respecting the Rocky Mountain Railway and Coal Company—Mr Davis.

To incorporate the Lake Megantic Railway Company—Mr. Pope.

To incorporate the Alberta Southern Railway Company—Mr. Davis.

To incorporate the Wolseley and Fort Qu'Appelle Railway Company—Mr. Davin.

Respecting the Erie and Huron Railway Company—Mr. Cockburn.

Respecting the Moncton and P. E. Island Railway and Ferry Company—Mr. McInerney.

Respecting the Red Deer Valley Railway and Coal Company—Mr. Davis.

Respecting the Montreal Island Belt Line Railway Company—Mr. Bergeron.

The following bills were read a second time:

For the relief of Joseph Thompson—Mr. Northrup.

To incorporate the Nova Scotia Steel Company—Mr. Fraser.

Respecting the Cobourg, Northumberland and Pacific Railway Company—Mr. Guillet.

Ottawa Notes.

Immigration Agent Waggoner left last night for Prince Albert to visit Vermonters who have settled in the Stoney Creek and Shell River settlements.

At a meeting of the Insolvency Committee of the Senate yesterday the motion to exclude farmers from the operation of the bill was rescinded. It was left to the Senate to deal with the subject. The bill was afterwards passed. It was reported to the Senate to-day.

There are likely to be some more cases under the Dominion Fisheries Act against parties who have indulged in the use of a spear on the Ottawa river. While the Act under which these prosecutions are entered may seem vague, it has, according to Carleton County Magistrate Harvey, a very wide scope. His reading of it just now is that while a person may not be convicted of spearing unless it is shown that they had or intended to spear those kinds of fish which are expressly forbidden, yet under the license clause of the Act, if it means anything at all, it means that any person is liable to conviction for fishing with a hook and line if they have not a license to do so. This is rather a novel point and one which it is said will have to be made a test case of.

COXEYITES DROWNED

They Meet With a Terrible Mishap on the Platte River.

FIFTEEN LOSE THEIR LIVES

Their Boats Were Wrecked in the Raging Waters of the Swollen River—The Catastrophe Attributed to the Drunkenness of Their Leader.

BRIGHTON, Col., June 9.—Twenty-five of the Coxeyites who departed from Denver in boats are missing as the result of the upsetting of a number of their boats. It is thought that about twenty have been drowned. Dead bodies can be seen on sandbars and lodged in trees, but cannot now be recovered. The Platte river was a raging torrent and many of the boats were wrecked at the bridges. Twenty-nine boats, containing 183 men, passed Henderson Island bridge. Only twenty, with less than 100 men, reached Brighton. Some boats were deserted, the occupants taking to the road. At the McKay bridge several men were drowned. At Henderson Island bridge twenty one men were in the water at one time, but were rescued with ropes. The body of one man from Utah known as "Frenchy" has been recovered. On one boat containing eight men six are said to have been lost. The most of the bodies have been washed down stream. A number of men are clinging to trees along the river banks, and an order has been telegraphed to Denver for skiffs to take them off.

DENVER, June 9.—At least fifteen members of the Denver contingent of Coxey's army lost their lives by drowning in the Platte river. Four men have been washed ashore on the other side of the river about eight miles this side of Brighton at a point known as McKay's bridge. To reach them it would be necessary to travel about twenty miles off of the way, but he expects to recover them later on. The other men who are missing have also been drowned and their bodies carried farther down the river. One man found drowned at Brighton has been identified as Charles McCune, a Missourian member of the Utah contingent.

A large number of men spent the night in the trees along the banks of the river and several were left on islands. A searching party was sent out to help these men. The ranchmen along the banks also aided a large number of the unfortunates.

The men claim that Commodore Higginson was drunk and lacking all the essential qualities of a leader and attribute the whole disaster to his mismanagement. The Coxeyites will not further attempt to go east by the water route.

LIVES LOST IN A STORM.

Terrible Storm in the Mountains of Bavaria—German Items.

BERLIN, June 9.—A despatch from Wiesbaden says that Dr. Lieber, member of the Reichstag for the Third Wiesbaden district and leader of the Clerical party has resigned his seat and retired to private life. He is said to have taken this step owing to the rebellion of many Catholic deputies against his leadership.

The Hamburgische correspondent, inspired by Chancellor von Caprivi, asks how the United States senate's decision on the sugar schedule can be harmonized with the President's declaration that German sugar would enter the United States duty free.

The Hamburg police will get a reward of 6,000 marks from the United States Government for arresting the two forgers of five-dollar notes in Eimsbuttle.

The Emperor reviewed the cavalry brigade on the Templehofer field. No traces of his recent operations were visible, except a small plaster which he wore on his cheek. The Emperor subsequently took luncheon with the officers of the Queen of England's Dragoons, the first regiment of the Dragoons of the Prussian guard.

A phenomenal storm swept over the mountains of Bavaria Thursday. Several people were killed by lightning. Eight or nine were drowned in lakes. The loss of property is reported as very heavy.

Poisoned by Locusts' Eggs.

EUFAULA, I.T., June 9.—The families of H. C. Gimmons and Tom Waugh, farmers near here, ate mulberries and were all taken suddenly ill. Gimmons and Waugh have both died and other persons in both families are not expected to live. Locusts' eggs on the berries eaten by the victims are said to have poisoned them.

A Millionaire Nun.

ST. LOUIS, June 9.—Sister Catherine, a daughter of Millionaire Drexel, of Philadelphia, who has been visiting the convents in St. Louis for several weeks, has been detailed to take charge as Superior of the Ursuline Sisters convent at Alton, Ill.

Runaway Accident in Strathroy.

STRATHROY, Ont., June 9.—Yesterday a serious accident befell Mr. Cyrus Biaxel of the Brewing & Malting Co. While out driving, in company with Mrs. Biaxel and Mr. C. Banghart, the horses became frightened by one side of the tongue becoming detached from the buggy. Mrs. Biaxel and Mr. Banghart managed to jump from the rig, while Mr. Biaxel, who was driving, stayed with the lines. In front of the Age office a wheel came off and Mr. Biaxel was thrown out and rendered unconscious. He was also bruised badly about the head. His condition is thought to be quite serious, but hopes are entertained for his recovery.

Bothwell Dairy Meeting.

BOTHWELL, Ont., June 9.—A large and enthusiastic dairy meeting was held here yesterday. Important addresses on the varied phases of dairying were given by Prof. Robertson, Dominion Dairy Commissioner; J. W. Wheaton, secretary of the Dairymen's Association of Western Ontario; Mr. Wm. Thompson, of the Farmers' Advocate, London; and Messrs. John Geary and T. D. Hodgins, of London. The chair was taken by Mr. W. R. Hickey, ex-Mayor of Bothwell. A new cheese factory is being built in Bothwell.

CANADA FOREVER.

Beautiful Views of Our Beautiful Dominion.

In the pages of the EVENING EXAMINER will be found a coupon referring to "Canada," a portfolio of original photographic views of our beloved country. This portfolio is published in weekly parts. Each part contains not less than 16 pages 10x14 inches in size of illustrations and descriptive matter. Twenty-six parts will comprise the series, making altogether upwards of four hundred superb photographic views, covering the whole vast domain of British America. The object of this splendid series of Canadian fine art pictures is to provide the people of Canada with a scenic and descriptive reproduction of the artistic beauties of Canada and the evidences of its resources and material progress—to show Canada's glorious lake, river and mountain scenery—to depict in panorama of photographic pictures the urban and rural life of the Canadian people—to place within the reach of our own people the means of acquainting themselves with all that is notable in the national features of our own country. Every home should have one of these portfolios; they will be a never-ending and perpetual delight to the family, to callers and friends, an ornament to the home, a mine of wealth of scenic beauty and illustration of the resources of Canada. How to get this portfolio. Cut out the coupon printed in each issue of this paper and send or bring it with ten cents to the EXAMINER office. Part I is now ready, and the remaining parts up to 26 will be issued weekly. Only 10 cents a week will give you at the end of the series a magnificent volume of nearly 400 pages. The pictures, 400 in number, are superb, half-tone photographs of mountains, rivers, lakes, forests, cities, towns and other picturesque features of the land we live in. Be sure to cut out the coupon and enclose ten cents with it and get series No. 1. Begin at the beginning and don't by delay regret that you are missing this great chance.

You can have one of the best monthly papers published, for six months, for three cents. See advertisement at foot of first column of local news in this issue

SATURDAY, JUNE 9, 1894.

THE record of the Mowat Government as to the labouring classes shows that it has an interest in their welfare, as it has in every other class of the province. A brief mention to show what it has done will be of interest:—

It passed the Mechanics' Lien Act, the Employers' Liability Act, the Factory Act, the Railway Accidents Act, the Act for the Relief of Co-operative Associations, the Creditors' Relief Act (which applies to wage earners), and the Franchise and Representative Act of 1885.

It collects valuable statistics on labour, wages, and cost of living.

It passed the Masters' and Servants' Act, and the Act to secure compensation to workmen for injuries.

It passed an Act to secure to wives to children the benefits of life insurance, an Act creating Free Grants and Homesteads, an Act providing for the establishing of Free Libraries, and an Act providing exemption from execution under the Free Grants and Homesteads Act.

It passed an Act providing for the establishment of technical schools, an Act regulating the closing of shops and the hours of labor therein for children and young persons, an Act for the protection and reformation of neglected children, and an Act to enforce orders under the Act respecting Masters and Servants.

It passed an Act as to truancy and compulsory school attendance, an Act for the protection of persons employed in places of business other than factories, and the Manhood Suffrage Act.

It passed an Act under which labor organizations may incorporate and register, the Woodman's Lien for Wages Act, the Registration of Manhood Suffrage Voters Act, and the Conciliation and Arbitration Act of 1894 to settle disputes between employers and employees of labor.

It has exempted from taxation living incomes up to $700 a year.

Its labour legislation is regarded as the most advanced and progressive of any self-governed country.

SIR Oliver Mowat's conspicuous loyalty to British connection is being kept well to the front by his friends in these vote-getting times. At the big Toronto meeting, for example, Mr. J. S. Willison claimed that Sir Oliver Mowat was "in the closest touch with the real sentiment of Toronto. He is British-Canadian to the core," he said by way of proof; and "Toronto is British-Canadian in every pulse of its being and every throb of its activity." No more trustworthy certificate of the loyalty of Toronto and Ontario could be had than this homage to the sentiment by those who would retain the confidence of the province. It is not that our people regard loyalty as a sufficient cloak for wrong-doing or weakness, as some charge; but that they demand loyalty as a necessary accompaniment of other virtues. They want a man to be both capable and loyal, and they will excuse the lack of neither quality.—Montreal Star.

Nothing could be more hurtful to Ontario's credit than the accession to power of an unstable Government representing a number of unsympathetic factions. By any unsettling of financial confidence in the prudence and soundness of our methods of administration the farmers would be the chief sufferers. It is for that reason that the mass of the farmers will vote only for Liberals candidates, or for Patrons whose views are thoroughly well understood.

THE Review boasts of the formidable array of oratorical talent, which Mr. Winch has doing his stump speaking for him. If Mr. Winch cannot enaunciate his policy and opinions right at home here, amongst his own friends, without the aid of half a score of lawyers, what's he going to do when he gets amongst strangers? He cannot take Mr. Possette and Mr. Dennistoun, Mr. Burnham and Mr. Sawer, Mr. Arthur Stevenson and Mr. W. H. Hill, etc., etc., into parliament with him to make his speeches for him there. Perhaps they would explain to the electors how they propose to get over this difficulty?

THERE was a time, says the Ottawa Free Press, when the Conservative party of Ontario claimed to be "a gentleman's party," but the pretense has been abandoned. Mr. Meredith and his supporters are now compelled to utilize the absurd yarns of self-confessed personators and the statements of whiskey informers whose testimonies courts have rejected as "campaign literature," so devoid are they of legitimate grounds for attacking the Mowat Administration.

MOVED by petty charges and by promises of reduction of debt and expenditure, and of pure and economical government, thousands of Liberals voted to overthrow the Mackenzie Government. They know the result. They will not repeat the folly. The Liberals of Ontario will stand in a solid mass behind the Mowat Government.

THE farmers of Ontario are the flower of the Canadian population, the best friends of liberal government, the solid bulwark against the factions and combinations that seek to destroy the Mowat Administration.

Mr. DRYDEN and Mr. Awrey are two of the ablest farmers in the Legislature, hence they are made a special object of pursuit.

QUIET AT CRIPPLE CREEK.

Miners' Difficulties Settled Without Bloodshed—Other Places.

CRIPPLE CREEK, Col., June 9.—The long strike in Cripple Creek is ended and the settlement has been effected without bloodshed. The militia are encamped in Altman. The miners have all laid down their arms.

RIDGEWAY, Pa., June 9.—Three hundred strikers left Centreville about five o'clock last evening and marched to St. Marys where Kaul and Hall have about thirty farmers digging coal. The strikers are well armed and were headed by a band. A special train left here at 7.30 to take deputies to St. Marys.

COLUMBUS, Ohio, June 9.—In a telegram to Gov. McKinley last night Gen. Howe tells of the resistance he met at Wheeling Creek. There 700 strikers held the railroad and refused to withdraw. The regiments were drawn up in line of battle. This enraged the strikers and they started toward the militia, who were ordered upon the strikers. The latter held their ground and had to be pushed from the railroad property by the troops. Gen. Howe states that the troops are now surrounded by strikers, who are on the hills, and more troops are needed. Governor McKinley immediately ordered Col. Bunker to proceed east with the 16th Regiment, the Toledo Cadets and Battery "D" of the First Light Artillery, which arrived last evening from Toledo, and report to Gen. Howe. He also ordered a part of the 3rd Regiment at Dayton to report here at once to form a reserve force to be held here.

CHARLESTON, W. Va., June 9.—News has reached here that strikers attempted to wreck a passenger train on the Chesapeak and Ohio railroad near Winifrid, a short distance from this city, last night. The engine was damaged by running into a pile of ties that had been placed on the track. It is also reported that strikers shot and killed the engineer of a coal train on the Norfolk and Western railroad in Wayne county. Much activity prevails at the Governor's office and State troops are being ordered out to suppress strikers on the Baltimore and Ohio railroad.

PEORIA, Ill., June 9.—John L. Geher, the president of the Peoria district miners union, ex-member of the legislature, the leader of the rioters who destroyed the Little mine, near Wesley, on Wednesday last, is now in the hands of the Tazewell county authorities. His arrest was accomplished by the sheriff of Peoria county at an early hour. He had shaved off his whiskers and otherwise disguised himself, preparatory to flight.

Three Wants.

"Reason's whole pleasure, all the joys of sense,
Live in three words, health, peace, and competence."

So says the poet. Competence counts for little when one is sick, and peace is disturbed, when health is upset, so that the poet rightly places health first. To have good health you must have pure blood. From the blood the system receives all its material of growth and repair. The best blood-purifier is Dr. Pierce's Golden Medical Discovery, which is world-famed and sold everywhere. It is a soverign remedy for all diseases due to impoverished or impure blood, as consumption, bronchitis, weak lungs, scrofula, old sores, skin diseases and kindred ailments.

Delicate diseases of either sex, however induced, promptly, thoroughly and permanently cured. Send 10 cents in stamps for large illustrated treatise, sent securely sealed in plain envelope. Address World's Dispensary Medical Association, 663 Main street, Buffalo, N. Y.

Biliousness and Liver Complaint, Headache, etc., are cured by Burdock Pills.

To avoid sensationalism—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods

A Toronto Business Man

Makes a Valuable Discovery.

He Learns How to Keep Well and Strong During the Hot Summer Months.

KEPT ROBUST AND STRONG BY USING PAINE'S CELERY COMPOUND.

"Last year, I learned a very valuable lesson," said a well-known Toronto business man: "I found that I could maintain and keep up my bodily strength and nervous energy in a simple and very inexpensive way during the hot summer weather, and fell as well and strong as in the winter months. How do I accomplish it? Simply by using Paine's Celery Compound every day during the month of June, before the terribly hot and enervating weather commences. In this way I brace up my system and nerves to meet the most weakening period of the year. Of course I find it an immense advantage to use Paine's Celery Compound twice a day—morning and night—during July and August.

The towns and cities of our Dominion are full of energetic business men, many of whom find life weary and burdensome in mid-summer. They are weak, nervous, sleepless and run down; often appetite is poor; the blood is impure, and courses sluggishly through the body, and the whole human machinery is like a steam engine that cannot be worked properly until thoroughly overhauled and repaired.

It is pleasing to know that, like the Toronto business man who has given his experience, there are thousands of men—busy workers—in all callings of life, who are growing stronger, brighter and more robust every day, by using nature's restorer, Paine's Celery Compound. Pure, rich and healthy blood is sent through the deep parts of the heart, liver and kidneys, leaving in its passage material for rapid repair, and taking away in its stream the used-up, dangerous elements; seeds of weakness are driven from every organ, and all the functions receive new vigor and life.

Your own family physician will tell you that Paine's Celery Compound feeds worn-out nerves, fortifies the system and clears the brain. It is the only medicine in the world that truly "makes people well." Now is the time to brace up and get rid of your troubles, if you would be strong during the heated term. One bottle of Paine's Celery Compound will convince the most skeptical that it possesses virtue and great power. It will certainly do for you what it has done for your friends and neighbors. You have the past testimony of thousands of Canada's best people to guide and encourage you.

Bradstreet's Trade Report.

NEW YORK, June 9.—Bradstreet's says: Nearly all the unfavorable business conditions of the past three weeks continue to exercise an influence. Retail trade at many centres has been interfered with by unfavorable weather and by further restriction of the purchasing power of thousands of wage earners. Mob violence, with attacks on life and property, have been a feature of the situation, necessitating interference by State troops in many localities. Business failures do not increase materially in numbers or importance, the total being 207, compared with 183 last week, 293 in the week a year ago (when the commercial and financial disturbance was beginning to make itself felt), and 163 in the week two years ago. At larger eastern centres there is no improvement in general business. Special telegrams from leading trade centres throughout the Dominion of Canada have continued to grow somewhat unfavorable from week to week within a month or two.

VIOLATED THE CUSTOMS LAW.

An American Schooner Sails Away From the Cruiser Vigilant.

PORT HAWKESBURY, C.B., June 9.—The other day the Canadian cruiser Vigilant anchored here and the American fishing schooner Lorring B. Haskell, Captain Day, anchored at Hastings. The latter proceeded to take in water without entering at the customs house. This, of course, was contrary to customs law, but the captain refused to comply even when notified by the customs officer there. Word was then sent here to the commander of the Vigilant, but Captain Day got wind of it and immediately prepared for sea. In fact he left in such a hurry that two men, who were ashore getting water, were left behind. The captain of the Vigilant manned a boat and rowed out to the schooner as she was sailing out of port and ordered her to return and report at the customs office. This she refused to do. The Vigilant was signalled to fire a shot, which she did, but it had no effect further than to clear the American schooner's deck of all hands, except the man at the wheel. All sail was spread and as the wind, which seemed to favor her, came in strong puffs, burying her lee rail deep in the blue waters of the strait, she glided past Port Tupper and out to sea bidding defiance to Canada's navy.

J. R. HOOPER'S TRIAL.

Nothing New Elicited in the Trial at Three Rivers.

THREE RIVERS, Que., June 9.—The following witnesses were heard at the Hooper trial yesterday: Dr. Clarke, of Rockwood Asylum, Kingston; Dr. Marsolais, of the Notre Dame church, Montreal, and the steward of the steamer Corinthian, Mr. Holden. Nothing new was elicited, the evidence being similar to that given at Hooper's previous trials. It is not thought the case can be ended before Friday next as the testimony has to be translated, and a number of new witnesses are to be heard.

DROWNING AT GUELPH.

Fatal Result of an Experiment With a Water Bicycle.

GUELPH June 9.—While a Mr. Phillips and a friend were trying a water bicycle on the river the machine upset, throwing the two men into the river together with two young boys named Smith and Heffernan, who were on with them. The two men got ashore, but the boys sank and were drowned. The body of young Smith was found at 10.30 p.m. and the other at an early hour this morning.

AFFLICTED FROM INFANCY.

A Lad Who Had Been Dropsical From His Childhood Cured by Dodd's Kidney Pills—The Remedy That Never Failed.

MCINTYRE, Ont., June 4—The young son of Hugh Lamont of this place has been afflicted with dropsy from infancy. He was bloated and swollen all over. His parents were at their wits end to find some cure for him when they read of Dodd's Kidney Pills. Mr. Lamont got six bottles of the pills and the boy began taking them. Before the sixth box was finished he was cured. It doesn't matter whether the patient is young or old, the pills will effect a cure of any kidney disease or of any disease arising from disordered kidneys.

FRATERNAL ASSESSMENT LIABILITY.

"Can't I get out when I please, an have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate.* The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any similiar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

The Sousa's Band Engagement.

The special engagement secured by Mr. Bradburn, Manager of the Opera House, of Sousas clebrated band, should be appreciated by a large turn out of the citizens of Peterborough. The band is composed of 60 pieces and every man is an artist, so that it will be readily understood that the engagement means money and expense and nothing but a large artendance will help out the management in its enterprise to allow the public of Peterborough to hear this famous band. They will appear in Opera House, Friday afternoon, June 22nd.

THE LAST CALL.

As we intend closing the sale of crockery, china, silverware, &c., to-morrow, we will hold three sales at 10.30 in the morning, 3 o'clock in the afternoon, and at 7.30 in the evening—giving those who cannot come in the evening an opportunity to secure some of the bargains. Saturday night we will sell beautiful goods. No reserve.

Public School Celebration.

As last Wednesday's celebration did not quite meet expenses, the remainder of the programme will be given on Saturday evening in the drill shed. The Public School cadet corps (six companies) will compete for the two silver cups. The series of delightful exercise with Indian clubs, hoops and bar bells will be repeated by a number of the girl brigade who will also compete for the prizes offered for the best performance with Indian clubs. The trycicle races, potato race, etc., will also take place in the drill shed. At seven o'clock the following contests will take place in front of the drill shed:—Throwing baseball, dog race, half-mile bicycle race (boys), and the girls' bicycle race. Admission to the drill shed, 10 cents. The Band will be in attendance. 134-2d

Faust.

The drama "Faust" in complete form will be presented for the first time in this town at the opera house on Monday, evening, June 11th, by the celebrated Francis Labadie and Hattie Rowell Company. This is the only legitimate dramatic organization now in Canada, and one of the best in any line that has been here in years. The play is replete with new and novel effects, among which may be mentioned the vision of Marguerite, the transformation of Faust, the signing of the compact, the empyrean of Marguerite. The costumes are the finest ever seen on the local stage, and the entertainment will be metropolitan in every detail. The usual house prices, 25, 35 and 50 cents, will govern this engagement. Reserved seats should be procured at once. 1d

Death of Mr. Geo. Beatty.

The following extract from the Cobourg Sentinel-Star refers to the brother of Dr. Beatty, V.S., town:—"The not unexpected death of Mr. George Beatty occurred at his residence in the township of Hamilton early Wednesday morning after a lengthened illness. Deceased was born 48 years ago in the homestead where he has just breathed his last. He was one of a large and much respected family, and on arriving at manhood was married to Miss Armstrong, of the township of Cavan. Two interesting children were the result of that union, boys, aged three and six respectively. Three sisters and three brothers of deceased still survive him:—William, John and James, Mrs. M. Davidson, Mrs. Wm. Noble and Mrs. C. Minaker, of Cobourg. The funeral will take place this afternoon at 2 o'clock to St. Peter's cemetery."

Suddenly Stricken Down.

The death of Mrs. William Aldridge, of Weller street, wife of the Town Assessor, took place yesterday morning under particularly sad circumstances. Mrs. Aldridge was feeling in fairly good health and was about the house as usual the day previous to her demise. For the past few years she has been troubled with heart-disease, but no serious trouble was apprehended until she was suddenly stricken down in the night. The deceased was an earnest Christian and a regular attendant of the Baptist Church. She was one of the Wallace's of Smith, living near Lakefield, but married and came to Peterborough many years ago. Two grown daughters who survive her as well as Mr. Aldridge, have the sympathy of the entire community in their sad bereavement. The funeral takes place to-morrow at 2:30 p. m.

A Treat In Store.

Rev. Dean Harris, of St. Catherines, will deliver a lecure in St. Peter's Cathedral in aid of the Catholic Association on Sunday evening. The reverend gentleman is well known throughout the western portion of Ontario as a pulpit orator of great ability, and is held in high esteem in the Niagara district by all classes of the community. He is an eloquent and forcible speaker and is always greeted with large congregations whenever he is announced to lecture. Dean Harris is also a writer of considerable note, the latest productions of his pen, the trials and troubles of the early missionaries in Ontario, winning for him warm praise from all quarters. The subject of his lecture will be "The Catholic Priest; in the Church and in the World." This subject will not be treated controversially, but will outline the education, labour, sacrifices and heroism of the average Priest in Ontario, placing him before the Catholic and Protestant minds in his true heroic light. The Catholic Association is to be congratulated on securing such an eloquent and popular lecturer, and no doubt a large congregation will welcome him on Sunday evening.

Wide Awake Soap is a mammoth bar of pure soap, and it is not put up in small cakes to deceive you.

Have you Heard the Latest?

Did you hear the latest? I hear it from Salisbury (William), of local fame that there is to be a tug-of-war match between Stratton and Winch at the Foresters' excursion on the 21st June down at Jubilee Point. The committee on sports, it appears, got the idea from Mayor Kendry, who is quite a sport himself when he likes. He thinks the result might indicate which way the election will go on the 26th. The idea is to get one end of the rope manned with heavy Grits and the other end with heavy Tories. Each candidate is to pick his own gang. J. R., I hear, will trust to "Tenice" to "herd" his men and Harry will leave it to "Baptiste" to "put them up" for him. Bob. McKee is to be referee. If Stratton's side wins his brother Bill must mark his ballot in favour of Winch, and if Winch's side wins his brother Dick must mark his ballot in favour of Stratton. Pretty "tough steaks" alat it? But won't it be exciting—worth losing a day to see this event done. You can "steak" your life there will be "a long pull, a strong pull and a pull altogether." I wouldn't mind having a hand in the scrimmage myself about the time the rope begins to stretch. Say, who will you bet on? 1d

MR. STRATTON'S FIFTEENTH MEETING.

A Rousing Meeting of Electors at Young's Point—Addresses by Dr. Bell and Mr. Poussette and Mr. Stratton—Public Questions Discussed—A Roorback Anticipated.

Mr. Stratton and Dr. Bell on Friday night addressed one of the largest and most enthusiastic meetings of the campaign in the large and capacious school room at Young's Point. The electors of the northern portion of Smith turned out in large numbers to hear the address of the Liberal candidate, who, though suffering from severe hoarseness—from cold and continuous speaking—delivered a rousing address, and the hearty reception, both to himself personally and to his remarks, indicated that this portion of the riding will give a good majority for the candidate of an honest and capable government, and the large attendance at all Mr. Stratton's meetings in Smith, testify to the intelligent interest taken by the electors on public matters and show that this grand old township is ready to do its big share of the work in placing the Liberal candidate at the head of the poll on June 26th.

Mr. C. Young occupied the chair and introduced the speakers of the evening.

Dr. Bell opened the meeting with a clear and forcible exposition of the admirable standing of the province and especially in connection with the best government

THAT HAS EVER EXISTED

in this or any other country, has an unparralleled record for careful management of the financial interests of Ontario for over a score of years, and demonstrated how greatly it was in the interests of all classes that such a government be retained.

Mr. Poussette referred to the most recent platform of Mr. Meredith which included that undesirable American institutions, biennial sessions of the Legislature and the abolition of Government house.

Mr. Stratton began his address by paying a little attention to Mr. Poussette remarks showing how utterly hostile to British spirit and precedent was the adoption of biennial sessions that in all departments of active life—in the church, in the state, in commercial corporations, in banks, in loan companies, in societies, etc., it was thought indispensible that a yearly revenue of the operations of a yearly account of the stewardship of the officials should take place. It was more important to have the watchful care of the representatives of the people over the actions of the Government than a trifling saving, and inasmuch as it was very doubtful whether, owing to increased length of a session every two years, there would be any saving it was now desirable that a yearly audit of the government accounts by the legislature should be made. Besides, Ontario being saved the expense of a second chamber. The accumulation of legislation of two years would necessitate work being rushed through and legislation would be placed upon the statute books without that mature deliberation which results by annual sessions of the legislature. The change of attitude of Mr. Meredith and the Opposition to the abolition of the Lieutenant-Governor's residence, was indication that he resorted to the advocacy of what he formerly opposed, with a view of influencing the electors on the eve of a general election. Mr. Stratton then went on to deal in detail with the record of the Mowat Government since 1872, pointing out the wise policy pursued in the administration of the timber resources of the province, the periodical sales that saved the province from the great annual loss by forest fires, the wise use that had been made in the interests of the public with the receipts from this source.

After dealing lengthily with the leading public questions, Mr. Stratton referred to the tact of the intention, as he had been informed, of his opponents in this contest to

SPRINGING A ROORBACK

upon the electors a day or two before polling, and too late to have it contradicted. This statement or, rather, misstatement, was to the effect that he (Mr. Stratton) had been financially interested in some business in which the profits were in part derived from the sale of liquor. He desired, at the earliest opportunity that had been presented, to publicly deal with this matter—to give any such statement a most positive, emphatic and explicit denial, and moreover that in no way, shape nor form was ever directly or indirectly interested in any business in the remotest degree connected with the liquor business. While he felt that that was a business in which thousands of our respected citizens were engaged throughout the Dominion, he was sure that the desperate corner in which his opponents and the opponents of the Mowat Government were forced might induce them to resort to such dispicable tactics in order to discredit him with a certain section of the electorate. Speaking for himself, Mr. Stratton said he had always endeavored to conduct his elections in a fair and gentlemanly manner, dealing only with questions of public interest and refraining from personal attacks upon his opponents and he believed he voiced the sentiments of the electors generally when he said that tactics of that description were worthy of the most emphatic condemnation and that such tactics practiced by any party would, as they should do, recoil upon the head of that party.

Mr. Poussette stated that he had not heard of such a document being prepared and if he found that any such thing was contemplated he would decidedly discountenance it, for he was sure that any statement, such as indicated, would be unfounded so far as he knew and would be an unmanly mode of warfare.

The meeting closed with cheers for the Queen, the candidate and the chairman.

Bad Drinking Water.

COMMITTEE ROOMS.

Mr. Stratton's committee rooms will be open every night hereafter from 7 o'clock p. m. The daily papers are on the tables, so that those who desire to use the hall as a reading room can do. This announcement is made so that Mr. Stratton's supporters and the supporters of the Mowat Administration can at all times have a place in which to confer and report or exchange information and suggest action in the interest of the Liberal candidate in the West Riding.

HON. G. W. ROSS IN THE OPERA HOUSE.

Hon. G. W. Ross, Minister of Education, and Mr. J. R. Stratton, will address a mass meeting of the electors in the Opera House on Thursday evening, June 14th, in the interests of the Mowat Government and the Liberal candidate for West Peterborough. Hon. Mr. Ross is one of the most capable ministers and one of the best orators in the Government. He will deal with public questions in a manner which will place provincial matters in their true light. He is a ready and convincing speaker and thousands should turn out to hear an able and exhaustive exposition of the several public questions now engaging attention. Ladies will be welcomed and assigned to seats in the gallery. This meeting will be one of the most important of the campaign and should attract a large attendance.

SPRIGHTLY SUMMER SPORTS.

On the Lacrosse Field, the Crease and the Diamond Triple A. Topics—The Bicycle and Football.

Peterborough has just cause to feel proud of her lacrosse team,—proud of the three goals they scored against Port Hope yesterday, and proud of the way in which they were scored.

The great game is a thing of the past now but it will be many a long day before reminiscenses of it will cease to be brought forward on any and every occasion.

The teams lined up as follows:—

F Dobbin	Goal	Crowhurst
J Mein	Point	White
F Lynch	Cover point	Paterson
J McDonough	Defence field	White
J Lattimer		Mission
W Borland		Tuer
B Hendren	Centre	Tutton
W Phelan	Home field	Burt
J T McCabe		Coleman
J Begley		Tite
R Glover	Outside home	Packenham
G Lipsett	Inside home	Weir
H. LeBrun	Umpires	J. Dillon
D. Davidson		
R. Kelly	field captain	D. Hoey

Referee, J. P. Hurley.

The ball was advertised to be faced at 3.30 p.m. and by three o'clock fully 800 people had taken up their positions on the ground and settled down for an afternoon of solid enjoyment, but before the ball had been in play five minutes the most conservative spectator was cheering and waving his hat like the veriest of school boys. For the nonce everyone laid dignity aside in a wild effort to encourage the boys to victory.

THE GAME.

There was considerable delay at the start, owing to the fact that the Peterboroughs were averse to having the Port Hopes play their Indians. The ball was finally faced at 3.55 on the understanding that the game was subject to protest. It was no wonder the Ontarios insisted on having their Indians take a hand, as they played half the game for the visitors, and but for the clever way in which they handled their sticks on the defence field, the score against the Port Hopes would have been augmented to no inconsiderable degree. They are undoubtedly the star players of the team.

Hendren got the ball on the face off and like a flash it was deftly passed right on to the Port Hope goal. The scrimmage was lively for a few moments, but the elder Indian relieved and sent the ball far down into the Peterborough's territory. Lynch went after it and once more it was in play all around the Port Hope flags. It was too early in the game for the boys to settle down to regular team work and they were given no opportunity to try it, as Port Hope, fearful of losing a game, called in half the field in defence of the goal, and combination work by passing the sphere was an impossibility. Shot after shot was made on the flags, but there were too many lacrosse sticks. Borland, however, after seven minutes of hard play, secured the the ball and had elbow room enough to wheel and make his shot. The ball struck the post but passed between the flags and Peterborough had

WON THE FIRST GOAL.

The crowd went wild and flocked into the field to shake each individual player of the home team by the hand.

After a five minutes rest the ball was again put in play, Hendren again securing it at the face off and sending it into Port Hope territory, when a lively scrimmage ensued behind and around the flags. Time and again did the big Indians relieve, but back again would the little sphere come every time. The ball was finally worked down on the Peterborough goal, and the defence of the home team being light in weight could not dash through the crowd with the facility with which the Port Hope heavyweights could shoulder them aside. The consequence was that nearly every time the ball went in among the spectators a Port Hope man would come out with it. Just here may be a good place to remark that suitable arrangements should be made for keeping the crowd off the field, if only in fair play to the Peterborough's. Time and again were their prettiest combination plays spoiled by the excited crowd gathering in around the flags in the south-west corner of the field. Coleman scored for the Port Hopes after just 30 minutes play by a clever shot on the posts and was warmly applauded for the play.

At 4.48 the ball was again faced and some fast and skillful playing was witnessed. The long reach of the Indian players stood Port Hope in good stead this game, as they kept the flags of the visitors comparatively free from attack. After 14 minutes play Tite, who played a good game throughout for the visitors, though being kept well in check by McDonough

FINALLY SCORED

by a long shot from the field.

Play was resumed at 5.15. Tutton secured the ball on the start, passed it to Tite, and in just a minute and a half it was sent through the Peterborough sticks, no Peterborough man having had a chance to hold the sphere on his lacrosse.

A council of war was held for a few minutes by the home team with the result that a few changes were made. Lattimer went from the defence and played home and McCabe took his place at defence and Lipsett and Begley changed places, the latter going from inside to first home. "Dick" Kelly, formerly a Peterborough lacrossist, but now the famous centre field of the Shamrocks, of Montreal, went out as field captain for the home team, and the prettiest game of lacrosse ever played on the home field ensued. The combination play of the Peterboroughs was a thing of beauty and a joy forever. They were playing an uphill game and had to tax their resources to the utmost, but the boys responded nobly to the call which was made upon them and demonstrated their superior staying powers. Lipsett, Hendren and Phelan made some team play, which ranked them as stars of

THE FIRST MAGNITUDE,

but it would be unfair to particularize as there was not an individual member of the team who did not put up a faultless game. Positively there wasn't a man of them who did not earn a cheer at least a half a dozen times in each game, so an idea can be formed of the quality of which the home team is composed.

Lipsett made a good shot on the goal and missed by a hairsbreadth. Hendren had a good chance for a shot as his check had wandered away from him, but the spectators again interfered and spoiled his chance as they had done a dozen times before by crowding in on him. At 5:46, or after 24 minutes play, Lassimer passed a hot one to Glover, but Roly was there and deftly taking it passed it through the posts like a flash.

The crowd went wild and Glover nearly lost his arm through the numerous hand shakes which were tendered him. The Port homes and the Peterborough defence had no work to do during this game as

THE BALL NEVER LEFT

Port Hope territory and was kept on the flags almost constantly.

After just five minutes rest the ball was again put in play and the home team worked like Trojans. Shot after shot was made on the Port Hope flags and it is only fair to the visitors to say that the defence they put up was superb, but they would have been invincible indeed could they have withstood the magnificent attack, from a scientific standpoint, which was made on their goal. Kelly said after witnessing it that nothing finer ever took place between any of the big league teams. He was right—nothing could have been finer. For sixteen minutes the Port Hopes defended their flags, but Phelan finally made a brilliant run in with the ball and scored by one of the cleanest shots of the day. The score was thus tied and the wild excitement of the spectators could no longer be held in check. The crowd deserted its seats, ladies, chilhren and men flocked to the field and Phelan was hoisted high over the heads of the cheering multidude and "chaired" to the club rooms. The men threw their hats in the air and the ladies their gloves and parasols and all cheered themselves hoarse.

Play was resumed at 6.24 and continued until 6.30 when time was called before any more goals were scored and it was well for the visitors that there was not a longer time allotted to play as the ball was right on their flags again and they were so fagged that their distress was apparent from the grand stand.

NOTES.

Joe Begley has not handled a stick for over a year and has only been in practice for ten days yet notwithstanding this fact it is apparent that he has not forgotten the old trick of stick handling, with a little practice he will play his star game as of yore. He kept his big Indian check hustling.

Dobbin, in goal, played the best game of his life and did it brilliantly. He received a nasty cut over the head which took his breath for a few minutes, but it wasn't long before he was again in his position as alert as ever.

Mein's quick relieving at point shone out brilliantly at times. He had his work cut out for him in the early part of the game and saved not a few goals by his cleverness.

Jack McDonough has left the Shamrocks and come back to his old love, the Peterboroughs, and needless to say he has been received with open arms. He did his part nobly yesterday.

During the last game the two Indians resorted to rather questionable tatics in throwing the ball over the fence. The act was so deliberate and was so obviously done to make time that everyone "caught on" and were delighted when umpire Hurley called the Redskins down for it. These two young braves are as strong as oxen and time and again would lift their checks clear off their feet on their sticks.

Hendren is a hard man to check. His dodging tactics called for frequent applause.

Borland is a featherweight, but is one of the cleverest men on the team and kept Burt on the move if he wanted to ever have a glimpse of the ball.

McCabe is a strong, reliable player. The home team has no better. He had a good man checking him in Mission.

Glover and Lipsett were in every scrimmage around the Port Hope flags and it was but seldom that either one of them didn't get the ball. When Port Hope scored it wasn't by getting the ball in from close quarters.

A Good Appetite

Always accompanies good health, and an absence of appetite is an indication of something wrong. The loss of a rational desire for food is soon followed by lack of strength, for when the supply of fuel is cut off the fire burns low. The system gets into a low state, and is liable to severe attacks of disease. The universal testimony given by those who have used Hood's Sarsaparilla, as to its merits for restoring and sharpening the appetite, in promoting healthy action of the digestive organs, and as a purifier of the blood, constitutes the strongest recommendation that can be urged for any medicine. Those who have never used Hood's Sarsaparilla should surely do so this season.

THE LAKEFIELD DAM.

To the Editor of the Examiner:

DEAR SIR,—I notice in your column headed "River and Lake Riplets" that "the Lakefield dam continues to be in danger of being swept away by the great quantity of water at present it is forced to hold in check. If the dam goes, Peterborough will suffer." I think, before such an item as the above is put in public print, some effort should be made by your correspondent to find out from the proper source what foundation there is for such a statement. It is no idle matter to alarm the public, a large proportion of whom only know of the destruction caused by the washing away of "earth dams" holding large heads of water, read of in the papers. If your corresponden had had a little experience in trying to remove any portion of one of such dams, he would not have penned such an article. These dams are built of timber and stone and put together in such a manner as to make it absolutely impossible to go out and cause a flood of any extent.

Even supposing one of these dams did go out, it would only go each piece of timber at a time, as they are all bound securely together with iron and would take days to go, by which time the basin above would have been run off gradually. By publishing the above you may quiet the minds of many nervous people who have been reading the fearful accounts in the papers of the floods in our own western province and the United States.

Yours truly,
DAM.

A BIG CHEESE OUTPUT.

What the Americans Think of Canadian Cheese.

The Harrietaville cheese factory, East Middlesex County, Ontario, turned out 247 tons of cheese in 1893. This required the production of from eight and a half to ten pounds of milk for every pound of cheese. Evidently the cow keepers in that district had a picnic during the year. This was full cream, not filled cheese, but tallow, hog fat, or skimmed milk cheese. The making of this pure milk cheese by the Canadians is what has enabled them to take millions of dollars annually out of the pockets of the United States cheesemakers.—The National Dairyman, Kansas City, Mo.

AS A CLEANSER

of the blood, nothing sweeps as clean as Dr. Pierce's Golden Medical Discovery. It purifies the blood as well as enriches it. The truth is, an emulsion of Cod liver oil is good for building up *fat*—no doubt about it. But—ugh! a weak stomach loathes it. Fortunately, there's a tissue-builder, that's even better for making *healthy flesh*. Pleasant in taste—effective in result. That's the "Discovery." It goes to work in the right way, by regulating, cleansing, and repairing all the organs of the body.

When the germs of disease are round about us we do not all get them. Why? Some of us are in too good a condition. The germs of Consumption, Grippe, Malaria, and all the infectious diseases, pass you by if you are strong to resist their attack. Render yourself *germ-proof* by putting your blood and liver in a healthy state.

In all blood-taints and diseases, if the "Discovery" fails to benefit or cure, your money is returned.

No other medicine of its kind can be sold so.

A CORNWALL MIRACLE.

AN AFFLICTED FAMILY RESTORED TO HEALTH.

Only One of Many Similar Cases—How the Restoration to Health Was Brought About—A Plain Recital of Facts.

From the Cornwall Standard.

There is no longer reason to seek far for proof of the miraculous cures effected by the use of Dr. Williams' Pink Pills. We have heard of numerous marvellous cures following the use of this wonderful medicine, and have been successful in obtaining the facts for publication in one of them. Mr. Andrew Bowen, an employee of the Canada Cotton Mill, was taken ill about three years ago, and compelled to give up his position and cease work entirely. He was suffering from rheumatism, which was followed by a complication of diseases and in a few months became a helpless cripple. His wife become thoroughly worn out through waiting on him, and in a short time also became an invalid and their plight was most pitiable indeed. They secured the best medical advice within their reach, spending a large amount of money in medicines which failed to give them any permanent relief. This went on for nearly three years and during that period they suffered untold agonies.

The above is summarized from the statements made by Mr. and Mrs. Bowen to the Standard representative. We will give the remainder of the story in Mr. Bowen's own words. He said: "We were both terribly run down and completely discouraged at seeing dollar after dollar go for medicine that did not seem to do us any good. We had about given up all hope of ever getting well again, when my attention was called to a wonderful cure effected by Dr. Williams' Pink Pills. I had nearly lost all faith in medicines and had made up my mind that my wife and myself were past human aid and would have to endure our suffering. We were repeatedly urged by friends to try the Pink Pills, and at last consented. After taking a couple of boxes we did not see any noticeable benefit and were about to give them up, but were urged to persevere with them and did so. When my wife had taken the fifth box she began to feel great improvement in her health and I decided to start taking them. The seventh box marked the turning point in my case, and I have continued to improved ever since, and to-day, as you see, we are both enjoying excellent health, almost as good as we ever did. Many times I have thought we would never have been well again and I cannot tell you how glad I am that we tried Dr. Williams' great medicine. I am now able to do a good day's work without feeling the least bit tired, and my wife can perform her household duties without an effort. I consider that I have received hundreds of dollars value for the few dollars I spent on Pink Pills. We always keep them in the house now, although we do not need to use them, but think it safer to have them on hand in case they should be required."

Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood, and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper (printed in red ink), and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y., at 50 cents a box, or six boxes for $2.50.

Burglars at Walkerville.

WALKERVILLE, Ont., June 8.—The residence of C. W. Walker here was entered by a burglar. Mr. Walker awoke about two o clock and found him ransacking the room where he slept. He reached for his revolver under the pillow and fired five shots at the intruder. The burglar jumped through a window and escaped. He, however, fired a parting shot at Mr. Walker, but fortunately the bullet went wide of the mark. Blood was found on the garden fence and on the ground near the house in the morning. A few gold spoons was all the booty secured.

Sinking of the Propeller Ocean.

HAMILTON, June 8. — The propeller Ocean which sank in collision near Alexander bay, N.Y., while on her way from Montreal to Hamilton, had on board a cargo of general merchandise, including $3,000 of sugar and other grocers' supplies, consigned to Hamilton wholesale houses. She is owned by R. O. and A. B. McKay, of Hamilton; W. A. Geddes, of Toronto; E. E. Gates & Co., and Capt. Malcolmson, and is valued at $20,000. The vessel and cargo are fully insured against loss.

Mistakes in the Cuban Tariff.

MADRID, June 9.—Senor Moret, Minister of Foreign Affairs, was questioned in the Chamber concerning the claims of the United States on account of mistakes in the Cuban tariff. He said that the claim was less important than was generally supposed and that a satisfactory settlement of it would be made soon. The documents would be laid before the deputies soon. Further explanations were required but he refused to give them. Senor Moret's optimism surprised the deputies who still regard the claim as an item of great importance. About 100 commercial articles are involved. The misunderstanding is said to have been due to errors in the Spanish translation of the treaty.

Number One Speaks.

NEW YORK, June 9.—The Irish Republic, a local weekly paper, in its issue to-day publishes an interview under the caption, "A Talk With No. 1, Mr. P. J. Tynan." The article deals mainly with the alleged abstracts from Tynan's book recently published by the St. James' Gazette. Mr. Tynan is represented as denying that he reveals the identity of any individual in his book. Mr. Tynan's whereabouts are not mentioned, but the Irish Republic gives the assurance that he is in good health and "has just actually asked us" (the Irish Republic) to present his compliments to the old woman, the St. James' Gazette.

The American Senate.

WASHINGTON, June 9.—About ten paragraphs in the agricultural schedule of the tariff bill were disposed of yesterday after a large amount of talk, mostly of a personal, political and angry character. The day's work stopped at the hay paragraph—No. 99. Before the bill was taken up the Hoar resolution, as to distinguishing the government's claim upon the Stanford estate in California, was, after a brief discussion, laid on the table.

Italian Anarchists Sentenced.

ROME, June 9.—All but thirteen of the anarchists who have been tried in Genoa for endeavoring to cause an uprising of the people last winter were sentenced to terms of imprisonment varying between six months and three years. When the sentences were announced the presoners who had been convicted cheered for anarchy, Deputy de Felice and the Sicilian revolutionists.

Eloped With His Stepsister.

LEBANON, Pa., June 9.—Warrants were issued yesterday by Joseph Asper for the arrest of his son Daniel and his stepdaughter Alice. The young man is 28 years old, while the girl is but 14. On May 20 they disappeared, and as they had threatened to elope, it is supposed they did so. Alice is a large, well-developed girl for her age.

SURGEON'S KNIVES.

Failed to Remove the Disease from Hezekiah Vaughan's System—Dodd's Kidney Pills, which have Never yet Failed, Cured Him in Short Order.

SANDWHICH, May 28.—Hezekiah Vaughan, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Detroit, for what different doctors diagnosed as liver complaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 4½ hours, but when they got through, none of them could tell what was wrong, and the patient was left as bad as ever. The benefits derived by a neighbor from the use of Dodd's Kidney Pills, induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that afflicted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

AYER'S SARSAPARILLA

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

MORE WONDERS TO COME.

When the Kinetoscope is Perfected It will be a Marvel.

The completion of the kinetoscope is but the first stage in the series of experiments being made by Mr. Edison, which if successful, will result in an apparatus which will dispense with traveling theatrical companies, operas, gymnasts, lecturers, variety shows and athletes. His aim is to combine the kinetoscope with the phonograph.

"It is in the traveling expenses of a large number of persons that the profits of theatrical companies are used up," said Mr. Edison, the other day. "With this machine, when perfected, a couple of men could travel from place to place, hire a hall, and show upon a white screen all the scenes from a play or opera. The phonograph at the same time could give the words or music. Selections from various operas could be given, or four of the most striking acts from Shakespeare's plays, as an evening's performance. Chauncey Depew could live forever in one of his finest orations in this machine, for you would not only hear his words, but see the expression of his face at the same time. Historic scenes could also be made imperishable, battles with the noise of cannon, horse-races and prize fights."

The kinetoscope, however, has not yet reached this state of perfection. In its present condition, which presents the scene without the sound, it is perfect, and it represents the work of several years. The difficulties to be surmounted were numerous and novel and many pieces of expensive machinery had to be made to meet the various exigencies as they arose. In this Mr. Edison was assisted by Mr. W. K. L. Dickson, who explains the various parts to the many visitors who have heard of the furore in scientific circles the machine has stirred up, and have gone to Orange in order to see it in operation. Scientists from Europe and from the leading universities in this country have inspected the kinetoscope and the kinetograph, and all have marveled at their perfection and the certainty with which they do the work desired.—New York World.

Only Once Lucky.

"What is the luckiest thing that ever happened to you?" somebody asked of the millionaire.

"Do you mean sheer, unadulterated luck—something that just happens without any seeking on your part?" replied the millionaire, throwing away a half smoked Perfecto and taking another out of his case.

"Well, yes; let it go at that."

"I am generally accounted a very lucky man by the thousand and one people who know more about me than I do myself. But, on my honor, what I call a genuine piece of good luck happened to me only once in my life. It didn't amount to much, though it meant much to me at the time. It was when I was filling my first job—that of an errand boy at three dollars a week—and I tell you I have never since felt so rich as when I carried home my first three dollars.

"I had been given a check to cash and a bill to pay. After paying the bill I had $37 of my employer's money left. I had just crossed Broadway when, happening to look back, I saw two men fighting in the street. I was enough of a boy then to take a keen interest in anything like a 'scrap.' I retraced my steps to see what it was all about. To my amazement and surprise I discovered that the two men were fighting about the $37 and the receipted bill, which in some mysterious fashion had dropped out of my pocket. A policeman happening along at that moment I was able to prove that I had a better right to the property in dispute than either of the two combatants, and recovered it forthwith. They had each grabbed for it at the same time, and each was bound to get all or none—luckily for me. I have often speculated upon what might have happened if they hadn't quarrelled. I should never have recovered the money, and in consequence I should certainly have lost my situation. That might have changed the whole current of my career, and instead of being a rich man I might to day have been a poor devil, or I might have been twice as rich as I am. Who knows? Anyway, I regard it as the only piece of downright, simon pure, unmistakable piece of good luck that ever befell me. But any Tom, Dick or Harry that you chance to meet will be able to tell you lots of luckier things that have happened to me. Some of them things that I had worked at for years."

Passenger Train Wrecked.

DENVER, Col., June 9.—The Gulf train, with passengers for Central City and Georgetown, was wrecked in Clear Creek canyon, three miles west of Golden, yesterday and six persons injured. There is a sharp curve at that point and the roadbed, which had been repaired from the recent washouts, was still soft. When the locomotive reached the curve the lower rail of the track sank and the engine, the separate baggage and the combination baggage car and smoker left the track, one end of the smoker dropping into the creek. There was a tremendous crash as the smoker left the track and turned partly over. The locomotive, as it left the rails, threw the fireman from his tender into the water of the creek, but he was pulled out without serious injury.

A Horrible Death.

OTTAWA, June 9.—Eustache Robillard, aged 20 years, who lived with his mother and brother at Jamesville, has met with a horrible death. For seven years he had been a carter of R. Brown, proprietor of the marble works on George street. He had to take a heavy tombstone to Bearbrook. Near Blackburn a traveler found his horses standing still on the road and Robillard dead, his head sticking from between two spokes of one of the wheels and his body caught in the wagon. His neck was broken, and from the appearance of the road it was deducted that the horses had gone some yards without the wheel, in which the deceased's head had caught, turning, and had then stopped, owing to the heavy strain on them. Deceased was subject to fits.

The Engineers at Ottawa.

OTTAWA, June 9.—To day fully 300 members of the Mechanical Engineers Association arrived in the city per C. P. R. from Montreal and were accorded a reception by the citizens' committee, which had everything arranged for the enjoyment of the visitors. The programme of the day's proceedings was issued, and the committee and visitors were provided with very neat badges, printed in red and blue on a white ground. It is surmounted by the Union Jack and Stars and Stripes. After addresses of welcome by Sir John Thompson and others in the Senate Chamber, the visitors went to Rockliffe where a large marquee has been erected, under which luncheon was served.

Hon. Mr. Harcourt's Meeting.

BOWMANVILLE, Ont., June 9.—Hon. R. Harcourt, Provincial Treasurer, and Mr. N. W. Bowell, of Toronto, addressed a political meeting in the town hall here last evening. Mr. Thomas Smale, of Darlington, presided. Short speeches were also made by Mr. W. Lockhart, the Liberal candidate, and Mr. D. Burke-Simpson, barrister. The farmers were on hand in great numbers and the speakers were frequently applauded as they pointed out the benefits the Ontario Government had conferred on the rural institutions. Mr. Dryden was given a large meed of praise in that connection.

For Publishing an Obscene Paper.

MONCTON, N.B., June 9.—The trial of Bruce McDougall, for publishing an alleged obscene newspaper called Plaindealer, was continued at Dorchester. The witnesses were Mayor Sumner, Police Marshall Foster and two or three newsboys. One boy testified that he had a white-whiskered clergyman as a regular patron for the Plaindealer. The general impression is that the case will end in a fizzle.

Ottawa Conservatives.

OTTAWA, June 9.—At the Conservative convention here last night, Taylor McNeitty, barrister, who was one of the leaders of the equal rights movement, secured the nomination of the convention. Ex-Mayor Durocher, who was running McNeitty for first place, will get the nomination as second candidate.

Stirling and Rawdon Liberals.

STIRLING, Ont., June 9—At a meeting of the Stirling and Rawdon township Liberals, it was resolved that the association support James Haggerty, independent, for the coming election, providing no Reformer is placed in the field.

Failures for the Week.

NEW YORK, June 9.—R. G. Dun & Co. reports that the returns of failures are encouraging; 216 in the United States for the week against 322 last year, and 40 in Canada against 37 last year.

THE RULING MARKETS.

TORONTO, June 9, 1894.

The reserve fund of the Bank of England increased £961,000 this week, and the proportion of reserve to liability is 09.72 per cent.

The bank clearings at Montreal this week amount to $11.344,544, as compared with $11,895,829 the corresponding week of last year.

THE FARMERS' MARKET.—Receipts of grain were small. One load of white wheat sold at 64c straight, and goose is nominal at 58c. Oats firm, three loads selling at 39c to 40c. Barley is quoted at 41c to 42c and peas at 66c.

Chicago wheat market was very firm on advanced cables, and reported falling off the condition of the crop in the southwest. The close showed a gain of 2¼ to 2¼c. Oats were strong and closed with a net gain for July of 2½c for the day.

Buffalo—Cattle, three cars, quiet, strong. Sheep and lambs, nineteen cars, dull, 25c to 40c lower, and no demand for common stock. Good to fancy wethers, $3.90 to $4.50; fair to good mixed sheep, $3.75 to $3.85. Lambs, good to fancy, $4.25 to $4.75; light to good, $2.75 to $4.15. Hogs, eighteen cars, fairly active at slightly better prices; yorkers, $4.80 to $4.85; mediums and choice heavies, $4.85 to $4 90; good heavies, $4.65 to $4.75; pigs, $4.75 to $4.85.

London sold quite a little St. Paul and Louisville and Nashville at the opening of the New York exchange and lower prices were the result. International stocks declined 1-4 to 3-4 per cent., while American Sugar for special and local causes fell from 106 1-4 to 104 1-2. The advance in the railways ranged from 1 1-2 to 1 7-8 and was well distributed. Sugar, however, was weak and fell to 104 1-4, the lowest of the day. In the final transactions speculation was steady.

THE BAY OF QUINTE ANNUAL CONFERENCE.

PROBATIONERS TO BE ORDAINED

An Interesting Ceremony Witnessed by a Large Congregation — Addresses by the Young Men and by Rev. Mr. Joliffe, Rev. Mr. Watch and Rev. Mr. Shorey—Words of Good Advice — General Conference Delegates.

Afternoon Session.

The sitting opened with the usual devotional exercises, Rev. W. Buchanan leading in prayer.

After routine a telegram of greeting was received from the Montreal conference as follows:—

"Peace and blessing in showers. Let us join with the other churches of our country and claim Canada for Christ."

D. D. PRIEST, Secretary. E. B. RYCKMAN, President.

Several communications and memorials were presented, read and referred to the proper committees.

STATISTICAL INFORMATION.

Rev. W. Bowman Tucker presented the first report of the statistical committee which reported an increase in membership of 1,281, making a total of 38,832. There was a decrease in the financial receipts. The total decrease in contributions to connexional funds was $1,103.29.

The decrease in general contributions was $3,235, last year's amount being $248,945.430. The total value of church property was was $1,495,371. There were 452 churches and 140 parsonages in Conference bounds. The average salary of ministers was $664.17, a decrease of $12.23.

The report closed with several recommendations including one to appoint Rev. J. A. McCamus conference statistician.

Rev. Mr. Campbell in moving the adoption of the report remarked that there was great cause for thankfulness that the church membership had increased and the decrease id contributions had merely sympathised with the general financial depression.

The Epworth League committee reported organization with Rev. S. T. Bartlett chairman and Rev. D. S. Houck, secretary.

The committee on "State of the Work," reported organization with Rev. W. McCullough, chairman, and Mr. S. W. Clarke secretary.

THE FIRST FRUITS OF JAPAN MISSIONS.

Rev. W. Buchanan introduced to the Conference Henry Satoh, professor of Literature in the Imperial College of Commerce, Tokio, Japan, who was most enthusiastically received.

In response Prof. Satoh said that he felt greatly gratified in meeting face to face so many benefactors of him and his compatriots. The Methodist Mission in Japan was the only mission of all which had the proud record of having no friction between the mission and the populace. He had great pleasure in bringing the heartfelt greetings of thousands of his converted fellow countrymen and thanks for the blessings that had been brought to them through the gospel.

The conference adjourned to permit the electoral conferences to proceed with the election of delegates to ths general conference.

THE GENERAL CONFERENCE DELEGATES.

The election of ministerial and lay delegates to the general conference which meets in London the first week in September took up a large portion of the day.

During the ministerial session a message of greeting was sent from the W.C.T.U.—1st Samuel 7-12 and Ecclesiastics 11-17, accompanied by a present of a beautiful bouquet of flowers. A motion was adopted acknowledging the greeting and inviting the Association to send a deputation on Monday evening. Rev. N. Harris of the Congregational church, Stouffville, was accepted as a minister on resignation, and Rev. Andrew Wilson and J. M. Hodgson presented their resignations which were accepted.

The ministerial delegates to the general conference were: S. J. Shorey, M. Campbell, S. J. Clarke, E. Roberts, N. Burwash, Wm. Johnson, F. B. Stratton, N. A. McDarmid, W. R. Young, Caleb Parker, J. W. Crothers, O. R. Lambly, C. W. Welch, T. W. Joliffe, Jos. Young and E. N. Baker.

Rev. Dr. Shaw, assistant missionary secretary, briefly addressed the conference.

EVENING SESSION.

Methodism was well represented at the evening session of the conference, the grand old church being well filled with an interested audience composed in almost equal parts of ladies and gentlemen.

Proceedings were opened by the singing of the 681st hymn, after which Rev. Mr. Johnston, ex-president of the conference, led in prayer.

An anthem which was sung by the choir was greatly appreciated, being rendered with fine effect and in a manner most pleasing.

The President in a few appropriate remarks regarding the importance of the occasion, introduced the young men who are probationers in the church and will be ordained and fully admitted into the Methodist clergy on Sunday next.

THE PROBATIONERS.

Mr. J. S. J. Wilson was the first of the probationers called upon to address the congregation and relate his experience and call to the ministry. Mr. Wilson dated his conversion from his sixth year since which time he has been within the fold of the church.

Mr. Frank J. Anderson had been brought up in a Christian home and was taught from his earliest childhood to love and fear his Saviour. He had heard Mr. Vermilyea of Belleville, in his evangelistic work in the neighborhood of Massassaga Point when a boy and had been converted, since which time he had been constantly striving to fit himself for the ministry.

Mr. A. J. Harvey Strike, an old Peterborough boy, stated that his father was a Church of England man and he felt that he owed much of his reverence to the Almighty to the teachings of that grand old faith. During a revival service led by Rev. Mr. Manning he had been converted. Afterwards when teaching school in Ashburnham he made up his mind to consecrate his lifework to the advancement of the cause of Christ.

Mr. William E. Smith when in his eleventh year had been persuaded by Rev. Newton Hill to "go forward," and he had been thus brought to Christ. One night after a country bee he was persuaded to join in the dance which followed. He dated his downfall from this point as he discontinued attendance at church after this and for many years followed his avocation as a business man and amassed wealth. He knew that he could not worship both God and mammon and for some time "was on the fence," as it were, but was finally reclaimed. His many trials which were experienced in his efforts to remain true to his Saviour, formed an interesting narrative, exemplifying the circumstance which surround the paths of so many of the workers in the vineyard of Christ.

Messrs. W. E. Sexsmith and J. W. Butler, who were also received into the church were presented, but owing to the lateness of the hour and the business which was to follow, their addresses could not be heard.

THE RESOLUTIOM.

Rev. J. W. Joliffe moved the formal resolution admitting the young men as members of the Conference as follows:—"That these young men whose names have been read by the secretary, having completed their probation, be now received into full connection with the conference and if not previously ordained, on Sabbath morning next they be ordained to the office and work of the Christian ministry in the Methodist church." Twenty-five years ago he himself had been received into the Methodist ministry as a probationer and the present scene recalled that incident most forcibly to his mind. In the course of his remarks Mr. Joliffe claimed that the Methodist ministry were endowed with powers through direct apostolic succession. He based his assertion on the fact that the Almighty who endowed the apostles with their powers of reclaiming the world was the same Almighty whom he and his brother ministers in the Methodist church were serving. He forced the fact home on his hearers that the church was not to be adopted simply as a means of making a living, but through a direct call to serve the Lord Christ Jesus.

The president then called upon Rev. Mr. Watch to second the resolution, which he did in a few well chosen remarks. He was glad to welcome these young men into the ministry not because it would make them holier than other men, though ministers should always possess clean hands and stainless reputations, but because it gave them a place unequalled by any other calling and brought them into association with a class of men devoted entirely to the service of Christ.

Before concluding his address Mr. Watch gave some good advice to the young men regarding pulpit practices. The church, he declared, had no use for the hobby riding ministers. This class of man was, he stated, to much taken up with method to give sufficient attention to principle. The masses could never be reached for good by mere hobbies or fine words.

The question was then

PUT AND CARRIED

by a standing vote of the ministry.

Rev. Mr. Shorey's advice to the young men was well-timed and of a nature which evoked murmurs of approval from the congregation. He urged them to be "men"—strong, manly men, high in their purpose. God, he stated, could not create a great minister out of a mean man. He cautioned them against demanding reverence, as ministers, which they could not command as men. And once again strove to impress on them the necessity of being large hearted manly men. He was glad that they all acknowledged having been "called" to the work as there would surely come a time of tribulation and trouble when all their Christian fortitude would be needed to tide them through. This would be the time when it would be proven whether they were called or not. If they did not seek the work through Divine inspiration they would throw up everything and leave the ministry when the critical trial came upon then.

Rev. Mr. Young then read out the following notice concerning the Saturday services in the Charlotte street church:—

The annual leuture before the Theological Union will be delivered in the Charlotte street church on Saturday evening, at eight o'clock, by Rev. Caleb Parker. Subject, "The Book of Ecclesiastes."

THIRD DAY—SATURDAY.

At the morning session there was a lighter attendance owing to many delegates going home for Sunday.

After the usual devotional exercises the following ministerial delegates to the general conference were reported elected: Rev. J. J. Rice, alternates Rev. W. Buchanan and Prof. Reynar.

The following additional lay delegates to the general conference elected were reported: J. M. Sexsmith, J. N. Cunnings, J. A. Holgate, Geo. S. Miller, John Hull. Reserve delegates, J. L. Hughes, E. V. Dyer, John L. Winters.

Rev. D. Williams gave notice of motion that a memorial be presented to the General Conference to amend the discipline to permit the appointment of as many stewards as there are appointments on a circuit.

Mr. John Hull, Lakefield, was appointed to the General Mission Board.

The following delegates were appointed treasurers of the several funds:—General conference fund, Rev. N. Hill; contingent fund, Rev. W. R. Young; church relief fund, Rev. J. C. Wilson; superannuation fund, Rev. D. O. Crossley; sustentation fund, Rev. W. B. Secoombe; educational fund, Rev. T. J. Edmison; Sunday school fund, Rev. C. L. Thompson.

The conference adjourned.

The Ladies.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

Wide Awake Soap is a mammoth bar of pure soap, that will not vanish like snow, in warm water.

THE BABCOCK TESTER.

To the Editor of the Examiner:

DEAR SIR,—In your issue of yesterday, (8th inst.) I see you have given an account of the cheese sold on the Napanee Board on June 6th. For the benefit of the dairy industry in this section I might say that from good authority I have learned that nearly every factory represented on that board pay for milk according to quality, as shown by the Babcock Tester. Hence, note the difference in price paid on that board and the price paid on the Peterborough board, June 5th, only one day previous, where milk is largely paid for on the old system of pooling viz: Peterborough sold from 8⅞ to 9 cts, Napanee sold from 9 3-16 to 9½ cents. Now sir, it is high time that every cheese factory should adopt this scientific principal of ascertaining true value of milk. I might say that several practical dairy men informed me that there is no use in anyone trying to impress the necessity of farmers taking care of their milk until this system has been universally adopted. A good many think it is not a proper system, but, sir, those are only the parties who are looking after a large quantity of milk regardless of quality. Every farmer should have his own little Babcock Tester this summer, so that he could weed out his poor cows, and be ready in the near future to be able to be able to assist his cheese-maker in making an article that would command the highest price obtainable. One day this week I had the pleasure of calling at a cheese factory not very distant from Peterborough, where there was a new scheme being tried, viz.:—To pay for milk on the old system, but to have a tester and test the milk each week, so that when the season is over they can tell what the patrons would have received, more or less, if they had paid according to quality. No doubt these gentlemen that are trying this scheme will be glad to inform their neighbors of the results next fall.

Thanking you, Mr. Editor, for space in your valuable paper,

I am yours truly,

J. C. G.

ARRANGEMENTS PERFECTED FOR FIRST OF JULY CELEBRATION.

The Calithumpian Procession Will be the Finest Ever Held in This Section—The Great Ballon Ascension.

The preparations for the big day on the first of July here still go on and the arrangements are just about perfected in every particular and there is no doubt but what it will be a red letter day for the residents in the Midland section.

The floats which will take part in the grand calithumpian procession will be some of the funniest on record. Amongst them will be takeoffs on the town council, the wedding of Peterboro' and Ashburnham, the new steamer City of Peterborough, the bicycle sulky, the Durham Field Battery, the Board of Health, the Jackson & Corbett fight, Coxey's Army, cage of wild animals with lion tamer, Canada's mammoth cheese, the Darktown Fire Brigade and a host of other ridiculously funny things.

The floats put in by the merchants promise to be most handsome. The principal tradesmen in town are lending a hand in getting them up.

The balloon ascension will be a great feature. Prof. Walcott promises that the ascent will be such a one as was never witnessed in Canada before. He is an expensive man and has to be brought all the way from New York, but the committee thinks it will pay to have only the best of everything. One of the best bands in Toronto will be secured for the occasion.

A Grand Feature

Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now.

Hood's Pills are purely vegetable, perfectly harmless, always reliable and beneficial.

ENNISMORE'S ANNUAL PIC-NIC

A Great Day of Enjoyment Promised—An Exciting Canoe Race.

The annual Pic-nic of St. Martin's church Ennismore, will be held in a beautiful grove, at Gannon's Narrows, on Wednesday, June 13th. One of the great attractions of the occasion will be a canoe race for a prize of $10 in gold, or for those who do not wish to risk their amateur standing, a silver cup of equal value. This event is open to the two counties of Peterborough and Northumberland, and already there are two entries, which insure a speedy and game canoe contest. The conditions governing the race are:—Distance, 1¼ mile—three-quarters of a mile with turn; canoes must not be more than 17 feet in length nor less than 24 inches beam. The two entries already made are Mr. Geo. Taylor and Gardiner Nicholls, two old rivals, who will doubtless put up an exciting race. But the entries are not confined to these two; any other canoeist in the two counties can enter the contest. In addition to this grand canoe race there will be a full programme of sports and games, excellent dinner will be provided and speeches appropriate to the occasion will be delivered. Special reduction in railway and steamer fares for the occasion. Remember the date, June 13th, and watch posters for particulars.

Unqualified Commendation.

Rev. T. Watson, Colborne, Ontario, writes:—"K. D. C. has produced in me a wonderful change, almost from the first time of using. My Indigestion is all gone, and my general health is much better than it has been for years. K. D. C. has my heartiest and unqualified commendation. I believe it to be all its makers claim it to be." A BAD SCALP DISEASE

Scaly Eruptions on Head. Bleeding When Hair Was Combed. Physicians Tried. No Success. Cured by Cuticura.

Our little daughter of four years was troubled with a disease of the scalp. It looked at first like a heavy dandruff which we undertook to comb off, but found that these lumps would start bleeding. We applied to different physicians without success, until at last tried the CUTICURA REMEDIES, and by using your CUTICURA with CUTICURA SOAP, this scaly mixed eruption entirely disappeared after three applications, and had no more trouble with it for a year, when it showed up again. We applied it as before, after which it has never given us any more trouble. Am well pleased with the success we had with the CUTICURA REMEDIES, and would cheerfully recommend them in similar cases.

OTTAWA TORIES AT SEA

Their Candidates for the Provincial Contest Are Not in Harmony.

DECREASE IN THE REVENUE

Delegation From New Brunswick Protests Against the Proposed Fast Line Subsidy—Talk of Prorogation—Mining Engineers at the Capital.

OTTAWA, June 11.—There is still trouble in Conservative circles over the convention of Friday night to nominate a candidate for the Legislature. Taylor McVeity has accepted the nomination, but Mr. Durocher has not. He will not do so, he said in an interview, until Mr. McVeity denies that he is a P.P.A. candidate. John Casey, one of the delegates of the convention, says that McVeity will not get any Catholic votes, and if Durocher ran his Catholic support would be insignificant. Mr. McVeity, being interviewed, said: "I am not a member of the P.P.A. In fact, I do not know that there is such a society in Ottawa. I rather doubt it. It is more talk than anything. I am the nominee of the Conservative convention and not of any other body, and as such I will go to the polls."

A delegation from the City Council and Board of Trade of St. John, N.B., waited on the Government and protested against the granting of a subsidy to fast Atlantic steamers.

The finances of the Dominion, according to the latest returns furnished at the department, show that up to May 1 last, that is for the eleven months of the present fiscal year, the revenue got on account of the consolidated fund was $82,911,544. Compared with the same period last year, this shows a reduction of $1,821,256. For the month of May last, there was a decrease in the revenue from $3,277,174 to $2,623,160, as compared with the same period in 1894. There was a decrease in the expenditure for that month. The expenditure up to May 31, 1893, was $28,689,514, while for 1894 it was $28,840,240; while the total revenue for the eleven months exceeds the expenditure on consolidated fund by a little over four million dollars.

Sir John Thompson and Hon. J. A. Ouimet met the visiting members of the American Association of Mining Engineers in the Senate Chamber and gave them a welcome to the city. The visitors, after taking in sights from the city, were entertained at Rockliffe by the citizens.

Rules have been approved for the guidance of medical officers in examination of men with reference to their physical fitness for service in the militia, and will be issued to all concerned. Commanding officers are responsible that a register is kept of the medical examination of all recruits and that no men are accepted who are not up to the physical standard laid down in these rules.

There is already talk of prorogation in the air, and many fix the date at about June 25. It seems to be pretty well assured that the Ontario members who will leave here on the night of the 22nd to vote on the following Tuesday will not be required to return.

IN SOUTH ONTARIO.

Hon. Mr. Dryden's Election Assured in That Constituency.

WHITBY, June 11.—The campaign in South Ontario was formally opened by Hon. John Dryden and his opponent, Mr. Robert Miller, with a series of meetings last week covering the principal points in the riding, outside of Oshawa and Whitby. Much greater interest is taken in the election than in any other since the Minister of Agriculture entered the arena of provincial politics sixteen years ago. While Mr. Miller is making a warm fight for him, Mr. Dryden's friends and supporters were never more enthusiastic or working more harmoniously than in this election.

A Deliberate Suicide.

NIAGARA FALLS, Ont., June 11.—A deliberate case of suicide took place on Saturday on the American side of the river near the old Maid of the Mist landing, near the cantilever bridge, when James Merritt, residing at Suspension Bridge, went down the roadway, threw his hat and shoes off and jumped into the water. An alarm was given by some boys who were near by at the time, and Police Officer Radford, with the assistance of the boys, rescued the body with a boat as it was floating around in some eddies. No reason can be given for the rash act other than dispondency, caused by continued sickness. The deceased was 35 years old, and leaves a wife and two small children.

Burglars' Big Haul at Uxbridge.

UXBRIDGE, June 11.—On Saturday burglars entered I. J. Gould & Bros. private bank here, pried off the vault door and blew open the small steel safe, which was supposed to be burglar proof, securing about $4,000. The bank is situated next door to the Mansion House, and the noise of the explosion disturbed two or three of the inmates. One traveler went so far as to jump out of bed and grab his revolver, thinking some one was trying his door. Not hearing any further noise he retired to bed. The burglars overlooked some gold coins in their haste, but all the bills were taken. The fittings of the office are badly wrecked, and the front window blown out.

ROSEBERY AND RACING

The Premier's Triumph at the Derby the Talk of England.

ITS POLITICAL SIGNIFICANCE

He is Said to Have Expressed the Intention of Withdrawing From the Racing Field—France and England—Crispi of Italy a Changed Man.

LONDON, June 11.—Lord Rosebery has privately announced his intention to withdraw from the racing field. Public statement of the fact will be made known here in a few days. The current belief that the victory of his colt Ladas was worth many thousands of votes at the coming election has had general expression in the newspapers, but the Premier's trusted advisers have made very different representations to him. They have been furnished with statistics of the really terrific extent to which gambling over horse races has grown in England. The very men who now preach at the Prime Minister know when they acclaimed him as their leader that he was a racing man. His real offence seems to consist not in racing, but in having won the Derby. All the party managers admit that Rosebery's character as an honorable, highly successful sportsman, endorsed as it was last week by the victory of the horse upon which the masses had put their money, will stand him in good stead with thousands of electors who do not care a cent for politics but vote according to impulse.

France's Resentment Against England.

French resentment against England on account of the Anglo-Belgian agreement, has now taken what may be called an official form. It has been officially expressed in the French Chamber by M. Hanotaux, the new Foreign Minister, and official complaints and protests have been addressed by the French Government to the English Government. The debate in the French Chamber on Thursday ought to be an instructive lesson to English enthusiasts who believe in French good-will to England. Not one voice was raised in defence of the English action in Africa, not one expression of friendship for England was heard, or of belief in her good faith. Not one vote was given against a resolution which was deliberately proposed and deliberately passed as an affront to England, if not as a challenge. There are hints of movements of French troops toward the disputed frontier. As there are no French troops nor French territory within 600 miles of this frontier, that news is not very serious. What is serious is that by the side of the French Minister are seen the Belocles and Delafosses and Etiennes—Anglophobes to a man—that M. Etienne, the most violent of them all, pronounced a benediction on M. Hanotaux and his speech, and that the Chamber, following M. Etienne's lead, adopted the menacing resolution he proposed, and adopted it by a unanimous vote.

The Cab Drivers Strike.

Mr. Asquith, having volunteered to act as mediator between the cab owners and drivers, several conferences have been held at which delegates from both were present. No result has yet been reached. Minor differences have been composed, the owners giving way on several points which they think important. The question of price remains.

Premier Crispi's Retirement.

Europe's chronicle week by week gathers up new tales of parliamentary crises and national upheavals like a rolling snowball. Crispi is said suddenly to have broken down in nerve and become all at once an infirm and purposeless old man, quite incapable of sustaining the part of practical dictator, which he assumed last winter with such a light heart. People had forgotten that he was 75, so virile and ambitious and masterful he seemed. But his physical and mental collapse now is privately reported to be at the bottom of this newest phase of the general Italian smash. Apparently there is the greatest confusion as to whose task it should be to try and grasp the reins dropped from his hands, and there is no belief in any quarter that an improvement on the existing chaos is possible. Vatican politicians and the aristocratic set closest to the Queen are everywhere suspected and in some quarters openly accused of intrigues against Crispi, which not only have destroyed him, but have rendered the work of any successor hopeless.

Against the New Estate Duty.

LONDON, June 11.—Canada, Australia and Cape Colony being united against the new estate duty, as it applies to them, it is hoped here in colonial circles that the Government will see its way clear to exempt the colonies from its operation, as the Right Hon. George J. Goschen, Chancellor of the Exchequer in Lord Salisbury's Government, did when taxing foreign investments. The Right Hon. Sir William Vernon Harcourt has postponed for further consideration the clause of the bill which relates to the colonies, and has promised to give his careful and respectful attention to the memorial which the colonies are submitting. Real property in the colonies has never been subjected to British death duties.

Sir Charles' Last Shot.

LONDON, June 11.—In the Times there appeared a brief letter from Sir Charles Tupper in reply to Sir John Pender's latest criticism of the project for a Pacific cable to connect Great Britain, Australia and Canada. Sir Charles Tupper says he is quite satisfied to leave the question at issue to the public, who will judge whether the strictures passed upon the proposed enterprise leading to the closer consolidation of the British empire are justified by the facts.

Tynan Very Much Alive.

LONDON, June 11.—The publishers of P. J. Tynan's book, "The Irish National Invincibles and Their Times," have informed the St. James' Gazette that, contrary to the statement of that newspaper, Tynan is very much alive and the publishers are prepared to prove this fact.

KIDNAPPED THE MINERS

The Strikers at Uniontown Continue Their Lawlessness.

THEY CAPTURE FOUR WORKMEN

Seven Deputies Attempt to Rescue the Men, But Fail, and a Battle Ensues—The Kidnapped Men Hid in the Mountains—Bridge Burned.

UNIONTOWN, Pa., June 11.—A battle between seven armed deputies and a mob of 300 strikers occurred yesterday at the Lemont No. 8 works of the McClure Coke Co. One striker, a Slav, was killed instantly and two other Slav strikers were fatally wounded. The deputies were surrounded and fired upon by the strikers before they shot.

The incidents leading up to the battle began on Saturday evening when a mob of several hundred strikers, mostly from the Trotter works of the Frick Co., gathered at the Pennsylvania railroad depot at New Haven and took as prisoners four workmen who are employed at the Valley works of the Frick Co. and were on their way home to Leisenring. The four men were covered over with chalk and big placards with "Scab," "Blackleg" and other epithets lettered thereon.

Sheriff Wilhelm despatched Deputy Sheriff Allen with seven deputies to rescue the workmen. At no time was he able to overtake the mob having the men in charge. A posse of twenty-five deputies in charge of Field Deputies Allen, Altebaugh and Richards, armed with search warrants, left for Cold Spring Hollow after searching the Lemont houses. It is believed the four workmen taken during the trouble are hidden away in the mountains. The posse will rescue the four men at all hazards.

The Slav that was killed was found lying dead, shot through the body by a Winchester ball. Two others were found in houses near by, both said to be mortally wounded, having been shot through the thighs. The strikers refused to give the name of the Slav killed, or of those injured. One of the men arrested was shot in the arm.

Several hundred arrests will follow the kidnapping of the men.

BIRMINGHAM, Ala., June 11.—Yesterday morning a bridge on the Linton branch of the Louisville & Nashville Railroad was burned. This is the third railroad bridge that has been burned within the past four days.

GERMAN NEWS ITEMS.

Imperial Currency Commission—A Jealous Woman's Awful Crime.

BERLIN, June 11.—The imperial currency commission has adjourned and its minutes and speeches are in the hands of the printers. The original intention of the commissioners was to keep their proceedings secret, but with the government's approval they eventually decided to make all the debates public and thus forestall the false reports which interested persons might spread.

Frederick Meyer, of Mulhausen, who married his present wife 26 years ago, took to his home on Wednesday his old sweetheart, Augusta Boll. He gave her a room next to the one occupied by him and his wife. At midnight his wife left his side, went to Boll's bedroom and, after a short search, found and read letters written to the woman by Meyer. Under Boll's pillow she discovered her husband's picture. She cut Boll's throat with her husband's razor and slashed his face in an effort to kill him in the same way. Then she ran to the police station, told her story and was locked up.

New Jugelow, near Koestin, was burned on Thursday. Three persons were killed and 160 families were left homeless.

At the coming manœuvres near Elbin Emperor William will command in the presence of the Czarewitch a grand cavalry attack by night. All the latest military inventions will be used in this attack. Balloons with electric search lights will illuminate the field and small electric lights will be attached to the lances of the riders.

The Pope's attitude toward cremation was announced on Wednesday in the Catholic diocesan council of Breisgau. His opinion is that cremation, while heretical in principle, may be allowed under special conditions, which amount to a guarantee against a public scandal. The Catholic clergy may officiate at services over bodies which are to be cremated, but not at a crematorium.

AGRARIAN FIGHTS IN IRELAND.

Thirty Men Fight With Scythes—Two Dead and Five Wounded.

DUBLIN, June 11.—An old woman who owned half an acre of ground at Nenagh, county of Tipperary, died Friday without leaving a relative or specifying an heir. Her neighbors quarreled over the possession of her land. Some thirty men fought with scythes and pitchforks round her hut. Eventually they broke down the door, upset the body and beat each other with the candles, which had stood round the body. When the fight was ended two men lay dead at the doorstep and five others were too severely wounded to walk from the scene of the conflict.

A farmer named Dwyer, living near Nenagh, was killed in another agrarian quarrel on Friday.

An Emperor's Son in Destitution.

NEW YORK, June 11.—Through a complaint of a violation of the sanitary code, there was discovered living in poverty and squalor in this city, a man who claims to be the son of Maximilian, Emperor of Mexico. The man has in his possession papers and documents from the Austrian government to prove his identity and relationship to Emperor Franz-Joseph. Franz Satinislau Ritter Von Heubikelini is the name and title of the nobleman.

The American Tariff.

WASHINGTON, June 11.—The consideration of the tariff bill was resumed in the senate by a proposed change in the item, "Hay $4 per ton." The duty on butter was reduced from 6c to 4c per pound. Under the former duty there was considerable Canadian butter imported at some points. Cheese was also made specific at 4c a pound. The proposal to put eggs on the free list was attacked by an amendment, but this was not considered.

BEWARE OF THE DANGER.

Mr. Meredith has so few candidates in the field that it is impossible that he can carry the Province, and he could get power by no other means than by a "combination." His government would be inharmonious and unstable. There is grave fear that, in order to hold together the men who are attacking the professions, and shouting for decentralization, and denouncing the corporations and breeding suspicion of legitimate commercial operations, measures far more radical and far more revolutionary than justice demands or sound policy sanctions would be forced through the legislature to the grave unsettling of all established interests, to the injury of our credit, and to the very special peril of the great natural industries of the country. Agriculture in all its branches, mining and lumbering. The effect of such a notice to the world of investors in England and other monetary centres, as the dismissal of Sir Oliver Mowat, distinguished as his administration is, quite as much for its safe and prudent management of Ontario's affairs, as for its extraordinary duration of nearly a quarter of a century, would be disastrous in the extreme upon the business of the country. Nothing more unfortunate could happen to Ontario than the accession to power of a government representing unsympathetic and incongruous elements.

Case of Rev. A. Trusx.

WOODSTOCK, June 11.—At the Methodist conference here, on Saturday, the ministerial session reopened the Rev. A. Trusx case inasmuch as there was doubt existing as to his relation to the Methodist church. Many thought that the action of Wednesday did not expel him from membership in the church. There was a great difference of opinion, some contending that he was unworthy of membership and should be expelled, while others argued that he had done nothing to warrant this expulsion from the church. It was finally decided to place his name after the question "Who are deposed from the ministry?"

C. W. A. Meet in Montreal.

MONTREAL, June 11.—Great preparations are being made here for the championship race meeting of the Canadian Wheelmen Association which takes place here on June 30 and July 2. His Excellency the Governor-General, in a very gracious letter, has accorded his patronage to the meeting. The preliminary heats, with the exception of champion events, will be run on Saturday, June 30, all the championships taking place on Monday July 2. One of the features of this meeting will be three races for class B men, in which Johnson, Tyler, Sanger and other flyers will compete.

Foundry Destroyed by Fire.

BRADFORD, Ont., June 11.—On Saturday when the fireman in Coates' foundry was putting some shavings into the furnace the draught blew out a quantity of sparks which ignited a pile of shavings, and in a few minutes the place was one mass of flames, the foundry and moulding shop, as well as J. H. Davey's sash and door factory, were all burned down. Coates' loss will be about $2,500 and Davey's about $1,000. No insurance.

Three Wants.

"Reason's whole pleasure, all the joys of sense,
Live in three words, health, peace, and competence."

So says the poet. Competence counts for little when one is sick, and peace is disturbed, when health is upset, so that the poet rightly places health first. To have good health you must have pure blood. From the blood the system receives all its material of growth and repair. The best blood-purifier is Dr. Pierce's Golden Medical Discovery, which is world-famed and sold everywhere. It is a soverign remedy for all diseases due to impoverished or impure blood, as consumption, bronchitis, weak lungs, scrofula, old sores, skin diseases and kindred ailments.

Consumption—Low Condition

Wonderful Results From Taking Hood's Sarsaparilla.

Miss Hannah Wyatt
Toronto, Ont.

"Four years ago while in the old country (England), my daughter Hannah was sent away from the hospital, in a very low condition with consumption of the lungs and bowels, and weak action of the heart. The trip across the water to this country seemed to make her feel better for a while. Then she began to get worse, and for 14 weeks she was unable to get off the bed. She grew worse for five months and lost the use of her limbs and lower part of body, and if she sat up in bed had to be propped up with pillows. Physicians

Said She Was Past All Help

and wanted me to send her to the 'Home for Incurables.' But I said as long as I could hold my hand up she should not go. We then began

Hood's Sarsaparilla Cures

to give her Hood's Sarsaparilla. She is getting strong, walks around, is out doors every day; has no trouble with her throat and no cough, and her heart seems to be all right again. She has a first class appetite. We regard her cure as nothing short of a miracle." W. WYATT, 69 Marion Street, Parkdale, Toronto, Ontario.

THE CONFERENCE ORDINATION SERVICES.

Delivered by Rev. Dr. Carman, the General Superintendent of the Methodist Church in Canada.

HUNDREDS TURNED FROM THE DOORS.

A Thrilling Discourse Delivered to a Vast Audience in George Street Methodist Church Yesterday—Words of Sage Advice to Young Ministers by One Who has Grown Grey in the Service of his Master.

It is well within the bounds to say that never before has a larger congregation assembled within the walls of the George street church than gathered there yesterday morning to worship and to hear words of wisdom drop from the lips of that aged and gifted divine, Rev. Dr. Carman, Superintendent of the Methodist church in Canada. Every draw seat in the large edifice was utilized, chairs were crowded into all available space and yet hundreds turned away from the doors unable to obtain even standing room. Still another source of attraction was the fact that a number of young ministers were about to be formally ordained and installed into the conference.

The services were opened by an impressive prayer by Rev. Mr. Shorey, President of the Conference, after which the choir rendered the anthem "How Beautiful," and the Scripture lessons for the day were read by Rev. Dr. Carman.

A hymn was sung after which such a sermon was delivered as brought tears coursing down the cheeks of the eight young probationers sitting in front of the speaker. The congregation was large and the heat intense, yet throughout the hour and thirty five minutes, during which Dr. Carman spoke, he held the attention of every hearer to an extent which was nothing short of marvellous. His thoughts, as expressed, were the thoughts of a grand man, couched in a language such as would reach the heart of every member of his vast audience. It was such a discourse as was never heard in the church before and one which will live forever in the memory of those privileged in listening to it.

Dr. Carman took as his text Malachi 2, 4—7, as follows:—

And ye shall know that I have sent this commandment unto you, that my covenant might be with Levi saith the Lord of hosts.

My covenant was with him of life and peace; and I gave them to him for the fear wherewith he feared me, and was afraid before my name.

The law of truth was in his mouth, and iniquity was not found in his lips; he walked with me in peace and equity, and did turn many away from iniquity.

For the priest's lips should keep knowledge, and they should seek the law at his mouth; for he is messenger of the Lord of hosts.

He presented at some length the thought that religion had been essentially the same

FROM THE BEGINNING,

"What doth He require of thee but do justice, love mercy and walk honourably with thy God." Since the Fall, at any rate, a mediator had always been necessary to stand between man and God. The divine order is the mediation and priesthood and then the economy adapted to the priesthood. It was not first law and then priest; but first priest and then law; first the mediator and then the economy. "The priesthood being changed, there is made of necessity a change of the law." The Melchizedekan priesthood at the beginning had little ceremony and a spiritual economy of faith and obedience. As men were unequal to its high demands, God gave them the Aaronic ritualistic economy of "religion made easy"; "do and live"; far more sensuous than the primitive economy. This is what some people like best to-day; all well enough for parade days, but three thousand years behind the times. Christ is a high priest forever, after the order of Melchizedek, and the great desideratum is the restoration of the Melchizedekan standard of salvation by faith and consequent holy living. Christ, our high priest, is now entered into the heavens, and there is needed no further sacrifice for sin. There are no priests but one, none to offer sacrifice, none required but our Lord Christ, now enthroned in the heavens. This man, after he had offered one sacrifice for sins forever, sat down on the right hand of God. "By one offering he hath perfected forever them that are sanctified." There are no friends on the earth to-day in the sense of expiation and sacrifice for sin. Men that make such a claim or pretense dishonour Christ and deny that He is the propitiation for our sin and the sin of the whole world. What is required is not priests for sacrifice, but preachers, proclaimers of the will and saving grace of God. The same elements, the same principles and essential ideas have gone through all the economies;

GOD AND MAN;

mediation and guidance; law and transgression; sin and guilt; atonement and satisfaction; faith and obedience; pardon and justification; consecration and full salvation.

The essentials of religion have not so much changed through the ages as some would like us to believe. The wonderful developments in and improvements often boasted of are not to hand. It is the old idea of atonement and sacrifice, teaching and knowledge, prophecy and fulfilment. Can we take away the idea of definite prophecy, distinct prediction, and precise fulfilment? Can we take away the idea of blood atonement and divine satisfaction? Might as well attempt to pull the bony structure out of the body or the viscular system from the human frame. There is no advance of essential doctrine and there is no variation of claim upon the men of God. Our text fills up measure enough for a modern minister of the Gospel. We will

NOTICE THESE POINTS.

1. God calls and appoints his ministers, "Ye shall know that I have sent this commandment unto you that my covenant might be with love, saith the Lord of Hosts."

2. This call is a covenant into which the sons of Levi were born, and whose benefits they inherited by lineage. To the Christian minister under the Melchizedekan order it is without father, without mother; but in the household of faith is in the spiritual lineage of trust, acceptance and obedience. You, young men, are free to accept, free to reject. Only serve your God, and "I only and Barnabas, have not we power to forbear working?" said Paul.

3. This call to the ministry and holy covenant proceed not arbitrarily, but upon reasons on the divine mind and explicable to us as in the case of Abraham. Decidedly was this so in the case of Levi. "And I gave them to him for the fear wherewith he feared me and was afraid before my name."

4. This call and covenant insure all that the minister and servant of God require. "My covenant was with him of life and peace." Surely life and peace in their full sweep in all we want.

5. This call and covenant demand conformity of life to the will of God. "He walked with me in peace and equity."

6. The call and covenant determine the doctrine positive and negative, that the man should proclaim. "The law of truth was in his mouth and iniquity was not found in his lips." The aggressive truth to be used, and the style of doctrine and speech to be disowned.

7. The plain results of such obedience to the call and covenant; "did turn many away from iniquity," which such life and doctrine will always do.

8. The call and covenant involve the solemnity and dignity of the minister's place and office. "For the priest's lips should keep knowledge."—knowledge spiritual and divine and all knowledge that helpeth thereto.

9. The call and covenant lay unmistakeable obligations upon the people. "They should seek the law at his mouth. Hear the relation and mutual obligation. The minister must proclaim not doubts, speculations, theories, but the Word of God. Then the people must and will seek the law at his mouth.

10. The call and covenant involve the message to be delivered, for the minister is the messenger of the Lord of Hosts. "Go ye into all the world and preach the Gospel to every creature." This implies the message, the open door and the irresistible advance of faithful men.

11. It is God's indication and demonstration. "Ye shall know that I have sent this commandment unto you." The doctor enlarged somewhat upon each point.

Many words of

PERSONAL ADVICE

to the young men interlarded the discourse. A consistent life was one of the great necessities for the life which they were about to lead, and he strove to impress this fact upon them. This new life he stated, did not demand of them profound learning, neither was it necessary for them to be possessed of great fluency, though both of these acquisitions were useful at times. Consistency was the one great essential. Without it a man could spoil in a day, the work of a year.

At the conclusion of the sermon the formal ordination of the young men took place by the "laying on of hands," and the benediction was pronounced by Rev. Dr. Shaw. The entire service was two and a half hours in length.

AFFLICTED FROM INFANCY.

A Lad Who Had Been Dropsical From His Childhood Cured by Dodd's Kidney Pills—The Remedy That Never Failed.

McINTYRE, Ont., June 4—The young son of Hugh Lamont of this place has been afflicted with dropsy from infancy. He was bloated and swollen all over. His parents were at their wits end to find some cure for him when they read of Dodd's Kidney Pills. Mr. Lamont got six bottles of the pills and the boy began taking them. Before the sixth box was finished he was cured. It doesn't matter whether the patient is young or old, the pills will effect a cure of any kidney disease or of any disease arising from disordered kidneys.

FRATERNAL ASSESSMENT LIABILITY.

"Can't I get out when I please, an have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate*. The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any similiar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

A Drop of 25 Per Cent.

Frank Anthony is bound to do the fruit trade of the town, and for the next two weeks will sell at 25 per cent less than what other dealers are charging. After that date he will sell right along at Montreal prices, good fresh first class fruit; Messina and blood oranges—in boxes of 100, 200 and 80. Bannnas, lemons and all kinds of fruit—first class and repacked. Frank says he is going to stay in Peterborough for life, and is going to make the fruit trade lively. Wholesale, 161 Hunter street, retail Aylmer street.

Lost, Strayed or Stolen.

Mr. John Sanders and wife, of Dummer, drove in to attend service this morning at the George Street Methodist Church and left their horse under the shed. When the service was concluded and they were ready to return home they found that their horse and buggy had disappeared. It is not known whether a horse thief took this opportunity of getting his work in or whether the animal got loose and strayed off of its own accord. It is grey in colour and attached to a top buggy. The Chief of Police will be glad to receive any information leading to recovery.

The Militia of Canada.

An important innovation, as affecting the militia of Canada, has been brought about by the minister of militia. For those members of the Canadian militia force who desire to have the benefit of instruction in soldiering with her majesty's forces, arrangements have been affected whereby courses of training may be taken at Halifax either in artillery or infantry drill duties and interior economy. All ranks will be entitled to avail themselves of the new arrangements. The courses of infantry instruction will be as follows: (a) Two courses annually of three months each, which may be attended by all ranks: (b) six courses of one month for officers only.

Douro's Grand Picnic.

The people of St. Joseph's church, Douro, will hold their grand annual picnic in the grounds adjoining the new church on Wednesday, June 20th. All the usual attractions will be presented in an unusually attractive form. There will be a first class dancing platform and a first class orchestra to furnish music. There will also be an open air concert including vocal and instrumental music by leading artists of town and county. There will also be football and baseball matches in which silver cups will be presented the victors. And there will be a programme of exciting athletic games and sports for fine prizes. Interesting addresses will form a feature of the day's enjoyment. Tickets 50 cents, including dinner, at 12 o'clock. Be sure and attend this grand picnic.

Sale of Superior Household Furniture, Piano, Etc.

Attention is directed to the auction sale of superior household furniture, etc., on Thursday, June 14th, at the residence of Miss Mercer, 336 Rubidge street. The entire contents of drawing room, dining room, bed rooms, sewing room, hall and kitchen will be sold without reserve. As the whole of the effects are in good condition and the furnishings of modern design the sale will no doubt attract a good class of buyers. Special mention is made of the of the superior piano by Fischer of New York, one of the standard makers. The instrument is in splendid condition and is open for the inspection of the best judges. Sale begins at one o'clock sharp. Terms cash. CHAS. STAPLETON, auctioneer.

Now for the Hot Weather.

The warm weather has come at last, and although it is behind time, H. LeBrun & Co. have not been caught "napping." We are not behind with summer clothing preparations. Everything fully up to date, and now we start the season with a red hot sale all over the store. 'Twill do your eyes good, and your pockets, too, the way we intend to rush things. Nothing to equal or surpass our superior clothing for men, youths and boys. Cool summer coats, vests and suits in all qualities and sizes at unprecedented prices. The boys get a lacrosse stick and ball free with their suits. Ice-saving underwear in fine merino, natural wool. Balbriggan and cotton at the same reduced prices. Clothing will be made to order on similar down grade of prices. This department is very attractive in cloths for suitings. We're bound to make it hot for the hot weather. H. LEBRUN & Co., City Clothing Store. dw

Suddenly Called Away.

The many friends of Miss A. Brennan, sister of Dr. Brennan, will be shocked and grieved to hear of her sudden death in New York on Sunday morning. Miss Brennan was visiting her brother, Dr. O. A. Brennan there and took cold on Wednesday last. Inflammation followed, but she was thought to be out of danger by Saturday. During the night, however, she sank rapidly and died early Sunday morning. The body will arrive on the 7.30 train to-morrow night and be taken to the residence of Dr. Brennan, from where the funeral will take place Wednesday morning at 10 o'clock to the cathedral and from there to the C. P. R. station and thence to Norwood where interment will take place in the family plot. The deceased has large numbers of personal friends both in Norwood and Peterborough among whom her loss will be keenly felt.

CUT THIS OUT and send it to us, enclosing a three cent stamp and the names of ten ladies, and we will send each one a sample of one of the best monthly papers published, and we will send it to you FREE for six months. Mention EXAMINER, and address MEDICAL ADVISER, Bowmanville, Ont.

CHURCH CHIMES.

Pastor Zimmerman assisted by Mr. J. C. Turnbull, immersed six Christian Science converts in the Otonabee yesterday on the Ashburnham side. A tent was pitched by the riverside and services held throughout the afternoon.

Mrs. Orde proposes giving a garden party in the interests of St. Luke's church, on Wednesday, June 20th. Great pains are being taken to make the evening a pleasant one, and it is hoped that there will be a full assembly of the congregation and other friends. Further particulars will be given later.

In Murray street Baptist church yesterday delegates were appointed to the Peterborough Association which meets in conjunction with the Haldimand church in Grafton on June 21st. The following will go: Rev. J. E. Trotter and Messrs. W. J. Pady, E. Elcombe, B. Matthews, G. Cochrane and W. Garbutt.

An auxiliary branch of the Visiting Chapter of St. Luke's Guild has been formed during the past week. Mrs. H. Bennett is the president and the chief work of the auxiliary will consist of sewing for the poor. Disused clothing may be sent in to the Rectory and will be gratefully received and acknowledged.

The George street church was again crowded to the doors at the evening service last night, when Rev. J. W. Crothers, M.A., of Port Hope, delivered the sermon, after which the conference sacramental service was conducted by Rev. Wm. Johnson, ex-president of the conference. Hundreds remained to partake of the sacrament.

Rev. Moses Metherell and Rev. D. O. Crossley were detailed by the conference to conduct the services in the Park street mission yesterday, but neither of the divines materialized, much to the disappointment of the large congregations which assembled. Mr. Pady filled the pulpit very acceptably, however, and delivered two most interesting discourses.

The scholars of the Charlotte street Methodist church held a mass meeting yesterday afternoon which was largely attended. They were addressed by Rev. J. Kines, Rev. J. A. McCamus and Mr. W. H. Gordon. The former gave a very practical talk to the children on the aims and objects of the school work, while Rev. Mr. McCamus dwelt on the advantages the church derived from the Sunday school.

Most interesting services were held in George Street Methodist Church yesterday afternoon for the Sunday school children. The church was well filled and most interesting addresses on the work as affecting both teachers and pupils were delivered by Rev. T. J. Edmison, B.A., B.D., Rev. George Brown and Mr. Maxwell W. Hall. The duet, "Jesus, Lover of My Soul," by Misses Annie and Clara Belleghem was very sweetly rendered.

The morning service in Murray street Baptist Church was taken yesterday morning by Rev. Joseph Young, who discoursed eloquently on the theme of Jesus being the True Light. He took for his text John 3rd chapter, 19 verse.

And this is the condemnation, that light is come into the world, and men loved darkness rather than light, because their deeds were evil.

After the offertory a quartette, composed of Mrs. Brodigan, Mrs. McKee and Messrs. Routley and Kempt sang a selection entitled, "Come unto Me and I will give you Rest," with fine expression. In the evening Rev. J. J. Rice conducted the service.

Destroyed Libraries.

The great Alexandrian library, the largest collection of books in the ancient world, which was destroyed by fire by order or permission of Theodore the Great, because it contained so much heathen literature, was not the only one to suffer such a fate for a like cause. The Two Republics prints an extract from Adolfo Duclos Salina's work on "The Riches of Mexico and Its Institutions," which says: "The establishment of libraries in Mexico dates from a period long before the conquest by the Spaniards in 1521. It is a well-known fact in history that King Itzcoalt caused the disappearance of all the written records of his time in which were set down all the old precedents and customs. This he did in order that the people might not know what they were and might despise them on that account. History tells us, too, that the allied Tlaxcaltecas destroyed the library of the city of Texcoco on this being occupied by the conquerors. The remainder of the traditional records which survived these disastrous fates were almost entirely done away with by the spirit of fanaticism displayed by the first Bishop Zumarraga and others who saw in all symbolical writings evidences of superstitious idolatry."

HON. G. W. ROSS IN THE OPERA HOUSE.

Hon. G. W. Ross, Minister of Education, and Mr. J. R. Stratton, will address a mass meeting of the electors in the Opera House on Thursday evening, June 14th, in the interests of the Mowat Government and the Liberal candidate for West Peterborough. Hon. Mr. Ross is one of the most capable ministers and one of the best orators in the Government. He will deal with public questions in a manner which will place provincial matters in their true light. He is a ready and convincing speaker and thousands should turn out to hear an able and exhaustive exposition of the several public questions now engaging attention. Ladies will be welcomed and assigned to seats in the gallery. This meeting will be one of the most important of the campaign and should attract a large attendance.

COMMITTEE ROOMS.

Mr. Stratton's committee rooms will be open every night hereafter from 7 o'clock p. m. The daily papers are on the tables, so that those who desire to use the hall as a reading room can do. This announcement is made so that Mr. Stratton's supporters and the supporters of the Mowat Administration can at all times have a place in which to confer and report or exchange information and suggest action in the interest of the Liberal candidate in the West Riding.

10 PER CENT. DISCOUNT ON ALL CASH PURCHASES.

Just One Point

That we would draw special attention to to-day; that is, that we are in down right earnest in our endeavours to present you such attractive values all this month of June as cannot fail to draw a very large part of your trade our way. Just how—NOT TO DO IT—would be to follow a very prevalent practice, which exists of advertising a great many lines which, on examination, are often found to exist only in the advertiser's mind.

But, TO ACCOMPLISH OUR AIMS, we give in our advertising to-day the earnest quality which has marked it since we commenced business. What we write and print, you can afford to read; you are equally interested with us in what we have to tell you.

WE DO NOT HAVE TO do any bogus advertising to draw trade. The value of our goods and the mottoes:—

"SMALL PROFITS AND QUICK RETURNS"
"SPOT CASH AND ONE PRICE"

under which we trade, are in themselves the secret of the success of our business.

DAY AFTER DAY persons come to our store simply to look, and to their find astonishment that they have been paying 10 to 20 per cent. more for the same goods elsewhere, and they say we really did not believe until now that there was such a difference. ALL WE ASK IS THAT YOU COMPARE OUR VALUES and we are satisfied as to where you will trade.

OUT OF GRATITUDE, on account of the success of our cash business this season, we have purchased and arranged for further supplies of

Folding Tables, Folding Music Racks, Folding Book Racks, Folding Chairs and Rockers,

All to be given away FREE to our customers. Circulars and Cards explaining the Premium offer has been delivered to every house. If for any reason you haven't got one, call at once if you wish to get one of these FREE articles.

IT IS A FACT that we do not have to give premiums to build up our trade, but we have been so successful this season that we thought our friends would appreciate this offer.

CARPETS

Are being cut in prices for this month. This should interest you. Then if you wish them made and laid quickly, we can, with the aid of our new Carpet Sewing Machine, which, by the way, is the only one in this part of the country, guaranteed to make and lay any carpet large enough for the largest room in the place at four or five hours notice. The progressive character of our business has made itself quite apparent in the carpet room as in all departments.

We are closing out the balance of our stock in

Mantles, Millinery, Dress Goods, Laces, Parasols, Underwear, Hosiery and Gloves,

to make room for new goods, as our buyer has gone. Make no mistake about it. No matter what others may advertise in the way of excuse sales when they do not mean to take effect for a year, we will always sell lower, because we buy lower, and we have no bad debts to lose.

AT THE LIBERAL COMMITTEE ROOMS.

On Saturday night there was an enthusiastic and rousing rally of the supporters of the Liberal candidate, Mr. Stratton. The rooms were crowded with earnest workers, who were greatly inspired by the encouraging prospects of triumph at the polls on June 28th, as indicated by the reports in. Rousing and spirited addresses were given by Mr. Peter Hamilton, Mr. T. G. Hazlitt and the candidate, Mr. Stratton. The campaign workers are earnest and alert and have every reason to be elated with the prospects—which are tantamount—to certainty on polling day. The town report, taken in conjunction with reports from every part of the riding, indicate unmistakeably and emphatically that election day will see returned for West Peterborough the candidate of the Mowat Government who has so faithfully, efficiently and satisfactorily represented this riding for the past eight years. The people know when they have a good representative, and they intend to retain his services. The interest of the greatest province of the Confederation cannot afford to try experiments in government. The Mowat Administration is recognized as the most capable, honest, economical and in every respect, most satisfactory government any country ever had, and the country has no disposition to exchange for a government of a party comprised of conflicting and irritating elements out of harmony with each other, and with the country at large. No leader, let alone the present leader, would be able to wield the incongruous elements that comprise the Opposition into a harmonious working body. The people of Ontario have a good government now and they are determined to keep it. The West Riding has had a first class representative for eight years past and the electors are determined to avail themselves of his services for the coming parliamentary term. The results of Saturday night's and of the other meetings that have been held in different parts of the Riding present an outlook for success that is more than hopeful. With earnest work, such as been given in the past, there is no doubt of the triumphant election of the Liberal candidate on June 28th.

HIS LORDSHIP BISHOP A. MACDONELL, D.D., VISITS BOURGET COLLEGE, RIGAUD, P.Q.

The Rev. J. Charlebois, C.S.V., president of Bourget College, accompanied by the Rev. C. E. Durochie, C.S.V., professor, a native of Glengarry, drove to Alexandria on May 29th, to invite His Lordship Bishop A. MacDonell, D.D., to visit their college, where several of his diocesan young men received their education. His Lordship most graciously accepted the invitation, and on Saturday, June 2nd, the reverend president of the college sent the Rev. C. E. Durochie, C.S.V., to Alexandria to accompany his lordship. The C.P.R. kindly granted a special train to Rigoud to accommodate his lordship, where he arrived at 8 p.m. In honour of his lordship's visit the pupils of the college executed in a praiseworthy manner a dramatic and musical entertainment, of which the following is a synopsis of the programme:—

Blue Bells of Scotland	College Band
Addresses in English and French to His Lordship.	
Christopher Columbus	College Choir, (168 voices
"Cross of St. Johns"	A drama in three acts
Tancredi, by Rossini	College Band
Crepusenlar Light	College Orchestra
Final choir	College choir, (168 voices)
Priests March	College Orchestra
Tableau Vivant of St. Alexander, "His Lordship's Patron"	
Scotch Airs	College Band

Between the acts of the play Rev. J. Charlebois, c.s.v. president, delighted his Lordship by a selection of Scotch National airs on the piano, which were executed in an artistic manner. His Lordship responded to the addresses in English and French most eloquently, feelingly and appropriately. On Sunday His Lordship sang full Pontificial High Mass in the College chapel, and administered first communion to eighteen boys.

Rev. J. E. Foucher, C.S.V., directed the ceremonies. The Rev. J. B. Savoir, c.s.v., had the chapel decorated in a tasteful manner for the occasion.

The College Band, orchestra and choir deserve great credit for the manner in which they rendered the music during the mass.

The Rev. T. P. Croisetiere, Bursar of the college, had a sumptuous banquet prepared in honour of his Lordship, and at which the Rev. N. E. Demers, P.P., was yresent. The reverend President granted the college faculty and students a grand holiday for Thursday, in honour of His Lordship's visit.

In the afternoon His Lordship visited the shrine of Our Lady of Lourdes, on the Riguad mountain, and was pleased with its grandeur of nature. After his return the students of th college from Glengarry and Stormont visited His Lordship. In the evening there was a solemn pontifical procession of the Blessed Sacrament. The first communion boys renewed their promises of baptism in the presence of His Lordship, and consecrated themselves to the Blessed Virgin. The Rev. J. Charlebois, C.S.V., President, delivered a very eloquent sermon on the occasion.

On Monday morning Rev. C. E. Durochie, C.S.V., accompanied His Lordship to Alexandria on the train. His Lordship was grteted with "cacd mille failthes" and the college faculty and students were more than honoured by his visit and grateful for his kindness.

THE FIFTY-SEVENTH PARADE FOR WORSHIP.

THE RANGERS AT ANNUAL SERVICE IN ST. JOHN'S.

A Fine Turnout—A Yearly Service—An Excellent Sermon.

Yesterday the Fifty-seventh Battalion mustered at the drill shed and proceeded by the full band marched to St. John's, where they occupied the two central rows of seats. The inside doors of the porch were draped with the British flag, which also floated from the flag staff of the church. The full choir was in attendance and the singing was excellent, the volunteers heartily joining in that as in the service which was an abbreviated form of Evensong.

The Rector introduced his sermon with a warm welcome of the 57th to St. John's. The text was Samson's prayer just before his death—"O Lord God, remember me I pray thee"—the prayer of a man in dire extremity. Sampson was God's champion in his earlier days, clothed with marvellous strength for his mission, but he had gone aside into the paths of sin and had been shorne of this strength. God departed from him and he was left alone and fell a prey to his enemies, the inmate of a prison, bound by fetters which he himself had forged by prostituting the strength with which God had endowed him for His special work. But at his worst Sampson repented and turned to God in prayer and God heard him. His strength was restored and he did more work in his death than in his past life. Sampson's life, the brilliant failure that it was, was not held up in scripture as a model; it was a terrible warning. He wasted the powers God had given him; even in his warfare against the Philistines he was fitful and undisciplined. The preacher remined his hearers that no great work could be accomplished without discipline, without self-control. Discipline and implicit obedience were secrets of the triumphs of British arms in all ages, the world over, and this lesson was forcibly impressed upon the membere of the 57th, of which the people of Peterborough was so proud, and they were also urged to serve God upon the same principle. Upon this principle they should take their stand and stand firm. None of them were ashamed to put on his military uniform and none should be ashamed to put on the armour of God. They were again urged to take stand for God and religion—to stand firm—eyes front—looking neither to the right nor to the left at the tempting allurements of sin.

During the offertory, which was devoted half to the Protestant Home and half to the Sunday school fund, the choir sang a beautiful anthem with great spirit and effectiveness.

The battalion "fell in" on the green in front of the church and headed by the band marched to the drill shed by way of Water street, Charlotte street and George. Thousands of admiring citizens lined either side of the line of march.

NO MORE FITS.

Mrs. William Langley was Subject to Them for Five Years—Dodd's Kidney Pills, which Never Yet Failed, Cured Her.

LONDON, June 11.—Mrs. William Langley, of 21 Euclid Ave, London South, has for the past five years been subject to fits. She was treated by doctors in Lansing and Detroit, Mich., and by three different physicians in London. No one of them could cure her. About two months ago she began using Dodd's Kidney Pills. Since then she has had no return of the fits. To-day she is perfectly cured. Her trouble was undoubtedly due to kidney disorder, a fact which the physicians who treated her never discovered and consequently, their treatment was in vain.

HOTEL BROKEN INTO.

Burglars Chisel a Hole Through a Doorway and Rob a Till of About Fifteen Dollars.

The police have not as yet made any arrests in connection with the burglary which was consummated at the Commercial House early Sunday morning between the hours of twelve and one.

The intruders gained an entrance by lifting the sitting room window and afterwards obtained access to the bar by chiselling a hole through the door of the bar and being thus enabled to put a hand through and slip the bolt. About fifteen dollars was taken from the till and five bottles of Club whiskey also carried off, as well as a quantity of liqueurs. The facility with which access was gained lends strength to the suspicion that the burglarr were in all probability men who were well acquainted with the premises.

This is an especially bad time of the year for a burglary epidemic to set in, as the hot weather has now apparently arrived and citizens in consequence would like to be able to leave their windows open at night and while these gentry are around such a proceeding would be hardly wise.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

J. R. HOOPER'S TRIAL.

The Crown to Assume the Expense of Witnesses for Defence.

THREE RIVERS, Que., June 11.—The demand made by Hooper that the crown assume the expense of bringing in the witnesses for the defence because of his impecuniosity was accorded by the prosecution.

Two young lady nurses from the Kingston lunatic asylum, Miss Annie Spence and Addie G. Stewart, testified to the mental condition of Hooper's wife, who was not violently insane.

A young man named Droune, clerk of the Richelieu hotel, produced the register of that house, which recorded Hooper's advent there on September 11, 1893, as "John H. Cooper, Quebec."

A telegraph operator from Louisville also testified to meeting the prisoner there and conversing with him. He asked witness the distance to the Louisville bridge.

Bellefeuille and Robitalle, conductors on the C.P.R. between Montreal and Three Rivers, testified to the prisoner and his wife travelling by their train, and another employe named Bolduc, a brakeman, swore to seeing Hooper and his wife stop off at Louiseville, the night previous to the day on which Mrs. Hooper called at the house of Mrs. Grenier, dripping wet. Morin, another brakeman and Vien, telegraph operator at Louiseville, corroborated the evidence of previous witnesses.

THROUGH A BURNING BRIDGE.

Serious Fatal Accident on the C. P. R. Near Fort William.

WINNIPEG, Man., June 11.—A fatal accident occurred on Saturday to the through Canadian express near Fort William. A burning bridge gave way under the train and four cars were precipitated into the river Mattawa. The cars took fire from the bridge and were consumed with all mail and express matter.

Mrs. Barker, of Elkhorn, Man., was drowned and Express Messenger Brown, of Toronto, is missing. It is also feared two others are drowned.

Among the injured are: Mrs. Bicle, of Middleville, Mich., badly bruised; Fireman Whitehead, seriously injured; Engineer Elmes, slightly injured.

A Colored Man's Dastardly Deed.

RIDGEWAY, Ont., June 11.—Aaron Price, a burly negro, criminally assaulted eleven-year-old Toreta Henry of this place. The girl, who is also colored, was employed to sweep out and care for the village school. After the scholars had been dismissed, Price, who had been lounging about the building watching his opportunity, entered and attacked the defenceless child, drawing a knife and threatening her life if she made any outories. After accomplishing his dastardly deed, the black villain made no attempt to leave. Observing by the girl's actions that something unusual had transpired, little Toreta's mother asked what was wrong. The child then told her story. Mrs. Henry immediately notified the authorities, and Price was arrested and taken to Welland jail for safe keeping.

Kent County Elite Arrested.

WINDSOR, Ont., June 11.—Social chaos prevails among the residents of the township of Oxford, near Chatham, owing to the arrest by High Constable Coogan, of five men of the best society and all well to-do financially. The charge was that they charivaried a couple last January on the occasion of James Adrian's marriage to Mrs. Preston. The men took Adrian from bed into a frosty night air and administered what is termed "elevation by rail without a ticket," fired off a gun in his residence, broke household articles, and going to the barn shaved his horses' manes and tails. They will be tried to-day.

Was it an Insult to "Old Glory?"

WASHINGTON, June 11.—State Department officials have no idea that any international complication will grow out of the firing, by a Canadian cruiser, on an American fishing vessel at Hastings if the fishermen had violated local laws and were escaping as stated. No official complaint regarding the matter has reached this government, but if an investigation should be made and reasonable proof obtained that an insult was offered to the American flag, the State Department would promptly ask an explanation from the British Government.

THE COPYRIGHT QUESTION.

English Authors Denounce "the Pirate Business" in the Dominion.

LONDON, June 11.—The copyright question is again cropping up in every direction. At the dinner of the authors' society on Thursday night Canadian publishers were roundly denounced as vampires, who lived upon the brains and blood of writers. A picture was painted of a set of desperadoes living in Toronto, who were described upon the doorplates and in the local directory as printers and booksellers, but were really land pirates with hoofs and fangs. It was announced that the next battle of the authors will be against the pirate business as carried on in the Dominion.

The copyright problem has assumed a more acute phase in another direction, and last week a meeting of zincographers, stereotypers and electrotypers was held at which an organization was formed to agitate for changes in the law.

All the photographers are using the copyright laws to their advantage—an American actress had her photograph taken in six different poses by a Regent street house, devoting half a day towards seeing the work properly turned out. As soon as the firm printed from negatives they copyrighted the photograph. The actress wished to have the photos reproduced in a souvenir programme and gave them to a process company, the manager of which seeing the word "copyright" upon the original told her that he could not reproduce them without permission of the owner of the copyright, and the upshot of it was that she had to pay the photographic company three guineas for the right to use her own pictures. She consulted her lawyer about it, telling him that she had never asked the photographic company to take her pictures for nothing, and that she was awaiting their bill which she would pay. The lawyer replied that the copyright question seemed to be based on the foot-race principle. the person who got to the copyright office first owning the copyright. He advised her not to fight the matter but to pay the three guineas. Now the query arises as to whether the photographic company can sell copies of the picture.

ON A SECRET MISSION.

British Capitalists on a Visit to the Canadian Government.

NEW YORK, June 11.—Among the arrivals on the Majestic from Liverpool last week were Mr. Home Payne and Mr. R. K. Sperling, who are en route to Ottawa. It is understood that these Englishmen are on a secret mission to the Dominion, the nature of which can only be surmised, but is thought to have some relation to a prospective important concession from the Canadian Government in which several prominent British capitalists are interested. Messrs. Payne and Sperling are well known in London as members of the firm of Sperling & Co., who are the principal owners of Commercial Cable and Canadian Pacific stocks.

BRITISH CABLE GOSSIP

Lord Salisbury Attacks Sir William Harcourt's Budget.

SOME COLONIAL QUESTIONS

Great Interest Taken in the Approaching Conference to be Held at Ottawa—The Colonial Tax Denounced —Mr. Huddart Sails for Canada.

LONDON, June 9.—In a speech in London last evening Lord Salisbury made a strong attack upon Sir William Harcourt's budget. The death duties proposed by the Chancellor of the Exchequer, he said, provides the English brethren in the colonies with a rod of offence. They had caused the first serious difference of opinion by Australia and England.

Concerning home rule Lord Salisbury said that the crisis which had endangered the integrity of the empire was now passed. He was convinced that in the next general election the people would endorse the action of the Lords in rejecting the home rule bill.

Among the many problems that were pressing for solution, the labor problem was perhaps the most conspicuous It was causing general uneasiness and anxiety. While the population of the country grew constantly the means of employment did not increase with equal rapidity. The tariff wall, which separated Great Britain from almost every other civilized nation, was rendering the chances of self-support fewer than ever.

The result of the difficulties were largely new ones, and it would not be surprising to learn that the legislative machinery hitherto used had become inadequate. The Liberals had done nothing toward smoothing the way to the adjustment of class differences, but had incited class against class. The Conservatives, however, hoped to preserve the mutual harmony of the classes and they would undertake the solution of the formidable social problems.

INTERCOLONIAL CONFERENCE.

Sir John Colomb Urges Clearer Exposition of the Conference's Aims.

LONDON, June 9.—Sir John Colomb, in a letter to the Times, devotes his attention to the approaching intercolonial conference at Ottawa, and urges the necessity for a clearer exposition of the aims and objects of the convention. The people of England are, he says, quite in the dark as to the precise nature of the conference, and fuller information as to its power and limits should be demanded. Especially should it be explained whether the gathering of representatives has been arranged by the whole series of colonial prime ministers, or if it is simply a means by which pressure can be more surely brought upon the Imperial Government in order to obtain the subsidy necessary to float the Pacific cable and other schemes.

If the object of the conference is simply to improve the trade between Canada and Australia, why in the name of reason should the Cape Colony send delegates to Ottawa? The present large demands on behalf of the British navy forbids the guarantee to the proposed railway in Uganda, and Sir John argues that it is fair to presume that the same cause will preclude the granting of a subsidy to a fast Atlantic mail liner or a Pacific cable enterprise.

LONDON, June 9.—In the House of Commons Mr. Sydney Buxton, Parliamentary Secretary for the Colonies, referring to a question by Mr. J. Crombin in regard to the matters to be discussed by the intercolonial conference at Ottawa, said the conference would consider the questions of cable communication between the United Kingdom and Australia by way of Canada, and improving trade relations between Canada and Australia and the colonies generally.

The Colonial Tax.

LONDON, June 9.—A meeting of the colonial party in the House of Commons in London was held, Sir Charles Dilke presiding. Sir John Hall, ex-Premier of New Zealand, vigorously denounced the proposal of the Government to impose a tax upon colonial property held in England. It was as great an injustice, he declared, as the tax by which England lost the American colony in 1776. The people of New Zealand, he said, were opposed to the annexation of Samoa, and were also opposed to the levying of preferential duties between England and the colonies. The meeting congratulated the government on the appointment of the Earl of Jersey, formerly governor of New South Wales, as imperial delegate to the colonial conference at Ottawa.

Sailed for Canada.

LONDON, June 9.—Mr. James E. Huddart, the chief promoter of the Canadian Pacific mail line to Australia, via England, sailed for America from Southampton today. He will return here in July to select an English port of call for the line. Southampton is striving hard for the preference and is offering the most facilities as an inducement.

Miners' Strike in Scotland.

EDINBURGH, June 9.—In consequence of the determination of the Miners' Association of Scotland to reduce the wages of their employes by one shilling a day, the Scottish Miners' Federation has decided in favor of a general strike.

Jersey Coming Next Week.

LONDON, June 9.—The Earl of Jersey, who will represent Great Britain at the Ottawa Colonial Conference, will sail on the steamship Teutonic for America on June 13.

An Old Man Disappears.

HALIFAX, N.S., June 11.—John S. Whytal, a well-known citizen, aged 65, has disappeared, and it is feared he has committed suicide. He recently failed in business and his family moved to Boston. He then went to board at a private house. He got behind in his board money and being pressed for payment became despondent and disappeared. He left letters in his room for his boarding mistress, thanking her for kindnesses and intimating he was going to do away with himself, and for his wife and children. It is thought Whytal has drowned himself.

Conflagration at Isle Verte.

RIVER DU LOUP, Que., June 11.—A fire broke out at Isle Verte on Saturday. A strong west wind was prevailing at the time and soon spread the flames all over the village. For a time great fears were entertained that all the village would be destroyed, but fortunately the wind turned to the north carrying the sparks into the fields. The fire was soon got under control. Six houses and nine outbuildings were consumed. Loss will be between $12,000 to $15,000 and very little insurance.

Canadian Embezzler Arrested.

CHICAGO, June 11.—Louis Larivere, alias Reeves, said to be an embezzler for nearly $73,000 in Montreal, has been arrested in this city. Larivere or Reeves, who is a gentlemanly appearing young fellow, sang in a fashionable Montreal church, and it is charged embezzled the money from a firm of custom brokers in which he was a partner.

Suspicious Drowning Near Halifax.

HALIFAX, N.S., June 11.—John Haigh, aged 55, was found drowned on Saturday near Digby. The coroner's inquest did not develop whether it was a case of suicide, accident or murder. Haigh leaves a wife and family and was much respected in the community where he resided.

Two Sealers Captured.

SEATTLE, Wash., June 11.—The United States cutter Grant has arrived here. She had started for Alaska, but off Cape Flattery she captured two schooners, the C. C. Perkins and the Puritan, with 380 sealskins. The entire crews of the vessels are on the Grant.

Four Pleasure-Seekers Drowned.

BREWSTERS, June 11.—The two sisters, Maggie and Bessie Blaney, and Thomas Scanlon and John McCluskey, went boating on Southeast Lake, about two miles from here. The boat upset and the four were drowned. One body has been recovered.

An Indian Drowned at Lachine.

LACHINE, June 11.—On Saturday an Indian named Baptiste Beauvais while going across to Caughnawanga with two friends in a canoe was drowned. The accident occurred by the upsetting of the canoe. The other two Indians were saved with difficulty.

Unfounded Rumor of a Wreck.

WASHINGTON, June 11.—Capt. Shepard, chief of the revenue marine service, received a telegram from Capt. Hooper, of the revenue cutter Rush, stating that the report of the wreck of the revenue cutter Bear at Sitka, Alaska, was unfounded.

Railway Steamship in Illinois.

ST. PAUL, Minn., June 11.—The through express east bound, which left here on the Vandalia line, was ditched on a sharp curve one mile east of Pocahontas, Ill., 40 miles east of this city. The engine toppled over into the ditch and two mail cars, a combination baggage and passenger car were badly wrecked and the ladies' coach was turned over on its side. Fireman S. A. Poulton, of Terre Haute, Ind., was probably instantly killed. Engineer Thomas Menife, of St. Louis, was badly injured. Postal Clerk Allbough was seriously injured. A number of passengers are badly injured.

Case of Caleb Hartley.

TORONTO, June 11.—Prof Ellis, of this city, who was appointed to examine the stomach of Caleb Hartley, of New Durham, who was supposed to have been poisoned, has forwarded the result of his analysis to the coroner, and it is understood that positive traces of poison have been found in the stomach of the deceased The inquest will be resumed tomorrow.

Jake Gaudaur's Wife Dead.

ORILLIA, June 11.—Jacob G. Gaudaur's wife died on Saturday morning after a short illness of about ten days. The champion oarsman's many friends all over America will be sorry to hear this sad news, for Mrs. Gaudaur was the counterpart of her husband in good-nature and hospitality. The funeral took place yesterday.

Killed on the G. T. R.

NIAGARA FALLS, Ont., June 11.—The dead and mutilated body of Thos. Young, of Hamilton, Ont., was picked up on the tracks of the Grand Trunk, west of Niagara Falls, Ont., on Saturday. He had been on a spree recently. He had been struck by a train.

Committed Suicide by Drowning.

STIRLING, Ont., June 11.—James Barnett, aged about 42, committed suicide by drowning near Hoard's Station, Seymour Township. He was found in about two and a half feet of water. Mr. Barnett, it is said, had been acting strangely of late.

The Visitor and Brooks Free.

AMHERSTBURG, June 11.—The pleasure steamers Visitor and Leroy Brooks, seized about four weeks ago for infringement of the fishery laws, have been bonded and left here yesterday for Sandusky, the home of their owners.

Russell Conservatives.

RUSSELL, Ont., June 11.—At the Conservative convention held here on Saturday John Tytler, of Rockland, was selected as their standard bearer.

THE BAY OF QUINTE ANNUAL CONFERENCE.

IMPORTANT REPORTS PRESENTED.

The General Superintendent in the Chair—Reports on Sunday Schools, Church Property and Temperance Presented.

AFTERNOON SESSION.

At 1.30 the conference resumed.

After devotional exercises and routine the report of the memorial committee was presented. The first clause recommended memorializing the general conference to make the ministerial term five years instead of three years.

Rev. J. J. Rice opposed this clause, as it was the thin end of the wedge tending to the displacement of the itinerant system, the peculiar feature of Methodism. The larger the term the greater the difficulty of breaking the ties between pastor and people and the less able for the minister to not be influenced by local attachments and issues. The five years term would tend to emphasize the financial desparity between charges to the disadvantage of incumbents of poor charges. He opposed the adoption of the clause. A few five years terms would keep some ministers a great part of their life on missions.

Rev. Gilbert Horton favoured the clause and claimed a five years' term as permitting a minister to give better effect to his work.

The clause was rejected amidst applause.

The second clause, asked the General Conference to so legislate that the stationing committee do not recognise invitations to the pastorate of quarterly boards; after some discussion it was referred to the committee on the itineracy.

The report was laid on the table to permit the presentation of the report of the Layman's Convention.

SUPERANNUATION.

Dr. Crowle presented a deliverance from the Laymen's Convention, enclosing the following resolution, which was received.

We, as members of the Bay of Quinte Conference, believe that we cannot do away with the superannuation fund. But we recommend that the mode of raising the fund as contained in section 397 and 398 of the revised report of Superannuation Fund Commission, should be changed as follows:

1st. That each minister and probationer shall pay as at present $12 per annum until the salary exceed $500.

2nd. That upon all salaries including board and fuel amounting to between $500 and $700, one and a half per cent. be paid by each minister, and upon all salaries from $700 to $1000, there shall be paid two per cent.; and from $1500 to $2000, there shall be paid two and a half per cent,; and from $1500 to $2,000, there shall be paid three per cent.; and above $2,000 there shall be paid three and a half per cent., in addition to the $12.00.

3rd. That the balance required to maintain the fund in its entirety be levied on the amount raised for ministerial support only.

The Superanuation Fund Committee reported but on resolution the report was tabled pending the discussion of the report, clause by clause. of the Superanuation Fund commission.

On a motion of Dr. Crowle to amend section 397 by substituting the second clause of the Laymen's report,

Rev. J. S. Clarke moved that the principle of assessment for the superanuation ministers, fund shall be as follows: On all incomes up to $600, the sum of $12; on all incomes up to $1,000 a further increase of 2 per cent. on the amount over $600, making $20. On the same basis on all salaries up to $1,500, 2½ per cent over the $600 and on all sums over $1,500 ten per cent on the amount over of $600.

The first part of clause 398 was amended by adopting the second clause of the laymen's report, presented above, as amended and the remaining portion adopted.

Clause 399 was adopted, and clause 400 verbally corrected, and the balance of the report adopted, excepting clause 417, which was amended by making annuities to ministers' children apply only to such children as are born during the fathers' ministry.

Conference adjourned.

FIFTH DAY.—MONDAY.

MORNING SESSION.

Conference resumed at 10 o'clock.

After devotional exercises and routine, Rev. Dr. Carman, general superintendent, was introduced and placed in the chair, and briefly addressed the conference, and in a fine address pointed out the great increases in the church and its interests since the union, which was consummated in Peterborough. The church had passed through serious crises, and had passed through them all with triumph There had been abundant prosperity consequent upon the union. The venerable speaker referred to the Sunday School and Epworth League as the outcome of the preaching of the Methodist church, and he went on to point out the duty of the ministry in respect to the interests of these great agencies for the promotion of God's cause. A stirring appeal was made to the ministers to boldly preach against sin and iniquity in high places wherever it appeared—not to be partizan but loyal, faithful preachers of righteousness in the interest of the country. Dr. Carman's eloquent and forcible address was heartily applauded.

A communication was read from Rev. Dr. Withrow, editor of Sunday School publications, setting forth the great increase in every department of Sunday school work,—Referred to the Sunday School committee.

COLLEGE REPORTS.

Rev. O. R. Lambly read the encouraging reports of the Wesleyan Female College, Hamilton, and the Ontario Ladies' College, Whitby.—Received.

A vote of thanks of the Conference was passed to Dr. Carman for his eloquent sermon of Sunday and his inspiriting address of this morning.

Rev. Principal Dyer presented the annual report of Albert College, Belleville, showing excellent results and that the College is in an excellent position for doing its work.

The resident ministers of Belleville spoke strongly in favour of Albert College and believed it was doing the best work of any College in Canada.

Rev. J. H. Oke presented the report of the church property committee and permission was granted to sell part of the Whitevale parsonage lot, the Janetville church lot, the Gosport and Parks churches, Bay circuit, to remove the Kirkfield church, to sell the Warsaw church and parsonage, to sell the Enniskillen parsonage, to sell one half acre of the Salem church lot, to sell the Glenairn church, Woodville circuit, and to sell the Bethel church, Janetville circuit.

THE TEMPERANCE COMMITTEE REPORT.

Rev. S. T. Bartlett presented the report of the temperance committee which was on the line of no compromise—"war to the knife" with the liquor traffic.

The following clause of the report created a rather timely discussion on the form of wording:

"We urged upon our people the desirability of supporting only such candidates for municipal and parliamentary offices as are pledged to prohibition of the liquor traffic and we believe that that party which makes the prohibition of the importation, manufacture and sale of intoxicating drinks, a vital plank in its platform is worthy of the support of every true Methodist elector."

Several verbal changes were suggested, some of the ministers holding that the clause was too sweeping and tended to committing the conference in the support of a party which might have very hurtful and objectionable principles aside from the prohibition plank of its platform.

Rev. A. Browning made a vigorous little address in support of the paragraph of the report. He pointed out that Mr. Meredith was in favour of prohibition, coupled with a second plebiscite and that Sir Oliver Mowat was in favour of fair and square straight prohibition. The speaker dissented from the worthy president's (Dr. Carman) suggested amendment to the paragraph, pledging support to the party that would give prohibition, "other things being equal." He would vote for the men that would give prohibition no matter whether "other things" were equal or not—whether he was Tory or Grit. No side issue should interfere with his vote being cast in favour of prohibition. He appealed to the ministers to cast off their Grit and Tory prejudices and vote straight for prohibition. Rev. Mr. Browning's remarks, which had the old time ring, were loudly applauded. It was finally decided to adopt the clause as it stood and the rest of the report was adopted with the verbal change of the expression "war to the knife" to "war to the death" against the liquor traffic.

It was resolved that the conference elect two ministers and two laymen as delegates to the Dominion Alliance.

A resolution was also adopted, that no evangelist be permitted to enter any circuit to hold services without the invitation of the superintendent.

CANADA FOREVER.

Beautiful Views of Our Beautiful Dominion.

In the pages of the EVENING EXAMINER will be found a coupon referring to "Canada," a portfolio of original photographic views of our beloved country. This portfolio is published in weekly parts. Each part contains not less than 16 pages 10x14 inches in size of illustrations and descriptive matter. Twenty-six parts will comprise the series, making altogether upwards of four hundred superb photographic views, covering the whole vast domain of British America. The object of this splendid series of Canadian fine art pictures is to provide the people of Canada with a scenic and descriptive reproduction of the artistic beauties of Canada and the evidences of its resources and material progress—to show Canada's glorious lake, river and mountain scenery—to depict in panorama of photographic pictures the urban and rural life of the Canadian people—to place within the reach of our own people the means of acquainting themselves with all that is notable in the national features of our own country. Every home should have one of these portfolios; they will be a never-ending and perpetual delight to the family, to callers and friends, an ornament to the home, a mine of wealth of scenic beauty and illustration of the resources of Canada. How to get this portfolio. Cut out the coupon printed in each issue of this paper and send or bring it with ten cents to the EXAMINER office. Part I is now ready, and the remaining parts up to 26 will be issued weekly. Only 10 cents a week will give you at the end of the series a magnificent volume of nearly 400 pages. The pictures, 400 in number. are superb, half-tone photographs of mountains, rivers, lakes, forests, cities, towns and other picturesque features of the land we live in. Be sure to cut out the coupon and enclose ten cents with it and get series No. 1. Begin at the beginning and don't by delay regret that you are missing this great chance.

THE CATHOLIC PRIESTHOOD.

IN ITS RELATION TO THE CHURCH AND TO THE WORLD.

Eloquent Discourse by Very Rev. Dean Harris, of St. Catharines, in St. Peter's Cathedral — Large Congregations Present—Liberal Collection in Aid of the Catholic Association.

A large congregation assembled in St. Peter's cathedral Sunday evening to listen to the eloquent and scholarly lecture of Very Rev. Dean Harris, of St. Catharines. Rev. Father Casey sang vespers and Rev. Father Scollard officiated at benediction. His Lordship Bishop O'Connor, Rev. Father Kelly and the cathedral clergy had seats within the sanctuary rail.

Very Rev. Dean Harris began his lecture in St. Peter's Cathedral, by stating that no sooner had the human race been driven from Paradise, than men sought to propitiate the Almighty by sacrifice, offering up the first fruits of their flocks. This was the natural priesthood. which was followed by the patriarchal, when the heads of tribes acted as priests for the whole people offering up like sacrifices. In time God chose a people and established Moses as their leader. After withdrawing them to the desert Moses formed them into a military body. Then for the first time since He breathed a living soul into the first man Adam, and spoke face to face with him, He came and spoke face to face with moses on the Mount. He first gave him the moral law and then the commandments. But as there can be no religion without a priesthood, he after marvellous miracles chose the family of Aaron for the priestly office. The Rev. Dean's description of the conferring of the true priesthood on Aaron and his sons was beautiful. He pictured in glowing language Moses leaning on the arm of Aaron, preceded by his sons and the whole military array of Israel, and in sight of the whole people pouring on them the holy oil, sprinkling them with the blood of the sacrifice and declaring "Israel, behold your priests." Almighty God laid down for them a liturgy and gave minute directions concerning the vestments and manner of sacrifice. The Rev. lecturer dwelt at some length on the sacredness of the office of the Aaronic priesthood, and how the providence of God watched over them and maintained their dignity. When describing the revolt of Cora, Dathron and Albion, so picturesque was the description that you would consider yourself an eye-witness of the approach of these men to the venerable Aaron with their 15,000 followers to offer the unauthorized sacrifice, and to their disappearance for ever into the earth which opened wide to receive them. His description of the aged High Priest, as in all the dignity of Ephod tunic, rational, &c., he went forth to meet the conquering Cyrus was a real word painting. When Almighty God became displeased with the Jewish people on account of the hardness of their heart, the second Person of the Blessed Trinity in the words of the prophet said, "Sacrifices and oblations thou wouldst not, thou hast formed for me a body, behold I come," and the Son of God became man. In the words of the prophet, God had declared his displeasure with the Jewish priesthood, and fortold another priesthood which should make His name great among the Gentiles. "I will not accept sacrifice from your hands; I have no pleasure in your gifts; from the rising of the sun to the going thereof in every place there is offered a clean oblation, for My name is great among the Gentiles." The rev. lecturer then described the establishment of the Christian priesthood by our Divine Lord. He dwelt upon the sublime dignity of this new creation. He pictured the last sun that set upon the Aaronic priesthood and the real priesthood foretold by God Himself through the prophets of old, rising from its ruins. He showed by frequent quotations from St. Paul how much superior in dignity the priesthood of Jesus Christ was to that of Aaron. He then in familiar language discoursed upon the duty and work, the sacrifices and heroism of the Catholic priest, his labours in the confessional, in the administration of the sacraments, and in the temporalities of the church, concluding his discourse with a pathetic description of the priests death and the rewards that awaited him after years of sacrifice in the priesthood. His peroration was intensely eloquent comparing the welcome which awaited the faithful priest to that which greeted the martyre of old, ending a splendid discourse with the words of the prophet "Come from Libanus my beloved come, thou shalt be crowned from the top of Emena, from the top of Sarier and Herron, from the dens of the lions and the mountains of the leopards. This is but a brief condensation of a magnificent lecture which could only be appreciated by those who were fortunate enough to be present. Should the Very Rev. Dean come again to Peterborough the cathedral will not be large enough to contain the vast audience which will assemble to hear him.

ENNISMORE'S ANNUAL PIC-NIC

A Great Day of Enjoyment Promised—An Exciting Canoe Race.

The annual Pic-nic of St. Martin's church Ennismore, will be held in a beautiful grove, at Gannon's Narrows, on Wednesday, June 13th. One of the great attractions of the occasion will be a canoe race for a prize of $10 in gold, or for those who do not wish to risk their amateur standing, a silver cup of equal value. This event is open to the two counties of Peterborough and Northumberland, and already there are two entries, which insure a speedy and game canoe contest. The conditions governing the race are:—Distance, 1½ mile—three-quarters of a mile with turn; canoes must not be more than 17 feet in length nor less than 24 inches beam. The two entries already made are Mr. Geo. Taylor and Gardiner Nicholls, two old rivals, who will doubtless put up an exciting race. But the entries are not confined to these two; any other canoeist in the two counties can enter the contest. In addition to this grand canoe race there will be a full programme of sports and games, excellent dinner will be provided and speeches appropriate to the occasion will be delivered. Special reduction in railway and steamer fares for the occasion. Remember the date, June 13th, and watch posters for particulars.

EDMUND YATES.

Sketch of His Successful Journalistic and Literary Career.

Edmund Yates, one of the most accomplished and genial of English journalists, would have been sixty-three years old in July of 1894 had he lived until then. He will long be remembered as the inventor of society journalism and the founder some twenty years ago of the London World, a paper which was the first of its kind, and which, while mainly devoted, like its more recent rivals, to topics of a purely personal kind, has always maintained a high reputation for dignified management as well as for literary excellence.

Edmund Yates was the son of Frederick Yates, a well known actor. He was born

EDMUND YATES.

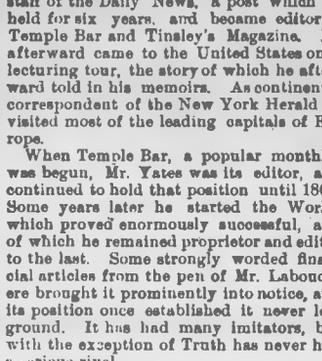
n Edinburgh in 1831. His father had much to do with the mangement of the Adelphi Theatre, then the home of melodrama. Some of Dickens' works were dramatized and produced there, and the novelist was so delighted with Mr. Frederick Yates' impersonation of Mantalini, Fagin and Quilp that he became quite friendly with the actor and afterward with young Edmund.

The boy tasted the sweets of London life when he was but a fledgling. The Marquis of Clanricarde, an old friend of his father, on being appealed to by Mrs. Yates, found him a clerkship in the post office. He was then about sixteen years old. At an early age young Yates resolved to become a literary man, being moved to that determination, as he tells us in his memoirs, by the reading of Thackeray's "Pendennis." He longed to become one of that cheery band which comprised Sala, Jerrold, Shirley Brooks, Oxenford et id genus omne, and it was not long before he made his maiden effort.

It was not until Albert Smith took him up that he made any advance on the stony road of his choice. In the year 1854 Mr. Yates made the acquaintance of Dickens. He called on him at Tavistock House and the novelist became one of his warmest friends. Yates now became one of the little crowd of writers whom Charles Dickens drew round him in the early days of Household Words. He published, in collaboration with Mr. Frank Smedley, a volume of floating verse entitled "Mirth and Metre by Two Merry Men," which captivated the town. He was also permanently engaged as dramatic critic on the staff of the Daily News, a post which he held for six years, and became editor of Temple Bar and Tinsley's Magazine. He afterward came to the United States on a lecturing tour, the story of which he afterward told in his memoirs. As continental correspondent of the New York Herald he visited most of the leading capitals of Europe.

When Temple Bar, a popular monthly, was begun, Mr. Yates was its editor, and continued to hold that position until 1867. Some years later he started the World, which proved enormously successful, and of which he remained proprietor and editor to the last. Some strongly worded financial articles from the pen of Mr. Labouchere brought it prominently into notice, and its position once established it never lost ground. It has had many imitators, but with the exception of Truth has never had a serious rival.

Edmund Yates' best known works are novels of English and Continental life containing a series of well drawn characters and some insights into life which are not always calculated to elevate our ideas of men and women. But Mr. Yates, like Thackeray, depicted life as he saw it, not as he would imagine it, and hence if some of his characters are more noted for force and individuality than for amiability or good morals, the plea that he is reflecting nature and not making poetical ideals has been made in his case as in that of others. Mr. Yates was of a fine physical organization, and his clear, powerful voice rendered him excellent service in the lecture room. Cheery, clever and good natured, he has left behind him a host of friends. For some time past Mr. Yates has lived at Brighton, where he had a handsome mansion on the esplanade, overlooking the sea. Here he preferred to live rather than in the turmoil and gloom of London, and from here he used to edit his paper, one of the weekly features in which was a charming paper of reminiscences signed "Moi-Meme."



Tobacco is man's most universal luxury; the fragrant aroma of Mastiff Plug Cut starts people to pipe smoking, even those who never used tobacco before.

TRIAL OF MR. WIMAN

He Is Arraigned in New York for Forgery in the Second Degree.

STATEN'S EX-KING CHEERFUL

The Specific Charge That of Forging a Cheque for $5,000 — Hon. J. W. Longley, of Nova Scotia, Will Assist in the Defence.

NEW YORK, June 12.—The trial of Erastus Wiman began in the Court of Oyer and Terminer before Judge Ingraham. Assistant District Attorney F. L. Wellman will conduct the case for the people, while the interests of Mr. Wiman are being looked after by Gen. Benj. F. Tracy, Lawyer A. B. Boardman and Jas. N. Greenshields, Q. C., of the Canadian bar. District Attorney J. R. Fellows was present in court when the proceedings began. Mr. Wiman looked very bright and cheerful as he took his seat by his counsel.

Mr. Wellman announced before the trial that Mr. Wiman would be put on trial only on one count, namely, for forgery in the second degree. The specific charge is that he forged the signature of E. W. Bullinger to a cheque for $5,000 drawn on Feb. 6, 1893, on the Chemical National Bank.

The last juror was sworn in at 3.40 o'clock. An adjournment was then taken until to-day. Judge Ingraham, in dismissing the jury, warned them against discussion about the case.

It was announced in the court that the Hon. J. W. Longley, attorney-general of Nova Scotia, would be on hand to help Gen. Tracy in the defence.

Ten years is the maximum penalty of the punishment that can be imposed on Mr. Wiman if he is found guilty of forgery in the second degree.

OLD MULEY HASSAN DEAD.

The Sultan of Morocco Dies From Malignant Fever.

MADRID, June 12.—El Globo prints advices from Fez which say the Sultan of Morocco is dead. It is ascertained the Sultan died en route between Marakesh and Rabat.

The latest despatches from Morocco say that Muley Hassan died of malignant fever. His successor, Mulai Abdul, is 18 years old. He is the son of the old Sultan's favorite wife, the Circassian woman. The old Sultan's famous one-eyed son, the firstborn of his numerous children, is already regarded as a pretender, and it is feared that he will take advantage of the first opportunity to incite the people to rise in his behalf. The Cabinet decided in council to double the garrisons at Melilla and Ceuta, Morocco. Warships have been ordered to Mazagan, Tangier and Rabat, all ports of Morocco, as the Spanish government fears that the change of sovereigns may prove the signal for numerous outbreaks.

The Death Duties.

LONDON, June 12.—A further meeting of the Agents-General of the colonies was held at the offices of the High Commissioner for Canada, when the subject of Sir W. Vernon Harcourt's proposals in reference to the death duties, was again discussed, together with the methods to be adopted in enforcing their united protest. Nothing definite was decided on, but the proceedings indicated that the original idea of sending a deputation to wait upon the Chancellor of the Exchequer would be abandoned leaving the strong probability that if anything is arranged it will be by a private talk with Sir William Harcourt.

Reception on the Chicago.

LONDON, June 12.—The reception given on board the United States cruiser Chicago at Gravesend was largely attended and was a brilliant affair in spite of rainy weather. The spar deck of the ship was covered with a canopy and decorated with flags of all nations, those of the United States and Great Britain spanning the vessels amidships. A cold collation was served to the guests on the gun deck. The officers of the ship were in undress uniform and the music was furnished by the ship's band.

Against the Fast Line Subsidy.

MONTREAL, June 12.—Joint committees of the city council and Board of Trade met yesterday and passed a resolution, after different phases of the fast Atlantic project had been fully ventilated, to the effect that a memorial on the subject be prepared and submitted to the Government at Ottawa, embodying the especially emphatic opinions prevailing in the city with regard to building up of foreign ports at the expense of the people of Canada during winter months, when navigation is closed on the St. Lawrence.

Explosives in Algiers.

LONDON, June 12.—A despatch from Algiers says that about seventy-five pounds of explosives were seized by the police in a house in the Moorish quarters of that city Friday night. The explosives were of French and Italian make. It is believed that it was the intention of the anarchists to use these explosives to blow up the theatre and barracks, in accordance with the threats several time conveyed to the authorities in recent annoying letters.

FRASER VALLEY FLOOD

The Reports Sent Out by Correspondents Not Exaggerated.

GOVERNMENT BRIDGES GONE

They Have Been Washed Away at a Loss of Half a Million Dollars — The Death Roll — Actual Loss From the Disaster Not Yet Computed.

VANCOUVER, B. C., June 12.—Engineer Tracy came through from Ashcroft by handcar, steamer, raft, train and tramway on Saturday night, being the first passenger from the east in a week. He reports it was cloudbursts up the line which tore away the track and trestle work at Pennys and Gladwin.

Half a million dollars worth of government bridges have been washed away on the Thompson, Bow and Columbia rivers. There are washouts at Savonas, Ashcroft and Lytton, and at Kicking Horse Pass, Hell Gate, which is one hundred feet above low tide, is out of sight.

A number of letters have been sent to the newspapers asking for relief and signed "Suppliant." The distress in many districts is very great.

The newspaper correspondents have been accused of sending out exaggerated accounts of disasters. This, however, is not correct, the accounts, under the circumstances, being mostly accurate. So far the death roll, as far as is known and not proved to be incorrect, is: McTavish, Canadian Pacific railway employe; child of Peter Brown, at Langley, swept away by the floods from the veranda of its father's house; five bodies, alleged to have been seen by two passengers on a flood-bound train, and reported to the captain of the steamer Transfer, who wired the news to a friend and so reached the newspapers; three Chinese and two Indians, also seen floating in the river, landed in the debris, and the reported finding, by the postmaster at Hammond, of the bodies at Hanen.

The woman found at Haney is said to be about 50 years old, with grey hair. The children are about 6 and 4 years old. At New Westminster the water has not risen any more, but the mills and the lower town are still flooded. There are bad washouts on the tram line between there and Vancouver. The West Home Island people are alarmed by the fact that the river bank is being washed away and disappearing like melting sugar. All the settlers in the district are out working night and day strengthening the banks. The serious damage has only recently been commenced to be felt.

The loss from the floods has been very heavy. From a dozen other small places come the reports that the houses are being undermined and washed bodily down the river, several of them being handsome three-story country residences.

At two places along the line, where passengers are detained, they are fishing out of the car windows and supplying a slim larder with smelt, herring and other varieties of the finny tribe. The Chinese merchants are subscribing handsomely to the relief fund, all of them in Vancouver donating. There are no exceptions, every man in business is contributing according to his means.

Half the town of Kaslo is flooded, the people are crowded into the remaining houses. Several buildings have been swept away, and large loss has been sustained by the mining companies. A meeting of the provincial cabinet ministers, all the mayors and city councils in the province is being held at the board of trade rooms at Vancouver to adopt a plan to raise enough money to relieve widespread distress in the Fraser valley and along the Thompson, Columbia and other rivers. An accurate conservative estimate of the damage and loss by the floods in the province will be completed as soon as the worst is over to send to the Dominion Government.

The Canadian Pacific people are unable to say positively when they can transfer passengers across the continent. They may be able to-day to get the passengers as far as Kamloops, but as the wires are still down little is known of the condition the track east of that. The railway photographer went up the line on Saturday to take photos of all the washouts on the road to send to the head office. Hundreds of telegrams are still pouring into Vancouver from friends in the east asking the recipients if they are safe and need any assistance.

HOOPER'S TRIAL.

Miss Stapely Brought From Ottawa on a Bench Warrant.

THREE RIVERS, June 12.—At the trial of Hooper, charged with the attempted murder of his wife, the plans of the surroundings where the tragedy is alleged to have occurred were put in. A young man named Grenier said Mrs. Hooper came to his sister's house on the morning of September 11 and stated that she had been thrown into the river. A bench warrant was issued for Miss Stapely, of Ottawa, who is wanted as a material witness.

Miss Stapely arrived in town in charge of a police constable and appeared in court accompanied by M. Docher, who, during her brief evidence, administered smelling salts. She testified to becoming acquainted with Hooper and of her engagement to him. Further examination was postponed as she was in a weak state. A number of witnesses were examined, the principal ones being the Misses Desaulniers, of Louiseville, at whose house Hooper's wife sought refuge on the morning in question after climbing out of the river.

Here for the Conference.

VICTORIA, B.C., June 12.—Six Australian and New Zealand delegates to the intercolonial conference, to be held in Ottawa, have arrived here on the steamer Arawa. They met the Board of Trade and were entertained by the latter. Speeches were made, but the utterances of the speakers gave little indication of what ideas are to be advanced at the conference. The delegates left on the Arawa for Vancouver. The concluding portion of their journey eastward will be over the Canadian Pacific railway.

THE RIFLE AND RANGE.

The following scores were made to be placed to the credit of the P. R. Association in the second league match. This is an exceptionally high score there being no less than four men over ninety. Last year in the Governor General's match in which the highest hundred in the grand aggregate compete there were only three that reached ninety-three and over, while there are four in the Peterborough ten in this match. The possible number of points is 105. The four highest scorers beat their former records:

DIED IN THE SOUTH.

The Husband of a Daughter of the Late Thomas Ryan, of Otonabee, Dies in Texas.

Word was received in Peterborough yesterday of the death of Mr. Harry Kimball, of Stirling, Rice county, Texas.

Mr. Kimball was the husband of Miss Essie Ryan, daughter of the late Thomas Ryan, of Otonabee, whom he married while she was visiting her sister in Michigan some years ago, and who has a large number of relatives residing in this county who will sympathize with her in her loss. Mr. Kimball was a cattle and general stock dealer on a large scale. It has not been ascertained as yet whether the family will return to Canada or not. There are four children.

NO MORE FITS.

Mrs. William Langley was Subject to Them for Five Years—Dodd's Kidney Pills, which Never Yet Failed, Cured Her.

LONDON, June 11.—Mrs. William Langley, of 21 Euclid Ave, London South, has for the past five years been subject to fits. She was treated by doctors in Lansing and Detroit, Mich., and by three different physicians in London. No one of them could cure her. About two months ago she began using Dodd's Kidney Pills Since then she has had no return of the fits. To-day she is perfectly cured. Her trouble was undoubtedly due to kidney disorder, a fact which the physicians who treated her never discovered and consequently, their treatment was in vain.

Daily Examiner.

TUESDAY, JUNE 12, 1894.

THE OLDEST PATRON SPEAKS.

The leading editorial in a late issue of the Canada Farmers' Sun, is devoted to Alexander Wood, East Nissouri, Oxford County, and to his son William, who for the past four years represented North Brant in the Ontario Legislature.

Of the father, the Sun says:—"The oldest Patron in Oxford has a record that is unique. A sturdy, honest, intelligent Scotchman, he proudly maintains the principles of our order, and champions our cause against all comers."

Referring to the son the Patrons' organ says:—"In a neighbouring constituency the son—also a sturdy, honest, intelligent man—has becomean exponent of Gritism, and is the sitting member for the Legislature, The son is a dutiful fellow, but filial regard cannot influence him to cease to worship at the shrine of the Premier of the Province."

In reply Mr. Wood, sr., writes this letter to his son:

"You are quite able to tell the electors of North Brant why you have given the Government a general support and, like myself, I think you can point to your public and private record as to the best proof of your honesty and intelligence. So far, so good; but the point of the editorial is the subsequent reference made to myself, viz: 'The aged parent will, however, regard it to be a duty to support the Patron candidate, who is contesting the riding of North Oxford against Sir Oliver.' This statement is wholly and entirely untrue. I am a Patron and it is true that I have always been willing to maintain the principles of our Order, but I have never considered myself bound, and I will not be bound, to turn my back upon Sir Oliver Mowat in the present contest. I do not claim to be in exact accord with every part of Sir Oliver's policy, but my intelligence is at least great enough to appreciate good government wherever I find it, and taking it all in all I regard it as the best we have ever seen in Canada. In another sentence the editor says: 'To battle for purity and economy in the administration of public affairs is a record that many good men of to-day will be proud to leave to their children's children.' These are true words and they furnish the very reason why I intend to support the Mowat Administration. I am not prepared to barter away my liberty and sacrifice my judgement and independence to satisfy the ambitions of the men who framed the slavish resolutions of 1894. No political party ever sought thus to "boss" and "bully" its supporters. Perhaps the editor will now place my name in the black list along with Joseph Stratford, the President of the county of Brant Association; a gentleman who has done heroic service for the Patrons of Ontario, and who is (in the Farmers' Sun of May 15), accused of being a partisan. Well, let it be so. We are in good company, Mr. Stratford. The list of good Patrons who refuse to oppose parliamentarians who have done all in their power for the farmers is swelling every day, and nothing so much tends to add to its number as the foolish attempts of some of our leaders to muzzle and chain their followers."

AN IDEAL SCHOOL SYSTEM.

An Associated Press despatch that was published in the leading newspapers of the world, dated from the World's Fair grounds, Chicago, Sept. 27:—"Sir Richard Webster, chairman of the Royal British Commission to the World's Columbian Exposition, has been thoroughly exploring the fair during the past week. The distinguished statesman, having completed the rounds of the exhibit courts of the different provinces of the Dominion, was asked what he thought of their displays. Sir Richard unhesitatingly declared that he was astonished both as to the magnitude and perfection of most of the exhibits, but said what struck him most forcibly was the Ontario Educational Exhibit in the gallery of the Liberal Arts building. Further, he expressed the opinion that it was one of the most beautiful and instructive in the whole exhibition. He thought Ontario's the only exhibit that at all approached his ideal of what an educational exhibit should be, for he considered it the most perfect in arrangement and explanstory in a simple and satisfactory way of the finest practical system of public education, from the kindergarten to the university, that the world affords to-day."

Mr. A. W. Wright, Secretary of the Order of the Knights of Labor, Philadelphia, formerly of Toronto, says: "While there is a good deal of legislation which we labour cranks think should be enacted, I am free to say that Ontario has not much to learn from any State in the Union in this respect, and is immeasurably in advance of most of them."

THE longest continuous record in the annals of British Parliamentary Government is that of the first Pitt Ministry, which remained in power for over seventeen years. The Mowat Government has exceeded his record by five years, or twenty-two years in all.

Three Wants.

"Reason's whole pleasure, all the joys of sense,
Live in three words, health, peace, and competence."

So says the poet. Competence counts for little when one is sick, and peace is disturbed, when health is upset, so that the poet rightly places health first. To have good health you must have pure blood. From the blood the system receives all its material of growth and repair. The best blood-purifier is Dr. Pierce's Golden Medical Discovery, which is world-famed and sold everywhere. It is a soverign remedy for all diseases due to impoverished or impure blood, as consumption, bronchitis, weak lungs, scrofula, old sores, skin diseases and kindred ailments.

Delicate diseases of either sex, however induced, promptly, thoroughly and permanently cured. Send 10 cents in stamps for large illustrated treatise, sent securely sealed in plain envelope. Address World's Dispensary Medical Association, 663 Main street, Buffalo, N. Y.

AFFLICTED FROM INFANCY.

A Lad Who Had Been Dropsical From His Childhood Cured by Dodd's Kidney Pills—The Remedy That Never Failed.

McINTYRE, Ont., June 4—The young son of Hugh Lamont of this place has been afflicted with dropsy from infancy. He was bloated and swollen all over. His parents were at their wits end to find some cure for him when they read of Dodd's Kidney Pills. Mr. Lamont got six bottles of the pills and the boy began taking them. Before the sixth box was finished he was cured. It doesn't matter whether the patient is young or old, the pills will effect a cure of any kidney disease or of any disease arising from disordered kidneys.

ROYAL BARGAINS!

Here are a few actual specimens of some of the RICHEST NUGGETS in the Dry Goods line thrown on the market for many a day.

To avoid sensationalism—we stick to facts—some houses nowadays seem to think the public are prepared to swallow any and every assertion. They draw on their imagination for the worth of a thing, even going back to the worths and values of twenty or twenty-five years ago, in order to make their prices seem low to-day.

When we quote an article as worth a certain price, we mean its Market Value TO-DAY.

The following prices will tell the story of what SPOT CASH can do to-day—the result of our offer being unexpectedly accepted for a lot of goods

WORTH ABOUT DOUBLE THE PRICE—

5c. 3 Papers of Good Pins. Good Glass Towelling. 1 Pair Good Towels. Good Flannelette. Good Straw Hats.

10c. Good All-Wool Debeige. Good All Wool Delaine. The Best 15c. Prints. 2 Ladies Knitted Vests. Ladies' Fast Dye Black Hose.

15c. 4 Good Lawn Handkerchiefs. 4 Nice Fancy Frills. Fancy Veiling. Nice Ceylon Flannel. White Japanese Silk Hemstitched Handkerchiefs.

20c. 500 yards Lovely French Figured Crepons, to be sold at 20 cents a yard—sold everywhere else at 25 cents.

25c. 2 pairs Ladies' Lisle Gloves. 2 yards of Fancy Coloured Skirting with Border. 3 yards Fine Checked Muslin. 3 pairs Gents' Wool Socks. 3 yards of Satin Striped Muslin.

30c. 750 yards of Beautiful Dress Goods to be cleared out at 30c. These Goods would be good value at 50c.

35c. Good Kid Gloves. Good Lace Curtains. Good Corsets. Ladies' White Chemisettes.

40c. 3000 yards of Good All-Wool Silk-Finished Henriettas at 40c. These Goods are actually worth 60c.

Y.P.S.C.E. NOTES.

Under the above heading we propose to insert all items of interest to Endeavourers, and trust each society will see to it that we are kept informed of work done or work contemplated. Let some one member be appointed to help us, and you will find these Notes of interest. Please send in at least two copies of your report; write on one side of the paper, addressed to "C. E. Editor," Box 865, Peterborough.

The junior societies held a rally in the Y. M. C. A. hall on Saturday afternoon, and a very enthusiastic gathering it was, the children displaying a keen interest in the meeting. The reports of the different societies showed that this portion of the C. E. work was progressing favourably, five societies being represented at the gathering. The junior workers present were: Rev. A. MacWilliams, Rev. Mr. Trotter, Miss Quinn, Mr. Ward, Miss Kennedy, Miss L. Dixon, Miss Cassie Robertson, Miss Laura Bennett, Miss E. Smith and Mr. Padey. Shortly after 3 o'clock Miss Quinn, superintendent of junior work, took took the chair. The meeting was formally opened by Rev. Mr. Trotter offering prayer. The programme was then proceeded with, after receiving greetings from the Toronto junior union. The musical and literary portion was very interesting, every number receiving very hearty applause. St. Andrew's society brought forth some youthful talent that in the very near future will not only be a credit to their society, but to the entire community. Mr. Ward, secretary of the county union, gave a practical address to the children, illustrating the many parts of his subject on the blackboard, which was not only beneficial to the juniors, but to the many seniors present, who received ideas that will help them very much in the work. The reports of the different societies were received and the members of each society responded by the singing of an appropriate hymn. Miss Quinn in the closing remarks spoke very feelingly of their late friend, Miss Mercer, and of the great loss the Juniors received by her death. Miss Quinn, to encourage the different societies to have their books in neat shape, offered to present the society that presented the neatest set of books at the next rally, with a pledge roll to be hung up in the place of meeting. The Junior workers have every reason to be satisfied with the success of the rally. The different numbers on the programme, the reports and the discipline throughout shows that the children are under careful training. And when the time comes for the senior members to retire from the work they can rest satisfied that the rising generation will be duly qualified to fill their place. The Junior Executive held a meeting immediately after the rally to select a secretary for the ensuing term to take the place of the late Miss Mercer. Mr. Pady signified his willingness to act as secretary for this term. The Junior Executive will meet on the first Tuesday of each month.

RALLY.

The rally held by Smith local union in Selwyn Baptist church on Thursday, June 7th, was quite successful. The church was filled with Endeavourers and their friends and all enjoyed a genuine Endeavour rally. Music was led by a union choir. The president, Mr. Roberts, occupied the chair. Devotional exercises were conducted by Mr. H. P. Kennedy, of Coldsprings, followed by an address of welcome to the visiting Endeavourers by Mr. Roberts, after which all rose and sang, "Blest be the Tie that Binds our Hearts." Then came three short papers on committee work, viz., "Prayer Meeting," by Miss Nelson; "Missionary," by Miss McEwen, and "Lookout," by Miss L. Mann. The papers contained many helpful suggestions it would be well for our committees to follow. Enthusiastic and impressive addresses were then given by Mr. Ward, county secretary, on "Why should Christians be Christian Endeavourers," and by Miss Quinn, on "Why should anyone object to the pledge." Both addresses were highly appreciated. The Rev. Mr. Myers was then introduced and addressed the meeting. Mr. Myers was pastor of the Methodist church at Selwyn some years ago and it was a pleasure to see and hear him again. Miss Frise, of Peterborough, then led a short consecration service, after which the meeting was closed by singing "God be With You Till we Meet Again," and benediction by Rev. Mr. McLeod.

On Friday next, June 15th, the annual Endeavour Excursion takes place. We go to Jubilee Point this year on the new steamer, the "City of Peterborough." The boat leaves Wolf street wharf sharp at eight o'clock—don't be late. The price of tickets is ow. Adults 50c. children 25c. We hope to see a large number of Endeavourers and their friends. The committee in charge will do all they can to make the day pass pleasantly. Canoes will be taken free. Games will be indulged in on the grounds, and the following programme will be provided in the pavillion:

Opening at 1 p.m.
Hymn, "Praise Him! Praise Him"
Prayer
Hymn, "Where are the Reapers"
Address.....W. R. Young
Hymn, "Throw out the Life-line"
Question Drawer.....Rev. A. McWilliams
Hymn, "To the Work"
Sentence Prayers
Address.....Rev. J. E. Trotter
Hymn, "God be With You"
Mizpah.....Benediction

THE CONVENTION.

Peterborough, June 11th, '94.

MY DEAR FRIENDS,—I am glad to report to you that the work in different parts of the county is progressing favourably. There is cause for much thankfulness for the success that is attending the work in some districts. Since the convention on Easter Monday there have been rallies in three unions in the county. First at Lakefield, then at Selwyn, a report of which is given in this issue, and lastly a junior rally in Peterborough, which is also reported this week. Now, then, Endeavourers in other districts in the county, what are you doing?

That Cleveland convention! Are you going to send a delegate? I would like to get the names of all who are going from Peterborough so that arrangements can be made for cheapest rates. Excursion rate from Toronto to Cleveland and return is $5.00. Special rates from Peterborough to Toronto if a sufficient number go. Look out for next week's paper.

And now, lastly, what about your contributions for county expenses. Some have come in: George street Methodist, $4.00; Cold Springs, $3.50; Keene Methodist, $2.00; Springville, $1.00. Others have sent to the district secretaries their contributions which will soon come into headquarters.

Wishing you every success in your work, "For Christ and the Church," I remain,

Yours in C. E.,
R. A. WARD,
Secretary-Treasurer.

AN EVENT IN OITAWA.

Baby Flora's Case Causes Much Talk and Surprise.

THE MOTHER MAKES A POSITIVE DECLARATION.

The following case, while it is in many ways wonderful and remarkable, does not furnish the quantity of news that the gossip mongers and sensational readers look for.

The event is recorded for the special benefit of mothers who have babies to care for.

Baby Flora —— is now six months old, and belongs to a well to-do family universally respected in the gay capital. For many weeks the child was not expected to live; medicine seemed to aggravate the case, and made the little one weaker.

The anxious mother was informed one day that possibly Flora's diet had much to do with her sickness; the lady who made this suggestion at the same time recommended a trial of Lactated Food, which she had used herself with grand result for her babies.

A change in baby Flora's diet was immediately made, and in a few days a happy change was observed. The eyes became brighter, the weak stomach could retain and digest some nourishment, and sweet sleep seemed to give new strength. All medicines were discarded, and the Lactated Food used regularly. In five weeks' time baby Flora was a happy, hearty child, bright and cheerful, and a joy to every member of the family.

To-day Flora's mother declares positively that Lactated Food saved her baby's life; she is enthusiastic in its praises, and recommends it to all her friends who have babies.

Mothers who have weak, frail and sickly babes, should derive comfort after reading of little Flora's case. Lactated Food certainly "Saves Babies' Lives."

FRATERNAL ASSESSMENT LIABILITY.

***

"Can't I get out when I please, an have no liability?"

Most people expect "yes" for an answer to this question, when they say they are members of an assessment insurance society, and begin to think of their responsibilities as such. It is important for them to know that they cannot escape liability; because every member, no matter when he drops out, is liable for any deficiencies that may arise in future, if they were developed during his membership. Here is an instance:

The United Masonic Benefit Association of Missouri was some years ago an active and apparently prosperous assessment concern. It provided no reserve, but offered low rates, cheap insurance, and seemingly hoped that new blood would make up for increasing mortality resulting from increasing age. By and bye its forces began to fall off, not enough "new blood" came in, and the cost of membership ran up in a very uncomfortable way. Presently the healthier lives began to feel their burden pressing heavily and steadily left the ranks, until so few were left in the association that the assessments amounted to $140—one hundred and forty dollars—*on each certificate.* The remaining members refused to pay such a sum, and the concern failed. But there were unpaid death claims for a large amount due, and the State Superintendent of Insurance thought they ought to be paid. So he began suits at law against individual members to enforce payment of the assessments against them; the court has decided that they must pay. The feelings of those who are thus compelled to pay what they never expected have undergone a change with respect to assessment insurance.

Replying to some enquiries which had been made upon this point of liability, and citing this case illustration of what may be expected in any similiar case which might be pressed to suit, the *Insurance Monitor* says: "The decision referred to answers our question which has been debated, whether the member's liability is limited to sums which he may choose to pay; in other words, whether he can get out when he pleases without further harm. This he cannot do. Every member, no matter when he may drop out, is liable for any deficiencies which may crop up in future, resulting during his membership. The only safe course for parties that apprehend breakers ahead is to drop their membership before the breakers are reached; and the misfortune of this course is that the faster they drop, the faster the association drives towards the breakers."

There seems to be only one course open for the prudent man who may be determined to avoid possible liability; that is to keep out of such associations entirely and buy his insurance of the regular companies.—*Monetary Times.*

GREAT
Alteration Sale
NOW GOING ON.

We have had notice from the landlord to vacate our store in three weeks to allow the workmen getting to work on alterations to our premises. We cannot get another store to move the stock into, and we want to dodge the chance of damage to the goods by fairly giving away our Clothing and Suit Goods. Everything cut down to cost prices. This Sale will be a record breaker.

Selling Right and Left to Hustle out the Goods.

10 Per Cent. Off all Ordered Clothing during this Sale. This is quite a cut off our already low prices, while fit and workmanship remain the same.

Not For Long

Do we offer you a bargain such as this. Ost-K-Ost is the brand of the best forty cent tea in Canada. New crop will soon be here, we must get rid of this years importation, so we are selling this celebrated tea at twenty eight cents a pound, four pounds one dollar. STROUD BROS., 370 George street.

A Rare Chance.

We take pleasure in drawing the attention of our readers to the advertisement in another column of Pete Simons & Co. This well-known firm are offering rare inducements for this month only to those desiring a nobby suit for actual cost of material and make up. This commendable offer has been made by Mr. Simons on account of the slack times and not wishing to put his employees on short time, should alone bring him a host of orders.

As Popular as Ever.

There was a big crowd out in Court House Park last night to hear the band give an open-air concert. The best programme of the year was rendered as follows:

Lancers.....“Round the Town”.....Williams
Valse.....“Roses from the Ball”.....Docker
Musical Sketch “Plantation Melody”.....Seebold
Valse.....“May Blossom”.....Roy
Overture.....“Carnivalia”.....Williams
Valse.....“Ferryman John”.....Roeder
God Save the Queen.

A Drop of 25 Per Cent.

Frank Anthony is bound to do the fruit trade of the town, and for the next two weeks will sell at 25 per cent less than what other dealers are charging. After that date he will sell right along at Montreal prices, good fresh first class fruit; Messina and blood oranges—in boxes of 100, 200 and 80. Bannnas, lemons and all kinds of fruit—first class and repacked. Frank says he is going to stay in Peterborough for life, and is going to make the fruit trade lively. Wholesale, 161 Hunter street, retail Aylmer street.

A Former Resident of North Monaghan.

Mr. John A. Fowler, of North Monaghan, received a telegram this morning from Jackson, Michigan, notifying him of the death of his wife's brother, Mr. Edward Huggins, of that place. Mr. Huggins was formerly a resident of North Monaghan and married Miss Maggie Walton of that township. He moved out to Michigan some 25 years ago and at the time of his death was foreman in the G. T. R. round house, at Jackson. He leaves a widow and three children. The many friends of the family throughout the county will feel for his bereaved family.

Sale of Superior Household Furniture, Piano, Etc.

Attention is directed to the auction sale of superior household furniture, etc., on Thursday, June 14th, at the residence of Miss Mercer, 336 Rubidge street. The entire contents of drawing room, dining room, bed rooms, sewing room, hall and kitchen will be sold without reserve. As the whole of the effects are in good condition and the furnishings of modern design the sale will no doubt attract a good class of buyers. Special mention is made of the of the superior piano by Fischer of New York, one of the standard makers. The instrument is in splendid condition and is open for the inspection of the best judges. Sale begins at one o'clock sharp. Terms cash. CHAS. STAPLETON, auctioneer.

Now for the Hot Weather.

The warm weather has come at last, and although it is behind time, H. LeBrun & Co. have not been caught “napping.” We are not behind with summer clothing preparations. Everything fully up to date, and now we start the season with a red hot sale all over the store. 'Twill do your eyes good, and your pockets, too, the way we intend to rush things. Nothing to equal or surpass our superior clothing for men, youths and boys. Cool summer coats, vests and suits in all qualities and sizes at unprecedented prices. The boys get a lacrosse stick and ball free with their suits. Ice-saving underwear in fine merino, natural wool. Balbriggan and cotton at the same reduced prices. Clothing will be made to order on similar down grade of prices. This department is very attractive in cloths for suitings. We're bound to make it hot for the hot weather. H. LEBRUN & Co., City Clothing Store. dw

HIS SCULL FRACTURED AND NO HOPE OF RECOVERY.

A Horse Runs Away With a Couple of Young Volunteers with the Result That one is Fatally Injured.

John Riddell, of Bensfort, South Monaghan, being a member of the 57th battalion, came to town on Sunday to participate in the parade of the Rangers. While driving back home with a friend, Harry May, the horse bolted, throwing both occupants out and upsetting the buggy. Young Brown became entangled in the gear in some way and was dragged a considerable distance along the ground, head downwards. When the horse was finally stopped and the unfortunate young man released from his perilous position, he was unconscious, and it was ascertained that his skull was fractured. Dr. Grey, of Baillieboro, was summoned, but could hold out no hopes of the young man's recovery.

Live Stock Market.

This being live stock day on the market quite a number of hogs were weighed on the market scales and also a quantity of cheese. Farmers and others are beginning to see the advantage it is to have their products weighed correctly. In fact one cheese factory reaped benefit by so doing this morning. Others would be wise to do the same.

Court of Revision.

On the appeal of the Mayor and John Carnegie against an assessment of $6,000 on the machinery of the Blythe Flour Mill on the ground that the same was not paid for, matters came to a stand still and some little sensation was created by the appellants refusing to answer the questions of the court, as to their indebtedness in respect of which they claimed exemption, on the ground that to do so would involve an unnecessary exposure of their private affairs. The chairman of the court pointed out that if they chose to make their private concerns the subject of an appeal, they must be prepared to have them fully inquired into. Further consideration of the matter was postponed to enable the court to consider the position. The case will be resumed at the next meeting of the court. The court adjourned until Monday, 18th inst, when all outstanding cases will be peremptorily disposed of.

THE COUNTY COURT OPENS.

The List of the Grand Jurors—The Lawyers Present—A House of Refuge for the County.

The June assizes opened this afternoon before Judge Weller, with the following lawyers present: Messrs. John Burnham, M.P., Geo. Edmison, W. A. Stratton, E. B. Edwards, R. R. Hall, W. J. Murray, Chas. Gladman, Campbell Sawers, of Peterborough, and Mr. Frank Moore, of Lindsay. The grand jury was composed of Messrs.

Chas. A. Alexander,	W. Leonard,
Edwin Bissnett,	J. W. Lillico,
Frank Darling,	J. W. Dawson,
J. A. Dixon,	Richard Elmhirst,
Geo. Ewon,	Chas. Edwards,
John Fitzpatrick,	Jos. Fitzgerald,
Wm. Harrison,	John Kelly, Sr.,
Henry Lefevre,	P. J. McNamara,
W. H. Meredith,	Aaron Nicholls,
Robt. Neill,	Andrew Russell,
Walter Scott,	Wm. Stevenson,
Andrew G. Shearer,	Robert Telford.

The cases for the Crown will be conducted by County Attorney Wood.

In addressing the grand jury Judge Weller read over the docket but only made especial reference to the Bracley case in which the prisoner is charged with arson. He cautioned them to be particularly careful in regard to bringing in their bill concerning this charge. Another matter upon which the judge touched was that of the necessity of establishing a house of refuge or some such institution in the county to accommodate the numerous vagrants who were at present occupying quarters in the gaol. He thought it would be a good idea if three or four of the adjacent counties would join with Peterborough in the effort to cope with the difficulty.

NOTES FROM OTTAWA.

Lieut.-Governor Dewdney's Reply Respecting the British Columbia Floods.

OTTAWA, June 12.—A few days ago Lord Aberdeen telegraphed to the Lieut.-Governor of British Columbia, alluding to the general feeling of concern and sympathy which had been evoked by the account of the devastating floods along the Fraser river, and asking to be informed as to any steps which might be taken in the province with a view of alleviating the distress of the sufferers His Excellency has received a reply from Lieut.-Governor Dewdney mentioning that the effects of the flood had been over-stated; that the greatest loss was in this season's crops; that no lives had been lost; that at the time of telegraphing there was little or no news of stock having been destroyed, and that the Lieut.-Governor would wire to His Excellency any further information that he might obtain.

It is learned that the Government has at last decided not to introduce a redistribution bill for the Province of Quebec this session, although pressure was brought to bear on the Premier and his colleagues to do so. The Government is hopeful that once this statement is made in the House an effort will be made by all parties to reach prorogation before the end of the month. It is rather difficult to see how this can be done, with the French treaty and fast Atlantic service bills not yet introduced. Then there is the franchise bill. At all events, prorogation will be reached in July, if not before Dominion day. The Government would like to have their hands free from their Parliamentary duties while the Intercolonial Conference is in session.

The Government was unable to hold out any prospect of making Terminal City, Nova Scotia, the port of call in Canada for the fast Atlantic line to J. C. Forbes, barrister, St. John, who, with some of the Nova Scotia and Cape Breton members, waited upon them for this purpose. The usual promise, however, that of consideration, was given the delegation.

Thomas Elliott, John Joseph Hawkins, Robert Henry and H. M. Wilson, all of Brantford, are in the city and had an interview with Mr. Haggart in regard to the subsidy for two miles of the Brantford, Waterloo & Lake Erie Railway. The road has been built and the subsidy granted for sixteen miles already, but the total length of the road is eighteen miles, and the delegates want the subsidy for the other two miles.

City Clark Henderson received the long awaited report from Architect Hodgson and Edy respecting the cottage hospitals on Porter's Island. The report stated that the specifications were very imperfectly drawn up, and many points therein are difficult to understand; they have not been carried out or lived up to by the contractors in many respects; the foundations of the buildings are not below the frost line, and the buildings should have been at least five feet higher than at present constructed.

Stephen Abbott, one of the Hansard reporters of the House of Commons, is a member of the Flying Roll Brotherhood, and a believer in the doctrines of “Prince Michael” Mills. It seems that the Flying Rollers hold Friday in especial veneration, and are opposed to labor on the evening of that day. On two or three occasions Mr. Abbott has not reported for work on Friday evening. On the last occasion he was warned that a repetition of the offence would be followed by his suspension, but the warning was of no effect. On Friday night last the debate had to be done with a staff of seven in place of eight men, as Abbott was absent. On Saturday morning he was served with a notice of suspension. It is said that Abbott will be discharged. He was one of the first Flying Rollers in this part of Canada, and has long been noted for his religious views. His position as Hansard reporter is worth $3,000 a year.

Provost and Larose, the witnesses in the Turcotte case, who were summoned to the bar of the House of Commons, did not appear, and on motion of Sir John Thompson, the Sergeant-at-Arms was ordered to proceed to Quebec and take them into custody.

Just One Point

That we would draw special attention to to-day; that is, that we are in down right earnest in our endeavours to present you such attractive values all this month of June as cannot fail to draw a very large part of your trade our way. Just how—NOT TO DO IT—would be to follow a very prevalent practice, which exists of advertising a great many lines which, on examination, are often found to exist only in the advertiser's mind.

But, TO ACCOMPLISH OUR AIMS, we give in our advertising to-day the earnest quality which has marked it since we commenced business. What we write and print, you can afford to read; you are equally interested with us in what we have to tell you.

WE DO NOT HAVE TO do any bogus advertising to draw trade. The value of our goods and the mottoes:—

“SMALL PROFITS AND QUICK RETURNS”
“SPOT CASH AND ONE PRICE”

under which we trade, are in themselves the secret of the success of our business.

DAY AFTER DAY persons come to our store simply to look, and to their find astonishment that they have been paying 10 to 20 per cent. more for the same goods elsewhere, and they say we really did not believe until now that there was such a difference. ALL WE ASK IS THAT YOU COMPARE OUR VALUES and we are satisfied as to where you will trade.

OUT OF GRATITUDE, on account of the success of our cash business this season, we have purchased and arranged for further supplies of

Folding Tables, Folding Music Racks, Folding Book Racks, Folding Chairs and Rockers,

All to be given away FREE to our customers. Circulars and Cards explaining the Premium offer has been delivered to every house. If for any reason you haven't got one, call at once if you wish to get one of these FREE articles.

IT IS A FACT that we do not have to give premiums to build up our trade, but we have been so successful this season that we thought our friends would appreciate this offer.

CARPETS

Are being cut in prices for this month. This should interest you. Then if you wish them made and laid quickly, we can, with the aid of our new Carpet Sewing Machine, which, by the way, is the only one in this part of the country, guaranteed to make and lay any carpet large enough for the largest room in the place at four or five hours notice. The progressive character of our business has made itself quite apparent in the carpet room as in all departments.

We are closing out the balance of our stock in

Mantles, Millinery, Dress Goods, Laces, Parasols, Underwear, Hosiery and Gloves,

to make room for new goods, as our buyer has gone. Make no mistake about it. No matter what others may advertise in the way of excuse sales when they do not mean to take effect for a year, we will always sell lower, because we buy lower, and we have no bad debts to lose.

A NEW IDEA!

—:o:—

A Cut in Dress-Making } Commencing June 12.

—:o:—

We have made special arrangements by which all Dresses bought at our store during the next two weeks will be made up for our customers at the uniformly Low Price of $2.00.

Ladies are assured that the same care and attention will be given to their dresses as if they paid the regular prices for making them up.

The above Reduction means a saving of from $1.50 to $2.00 on each dress.

DRESS GOODS.

In connection with the above, we desire to say that we are at present giving much attention to our Dress Goods Department. Our display of new and fashionable patterns and fabrics for the summer season will greatly interest the ladies at present. The strong values we can give in Dresses, coupled with the above substantial Reduction in Dress Making, affords an unusual opportunity for SAVING MONEY.

THE BAY OF QUINTE ANNUAL CONFERENCE.

RECEPTION AND GREETINGS OF RESIDENT MINISTERS.

Reception of Delegates and Presentation of Reports—Conference Boundaries Discussed—A Decisive Vote on the Subject.

AFTERNOON SESSION.

Conference resumed at 2 p.m.

After devotions and routine a communication was read from the Prison Reform Association, calling attention to the fact that the inspector of prisons had officially called attention to the fact that there is no House of Industry in either Peterborough or Northumberland and Durham counties.

A communication on Epworth League matters was referred to the Epworth League Committee.

The Temperance Committee reported a second time, nominating representatives to the Dominion Alliance—Rev. O. R. Lambly, and Rev. J. C. Wilson, and Messrs. E. D. O'Flynn and H. C. McMullen.

Rev. J. W. Wilkinson presented the report of the Union Church Relief Committee, reccommending the Bridgewater and Cedardale churches for claim upon the funds of the committee and making Rev. J. C. Wilson canference treasurer. There had been an increase of receipts and there was a balance of $52.23 on hand.

The report of the Board of Examiners was presented by Rev. T. J. Ednrison and adopted.

Rev. J. W. Wilkinson presented the report of treasurer of the Education Committee, which was adopted and Rev. T. W. Jolliffe reported for the Committee on Education of Probationers, recommending the following students to attend College,—Victoria—F. W. White, J. W. Shier, R. A. Stillman, S. E. Moore, Jas. Barnes, G. E. Ross, Geo. Nickle, J. W. Bunner, J. A. Connell; to Wesleyan Theological College,—F. A. Leitch, W. S. Bryce, A. M. Irvin, and Chas. Adams. The following were recommended as members of the Examining board,—Rev. O. R. Lambly, M. A., Chairman, and Rev. Messieurs, T. J. Edminson, B. A., Secretary; J. Young, W. R. Young, B. A., W. C. Beer, W. P. Dyer, M. A. B. Sc., J. A. McCamus, E. W. Baker, M. A. B. D., J. P. Wilson, B. A., and W. J. Crothers, M. A. Rev. Jos. Young was appointed representative to Alma College, and Rev. T. J. Edmison, B.A., Conference Treasurer, of Educational society.—The report was adopted.

Rev. Wm. Briggs presented the report of the Methodist Book and Publishing House, popularly known as the Book Room.

The report was a cheering one, both as a record of the past and a promise for the future. The publications of the house, including the Christian Guardian, had had a most gratifping increase in circulation, showing a steady growth in the subscription lists both during the year and the quadrennium. The total turn-over in all departments of the establishment and the total sales of merchandise, whether reckoned for the past year or for the total last four years, marked a large and encouraging increase in business, and the conference considered this, in view of the prevailing depression, a great matter for congratulation. The net profits for the year just closed were much in advance of the previous year, $7,000 having been appropriated to the Superannuation Fund of the church. A recommendation was made by the Book Committee that the next General Conference consider the advisability of reducing the subscription price of the Guardian from $2 per year to $1.50, provided that sufficient encouragement were received in the meantime in the way of new subscribers in response to a temporarily reduced rate, to warrant this permanent reduction.

Rev. Dr. Dewart, Editor of the Christian Guardian, was heartily received, and said that when he was in Peterborough he felt that he was "on his native heath." He made a strong appeal to the conference to put its influence to increasing the circulation of the church organ in the families of the church, The reverend editor, who talks as well as he writes, eloquently outlined his reasons for the course he had adopted in the columns of The Guardian in promoting the triumph of truth and in combatting the influences that threatened, not the integrity of truth, but the right conception of truth in the minds of, especially, the young men of the country.

REDUCTION OF PRICE OF GUARDIAN.

Rev. O. R. Lambly pointed out that while The Guardian was the best paper of its class published, there was a steady decrease in the circulation. He said this with sorrow; there were 150,000 members of the Methodist Church who knew not of The Guardian.

Rev. Wm. Briggs referred to the proposal to reduce the subscription price of the Guardian from $2.00 to $1.50 per year, and said a further reduction would depend upon the response made to this proposal.

Rev. Francis Johnson and Rev. O. R. Lambly made urgent appeal for a reduction of the price of the Guardian to $1.00 They inquired what is the use of having a good paper if it were put at such a price that it would not be popularly taken.

Rev. R. Duke moved, seconded by Rev. O. R. Lambly, that in the opinion of this conference the price of the Christian Guardian should be reduced to $1.00 per year, being convinced that the necessary number of subscribers thereby secured would make the venture a financial success, and that should this reduction in price be made the clerical members of the conference will exert themselves to secure the required number of subscribers.

After considerable animated discussion both pro and con, Dr. Dewart said that all that could be done in the direction of reduction of price would be done.

The discussion of the resolution was adjourned.

A memroial service was conducted in remembrance of the members of the conference who have died during the past year: Rev. E. H. Koyle, M.A., B.D., Cobourg, and Rev J. A. Roger, Lindsay, and Rev. R. Brooking, Cobourg.

EVENING SESSION.

The nominating committee presented their third report as follows:

The place and time of meeting to be identical with that of the next conference, the committee to arrange being Rev. Geo. Copeland, convener, and Revs. O. R. Lambly, J. Kines, S. G. Rorke, and Messrs. Wm. Johnson, H. C. McMullen and Kenneth McKenzie.—Carried.

THE SABBATH OBSERVANCE COMMITTEE reported as follows:

We note with pleasure the signal victories of the defenders of the Sabbath as shown in the prevention of Sunday street cars in many of our cities, also in the fact that the Christian sentiments of the people of this continent were sufficient, when aroused, to defeat the purpose of the World's Fair authorities and produce financial failure to the open exposition on the Lord's day.

We realise that the determined efforts of those who advocated the ideal Sabbath is injurious to our Christianity and therefore should be opposed, so that perhaps the conflict that faces the church is the defence of the sanctity of the church.

We would urge that especial reference be made to this matter in all our pulpits, also that special sermons be preached enforcing the observance of the Sabbath as one of the strongest pillars of the church of Christ.

We would especially call attention to the efforts of Christian politicians in promoting legislation to this end and would urge the recognition of these measures and the necessity of their securing the fullest support.

We would especially suggest that the attention of parents be called to the necessity of making the Sabbath a day of sacred delight—the brightest and best day of the week in the home, being assured that here as elsewhere the most effective results can be secured upon the impressionable mind of the child.

We would also urge that the secular newspaper be laid aside and that wholesome religious literature and bright Christian entertainment be introduced into the home.

We would recommend that, as far as possible, the Church should defend the sanctity of the Sabbath by discouraging Sabbath funerals and Church parades, and that the custom of Sabbath visiting be stamped with the opprobrium it deserves.—Carried.

The report of the committee on the

STATE OF THE WORK

was as follows:—

As far as ascertainable, the state of our societies is such as affords reason for devout thanksgiving to the Great Head of our Church for the past and bright promise of abundant growth and fruitfulness in the future. The increase in membership amounting to 1,281 is a gratifying evidence of increasing spirituality among the older members of our church and of advancement in the experience of the Biblical and Wesleyan doctrine of holiness.

In view of increased members, but decreases financially, we are impressed that more may be done by pastor and laity in inculcating systematic beneficence, especially on the part of young converts.

We observe with regret the decrease of $1,106 on contributions for connexial funds, but regard it largely due to monetary stringency and are assured that in view of the revivals in our charges and improved prospects in the agricultural sections of our conference territory, there will be increased liberality in the ensuing year.

We gratefully note increased attention to the study of the Bible, improvement in the number who engage in and enjoy family worship and the increasing numeer and spiritual power of those who delight in the communion of saints the special Methodist fellowship of the class meetings.

We note an increase in the average attendance upon public worship. We should, however, have better evidence on this point with an improved schedule. A column for recording the number of those who daily engage in family worship and who attend class meeting would also be helpful.

The Epworth Leagues are growing in number and importance, requiring the prudential and prayerful counsel of the pastor, with a view to increased spiritual experience and power.

The Sunday school work is finding its sphere as a factor in developing interest in Bible study in adults, and so assisting in husbanding the results of our evangelistic labours.

On the subject of Evangelists we recommend that no evangelists be employed or allowed in any of our church s but such as shall meet the requirements of the discipline.

THE SUSTENATION FUND

committee reported as follows:

First, that the fund known as the Sustenation Fund of the Bay of Quinte Conference be continued. The constitution of the fund to be the same as last year. The committee further recommend that a special effort be made on all the circuit and missions during the year to augment the increase of fund, and also recommend the appointment of the Rev. W. B. Siccombe as secretary-treasurer of the fund for the ensuing year. Four hundred and ninety six dollars was placed at the disposal of your committee which was disbursed as follows:—

THE WOMEN'S MISSIONARY SOCIETY.

A deputation of ladies from the Bay of Quinte District of the Women's Missionary Society, was here presented to the president by Rev. Mr. Young, pastor of the church, and by him introduced to the conference. Mrs. Brooks, on behalf of the deputation addressed the members asking that a special Sunday in the year be set apart upon which missionary sermons be preached.

It was moved by Rev. C. T. Cocking and seconded by Rev. J. C. Wilson, that this conference, having heard with great delight the admirable address of Mrs. Brooks, the delegate from the Bay of Quinte branch of the Women's Missionary Society, we place on record our appreciation of, and deep interest in, the grand work being carried on by the society and beg to assure its members that we are in hearty sympathy with them and will do all in our power to aid them by giving one Sunday each year to seek to promote the interests of the society and by any other means in our power. We gratefully recognise the blessed results of the work of the agents of the society, both in this and foreign lands, and pray that they may ever be cheered and sustained by the Great Head of the church.—Carried.

Miss Davis, a representative of the

AFRICAN M.E. CHURCH

of the United States, was introduced and addressed the conference in the interests of the missionary enterprises of her church. Miss Davis made a most eloquent appeal to the conference to aid her in some way to add to the fund, which she was trying to create to enable her to return to her mother country—Africa, to take up missionary work.

Rev. Eli Woodcook suggested that a collection be taken up for the young lady, and Rev. Amos Campbell kindly made the offer that if the rest of the congregation raised $90 he would add ten more to it, making up the hundred and so the hat went round. The result was that Miss Davis was sent on her way rejoicing, over $100 having been added to the fund by the members of the conference.

Rev. Mr. Young then introduced the pastors of a number of the different churches in town, who each made a few remarks anent the pleasure they felt in thus meeting the members. Addresses were made by Rev. Mr. Torrance, Rev. J. F. Trotter, Rev. Mr. Grant, Rev. A. McWilliams and Rev. H. Symonds. Rev. J. C. Davidson sent a note regretting his inability to be present and intimating that he hoped to have the pleasure later on of meeting the Conference.

Mr. Henry Satto from the Imperial College of Commerce, Tokio, Japan, was then introduced to the Conference and made an earnest and most eloquent address on behalf of the missions of his country. He appealed to the Conference to send one grand man of scholarly attainments to instruct the native young men in Christian doctrine. The time was past, he stated, for the foreign missionary to hope to christianize Japan by coming in contact with the masses. What was needed was an educationalist of a high standard to teach the young native men, so that they could go out and spread the truth among their countrymen.

Addresses were also made by Mr. C. R. Sing, on behalf of the Wesleyan Theological College, and by Mr. Arthur Beal, M.A., a returned missionary from Japan.

SIXTH DAY—TUESDAY.

MORNING SESSION.

The morning session opened at 10 a.m. with devotional exercises. After routine

The report of the memorial committee was taken up and the third clause pronouncing the proposal to change the constitution of the stationing committee so as to exclude ministers who are concerned in change of station, as impracticable, was discussed at length.

Rev. James McFarlane presented the report of the Sunday School Committee, which showed a flourishing condition in all respects and an increase in financial receipts and in the use of the Sunday School literature of the church. The report recommended the institution of normal classes for teachers at Sunday school. After making several suggestions, the report nominated Rev. C. L. Thompson conference secretary.

THE EPWORTH LEAGUE.

Rev. D. S. Houck read the report of the Epworth League Committee. The report endorsed a quadrennial Dominion Epworth League convention be held the year preceding the general conference and that Rev. D. S. Houck and Rev. T. S. Bartlett be added to the committee of arrangements.

The report endorsed the proposition to organize the Methodist Young People after this year into associations for holding conventions; that the general conference be memorialized to give the Young People a representation in the Epworth League Board of the General Conference. The report approved of systematic Bible study; that to secure uniformity the General Conference be memorialized to make "Epworth League of Christian Endeavour" the official name of the society; that junior societies be organized in each congregation; and that young people be urged to take special interest in missions and systematic giving. The following are the League statistics: Number of preaching places 554, increase 6; number of Sunday schools 502, increase 12; number of Leagues 150, increase 30; membership of members 7256, increase, 1508. Rev. C. W. Watch was appointed conference secretary. The report was adopted.

CONFERENCE BOUNDARIES.

Rev. J. A. McCamus presented the report of the committee on conference boundaries as follows:

1. That in our opinion it is not in the interests of our work generally to enlarge the boundaries of our conferences.

2. That we recommend that this conference remain as it is now, excepting such changes of circuits to and from the conference on the western boundary, as might be suggested by their geographical position.

3. That the best interests of Methodism will be more effectually conserved if official boards would forward their requests to the stationing committee through the president of conference, and not deal personally with the pastors in regard to their future appointments, and that we memoralize the general conference accordingly.

On a motion to adopt the report, an amendment was moved by Rev. W. J. Crothers, seconded by Dr. Crowle, "that this conference re-affirm the resolution passed at the conference of 1892 re conference boundaries, viz., 'that we accept the recommendation of the commission excepting that part of it which relates to the removing of the Napanee and Tamworth districts from

PETERBOROUGH HOSPITALITY.

During the discussion that arose repecting this subject Rev. Mr. Young, pastor of George street church, referring to the remarks of a speaker, who had spoken of the difficulty in billetting, said that he had found no difficulty in hilletting 350 members of the Conference in Peterborough, and to show the hospitality of the citizens, Mr. Young mentioned that Rev. J. C. Davidson, rector of St. John's, had written to him, offering the homes of members of his congregation, and Mr. Davidson himself was entertaining two members of Conference during the session. (Applause.) He had never billetted a Conference before but he did not think a conference could be received with more earnest, loyal, and royal hospitality than had been shown on the present occasion.

As if to emphasize Rev. Mr. Young's assurance, Rev. J. C. Davidson, rector of St. John's, entered the church and was introduced and most heartily received by the members of the conference.

Rev. Mr. Davidson briefly addressed the conference and most heartily welcomed the members to the town, and expressed his earnest hope that the common cause they served would result in greater unity, a consummation most devoutly to be wished. The fraternal sentiments expressed by Mr. Davidson were most cordially applauded, and as he ceased speaking the applause, it is no exaggeration to say, was enthusiastic.

The President, Rev. S. J. Shorey, cordially acknowledged the remarks of Rev. Mr. Davidson and reciprocated the kindly sentiments and wishes expressed.

Just previous to adjournment a vote on the Conference boundaries, resolutions was taken with the result of the adoption of Rev. J. W. Crothers, amendment by a vote of 90 to 44.

Conference adjourned.

PECULIARLY MADE.

Dr. Pierce's Pleasant Pellets are made of refined and concentrated botanical extracts. They're different from the large old-fashioned pills for these Pellets are as tiny as mustard seeds, and are sugar-coated. They're made in an improved chemical laboratory under the direct supervision of scientific men. Everything else being equal, the smaller the size of a liver pill, the more comfort.

They do not shock the system, but regulate, cleanse and tone up, the liver, stomach, and bowels, in *nature's own way.*

They're put up in sealed glass vials, easily carried in the vest-pocket.

In Bilious Disorders, Sick Headache, Constipation, Indigestion, Dizziness, or for breaking up sudden attacks of Colds, Fevers, and Inflammation, "Pleasant Pellets" are prompt and effective in action.

Peculiar in the way they're sold, too, for they're *guaranteed* to give satisfaction, or money is returned.

AMERICAN TARIFF BILL

Many Schedules Pass the Senate With Little Opposition.

COTTON MEN HAVE NO KICK

An Amendment Will be Asked to the Wool Schedule for the Reduction of the Provisions of the Existing Law About 40 Per Cent.

WASHINGTON, June 12.—The progress made by the Senate yesterday in the consideration of the tariff bill was not only exceptionally good, but was "amazing" to those Senators who had no idea of what was going to happen. Schedule "H," the spirits and wine schedule, got through in less than three hours, with very little discussion and with no serious friction. Then came the cotton schedule, which had been looked forward to as the one around which the fight would rage longest and fiercest, but it was the unexpected that happened. Paragraph after paragraph was put through without question and without discussion, and it was not until after the last paragraph in the schedule was reached and disposed of that the rapidity of the pace gave a chance to Mr. Dolp (Rep., Oregon) to catch his breath and express his amazement at this legislative rapid transit.

Ten pages of the bill, he said, had been rushed through in thirty minutes without a single New England senator opening his mouth in opposition. Their silence, he thought, was significant. The mystery which puzzled Mr. Dolph was dissipated when Mr. Aldrich (Rep., R.I.) confessed that the schedule had been most scientifically framed and that the finance committee deserved the thanks of the cotton manufacturers for having consented to an arrangement which, while the duties were not high enough, were perfectly satisfactory. The jute section, which was next in order, had not such smooth sailing as the cotton section had, which fact provoked the sarcastic remark of Mr. Hale (Rep., Me.) that the committee had not paid so much attention to the pacification of the manufacturers of burlaps as to that of the manufacturers of cotton.

There were some amusing and interesting passages in a discussion over the collar and cuffs paragraph, but the committee amendment was carried without its opponents being numerous enough to second a call for the yeas and nays.

After the flax and hemp schedule (J) had brought the senate up to schedule K, "Wool and manufactures of wool," the tariff bill was laid aside for the day after three schedules and nineteen pages had been disposed of.

Mr. Pfeffer gave notice that when the wool schedule is taken up he will move the provisions of the existing law reduced about 40 per cent.

Fatal Fracas Among Females.

HUNTINGTON, W.Va., June 12. — At Breeden, a small timber settlement forty miles south of here, where a number of notorious females had congregated, a row arose among five of them. Pistols and knives were used, and Lizzie Maynard was shot in the head and killed and a girl named Morris fatally stabbed. All of the others sustained serious injuries. No arrests have been made.

Bodies of Coxeyites Found

DENVER, Col., June 12.—Three bodies of Coxeyites drowned in the Platte by the wrecking of their boats have been found up to date. By the overturning of a boat between Brighton and Platteville, Dr. Pucell, of this city, lost his life. He had joined the party as surgeon for the fleet. The army has now dwindled to 470 only ten boats remaining in the fleet.

Scarcity in Wheat.

DULUTH, Minn., June 12.—It is considered that there is good grounds for belief that by the first part of August there will not be wheat enough at the head of the lakes to supply the mills. The amount in store at the present time is scarcely 7,000,000 bushels. The amount now left in farmers' hands is not estimated at enough to be worthy of mention.

Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., was for years a martyr to headache, and never found anything to give her more than temporary relief until she began to take Ayer's Pills, since which she has been in the enjoyment of perfect health.

Biliousness and Liver Complaint, Headache, etc., are cured by Burdock Pills.

Children Cry for Pitcher's Castoria.

HOME ECONOMIES.

It is the Little Extravagances That Do Harm.

Few persons are extravagant in large matters, but at the tiniest leak, will, if left unrepaired, soon cause the dam to break; so the little things in home management are the things that count, and secure a firm foundation for its financial system or leave it liable to severe inundations. The foolish or the judicious spending of the dimes mark the extravagant, or the economical, person.

Utilizing the things on hand instead of purchasing new, is one way of saving that some women do not think of. The best parts of worn tablecloths, cut and hemmed on the machine, make very good everyday napkins. For the children's napkins, especially in fruit time, checked toweling, at from ten to fifteen cents a yard, will save many a stain from better ones. Flour sacks boiled in weak lye to remove the lettering, make dish towels, bath towels or linings. The finest of the bleached sacks make comfortables just as pretty and more durable than cheesecloth. Or pretty white aprons may be made from them; and more than one mother has made tiny drawers for the little ones from flour sacks.

In making underwaists for children, after they are sewed up, stitch a straight strip of muslin down over the underarm seam; this will effectually prevent their tearing crosswise, and render one as durable as two not so stayed. Instead of paying twenty-five cents a pair for hose supporters, take a piece of stout elastic, and on each end stitch a strip of drilling, four thicknesses and about two inches long. In one end work a buttonhole to button to the waist. Fasten the other to the stocking with a safety pin. One pair of these will outwear two pairs of patent supporters, and for a child three years old costs five cents.

A generous pinch of soda in the dishwater saves soap; the dishes dry easier, have a better luster, and there are no greasy settlings on the dishpan. In cleaning greasy pots and pans, or sinks and drain pipes, hot salsoda water is not only cheaper, but more efficacious than soap. If cream is so nearly sour, that pouring hot coffee on it curdles it, a tiny pinch of baking soda added to the cream in each cup will prevent this, and in no way impair the flavor of the coffee.

Perhaps in no department is economy more needed, and in so many homes so little practiced, as in the strength of the mother. She whose cares hang heavy, and whose tasks multiply with the coming years, is so apt to forget that "the body is more than meat and the soul than raiment;" that the daily rest now will add years to her life. Fortunate she who realizes these facts and saves herself in every possible way; and happy that family whose mainspring has learned that she, too, must have her recreation and good times the same as the other members of the family: and insists on her share of conveniences and labor-saving devices, realizing that money spent for these things is one of the ways of economy.

Dangerous Summer Complaints.

Cramps, dysentery, cholera morbus, diarrhea, and, indeed, all bowel complaints, require quick relief, or the result may be serious. At this season these troubles are common, and no family should be without a supply of Perry Davis' Pain-Killer, a safe, sure, and speedy cure, for all the troubles named. The medicine was discovered many years ago, and time has proved its excellence. Every reputable druggist keeps a supply on hand, and each bottle is wrapped with full directions. 25c. New Big Bottle.

MINERS GOING TO WORK.

An Agreement Reached at Columbus—A Fight With Italians.

COLUMBUS, Ohio, June 12.—The conference of operators and miners reached an agreement last evening. The 60 and 69 cent basis is accepted by the miners and the miners will go to work at once. It is agreed that they shall go to work not later than next Monday.

HAZELTON, Pa., June 12.—The strike at Wentz & Co.'s collieries has been settled by the operators conceding the demands of the employes. Both breakers resumed work to-day with the old hands and a full force.

UNIONTOWN, Pa., June 12.—The four American workmen who were beaten and taken prisoners by a mob of striking coke and coal workers, mostly foreigners, at New Haven on Saturday, have been overtaken at Fairchance and rescued by the deputies. The deputies met with no opposition owing to their numbers, the rioters giving the workmen up for fear of resistance. They were brought here and returned to their houses at Leisinring No. 2. When found they were still bearing the placards and were chalk-marked from head to foot.

ELMIRA, June 12.—A serious riot took place at Arnot, Pa., between a gang of fifty-five Italian track laborers in the employ of the Erie Railway Company and a mob composed of men, boys and women to the number of 250. The Italians were sent to Arnot to load some cars with soft coal screenings, and while at work were attacked by the mob. After a brisk fusillade of coal, stones and sticks the laborers were driven over the mountains to Blossburg, four miles distant. The skull of one of the Italians was fractured in the melee and he will probably die. Several others received serious injuries.

MEMPHIS, June 12.—The strikers have blown up three more railroad bridges in Alabama with dynamite. Troops just sent out from Birmingham to intercept the mob which is now marching on another bridge.

What a Mad Dog Did.

DALLAS, Tex., June 12.—A mad dog, a huge spaniel of the St. Bernard breed, bit several persons, three of them it is feared fatally, besides killing two cats and three dogs. Albert Adams, a negro boy, was bitten so badly that he cannot live. Mrs. Mary Arthur, an invalid, was attacked in her bed and so badly lacerated that her life is despaired of. Jennings Moore had his arms, legs and body badly torn, and George Young, Mrs. Werden and Nick Powers were severely bitten. It is feared hydrophobia will result in a number of cases.

Killed at a Dance.

CHICAGO, June 12.—Two men were killed and three men and one woman seriously injured in a row that followed the attendance at a dance by Poles and Bohemians in a hall at Forty-eighth and Goodspeed streets on Sunday night. When a party of about a score of persons left the hall at midnight they became involved in a row with a number of people they met in the street. Peter Getz was stabbed in the heart, and Frank Goulunski was stabbed through the lungs.

Women Must Not Vote.

TRENTON, N.J., June 12.—The supreme court, through Chief Justice Beasley, has decided that women had no right to vote in New Jersey, and that wherever they exercised the right of suffrage, it was an illegal assumption of power.

THE RULING MARKETS.

TORONTO, June 12, 1894.

The amount of wheat on passage is 41,416,000, a decrease of 2,456,000 bushels during the week. A year ago the amount afloat was 24,736,000 and two years ago 32,160,000 bushels.

THE FARMERS' MARKET.—Receipts of grain almost nil. White wheat is quoted at 62c, red at 61c, and goose at 58c. Oats firm at 40 to 45c. Peas 66c and barley at 41 to 42c.

The opening of wheat in Chicago was anywhere from 3-4 to 1 1-8c under Saturday's official close. Corn opened weak, but closed strong and 7-8c higher. Oats were steady.

In New York there was continued liquidation in sugar as well as some selling for the short account. Lower prices from London and the engagement of $1,000,000 gold for shipment to Europe to-day assisted the bears in bringing about a lower range of prices during the early trading. Sugar dropped 102 to 100 1-2 and was again adversely influenced by Washington stories of a lively fight over the sugar schedule when it reaches the House. The principal details outside of sugar were: New Haven, 1 7-8; Lackawanna, 1 3-4; Delaware and Hudson and Burlington and Quincy, 1 1-4; Manhattan, 1; and the other active stocks 1-8 to 7-8 per cent.

In Buffalo there were 150 cars of cattle on sale; 15 to 25c higher for good cattle; choice to extra export cattle, $4.60 to $5; medium to choice butchers' and shippers, $4 to $4.50; rough heavy fat, $3.25 to $4. Sheep and lambs—Forty-five cars; dull, weak; good to best wether, $3.85 to $4.40, fair to good mixed, $3.50 to $3.75; good to fancy spring lambs, $4.50 to $5.25. Hogs—Seventy cars; inactive; choice mediums and heavies, $4.90 to $4.95; Yorkers, $4.85 to $4.90; pigs, $4.75 to $4.85.

The Mark Lane Express in its weekly review of the British grain trade says: "English wheats have risen 6d and foreign wheats 1s. California wheat has been quoted at 24s 6d, Duluth at 25s 6d, and the best Manitoba at 27s per quarter. Barley, peas, beans and oats have been steady and corn firm. Mixed American corn has risen 1.3 4d.

The Toronto Home for Incurables.

PARKDALE, Ont., Feb. 27th, 1888.—Gentlemen, it gives me pleasure to let you know I have derived great benefit from the use of Nervilline. I have been a great sufferer from Neuralgia in the face, and last two years was quite a martyr to the malady. So soon as I observed the Nervilline advertised I obtained a bottle from our druggists, Messrs. John Gray & Co., Parkdale, and the effect was marvellous; pain ceased and I can enjoy sound sleep at night, and rise refreshed. I cannot speak to highly of it and heartily recommend it. IT PAYS TO ADVERTISE IN THE EXAMINER

The London Cabmen's Strike.

LONDON, June 12.—Home Secretary Asquith, who was called upon to arbitrate between the striking cabmen and their employers, announced his decision last evening. For the next six weeks, which are the height of the season, he fixed the minimum of the average daily hire of the best cabs at 12s 2d and the maximum at 16s. A permanent scale will be announced later. Some of the cabmen dissent from this decision.

E. A. Macdonald at Rochester.

ROCHESTER, N.Y., June 12.—The Chamber of Commerce was addressed last night by "Hon." E. A. Macdonald, of Toronto, on the new ship canal to be constructed between Toronto on Lake Ontario and the southern end of Georgian Bay. The Chamber appointed a committee to investigate the subject and report the advantages which will result to American commerce from the completion of the canal.

Cretans Protest Against Taxes.

ATHENS, June 12.—Advices from Crete says the Cretans have again resorted to violence as a protest against the exactions of the Turkish tax collectors. Troops have been sent to Castelli and Mono, where serious riots have occurred. At the latter place several persons, including a priest, have been arrested.

Forest Fires in Michigan.

MARQUETTE, Mich., June 12.—Destructive forest fires are raging in the neighborhood of Nestenia. The burning district covers an area a mile wide and five miles long and the destruction to timber is enormous. Salgola, a lumbering town of 400 inhabitants, was completely wiped out.

Disastrous Fire in Buffalo.

BUFFALO, N.Y., June 12.—Fire broke out in Nathan Wolff's furniture store at 632 William street yesterday. Before the firemen drowned out the blaze $30,000 worth of property had been destroyed, four firemen had been injured and several people had narrow escapes from death.

Jailed for Killing His Wife's Paramour.

BERLIN, June 12.—Herr Delacroix, the Berlin manufacturer who shot Dr. Karl Roemer dead last January in a duel, was sentenced to two years' confinement in a fortress. Roemer's intimacy with Delacroix's wife was the source of the trouble between them.

Poisoned Her Children and Herself.

BRISBANE, Queensland, June 11.—A woman living at Maryborough gave a dose of carbolic acid to each of her five children and then took a dose of the poison herself. The woman and four of the children died.

Coal Trouble in England.

LONDON, June 12.—The English combination of mine owners have decided to make a general reduction of ten per cent. in the wages of miners. The latter are organizing to resist the cut.

Corean Rebels Dispersing.

LONDON, June 12.—A despatch from Tientsin says it is reported the Corean rebels are dispersing, having been warned of the approach of an overwhelming body of imperial troops.

Two Boys Drowned.

BUFFALO, N.H., June 12.—Fred Davis and Wesley Lounsbury, 15 and 13 years old, went swimming in a pond near Chaffee on Sunday afternoon. Their bodies were found yesterday.

Rosebery's Present to Bayard.

LONDON, June 12.—United States Ambassador Bayard has been presented by Lord Rosebery with one of the plates worn by Ladas in the Derby last Wednesday.

Noted West Indian Merchant Dead.

MONTREAL, June 12. — Augustus W. West died yesterday in his 67th year of his age, after a protracted illness. He was a well-known West India merchant and senior member of the firm of J. T. & A. W. West. West was a public spirited citizen and his death will be much regretted. He amassed a considerable amount of wealth and is reported to have carried $50,000 life insurance.

The Panama Canal.

LONDON, June 12.—In the House of Commons Sir Edward Gray, Parliamentary Secretary to the Foreign Office, in reply to a question by Charles E. H. Vincent, said the Government had not received any communication from France respecting an international conference of the maritime powers with a view of completing the Panama canal.

Boy Drowned at Perth.

PERTH, Ont., June 12.—Yesterday a young boy about six years of age, son of D. McDonald, stonecutter, fell into the canal. A man jumped in to save him, but as he could not swim he was nearly drowned and had to be helped out. The boy sank and men dragged the canal until one o'clock, when the body was found.

Distinguished Painter Dead.

MADRID, June 12.—Don Frederico Madrazo, the distinguished painter, is dead, aged 79 years.

Another Landslide in Quebec.

MONTREAL, June 12.—A special from L'Assomption says: A landslide occurred on L'Achigan river, L'Assomption county, on Saturday, which was, fortunately, not attended with very seriously results. Two other small slides occurred later on the L'Assomption river. It is said that the river has been undermining the banks for years, and other landslides may be expected.

South Hastings Reformers.

BELLEVILLE, June 12.—The Reform Association at their meeting yesterday afternoon accepted Mr. Biggar's candidature.

THE COUNTY COUNCIL

Opened Its Summer Session This Afternoon—A Large Attendance.

The county council opened its summer session in the council chamber this afternoon. There were present: Warden Robt. Shaw, Councillors John Burnham, Ashburnham; Samuel Joyce, Havelock; Wm. H. Casement, Lakefield; Joseph B. Pearce, Norwood; John Walsh, Hastings; Samuel Scott, Norwood; John Brown, Rockdale; J. L. Aunger, Blairton; A. Brown, Burleigh; Wm. Hales, Apsley; J. Moloney, Douro; W. J. Bullock, Dummer, Ed. Hawthorne, Dummer; Henry A. Moore, Dummer; Wm. Crough, Ennismore; Joseph Foster, North Monaghan; Wm. Anderson, Otonabee; T. J. Johnston, Otonabee; J. Lancaster, Otonabee; James Middleton, Smith; Wm. McIlmoyle, Smith.

The minutes of the last meeting were read and confirmed.

THE WARDEN'S ADDRESS.

Warden Shaw presented his address, as follows:—

To the Municipal Council of the County of Peterborough:

GENTLEMEN.—We have now met in the most important session of the year, and the financial affairs of the county will demand your careful consideration, it being our duty to provide for the current expenses of the year.

You will all have heard that the late Mrs. Foley, widow of the late Mr James Foley, of Norwood, generously provided in her will that that part of her estate not definitely disposed of should be held in trust for the benefit of not only the sober and industrious, but destitute and needy widows and orphans and other worthy persons—bona fide residents of the county—and the executors and trustees under her will are directed to invest the money and use the interest for the relief and support of the above described persons.

I understand that in some way the matter of Mrs. Foley's will came before the courts and it was there suggested that some scheme for the application of the income of the estate for the charitable purposes above mentioned should be definitely settled.

In consequence of this suggestion, Mr. Wood, county crown attorney, requested me to attend a meeting held in his office, with a view to suggesting some scheme as to the manner of managing and distributing the trust funds.

On attending the meeting I learned that the town council claimed that Mrs. Foley intended to include the poor of the town in her bequest. I informed the meeting that, in my opinion, the bequest was intended exclusively for the poor of the county, and suggested that, before any scheme was adopted, it was necessary that the legal construction of the will should be ascertained.

I was afterwards notified that it had been decided to submit this question to the courts for adjudication and was asked to name a solicitor to represent the county.

SMITH STREET BRIDGE.

Believing it to be a matter which should be properly considered by you before any action should be taken, I requested that the reference to the courts be postponed until after the June session of the County Council, and my request was complied with.

In June 1893, on the recommendation of the Road and Bridge Committee, you agreed to pay $1,250.00 towards the reconstruction of the Smith street bridge, on condition that the town assume one half of the liability of the county in respect to the Pigeon Creek bridge, with the understanding that the county was not to be liable either for future maintenance, repairs or reconstruction of the Smith street bridge. The town Council applied to the local Legislature for authority to comply with the condition of our grant.

The Bill for this purpose, as introduced, did not meet with the approval of your committee, as in their opinion, if the Bill passed in the form in which it was introduced, it might be prejudicial to the interests of the county. The committee met the town committee and suggested certain changes in the Bill. The town committee not agreeing to recommend it, it was decided that a deputation should appear before the Private Bills Committee and suggest the amendment which was considered necessary.

I am happy to be able to say that, in consequence of the representations made by the deputation, the bill was amended.

TRENT VALLEY CANAL.

On the 2nd of May, at the request of the mayor of Peterborough, I attended a meeting which had been called by him for the purpose of promoting the Trent Valley Canal scheme. The meeting was well attended and it was decided that a deputation, representing the counties, towns and villages interested, should wait on the Dominion Government and urge them to at once proceed with the further construction of the canal. As a result of the meeting, I was afterwards notified that the Government had arranged to receive a deputation on the 17th of May. As the construction of the canal is a matter of importance to this county, I issued a circular requesting the reeve of each municipality within the county to join the deputation. A large deputation, representing, I believe, all the counties and towns on the line of the canal, waited on the Government, and so forcibly was the Government impressed with the advantages which would accrue to a large section of this province by the construction of the canal, that a distinct pledge was given that one section of the canal would be put under construction this fall.

So far as I have learned, none of our bridges, excepting the two floating bridges, have been injured by the movements of the ice or by the spring rains.

The Wallace Point bridge has been reported to me by the reeve of South Monaghan as being unsafe.

Full details as to the condition of the several county bridges will be given in the report of the county engineer.

There are other matters that will come before you, and I am sure they will receive from you the consideration that their nature and importance require.

ROBERT SHAW,
Warden.

County Council Chamber,
Peterborough, June 12th, 1894.

The address was referred to a committee composed of Messrs. Burnham, J. Brown, Anderson, Hawthorne, Middleton and Walsh, to report to-morrow morning.

A DOMINION FAIR.

A communication was received regarding an exhibition to be held in Toronto in 1895, asking that the Dominion government be asked to make an appropriation for that purpose.—Referred to the Finance Committee.

THE WALLACE POINT BRIDGE.

Considerable discussion took place over the condition of the Wallace Point bridge. It was stated to be in very bad repair. The county engineer stated that a new bridge was required and the Northumberland council were notified at once.

The council then adjourned till to-morrow morning.

A Tramp Shoots a Conductor.

JORDAN, Ont., June 12.—A serious shooting affair occurred here yesterday. Train No. 79, local freight, pulled into the siding at this place to allow the Pacific Express to pass. Five tramps were stealing a ride. Conductor Turner of the local attempted to put them off, and one of them drew a revolver and began firing, hitting Turner in the head twice and once in the shoulder. Brakesman Lynch immediately gave the alarm and the tramps made of to the woods, half a mile east of the state. The constable was immediately summoned and he arranged a posse and started after them, surrounding the tramps in Daniel Honsberger's woods. The tramps began firing at the men as they advanced, the constable and men returning the fire. Seeing that the constable's party were not to be scared they surrendered. A boy, one of the party of tramps, identified the one who shot Turner. The doctors think Turner may recover.

Situation in Newfoundland.

ST. JOHN, Nfld., June 12.—Intense excitement prevailed here yesterday. The revenue bill expired at midnight, and the Government will collect the duties without necessary legal authority, but they declare that this is amply provided for in the Customs Management Act. Some of the Whiteway supporters threaten to contest the matter and bring actions before the courts. They will pay the duties under protest and then institute proceedings. If the Whitewayites win the cases cannot be heard for months, meanwhile the indemnity bill may be passed and there is no likelihood of any disturbances or breaches of the peace.

A Patron for Stormont.

CORNWALL, Ont., June 12.—The Conservatives of Stormont met at Newington to reconsider the advisability of bringing out a candidate for the coming elections. After considerable discussion it was decided not to place any one in the field, in consequence of which Mr. Bennett, the P. of I. candidate will take a seat without opposition, Mr. Mack, the present Reform member, declining to reappear in the field for a contest.

Nothing Strange.

Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases Hood's Sarsaparilla is able to cure. So many troubles result from impure blood, the best way to treat them is through the blood. Hood's Sarsaparilla vitalizes the blood.

GREAT BARGAINS AT KELLS' SALE

Everything Lovely! Everything Propitious

EARNESTNESS continues to characterize each day's sales. There is no let up to the splend success which has marked our Enlarging Sale from the very outset. On Saturday last our sale men were simply lost in the crowds of buyers, and many, we are sorry to say, could not be waited o

THANKS! THANKS!

We feel impelled, even at this early stage of our sale, to express our hearty thanks for t generous patronage extended to us, on this, the occasion of our First General Stock-Clearing Sa We have to apologize, however, to those of our customers who we have been unable to wait up during excessively crowded days, and also for the topsy-turvey shape of the store during t busiest hours of ceaseless selling.

Don't Forget Our Promise.

There will be a lot of goods sold during the next week, and we want to let our prices make such a name for our goods as will continue to draw the crowds.

Everything goes until our big stock is melted away like icicles before a hot sun.

We have determined to realize on our stock whether we do so at a loss or not. Here are a few of the Special Drives for the week:—

MANTLES.

This department must be closed out at once. It's a pity to give new goo such a slicing, but it's an all over bargain time, and there's no help for it. T Clearing Prices must be made sweeping enough to make the selling quick a prompt, as we have no time for waiting bids.

MILLINERY.

Including this season's Felt and Straw Shapes, Feathers, Ribbons and oth Trimmings will be reduced to one-half. The doings of this department for the ne few days will eclipse even the past good record. Everything will go to the peop at almost their own price. You'll find all that's new here, and the service of skill milliners at your command.

DRESS GOODS.

Another severe cut in prices all through our Dress Goods will put increas interest in our sale. Visit the department, see the goods, and you will buy.

PARASOLS.

The Parasol counter is one of the busiest spots in this busy store. We of special inducements this week. All that are good, all that are new, at figures startle and please.

Every Department is certain to awaken strong interest. We have made ample provision for the emergen and you will be rewarded by such Exceptional Values as cannot be duplicated by any other Retail Store.
